Personal Health Service

(By WILLIAM BRADY, M.D., Noted Physician and Author.)

The Specialist and the Anhedoniac.

Anhedonia is that incapacity to enjoy life which is characteristic of every individual who has not attained health plus.

The particular anhedonia we are now discussing is splanchnic anhedonia, which is the kind that makes the victim of ptosis or sagging of abdominal organs so glum.

Now perhaps the worst thing that can happen to the splanchnic anhedoniac is to discover that his stomach is two inches below his navel or that his colon is away down in his pelvis or that his kidney is floating about like a derelict. To discover this appalling fact, I mean, by means of an X-ray examination and then to be left dangling there between the threat of an operation on the one hand and some dire eventuality if operation is rejected on the other hand.

As a matter of solacing truth, a great many of us, particularly those of us who have the corset and skirt wearing habit in the worst way, to wit, tight around the abdomen or hung from the waist, have floating kidney or gastroptosis or sagging colon or loose liver and never suffer anything worse than just anhedonia, just not getting the fullest measure of happiness out of life.

Oh, you ought to read some of the enthralling chapters of Sir Arbuthnot Lane on the beautiful train of physical, mental and moral shortcomings hinging on some such visceral displacement or the intestinal stasis or stagnation and theoretical systemic poisoning or toxemia that accompanies this stagnation. You'd enjoy it, provided you haven't ptosis yourself.

Nowadays there are a lot of incompetents breaking into all branches of healing. Among them are X-ray specialists or technicians who pretend to diagnose disease conditions by means of X-ray observations or pictures, although they are not physicians at all, have no proper training in anatomy, physiology, pathology or diagnosis. These ready X-ray experts may understand how to manipulate the X-ray apparatus perfectly, but when they presume to interpret the observed conditions or the X-ray pictures they are going too far, and they do much harm to the public. It is the sheerest folly for any layman to go of his own volition to any kind of X-ray expert for diagnosis, no matter what the trouble may seem to be. Scarcely a day passes that some unfortunate victim of this absurd modern fad does not mail to me the X-ray films or findings, for which he has squandered good money, as though I could or would rely upon any such frail evidence in arriving at an opinion or a diagnosis. The X-ray examination is part and parcel of the medical examination, in some cases, and should be carried out, if at all, only by special direction of the patient's physician and for the particular purpose the physician has in mind. Nothing is more fruitless or extravagant than a general or blanket X-ray examination without definite object.

QUESTIONS AND ANSWERS.

Wasting Good Disinfectants.

I am a telephone operator in a small office where there are only five of us day girls. One of the girls, we think, has that dreaded disease, tuberculosis. At least it runs in her family, and she has a terrible breath. Although we each have our own transmitters, and we use disinfectants in the room all the time, would there be any use of being afraid to work beside her, and could we girls contract T. B. in that way? (A. B. E.)

ANSWER—Infection with tuberculosis usually occurs through prolonged intimate personal contact with one who has lung tuberculosis as in working at the same bench, table or desk, chumming with, or living as a room mate or as the married partner of one who has tuberculosis.

How or why you use disinfectants in the room all the time or at any time is beyond my comprehension. Certainly that would offer no protection whatever, and it would be an extravagance unwarranted.

It is immaterial whether anyone else in the girl's family has or has had tuberculosis. Tuberculosis runs in families no more and no less than pneumonia, diphtheria or typhoid fever does.

The girl's foul breath is no indication that she has tuberculosis.

So far as your letter shows, you have no more reason to fear working with the girl than she has to fear working in your office. But even in a small central office some sort of periodical medical inspection or health department investigation of the health of the employees ought to be provided.

Dodging the Draft.

Kindly tell me, when a window is open, whether the fresh air comes in through the top and the bad air goes out through the bottom, or vice versa. (E. M. E.)

ANSWER—Theoretically the warm inside air rises toward the ceiling and so passes out through the higher opening, and the cooler outside air enters through the lower opening to take its place. This is the nice, lady-like arrangement made and provided by old fossils who pin their safety to the window-board. Practically more or less foul, warm air leaves both at the top and at the bottom; and more or less cool outside fresh air enters through both apertures. What odds does it make, anyway, so long as the window is kept open?

AUDACIOUS LOWERS MAN-O'-WAR'S MARK

NEW YORK, June 1.—A United States one-mile horse racing record of one minute 35 3-5 seconds was set today by Audacious in winning the Mineola Handicap at the Belmont Park race track. The previous record, a fifth of a second slower, was held by the famous Man O' War and was made over the same track a year ago.

PREDICTS CARPENTIER WILL TRIM DEMPSEY

Manhasset, N. Y., June 2.—Sparring partners who have entered the ring for workouts with Georges Carpentier declared today that Dempsey's chances of winning over the French boxing champion were extremely slim. Jack Goldberg, a welterweight from Panama, who received a bit of punishment in the stable arena yesterday, declared he had never seen such a powerful right hand.

"It will fool anybody," he said. "You never know when it is coming, and if you do there is no escape. And as for speed, Carpentier has the Twentieth Century Limited looking like a farm tractor."

Sam McVey, a negro heavyweight, who has known Georges since he began his ring career, bore out the statement concerning the strong right arm, and emphatically predicted that Jack Dempsey would experience unconsciousness on July 2.

REV. H. O. EASTMAN IS ORDAINED AT ARKONA

Young Pastor Will Go To Bolivia As Missionary Shortly.

[Special To The Advertiser.]

ARKONA, June 1.—At a largely-attended service held in the Baptist Church this afternoon and evening, H. O. Eastman, who will leave on July 15 to commence missionary work in Bolivia, was ordained.

The meeting this afternoon was called by the pastor, Rev. A. H. Jones, and following Scripture reading by Rev. William Johnston, Rev. A. C. Bingham of London led in prayer. Robert Crawford, clerk of the church, then read the minutes calling for the council. A council, composed of 72 members, representing 27 churches, was formed and proceeded to organize. Rev. N. S. McKechnie of London was appointed moderator, and Rev. A. C. Bingham secretary. The candidate was introduced to the council by Robert Crawford, and was asked to give a statement regarding his call to the ministry, and his doctrinal beliefs. The council, by a unanimous vote, decided to fully fellowship Mr. Eastman.

Among the visiting pastors were Rev H. E. Stilwell of Toronto, Rev. A. B. Reekie, Barrie; Prof. Kerr of McMaster University; Charles Geer of St. Thomas, and R. C. Eastman, a brother of the candidate.

At the evening meeting Rev. N. S. McKechnie was chairman. The Scripture reading was given by Rev. William Raithby of Petrolea, and prayer by Rev. T. Doolittle of Forest. Following selections by the ladies' quartet, a sermon by Prof. Kerr, a solo by Mrs. Ed. Dickison, the ordination prayer was made by Rev. J. M. Morton of London. This was followed by the laying on of hands and the fellowship of the Baptist ministry and missionary body was extended by Rev. A. B. Reekie, who was the pioneer missionary to Bolivia. The ordination certificate was presented by Rev. A. H. Jones, and on behalf of the B. Y. P. U., Rev. A. C. Bingham presented Rev. H. O. Eastman with a substantial check. The new pastor then closed the service with the Benediction.

STRIKE AT HAMILTON.

HAMILTON, June 1.—Because some non-union men were put to work, the union bricklayers, carpenters and plasterers employed at the Ontario Hospital for the Insane in the rebuilding of the Orchard House wing, destroyed some time ago by fire, quit work this morning. Nelson Hicks, provincial architect, is being sent for.

SANDWICH WANTS MAGISTRATE.

WINDSOR, May 31.—Magistrate Gundy, so far this year, has disposed of 1,111 cases brought up in Windsor police court. Sandwich Council has decided to send another appeal to Hon. W. E. Raney, attorney-general, pressing for the appointment of a police magistrate for that town.

FLORENCE

FLORENCE, June 1.—Mr. and Mrs. W. A. Gordon have returned to their Florence home after spending the winter months with their daughter and grandchildren at Toronto.

Rev. Mr. Barnard is attending the conference of the Methodist Church in London this week.

W. L. Clarke of Leamington, teacher and traveler, addressed the ladies of Florence in St. Matthew's Church yesterday. In the evening he spoke to the men and boys. Mr. Clarke has traveled over a million miles and spoken to thousands of people.

WANT GROH HELD.

Cincinnati, June 2.—Members of the Cincinnati National League team are besieging the management not to trade Henry Groh, holdout third baseman, who signed a contract yesterday, and they planned to meet Groh today to urge him to change his mind about refusing to play with the Red Sox. The players are jubilant over the possibility of the return of "Greasy" Neale to the team. The Philadelphia Nationals have asked waivers on Neale, and the Reds have claimed him.

It may be stated with authority that Groh may be traded to New York for several players and money.

SELECT CITY FOR OLYMPIAD.

Lausanne, Switzerland, June 2.—Renewal of sporting relations with Austria and Hungary was voted by the international swimming congress here today. Great Britain, Belgium and France voted against the resolution. Delegates from Canada, Denmark, Finland, Norway, Greece, Sweden, Switzerland, the United States, Belgium, Britain and France were present. The program of swimming events for the next Olympic games was drawn up. The international Olympic committee met here today, and it was expected that before adjournment it would select the city where the next Olympiad will be held.
