Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The speculative market to-day was a slow one, within a range of 1½c. It has been inclined to be easy most of the early session. The trade was light in volume and mainly local in character. New York reported "foreigners" small sellers early of the December option. The buying was principally against puts, commission people leading in this respect. Receipts, 258 cars. Northwestern received 1400 cars, as against 927 cars a year ago. Liverpool was easier to ¼d lower. According to Liverpool, Russian wheat was offered cheaper, and a good deal was also offered by Argentine. Cash demand very fair. There were no decided features to the market, but it is in a position just now to be affected very readily by bull news. There seems to be a feeling that some of the reported cash business is to some extent exaggerated, or increased by duplicating of sales from different points. The market turned quite weak during the latter part of the session, and quickly sold off a cent, closing around low prices for the day. Bartlett, Frasier were free sellers late in the day, which was the main cause of the weakness.

Total clearances amounted to 608,000 bushels, and primary receipts were 1,752,275 bushels, against 1,064,000 bushels. Paris closed steady to 10 centimes lower, and flour unchanged. Antwerp unchanged. New York reported 45 loads taken for export.

Corn—The markets for coarse grains have ruled moderately active and lower to-day. Indications bear out the truth of our prophecy that prices are high enough to induce the large holders to unload, as they get opportunity. We think that is what is going on. The movement of new corn in a wet condition does not reflect a very confident feeling in the interior. Receipts, 362 cars. Total clearances, 430,000 bushels.

Provisions—Opening was lower to-day on the very large hog receipts—40,000. Offerings rather light. The market, however, ruled steady at the decline on demand from shorts. Domestic market some easier. Shipping demand fair. Commission people sold pork and ribs and packers bought some scattered lots on soft spots. We look for an upturn in provisions, and believe purchases on weak spots will ultimately prove profitable in the near future. Estimated hogs for Monday, 50,000.

STOCK MARKETS OF A WEEK

Quotations Generally Little Changed in a Week.

General Conditions Bullish, But Profit-Taking Prevents Advance—Canadian Railways Strong and Likely to Go Higher—New York Bank Statement — Henry Clews' Ideas—Notes and Gossip.

Saturday Evening, Nov. 26.

Taken as a whole, the prices of securities on Wall-street to-day differ little from the quotations of a week ago. The tendency of general conditions has been towards higher levels, but heavy liquidations for profit have just about nullified the effect of the buoyant situation. The bullish conditions referred to include good earnings by the grangers and Southern railway lines, an excellent trade outlook and easy money marts, both in London and New York.

The present, by the way, is an interesting period as far as the Wall-street money market is concerned. At this time of the year the interior makes a heavy demand on that centre, and just now New Orleans is taking a lot of currency to facilitate the handling of the sugarr and cotton crops of the South. Should the banks feel the drain, the effect would be felt in the stock market.

In Canadian securities the strength of Canadian Pacifics and Grand Trunks has been a feature. These stocks have advanced on a settlement of the rate war and on improved earnings. This week for the first time in many weeks the C.P.R. earnings shows an increase and with a good crop movement in store the prospect is bright. Canadian Pacifics and Grand Trunks should sell higher yet. Cariboo (McKinney) has made a nice advance on the declaration of a dividend of two cents a share, payable in December. The policy of the company is to pay monthly dividends of a cent a share, starting with January next. The general list is not much changed in price from a week ago. London Electric is selling ex-dividend. Montreal Gas has crossed 200.

American rails in London to-day closed ⅝ higher to ½ lower for the session.

Consols rose ¼ in London.

In Paris 3 per cent. rentes were at 102f 22½c.

French exchange on London 25f 31½c.

C.P.R. earnings for the week increased $23,000 over the same week of 1897.

Atchison's gross earnings for October increased $260,887; net increase $227,437.

Jersey Central net earnings for October increased $14,319; gross increased $32,296. Operating expenses decreased $17,977.

Northern Pacific net earnings for October increased $176,644; net increase, July 1 to Nov. 1, $871,071.

Omaha's earnings for the month of October increased $86,574.

B. & O.'s earnings for third week of November increased $15,000.

Louisville & Nashville's earnings for the third week of November were $485,885, an increase of $60,295.

The London cables re Grand Trunks received by Messrs. A. E. Ames & Co. quote the 4 per cent. guaranteed at 79¼; first preferred at 69⅞, 69⅝, closing 70⅜; second preferred at 48½, 48⅝, 48¾, closing 49½.

New York Bank Statement.

At New York the weekly bank statement shows the following changes: Surplus reserve increased $1,690,200, loans decreased $2,345,400, specie decreased $872,100, legal tenders increased $1,636,400, deposits decreased $3,703,600, circulation increased $359,800. The banks now hold $18,357,575 in excess of the requirements of the 25 per cent. rule.

Henry Clews' Views.

There is no longer any reason to apprehend the intervention of other powers in long settlement with Spain; which is much more than could have been said but a very short time ago. The market has the support of domestic conditions of unusual strength and sufficient to protect it against any "bear" manoeuvres that might be attempted. It is true that Germany is passing through a rather sharp money crisis, under which the Reichsbank has put its rate to 6 per cent., and that she is consequently sending hither quite an important amount of bonds and stocks; but that movement is largely offset by buying on London account, in response to England's sympathy with our peace policy. The net foreign movement therefore affords little motive for speculative selling.

The aspects of home interests are encouraging. The railroads continue to show large earnings, and the late Supreme Court decision against pooling appears to have produced little or no new demoralization in rates. All accounts from the interior represent the distributing trades as in an unusually healthy condition. In this city business still feels the reinforcing effect of the recent elections, and the dry goods trade, so long hesitating and unsatisfactory, has at last reached a basis of values in the larger staples at which business moves with more confidence and in greater volume. The grain movement still continues to be on a large scale.

Money Market.

On the local market call loans are at 4½ to 5 per cent. In New York call loans today were at 2½ per cent., closing loan being 2½ per cent. The Bank of England discount rate is 4 per cent., and the open market rate 2¼ to 2 5-16 per cent.

New York Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from New York:

The stock market was sold at the opening by the room traders on the fear of a prolongation of the peace negotiations at Paris. There was free profit-taking in Manhattan, the B. & O. issues and the Anthracite coalers. The publication of press despatches saying that the Spanish Cabinet decided to accede to the American terms of peace caused a generally rally, in which Atchison preferred was prominent on the large gains shown in the company's statement of October net earnings. B. & O. issues also recovered a point or more. The Union Pacific shares continued strong on rumors that the dividend would be increased on the preferred stock, and a small payment made on the common. The common stock rose over a point. Manhattan recovered a large part of its early decline, and Tobacco regained about all of its opening loss. Sugar was higher on covering. Federal Steel was strong at sharp advances on favorable reports as to the future management of the steel rail industry. Market closed irregular but generally strong.
