CLOSING STOCK LETTER.

By Direct Private Wires to J. C. Mackintosh & Co.

New York, Nov. 21.—The bull leadership shifted today to the Copper stocks and the Southern Railway stocks, but so vigorous was the initiative in this quarter that the entire market recorded sympathetic gains in spite of rather heavy profit-taking and indifferent support in stocks which have lately absorbed speculative interest. The cause of the strength in the Southern group was revealed at the meeting of the Atlantic Coast Line directors when the semi-annual dividend was advanced to a 7 per cent. rate. It was rumored that the next semi-annual dividend on L. & N. would be at the rate of 8 per cent., and that in turn the Nashville and Chattanooga, of which the L. & N. is the majority stockholder, would increase its disbursement. The Copper stocks were strong in response to general better conditions which now prevail in the metal trade. No serious attention was paid to rumors of bond issue by U. S. Steel Corporation, but one of the head officials of the United States Steel Corporation deemed it worthy of sweeping denial. The trend of prices appears still to be upward.

The net earnings of the Company for years ending 1910-11 is as follows:
12 months, ending May 31 1910 ... $103,406.10

This is sufficient to pay Preferred Stock Dividends and over 8 per cent. on the Common.
The Preferred with its 7 per cent. Cumulative dividend represents an attractive investment, while the Common Stock, which is received as a bonus, has great speculative possibilities.

COPPER SHARES BEGIN TO CLIMB

New York, Nov. 21.—A decided change was apparent today in the securities market which shook off the weakening tendency of the last two days of trading. Both the railroad and the industrial stocks advanced. Speculative sentiment was affected favorably by several occurrences and bull operators displayed more confidence. The opening was higher, with a good demand for the representative stock. Some profit taking and a sortie by the bears checked the advance for a time, but the market showed strong resistance to pressure, and later in the day rose again, ending the session with numerous gains of one to three points.

The recently revived interest in the copper stock, after a long period of comparative obscurity on account of conditions in the copper trade, was heightened today by further reports of better business and the copper shares were perhaps the most conspicuous of any, as a group. Amalgamated rose three points to 64, and Anaconda, Utah Copper and American Smelting made substantial gains. The ruling quotations for copper metal are the highest touched in several months as the result of a sustained increasing demand.

The London market—The copper metal today advanced to the highest price since last March.

The Steel stocks also were strong. The speculative position of U. S. Steel was strengthened by the expectation that the Stanley investigation would be terminated shortly. There were reports that prices of some steel products might be advanced. Present prices in many cases are virtually at the low level of the last decade.

The increase in the Atlantic Coast Line dividend to 7 per cent., resulted in an advance of 6 1-2 points in the stock.

Although the street had heard reports from time to time that the dividend rate might be increased, no action of the kind was generally expected at this time. The impression created by the change was strengthened by the favorable character of the annual report. Louisville and Nashville which is controlled by Atlantic Coast Line, rose more than three points.

Announcement of the decision of the New York State court of appeals upholding the reorganization plan of the Third Avenue Railroad was followed by the collapse of the stock, in which there had been active speculation for some time in anticipation of the rendition of a decision. The stock broke three points, but at the same time there was active buying of the bonds on a rising scale of prices.

The first of the October reports of large railroads system that of Baltimore and Ohio, came in today making a favorable showing. Operating revenue gained more than $90,000, and with a reduction of over $300,000 in expenses the net income was increased by $405,000.

Bonds were steady. Wabash fours more than made up yesterday's loss. On the curb there was heavy selling of the New York State fours of 1961, which declined nearly a point to 101 3-8, the lowest price of the year.

Total sales, par value, $4,220,000.

U. S. twos registered declined 1-8 per cent. on call.

MEN WHO DON'T EXERCISE
Suffer From Indigestion, Headaches, Poor Appetite, Sleeplessness.
Nothing So Sure to "Set Up" a Man, Make Him Feel Brisk and Vigorous as Dr. Hamilton's Pills.
Lack of exercise and overwork were the causes that combined to almost kill Samuel S. Stephens, Jr., one of the best known citizens in Woodstock.
In his convincing letter Mr. Stephens says:—
"A year ago I returned home after

a long trip, completely worn out. was so badly affected by chronic bil iousness, so much overcome by con stant headaches, dizziness, that I des paired of ever getting well. I wa always tired and languid, had n energy and spirit, found it difficult t sleep for more than five hours. M appetite was so fickle that I ate ne to nothing, and in consequence lo weight and strength. I was pale an had dark rings under my eyes th made me look like a shadow.
"It was a blessing that I used D Hamilton's Pills. In one week I fe like a new man. The feeling of weig and nausea in my stomach disappea ed. My eyes looked brighter, col grew better, and, best of all, I bega to enjoy my meals. The dizzine languor and feeling of depressio passed away, and I fast regained n old-time vigor and spirits. Today am well—thanks to Dr. Hamilton Pills."
For health, strength, comfort a good spirits there is no medicine li Dr. Hamilton's Pills. Beware of su stitutes, and don't let any dealer pa off some other pill on which he c make more money. 25c. per box, five boxes for $1.00, by mail from T Catarrhozone Company, Kingston, O
