Out of Evil cometh Good.—The present depressed state of Commercial matters in this Province, brought about mainly by bad legislation, is destined to produce for New Brunswick, and at no distant date, a more permanent, and eventually a more solid foundation for a nation's prosperity.—The fluctuating business of ships and timber has from the period of its origin regularly had its seasons of its prosperity, followed as regular as the influx and reflux of the tides, with a corresponding depression. This state of things has produced a vast amount of misery on the operative, as well as retarded in no ordinary degree the permanent settlement of the country. What is called *good times*, draws off the bone and sinew of the country from their Farms, to seek in the Ship Yard, in the Mill, or behind the Counter, a more speedy way to wealth. Decoyed by this delusion, the farms are neglected, our provincial youth becomes corrupted by city life, loose all taste for rural pursuits, and a commercial panic finds them, instead of independent and robust yeomen, too frequently in penury fit subjects only for the almshouse. Our monied men, too, appear to think Ships and Timber the only productions of this country worth their notice; hence a man who would risk thousands and tens of thousands in Ship building could not be induced to invest a solitary thousand either in Fishery, Mining, Manufactory, or Agriculture—the whole of any of which offer a more certain return of capital, than our present darling object, Ships and Timber. But here is the trouble, farming may be *sure*, but it is not *fast* enough to suit the capitalists of the present day. The neglect of Agriculture of this Province has made us dependent on foreig nations for the elements of existnece. This together with the free trade mania of our Smasher Government, and their encouragement of the foreign artizan, to the exclusion of own people, while it is fast denuding us of our population, is also fast draining us of the little circulating medium we now possess. Hence the tightness at the present time in all money matters. And we would warn our Importers that as we have neither Ships nor Timber with which to purchase money, to call a halt, and enquire before they part with their goods or credit, from whence is to come the money to pay for them. Under the present trying circumstances, and as there is no hope that any remedy will be attempted by the present Government, our advice is that all who can do so, betake themselves to the land, and continually clothe themselves in their own homespuns, and as a reply to the crokers that this Province is not an agricultural country, we refer them to the following valuable statistics:

New Brunswick.—Wheat, 19 11-12ths bushels to the acre; Barley 29 do.; Oats 34 do.; Buckwheat 33¾ do; Rye 20½ do; Indian Corn 11½ do; Potatoes 236 do; Turnips 456 do.

New York.—Wheat 14 bushels to the acre; Barley 16 do; Oats 26 do; Buckwheat 14 do; Rye 9½ do; Indian Corn 25 do; Potatoes 90 do; Turnips 88 do.

Canada West.—Wheat 12¾ bushels to the acre; Barley 17½ do; Oats 24¾ do; Rye 11½ do; Maize 21 3-4 do; Buckwheat 16 3-4 do; Potatoes 84 do.

Ohio.—Wheat 15 1-4 bushels to the acre; Barley 24 do; Oats 33 3-4 do; Buckwheat 20½ do; Rye 16 3-4; Indian Corn 41½ do; Potatoes 69 do.

The average of general weights of the above for this Province is as follows per bushel:—Wheat 60 11-12 pounds; Barley 50 do; Oats 38 do; Rye 52½ do; Buckwheat 48 8-15 do; Indian Corn 59½ do; Potatoes 63 do; Turnips 66 do; Carrots 63 do.

☞ The May term of the Circuit Court for this City and County was opened on Tuesday—his Honor Judge Wilmot presiding. The criminal business is comparatively light; but the civil calender comprises the enormous number of 261 cases. Up to last evening, only one of these was disposed of,—Rice and others vs. Ætna Insurance Company, for loss sustained by the burning of a steam saw mill, at Weymouth, Nova Scotia. The claim was resisted on the grounds of fraud, &c. Verdict for the defence.

Theatre.—The "Lady of Lyons" was performed at the Dramatic Lyceum last evening, and commanded, as it always does, a good house. The startling play of "Jack Sheppard" is announced for to-night. A quiet and pleasant evening can be spent at the Lyceum, where every comfort, besides the intellectual treat, is provided for the visitors.

Fenerty's new project for an *eight-sided* house in the Market square is certainly worthy of the consideration of the City Fathers! His Reed's Point "improvement"—the fountain, and others, attest the sapient commissioner's skill and wisdom. Pity the already over-taxed could not be persuaded to have another £5,000 fastened round their necks, in the like "city improvements."

☞ The Government in a Dilemma.—The delay of the Government in not having a Sheriff appointed, has been that they have been endeavoring to get clear of Mr. Harding, notwithstanding their written assurances to him. Mr. Cruikshank seeing all this, having become disgusted, withdrew his claim as an applicant. The Government finding no alternative, we understand, have appointed Mr. Harding.

This will create a vacancy for the city, which, by general acclamation, will be supplied in the person of Mr. Joseph Lawrence.

Fire.—This morning about 3 o'clock, an alarm of fire was given. It proved to be a dwelling house on the Straight Shore, in the immediate vicinity of a ship nearly ready for launching, fortunately, by great exertions the ship was saved from the destroying element.

At the annual meeting of the Young Men's Christian Association, held on the 5th instant, the following gentlemen were elected office-bearers for the ensuing year:—*President*, Hon. W. B. Kinnear; *Vice Presidents*, James Paterson, Esq., L. L. D., LeBaron Botsford, M. D., T. W. Daniel, Esq., E. E. Lockhart, Esq., E. H. Duval, Senr., Esq.; *Recording Secretary*, J. H. Calhoun; *Corresponding Secretary*, A. A. B. Smith; *Auditor*, W. F. Hawkins.

At a meeting of the members of the Mechanics' Institute held at the Hall on Monday evening last, the following gentlemen were elected Officers for the ensuing year:—J. W. Lawrence, *President*; Robert Foulis, and Wm. F. Smith, *Vice-Presidents*; Wm. L. Avery, *Treasurer*; James R. Ruel, *Corresponding Secretary*; Wm. F. Bunting, *Recording Secretary*. *Directors*—Isaac Woodward, Elisha Bond, George H. Lawrence, George Fleming, Wm K. Reynolds, James Patterson, James Gerow, Jas. Allan, J. S. Melick, Robert Shives, Charles Lawton, Wm. P. Dole.

☞ Holloway's Pills are infinite benefit to persons suffering from nervous tremors and general feebleness. They renovate the nervous system, and brace the muscles as well as give tone to the stomach. Their purgative action is unaccompanied by pain, and as they have powerful stomachic as well as aperient and purifying properties, they literally carry on the work of invigorating the digestion, relieving, the secretions at one and the same time—This can not be said of any other medicine in existence.

The National Gazette of Vienna states that according to the last census, that city contains 3793 houses, 800 of which are devoted to the public service. There is an average of 55 inhabitants to each house.

ARRIVAL OF STEAMER VANDERBILT AT NEW YORK.

Four days later from Europe!

New York, May 10—2 A. M.—The Steamship Vanderbilt, from Havre, via Southampton 28th ult., has just arrived.

Austria and Prussia have agreed as to their policy in the Holstein affair.

The Sardinian Chambers have adopted the principle of the Conspiracy Bill by a large majority.

The London Money Market is easy. Consols 97 1-4 for money, 97 2-8 a 97 1-2 for account.

The Liverpool Cotton Market is generally firm, closing quiet and steady.

Wheat and Flour steady, with an upward tendency. Western Canal flour 21s a 22s; Philadelphia and Beltimore 22s a 22s 6d.

Beef heavy. Pork quiet. Bacon firm. Lard firm; 56s. choice. Tallow generally unchanged.

Tea heavy. Sugar steady. Rice inactive.—Coffee steady.

In the House of Commons, on Monday, in reply to a question, General Peel stated the entire expense of the Indian war would be defrayed by the East India Company.

In the Eight Electoral district of Paris, there is little doubt of the election of Jules Favre, of the opposition. The government candidates were successful in the other two districts.

In the Commons on Monday night, Disraeli moved that the House on Friday consider the India bill, and supported the motion in a speech attacking the bill of the previous ministry.—Palmerston replied, characterizing Disraeli's speech as a funeral oration on the former bill, and opposing the elective principle of the council for the government of India.

Mr. Gladstone was against either bill. Mr. Gregory moved an amendment, that is inexpedient to pass any resolution for the government of India, but it was subsequently withdrawn, and the motion agreed to.

There is a general stagnation of business throughout England.

There has been a denial on the part of France of the reports of an increase in her national armament.

It is said a private French mission has been dispatched to Canton.

Reports are current of disputes between Persia and England.

It is rumoured that an inquiry into the relations between Spain and the United States revealed a projected expedition on the part of Spain to go to war with America.

ARRIVAL OF THE PERSIA.

Three days later from Europe!

New York, May 11.

The Persia arrived this morning.

Bullion in Bank of England increased ninety thousand.

Later news from India states that the British stormed and captured Jhansi with great slaughter to the rebels.

Disraeli's first resolution, declaring it expedient to vest the Indian government in the Crown, had passed the Commons.

Continental and other news of little importance.

Sugar advanced 6d to 1s on fine grades.

Breadstuffs—Market quiet, with declining tendency in flour. Wheat slightly advanced. Corn steady.

Consols 97 1-4.

Teas quiet. Common Congo 11 3-4.

LATER FROM THE WEST INDIES.

We have Kingston (Jamaica) papers to the 7th of April inclusive.

The *Morning journal* of that place is still advocating the settlement or colonization in Jamaica of the free black colored natives of America."

The same paper contains the following details of a tragedy imperfect accounts of which have previously reached us:—

Intelligence has been received of a horrible massacre by the Indians in British Hondrus, in which there were no less than one hundred and forty victims and forty others taken prisoners, whose fate up to the date of the intelligence was uncertain. The particulars as related by one who was present go to show that Barcular a town about a day's journey from Corossl was taken by the Indians on the 21 ultimo, when a hundred and four persons were killed in the assault and forty taken prisoners. As soon as the news reached Corossl three or four gentlemen started for the place, and one of them a Mr. Blake, returned almost immediately, stating that the Indians would ransom their prisoners for $1,000. Considerable exertion was immediately put forward and in two days the amount was raised, $2,600 in cash and the balance in goods such as the Indians required. The stipulation was pinced in the hands of the Indian commander who promised that he would treat further on the following day; but at midnight on the 31st, the whole Indian force was called out to consult their oracle—the cross—when it was determined that $1,000 must be paid down for the female prisoners alone and $3,000 more for the males or they would be led forth to execution. thirty women who had been violated by almost all the soldiers and eleven men, were then led forth, and their screams ringing in the ears of the English, who wished if possible to save them, were inhumanly killed—literally hacked to pieces. The superintendant sent Captain Anderson and another gentleman with a letter to the Indian commander supplicating mercy for the unfortunates but his messengers and letter were treated with contempt.

This disgusting piece of Sepoyism practised is within our immediate neghbourhood we are happy to say is not likely to go unpunished the Major General commanding on this station has ordered two companies of the 2nd West India Regiment to the scene of danger. H. M. steamer *Leopard* came up to the harbour on Sunday when necessary baggage and provisions were put on board.

Died.

On Monday afternoon, in the Parish of Simonds, near Lattimer's Lake, after a protracted illness, Mrs. Margaret Pudge, a native of Scotland, in the 50th year of her age, leaving a husband and large family to mourn their loss.

At Hampton, on Friday 30th of Influenza, Mary Jaina, aged 2 months and 10 days, youngest drughter of Joshua and Eliza Smith.

On Sunday last, after a short and severe illness, James Hunter, Esquire, M. D., formerly of Letterkenny, Ireland, aged 36 years.

At Upham, on the 24th ult., after a short illness, Irvine Alexander, eldest son of James Megarity, aged 3 years and 6 months.

At Grand Falls, on Friday morning, Sarah French, daughter of William Maclauchlan, Esq., aged three years and six months.

From long practical observation of the treatment pursued in the various Institutions of London and Paris for those diseases referred to in the above work, the Author has had somewhat unusual facilities for acquiring that accuracy of diagnosis, and uniform success, which have characterized his practice for so many years in this country, in which the lamentable neglect of these diseases by medical men generally, and their futile attempts to cure by mercury, copaiba, Sarsaparilla, &c., have produced most disastrous results. Lasting benefit in such cases can only be *reasonably* expected at the hands of the legally qualified medical man who devotes his chief attention to their removal; and to him only who can *show his possession* of the necessary qualifications can confidence be *safely* extended. Dr. de R. refers with pride to the numbers he has been instrumental in restoring to health and happiness; and to those who may be in need of such aid he offers every assurance of speedy restoration.

Persons residing abroad can be successfully treated by correspondence, on sending a full detail of their case, with a Bank note, or Bill on a London house, for £5, in order to have a packet of medicines sufficient to meet the exigencies of the case, sent out by next mail; thus avoiding unnecessary loss of valuable time, and much suffering which might otherwise occur.

The Great European Remedy for Nervousness, Relaxation, and Exhaustion.

Protected by Royal Letters Patent of England, and sanctioned by all the great Continental Colleges of Medicine.

DR. DE ROOS' GUTTÆ VITÆ; or LIFE DROPS, are the great remedy for Spermatorrhœa, Exhaustion, Nervousness, Debility, Aversion to and incapacity for Society, Study, or Business, Shaking of the Hands and Limbs, Indigestion, Flatulence, Shortness of Breath, Asthma, Consumptive Habits, Dimness of Sight, Dizziness, Pains in the Head, Eruptions, Sore Throat, Pains in the Bones and all those diseases for which mercury, Sarsaparilla, &c., are too often employed to the utter destruction of health. Their almost marvellous powers must be felt to be believed. Hundreds of apparently hopeless cases have been cured, and thousands almost miraculously relieved, when everything else had failed
