We have written "There are no bargains in Kid Gloves. We said it, and believed it true, even while having our 39c. glove in stock."

Said it and thought it actual, with a fair knowledge of what others were offering as marvellous value in Kid Gloves.

Said it, adopted it as a tenet, looked upon it as datum from which we might argue.

But now!

But now!

Our new spring stock has arrived, in response to a telegram from us, "we expect our Kid Gloves for Easter." What shall we say of the 58c. and 77c. lines? To what shall we liken them? To the undressed kid at 78c., which many have seen and that only disappointed one customer, who wanted 8s. By the latter we place the new arrivals for comparison, and if they are not dwarfed in their presence, and they're not, it is only because these too are of equal value.

(SPECIAL TO THE GAZETTE.)

FREDERICTON, April 2.—After dinner the act respecting railways was further considered, the discussion, mostly of a conversational character, lasting till 6 o'clock, when progress was reported, with leave to sit again.

The only section of the bill yet to pass is that dealing with the question of fuel.

Hon. Mr. Pugsley from law committee submitted a report; also a report from the corporations committee.

Mr. Powell also submitted a report from the law committee.

Mr. Ketchum introduced a bill to explain chap. 59 of consolidated statutes.

The house adjourned till tomorrow morning.

LEGISLATIVE COUNCIL.

FREDERICTON, April 1.—The house in committee agreed to the following bills:—

To authorize the county council of the municipality of York to issue debentures for the purpose of taking up certain other debentures.

To amend the act incorporating the Chamcook Water Company, (with amendment).

FREDERICTON, April 3.—Hon. Mr. Hanington introduced a bill authorizing the sale of certain lands and premises in district No. 2, Dorchester, held for school purposes.

Hon. Mr. Mitchell presented the report of the medical superintendent of the lunatic asylum.

Mr. Melanson complained that the return, asked for by him and promised by the government, had not yet been brought down.

Hon Mr. Mitchell was appointed on the committee of privileges in place of Mr. Harrison, who resigned on account of poor health.

Dr. Atkinson made his motion seconded by Dr. Lewis re Eastern Extension claim. He reviewed the history of this claim. According to the statement of Sir Charles Tupper made in Parliament in 1884, this province was entitled to $400,000 in 1869, when we only received $250,000. That being so we were entitled to interest on $150,000 from 1869 to the present time. In 1888 this government put in his Honor's mouth the statement that the claim was likely to be settled by the Dominion that year. Next session regret was expressed in the speech from the throne that the settlement had not been made as had been expected but the government added that they were not without the strongest hopes that the matter would be finally and satisfactorily settled at an early day. What difficulty had occurred? Why had the settlement of this just claim been delayed?

THE CITY'S LANDS.

Continued from first page.

and came to the conclusion that the most profitable thing for the city to do was to buy out the improvements on the lot and so cancel the lease and regain possession of this valuable property. The matter was talked up in the Lands Committee and finally they decided to recommend to the council that this move be taken. This recommendation met with the approval of the council and arbitrators were chosen to appraize the properties. James Ready, as executor of the Morris' estate appointed as arbitrator Robert H. Armstrong and the city appointed Robert Melrose. On the 19th of June 1890 these arbitrators reported the values of the properties on the School Lot to amount to $35,400. The owners of these properties and the separate values set down for each person were as follows:

John Mealy	$2,570
J. D. Kelly	1,427
Robert Duncan	575
Daniel Murphy	1 060
Est. Alexander Thompson	875
C. L. Doherty	2,460
Mrs. Ths. H. Wilson drug prescription case and case of drawers not included	3,140
Isaac Griffith	90
Miss Mary Morris	1,050
Wm. Barnhill, Hotel weigh scales not included	2,314
William Barnhill	3,250
Robert Catherwood jr	1,658
Dr. J. E. O'Neill	1,650
William Hanson, drug store fittings not includgd	1,600
John H. Butt	1,325
William S. Mullen	250
David Linton	875
Mrs. Mary Mills	700
Daniel Melloy	804
Mrs. Grace Bradley	300
Thomas Kane	900
Mrs. Mary O'Neil	975
John Gray	600
Peter McQuinn	520
Michael Berry	490
Williiam Donahoe	807
William McGuire	885
John Monahan	2,250
	$35,400

The recorder is getting the necessary papers connected with the transfer of the properties ready for the Lands committee and when everything is arranged the owners of the properties will be paid the amounts allowed them by the aprprizers and the School lot will be again in the possession of the city. If the owners of these properties choose to do so they can buy their buildings back from the city and pay ground rent at a rate to be agreed upon, or they may purchase the buildings and the ground as well. Those who do not buy their buildings back from the city will be asked to pay rent for them and the lots upon which they stand at the rate of ten per cent of the amount of the appraizers award in each case, except for those lots in Fairville which front on the Mahogany road where $1 per front foot will be the rent asked. Thus it will be seen that this purchase of the School Lot properties is likely to prove a very profitable investment for the city. It is believed that the income from the lot will defray all the charges against it and leave a considerable surplus to the city annually. Besides, an opportunity is afforded of opening up new streets, and improving the new property and other portions of Lancaster Lands adjoining it.

Taken all together the city's lands now comprise an area of over 1500 acres and they bring in a rental of almost $20,000 a year.

Notice to Mariners.

The Hydrorraphic office issues the following forecast of weather for April: Westerly winds, of less force, however, than during the month just passed, will prevail over the transatlantic steamship routes east of the 60th meridian; west of that meridian and along the Atlantic coast of the United States the winds will be variable. Gales may be expected about once a week north of the 32nd parallel. Few northers will be felt in the Gulf, and those that do occur will not last so long as earlier in the season. The northeast trades, having reached their southernmost point, will now begin to extend farther north. Icebergs and field ice may be encountered between lon 40° and 50° W as far south as the 42nd parallel, and field ice may be met with inshore as far as the 65th meridian. Considerable fog will be experienced off the Grand Banks and along the coast as far south as Hatteras.
