Mr. and Mrs. R. Brook Stratton have returned to their home at Rumford Falls after a pleasant visit here with Mr. Stratton's mother.

Fredericton, Aug. 25—(Special)—Another step in the direction of providing Fredericton with a modern system of sewerage was taken by the city council at a special meeting this evening. The special committee, which has been giving the question some attention of late, recommended that Frank A. Barbour, of Snow & Barbour, Boston, be employed with City Engineer Brown to establish the grade for a system from profiles already prepared. It was further recommended that Mr. Barbour be requested to furnish an estimate of the cost of preparing a complete set of plans and specifications and also the probable cost of installing a complete system of sewerage.

The city council unanimously adopted the committee's report after a brief discussion. The finance committee, to whom the question of appointing a tax commission was referred, were unable to arrive at an agreement as to who should compose the commission. A report, signed by two of the three members—Ald. Chestnut and Mitchell—recommended that T. C. Allen, L. W. Johnstop and Dr. A. M. Scott be appointed. Several aldermen complained that real estate interests would not be sufficiently represented on a commission of these gentlemen were appointed, two of them were large income tax payers.

Chairman Chestnut took the ground that it made no difference what particular interests were represented on the commission so long as the men composing it were competent to properly discharge the duty required of them. That thought had been uppermost in his mind when searching for suitable material.

After several others had expressed their opinion the amendment by Ald. Randolph that the question be referred to a committee of the whole council to report at the next meeting was carried by 5 to 4.

This question is one of the most important the council has had to deal with this year and the outcome will be awaited with interest. It was practically agreed upon this evening that the remuneration to be allowed the commission should not exceed $600.

The council decided to extend an invitation to Prince Louis of Battenberg to visit this city.

While a patent medicine vender was holding forth in the presence of a large crowd in Phoenix Square this evening a horse hitched to a carriage nearby became unmanageable, causing quite a panic for a time. Several people were knocked down, but nobody
