The Weekly Monitor.

WEDNESDAY, MARCH 13th, 1889.

Post Office Parcels.

As there is a good deal of misunderstanding generally in regard to the recent customs laws passed in regard to Post Office parcels, we give the following information for the benefit of all concerned:—

The resolutions respecting Post Office packages between the United States and Canada came into force on the 1st day of March, 1888. The following are some of the principal provisions. For the province of Nova Scotia two Exchange Offices were appointed, viz., Halifax and Yarmouth. All parcels sent by parties living in the United States to parties residing in Nova Scotia have to come through either one of these exchange offices. Then they are numbered and sent to ports of delivery, in bond, accompanied by duplicate manifests. In this county the only ports of delivery are Annapolis and Bridgetown. At these ports the parcels are opened, examined, and appraised by the collectors of customs, and the parties to whom they are addressed are notified by a special card of the amount of duty to be paid. When this amount is remitted the parcel is forwarded to its destination marked duty paid. A return has to be sent to the department at Ottawa at the end of every seven days showing the numbers of parcels in consecutive order, the parties to whom addressed, the value and the amount of duty collected on each. A copy of the manifests has also to be returned to the Exchange Office, giving the number of entry, value and amount of duty collected. The amount of duties is credited to the port, the same as other collections made on goods coming by vessels and other conveyances. The department strictly enforces the payment of duties on all articles without respect to the small value thereof.

Certain periodicals, such as Harper's Monthly and Weekly, the Century and Scribner's Magazine, are free to subscribers, but are dutiable when imported in quantities at 15 per cent, while other magazines, viz., Butterick's Delineator, the Dental Journal, Travellers' Official Guide, New York Fashion Bazar, Appleton's Railway Guide, The Inland Printer, are all dutiable, singly or in quantities at 6 cents per lb., and 20 per cent ad valorem.

Probably some of the objectionable features of the Act will be altered during the present sitting of Parliament. It would save a good deal of time and trouble to appraisers if the English system was adopted. Parcels coming by post from Great Britain have a description of the contents and the value on the outside wrapper.

—Mr. Law has introduced into the Local Legislature a bill prohibiting the killing of moose or caribou for the next three years. We hope it will pass, as it seems the only way this noble game can be sufficiently protected. It would not be so bad if the hunters would only leave them alone in the close season. Last winter we gave an account of the inhuman chasing and killing of a cow moose, heavy with young, in the Dalhousie section, and from all we can learn, there is more or less of this sort of thing goes on every year in various sections of the Province. It is a difficult and unpleasant duty to bring the guilty parties to justice, and, in consequence, they go scot free in the majority of cases.

If a law, such as Mr. Law proposes, were put into force and rightly carried out, there would be a great increase in this fine game during close term.

Mr. Andrews, M. P., is of the same opinion as ourselves, and seconded the bill.

Local and Other Matter.

—If you want to buy or sell farms advertise in the MONITOR.

—A. C. VanBuskirk, Esq., has been appointed a Justice of the Peace.

—County Court opened at Annapolis yesterday.

—See adv. of concert in Baptist Church, Paradise, on the 19th inst.

—Yarmouth has just opened a fine new public library building with appropriate ceremonies.

—Only three slopes in the Springhill mines are working, and the town is full of idle miners.

—Buckwheat and Graham Flour, Rolled Oatmeal, and hand picked Beans, for sale at Shipley's. 1i

—The Nova Scotia Dairyman's Association holds its annual meeting at Truro to-day and to-morrow. A very interesting programme is presented.

—Rev. T. C. Hooper, now of Weymouth, has accepted a call to the Methodist Church at Middleton, so says the *Courier*.

—A public meeting will be held at the office of N. R. Phinney, Esq., Lawrencetown, on Monday evening next, 18th inst., for the purpose of organizing a Brass Band. All are invited to attend.

—Butter is uncommonly scarce in the town. One of our store keepers says as many as fifty persons applied in vain at his store for butter on Saturday last.

—Don't forget the Temperance Social in the Vestry of the Baptist Church, Paradise, to-morrow evening. Doors open at 6 o'clock. Admission 25 cts. If stormy come next fine evening. 1i

—Presbyterian Church, Sunday, March 17th, services at 3 p. m. and 7 p. m. Sunday and Bible Class at 2 p. m. Prayer Meeting Wednesday at 7 30 p. m.

—The Springhill *Independent* advocates establishing a boot and shoe factory in that town, and in doing so makes use of nearly all our article upon the subject, but without credit. Be honest, brother.

—The pure prepared House Paints are ready for use after stirring. Ground in pure linseed oil, from pure white lead. For sale at Shipley's. $1.50 per imperial gallon. 1i

—A circular has been sent out from the Nova Scotia department of agriculture to the different agricultural societies, calling attention to the fact that all Counties desiring to hold a County Exhibition must make application for the provincial grant on or before the 20th inst.

—The Independent Order of Foresters are seeking to become a regularly incorporated body. Representatives of old line companies are opposing the application on the grounds that the Foresters' rate of insurance is too low to cover the risk. The Foresters on the other hand claim that it is ample, and experience has shown it to be such. On the 1st January their membership was 11,500, and there was a cash reserve at that date of $116,821. The society scarcely knows what to do with the surplus, hence it desires incorporation, which, if obtained, will enable it to make a deposit with the Receiver-General, and thus give the members additional security.

—One gallon of pure prepared House Paint will cover 270 square feet, two coats, working freely under the brush, and forming, when dry, a smooth, elastic covering. For sale at Shipley's. 1i

—The Cumberland *Leader* says that the maple sugar crop will be heavy this season.

—A petition from this County has been sent in to extend the lobster season to 15th August.

—Mr. Jones (Digby) has arranged with the postmaster-general for a daily mail between Digby and Bear River.

—The incandescent electric lighting patent held by the Edison Electric Light company has been declared null and void in Canada.

—The hull of the wrecked steamer Esme was sold at Blanche, Barrington, on February 28th last, for $1,300, the purchaser being Mr. McFatridge, of this city. The materials, stores, etc., brought $384.—*Chronicle*.

—The International Steamship Cleopatra will leave Annapolis for Boston direct on her first trip of the season, on Friday next, and will continue running as advertised until further notice.

—The bill to enable the inhabitants of Annapolis Royal to supply themselves with water for domestic, fire, and other purposes has passed the Legislative Council.

—The mill owners on the branches of the Bear River are asking the Dominion Govt. for exemption from the saw dust laws, and have also presented a petition for a light-house on the northern end of Briar Island.

—The following Scott Act cases from Annapolis County were also disposed of by the Supreme Court at Halifax last week: Queen *vs.* Perkins—judgment for prosecution sustaining conviction. Ritchie for Prosecution. Harrington, Q. C., for defendant. Queen *vs.* Dodge, judgment defendant. Ritchie for Prosecution; Roscoe for defendant.

—Mr. Mills, Dominion representative for this Co., has presented a petition to the government from a large number of his constituents who want an appropriation made for a breakwater at Mount Hanley. He also called the attention of the Department of Public Works to the necessity of dredging Clementsport river. He was informed that the Government engineer would go down to the county this spring and report upon the above requirements.

N. Y. MUTUAL LIFE.—The 46th annual statement of this popular company, which we publish to-day, must be alike gratifying to the company and to policy holders. The record eclipses its own best efforts, and probably exceeds that of any other financial institution. The new business written was $103,214,261, an increase of $33,756,792 over the risks assumed in 1887. The Mutual now has a surplus fund of $7,940,063, above liabilities. It has 158,369 policies in its force.

PORT LORNE.—The Lord is still doing a glorious work here. Twenty-three were baptized and united with the church last Sabbath, making in all fifty-four. Also, the friends of the pastor, Josiah Webb, gave him an agreeable surprise last evening by calling at his house, and spending the evening pleasantly with music, speeches and prayer, where all seemed to enjoy themselves. They left him sixty dollars, mostly cash, before departing for their homes.—COR.

FINE PAIR OF COLTS.—The Hants *Journal* says:—Mr. Constant Church of Falmouth, recently sold a pair of Percheron colts to Mr. Hector McLean, of Bridgetown, Annapolis Co., who is well pleased with his purchase. Mr. Church received $270 for the pair, $170 for the 3 year old, and $100 for the 2 year old. The 3 year old weighed 1350 lbs., and the other in the vicinity of 1100 lbs. We can raise good stock in Hants Co., and our farms are improving in that direction rapidly.

—The International steamship company's St. John line steamers will leave Boston and Portland, Monday and Thursdays, and St. John and Eastport Tuesdays and Thursdays up to April 29th. From that date till Nov. 11th, will leave both ends Monday, Wednesday and Friday. From November 11 to Dec 31, leaves both ends Monday and Thursday. The Annapolis line steamers, from March 14 to May 13, leaves Boston Monday and Thursday, and Annapolis and Digby, Tuesday and Friday. From May 13 to Sept. 21, leave Boston Monday and Thursday and Annapolis and Digby Tuesday and Saturday. From Sept. 21 to Nov. 7 leave Boston Monday, and Digby and Annapolis, Thursday.

THE NEW PRESIDENT.—The ceremonies at Washington were very imposing on the occasion of the inauguration of the new President and Vice-President on Monday of last week. Thousands of people thronged the streets along the line of the procession which was the most imposing demonstration ever seen in the country.

The President's Cabinet nominations have been confirmed by the Senate. They are: Blaine, Secretary of State; Windom (Minn.), Secretary of the Treasury; Tracy (N. Y.), Navy; Proctor (Vermont), War; Noble, (Missouri), Interior; Wannamaker (Penn.), Postmaster General; Miller (Ind.), Attorney General; Rusk (Wis.), Agriculture.

The President's speech was very calm and friendly. He declared himself strongly for protection throughout, maintaining that it was essential for the country's welfare. Little if any reference was made to Canada.

—On Thursday evening last, the Apple Blossom Band of Hope gave an entertainment at the school house, Clarence East. The entertainment consisted of an exhibition of Mrs. Jarley's wax works. The figures represented were Queen Victoria, Mary Queen of Scots, Queen Elizabeth, Cleopatra, Empress Eugenie, Modern Belle, Joan of Arc, Frances E. Willard, Priscilla, Florence Nightingale, Jenny Lind, Red Riding Hood, May Queen, Sleeping Beauty, Cinderella, Sister Agnes, Band of Hope, Joseph Howe, Henry M. Stanley, William Penn, Micmac Chief, John B. Gough, Prince Albert, Potter of Texas, Sandy Macpherson. There was a short sketch of each figure given by the five lecturers, who were Mrs. L. W Elliott, Mrs. E. J. Elliott, Miss Lilly Jackson, Miss Eva Reed, Mr. L. W. Elliott. Mrs. J R. Elliott officiated as Mrs. Jarley.

Mrs. Freeman Fitch presided at the organ; and was accompanied by her brother, Mr. H. Boland, on the violin. The exercises were interspersed by recitations and singing by the band.

—A mysterious shooting case took place at the Halifax Dock Yard on Thursday last. While the magazine sentry was moving up and down on his beat he noticed a man get through the fence and come towards him. The intruder was at once challenged, but he made no answer.

The sentry then asked him what he was doing there. "Nothing," was the reply. By this time the men were within a few feet of each other, and when the man answered, (so the sentry says) he produced a revolver and pointed it directly at the sentry's face. The latter threw up his hand just in time to receive a bullet on his fingers. The man then ran and the sentry after him. One more shot was fired at the sentry when he was getting through the fence. The sentry still kept in pursuit and fired three shots without effect, then gave up the chase and reported the matter to the corporal. The sentry had to have the first finger of his hand amputed. The whole affair is considered very mysterious, accepting the sentry's story, which is borne out circumstantially. The authorities think it was an attempt to blow up the magazine. No clues have been obtained yet.

EAST MARGARETVILLE.—The saddest event and one which has cast a deep gloom over this place, is that of the sad and sudden death of Minnie, wife of Mr. Milford Marshall.

They had only been married since Dec. last, and while on a visit to her parents, Mr. and Mrs. Wm. H. Thorne, Prince Albert, she was stricken down with brain fever, which after a few days suffering, terminated in death. She was an active member of the Baptist church, amiable and beloved by all who knew her. The husband, parents and only sister, have the sincerest sympathy of the whole community.

Sister thou wast mild and lovely,
Gentle as the summer breeze;
Pleasant as the air of evening,
As it floats among the trees.

—Commissioner Coombs of the Salvation Army, was here last week and addressed an audience in the Court House.

—Steamer Yarmouth had 200 passengers on her first trip to Boston. This fine boat has been thoroughly overhauled, refitted, and reappointed during the winter.

—T. C. Allen and Co., the wholesale and retail booksellers, news dealers, stationers, etc., of Granville St., Halifax, N. S., have our thanks for a copy of March *Harper*.

—Mr. E. G. Thompson, formerly of the firm of Thompson & Shafner, now Shafner & Dixon, is in town on a visit. Mr. Thompson is taking the dental course at the Philadelphia Dental College.

—His Lordship, Bishop Courtney, will pay his first visit to this parish on Sunday next. Confirmation services will first be held at St. Mary's, Belliste, at 3 o'clock, and in St. James', Bridgetown, at half past seven. There will be no morning service in St. James', as the rector is obliged to meet the Bishop at Middle Granville.

—Both of our local packets that ply between this port and St. John, viz., the "Temple Bar," Longmire, and the "A. M. Holt," Graves, are expected here to load on Monday next, wind and weather permitting. The river is open for navigation, and both captains are now in Annapolis getting their respective crafts ready.

Lequille Items.

If lots of mud is any indication of spring that season is near at hand. We also have in our vicinity lilac bushes, and honeysuckles (not in bloom) but beginning to put forth leaves.

People are getting in a hurry to secure ice for their summer use.

Goldsmith Bro's. new rotary is doing splendid work, sawing from fifteen to twenty thousand per day.

Steamer Loyalist has been put on runners and prepared for a sleigh drive to the gold mines, but being a little slow in getting ready got left, (like a good many people) in the mud, waiting for snow. She is to be used in carrying freight across one of the lakes to the gold mines.

Any one fond of antiquities would do well to pay our friend, Mr. John Hoyt, a visit as he has a fine collection of Indian and French relics found in the ruins of the old fort at the rear of his farm.

L. S.

Belleisle Items.

Mud—"Oh Holy Moses!"

The premature breaking up of the winter has very seriously impeded lumbering operations.

The river has not frozen over this winter; neither have the robins or sparrows gone away; what I never knew before.

There seems to be a remarkable increase in the population this Spring about here somehow.

The ladies of St. Mary's Church are at present very busy "fixing up." They are painting the chancel, putting down new carpet, making new cushions for the seats. It will look very tasty when done. His Lordship the Bishop will be here on Sunday next, and will hold service in the afternoon at 3 o'clock. As we have no minister here now his presence will be hailed.

Miss Priscilla Young, the young lady who was so nearly mortally stricken down some few weeks ago, is, I am glad to state, at present slowly recovering. She is a general favorite, and has the sincere hopes and sympathy of the entire community.

More anon. M.

—The Mass Temperance Meeting of Monday evening was a decided success. Never in the history of temperance work in our town has such an audience greeted so thoroughly equipped a platform. At the hour announced for opening every available seat in the spacious Court House was filled. The Sons of Temperance in their regalia occupied a prominent position. The White Ribbon Band of the Baptist and Methodist Sabbath Schools nearly filled the central block of seats leaving only two or three settees in the rear for the W. C. T. U. The exercises began promptly, and a somewhat lengthy and varied programme was carried through without hitch or flaw. As speakers, the committee had secured the services of Miss Johnson of Dartmouth W. C. T. U., and Rev Messrs. Young and Robinson, each in turn, in earnest and eloquent language, ventilated his or her ideas, and as usual indulged the spirit of prophecy. The speeches fitted well into their several places and most evidently, from the applause so frequently accorded, reached the sensibilities as well as the ears of the listening hundreds. Mrs. Angwin, president of the local W. C. T. U., gave a brief address pertaining to the use of cider, *the intoxicant* of this fair valley. The music under the leadership of our tried friend, Norton, was, as might be expected, of a high order. The singers, selected from the Methodist and Baptist choirs, excelled themselves in the rendition of a piece entitled "The song of the Soldiers," and an anthem, "For God so loved the World." Mrs. Reed's and Mr. E. Craig's solos were highly appreciated. The W. R. B's. were respectively represented by Master W. Beckwith in a recitation, and a solo by Master M. Munroe, with chorus, which being encored was followed by a little temperance bit executed by ten little ones. The meeting was under the chairmanship of Hector McLean, whose portly presence and weighty words gave force and vigor to the whole. The public verdict is "an immense meeting."

Meadowvale.

According to announcement a large crowd gathered in Brignolia Hall, on Saturday evening, March 2nd, to listen to the excellent music dispensed by Prof Spinney and his large and efficient class. The programme, consisting of sacred and comic selections, was most excellently rendered, the audience expressing their approval and satisfaction by enthusiastic cheering. This is the second school the Prof. has taught here, and this season inly two-thirds of his class were small children and nearly all the remaining ones new beginners. We think it well to mention some of the many pieces rehearsed: First song by Miss M. Spinney, chorus by B. Banks, I. Neily and W. Spinney; duet by the Misses Neily, and chorus by W. Eaton and M. Robice; Duet by Miss Patton and Miss Robice, answered by the Misses Shaw, Miss M. Spinney and Miss Bowlby; Song, "Hip Hurrah," by H. Spurr, M. Robbice and G Woodbury, chorus by the Misses Banks, R Pettzem, N. Spinney, L. Bowlby, W Bartenux and W. Shaw, with a second chorus from the full school; Song, "My Cottage Home," by Miss Crocker, chorus by E. McMasters and Brow; "The Daffy Down Dilly," by Master Harry Spurr, with a chorus from the whole school was loudly cheered; song "Ella Lee," by Stanley Brown, was loudly applauded; the song of "Fifty Years Ago," by the Prof. and Master Jim, was cheered to the echo; song, "The Music Lesson," by Miss Lora Spinney and Mr. Jim Spinney; the "Confidential Song," by Miss Banks and Miss Spinney, was cheered and rechecred, and the song, "Angel Visitants," by Mr. Will Spinney and Miss L. Spinney, was very touching in its nature, Mr. Spinney appearing as a very old man. At the close of the concert speeches were made by Mr. Fred Newcomb from Cornwallis, who expressed himself highly gratified with the evening's entertainment, and at the same time earnestly urging the young ones to diligently pursue the study of music, and Mr. Wheelock in a neat little speech expressed his appreciation of the evening's performance. Several pieces of instrumental music were furnished at this stage of the evening by Miss Annie Bishop, which were well received. Just here we think a few words regarding the Prof. would not be out of place. The hall in which this concert was held was built solely at the Prof.'s expense, and is finished and furnished in excellent style. It is named Brignolia Hall in honor of an Italian singer, the leading tenor of the world, under whom the Prof. took twenty lessons in singing. So this concert closes up his singing classes for the season, and in a few weeks he and his troupe begin their yearly round of concerts.

ONE PRESENT.

—See adv., farm for sale, D. R. Graves.

—My immense stock of goods for the spring and summer trade is now almost complete. An inspection will convince that it is the largest, best selected, and best value I have ever imported. I shall be pleased to show customers through my stock in both upper and lower story. J. W. Beckwith. 1i

—Our Dominion representative, Mr. Mills, has given notice of a motion to annex the New England States. The motion recites the failure of the republican government in the United States, and the strong indication that a dissolution of the republic is imminent. This, the resolution declares is viewed with sympathy by the Dom. Govt. and authorises the cabinet to co-operate in securing an amendment to the Confederation Act, so as to extend the boundaries of the Dominion, but not to extend westwardly beyond the Connecticut River, Green Mountain and Lake Champlain. The resolution states that the union would be more in the interest of the New Englanders than of the Dominion.

ALDEN'S MANIFOLD CYCLOPEDIA.—It is generally admitted that a good Cyclopedia is a desirable possession for every home. As to which Cyclopedia is the best for popular use, the "Doctors disagree." A customer of ALDEN'S MANIFOLD CYCLOPEDIA writes to the publisher as follows:

"I have been exhibiting the Manifold among my friends and acquaintance, and expatiating on its excellent and wonderful cheapness. There is no reason why every young man in the land who has occasion to refer to a cyclopedia should not possess it. The laying by of but five pennies a day for six months will put him in possession of a work that will be of lasting benefit."

The fifth volume of the Manifold Cyclopedia, which we have just received, more than sustains the good reputation of the previous issues, being especially, more full in its vocabulary and the entire workmanship, both literary and mechanical, apparently being of a high grade. It is certainly not only wonderfully cheap, but a thoroughly excellent Cyclopedia for almost any conceivable use except that of a "trousers press." The publisher will send specimen pages free to any applicant, or specimen volumes may be ordered and returned if not wanted. Reduced rates are offered to early purchasers. John B. Alden, publisher, 393 Pearl St., New York; 218 Clark St., Chicago.

Patent Angle Steel Frame

Spring Tooth HARROW!

Manufactured by Frost & Wood, Smith's Falls, Ont.

THE BEST INSTRUMENT MANUFACTURED FOR PULVERIZING AND FITTING THE SOIL.

I BEG to announce to the Farmers of Annapolis and Kings Counties that I am handling THREE SIZES of this celebrated Harrow. The marvelous success attending the introduction of this Harrow in 1888, was a great inducement for the manufacturers to still further meet the requirements of the trade by making a

ONE HORSE HARROW,

a car load of which I will have in due time, also a car load of the next size Harrow. The Main Draft Bars are on Angle Steel, which give the greatest possible strength, the same being so made as to form the center hinges, thus obviating the necessity of hinges being bolted on, which are always a source of annoyance and loss by getting loose and breaking. The Cross Beams are of the Best Hardwood, WITHOUT BOLT HOLES. The bolt heads are fully protected from undue wear by one of the angles of the Draft Bars.

The peculiar construction of the Malleable Tooth Clips render an easy and quick adjustment of the teeth of any required depth [which can as easily be done in the field as on a barn floor] and it also prevents the teeth or nuts from getting loose. Another great consideration is the easy and compact manner in which the Harrow can be folded for transportation from one part of the farm to another. ALL HARROWS WARRANTED.

I HAVE ALSO IN STOCK A FULL AND COMPLETE ASSORTMENT OF

STEEL PLOWS of All Sizes,

WHICH WITH THE HARROW I OFFER ON EASY TERMS.

The Plows are too well and favorably known to need further comment.

I will have an Agent in the field in due time. For further particulars apply to

A. C. VanBuskirk, General Agent

or to any of the following Agents:—

S. D. R. RITCHIE, Annapolis. ALEX. TURPLE, Granville Ferry. GEO. L. MUNROE, Paradise.

Town *Plot*, March 4th, 1889.

To A. C. VANBUSKIRK,—

Dear Sir.—The U. T. K. Harrow which I purchased from you last spring is just a splendid article for bringing the land into a soft mellow condition for grain or root crops and it never clogs with grass roots or potato tops as the common spike tooth harrow frequently does, and I commend it to the favorable notice of the farmers of this County.

Yours, JOSEPH T. JACKSON.

International S.S. Co.,

Commencing March 12th or 15th.

UNION SELF-WRINGING MOP

The Best in the World.

This self-ringing device consists of 2 rolls, held firmly in a malleable iron frame, between which is a fabric made from the best of stock, and knit expressly for this mop. The fabric has a wire loop securely fastened in each end and is wrung by drawing through the rolls without wetting of the hands. Being soft and pliable, the fabric absorbs water instantly. No pen can do justice to the esteem in which this mop is held. It is cheap, economical, useful, popular, valuable, and does the work easier and better and is more durable than any other self-wringing mop ever made.

Just the thing for Hotels, Offices and kitchen use. Price $1.00. Extra cloths supplied.

McCormick's.
