WHO OWNS ANTICOSTI?

Is Menier, of Chocolate Fame, the Rightful Possessor?

Relatives of a Monsieur Bissot Claim They Were Never Dispossessed Except by Brute Force—Sensation Imminent in the Near Future — Two Suicides—Montreal News.

Montreal, Que., Sept. 11.—(Special.)—There is strong evidence that a big sensation will be sprung upon the community in the near future, regarding the possession of the Island of Anticosti, in spite of the fact that Mr. Menier of chocolate fame has purchased and paid for the island.

Shortly after 1660 the French crown ceded Anticosti to a Monsieur Bissot, of Levis, who had acquired quite a reputation in the colony by establishing mills in different parts of the country. Bissot obtained the famous island by royal decree and he died without any male descendants. Bissot however had several daughters and his so-called heirs are now to be found in Montreal, Quebec and Ottawa. They claim moreover that the family was never dispossessed of Anticosti except by brute force and that they, and not Mr. Menier, own the Island in the Gulf.

These heirs have so much confidence in their case that they have employed Hon. L. O. Taillon to make a minute search as to the legality of their claims and if that gentleman finds them at all valid, proceedings will be at once taken to have this right maintained in the courts. The heirs appear to be sure of a good case and they add that instead of evicting others the enterprising son of the Chocolate King may be evicted himself. It goes without saying that the case will cause more than a little interest in this province.

Montreal News Notes.

Two persons committed suicide here between Saturday and Sunday. Yesterday a man named Louis Paille was arrested for being drunk and placed in St. Cunegonde police station. During the night he made a noose with a handkerchief and hanged himself to one of the gratings of the cell. So determined was the poor fellow to put an end to himself that his neck was broken. Paille leaves three little boys who are nearly heartbroken over their father's terrible end.

The second case was that of a servant girl, whose exact name is not known. She left her latest employer on Friday and her dead body was found on Saturday afternoon floating in what are known as the Papineau road quarries. The unfortunate girl was of unsound mind.

Hon. J. Israel Tarte will be banqueted at Vallefield on the evening of Sept. 20th. His rival, Mayor Prefontaine, will also be dined at the Place Viger Hotel, Montreal, Oct. 12th.

TWELVE BODIES FOUND IN ALL.

Gruesome Task of Searching for the Cornwall Victims—Work on North Bridge Resumed.

Cornwall, Ont., Sept. 11.—(Special.)—Twelve bodies found and three still at the bottom of the St. Lawrence River is the state of affairs resulting from the O. and N. Y. bridge collapse.

D. Hughes' body, found on Thursday, was sent to his home in Cleveland, Ohio. R. L. Dysart of Tyrone, Pa., and Wm. Saunders of Baltimore Md., whose remains were found on Friday, were buried in the Protestant cemetery here. The bodies of P. Murphy of Toronto, John Clause of Caughnawaga and R. Martin of Montreal were found on Friday and sent to their respective homes. Of the six bodies found on Saturday, that of W. F. Jackson of Columbus, Ohio, was taken by his young wife to Windsor, Vermont. The body of Frank Lavigne was taken to his home in Ogdensburg, N. Y. The remains of W. J. Cubby of Paterson, N. J., and Wm. Sherman of London, England, were buried in Woodlawn Cemetery and those of Thomas Birmingham, of Dublin, Ireland, and C. Campbell of South Indiana were buried in St. Columban's R. C. cemetery here this morning.

All the bodies were badly discolored and so decomposed as to be hardly recognizable. Neither Sherman nor Birmingham are known to have any relatives on this side of the ocean. The former was employed for several years on the Cornwall Canal by W. Davis & Son. Cyril Campbell, who was practically a Cornwall man, was only 19 years of age. He was married last winter in Marronette, Wis., and brought his wife to Cornwall only two weeks ago. Cubby and Jackson were the foremen and were recently married, the wife of the former being a Miss McDonald of Cornwall.

The representatives of the N. Y. and O. Company, Pheonix Bridge Company and the Sooysmith Company have gone to New York, where a conference will be held to-morrow to take active steps about the wrecked bridge. Meanwhile work will be resumed on the north bridge to-morrow.

An Immense Corporation.

New York, Sept. 10.—The certificate of incorporation of the great steel trust, to be known as the Federal Steel Company, was filed in the Secretary of State's office in Trenton, N.J. It is the largest company ever admitted under the laws of New Jersey, its paid up capital being $200,000,000.

An incorporation tax of $40,000 was paid to the Secretary of State. The location of the principal office of the company is stated to be at 60 Grand-street, Jersey City.

If you have a painful corn, remember Dr. Russel's Corn Cure will quickly remove it without the least pain. All druggists sell it, 25c.

Missing Girl Found.

The missing girl advertised for in The World last week has been found in Guelph. She was looking for housework. A friend from Toronto found her and brought her home. The cause of her escapade was a little estrangement at her home.

MARTYR AND AVENGER.

Gen. Kitchener Suggests That a College Be Erected in Memory of Gen. Gordon.

Omdurman, Sept. 10.—General Sir Herbert Kitchener, the commander of the Anglo-Egyptian expedition, suggests the establishment of an unsectarian college and a medical mission in Khartoum in memory of General Gordon, the establishments to be conducted by British tutors and to be devoted mainly to educating the sons of sheikhs.

They should issue certificates qualifying the holders to fill Government posts. General Kitchener hopes that the British public will subscribe £60,000 at least, with which sum the college and mission could easily be established.

HIS HAT COST HIM HIS LIFE.

James McKenna of Montreal Breaks His Neck at Morrisburg.

Morrisburg, Ont., Sept. 11.—A sad accident occurred at the Grand Trunk Station here this morning, by which James McKenna of Montreal lost his life. McKenna was on his way to Toronto as a delegate to the Firemen's Convention which is to be held there this week. He was in the rear coach with his wife. On arriving at this station he got off the train intending to ride on the engine. As he was about to board the moving train his hat blew off. He ran back for it and then tried to get on the baggage car, but missed the step. He was thrown against the car wheels and was doubled up in such a manner as to break his neck and received such other injuries as killed him instantly. Mrs. McKenna was almost distracted on learning the sad fate of her husband; they had only been married four months. McKenna was about twenty-eight years of age.

AMERICANS ARE PRETTY SHARP

In the Way of Making Tariffs to Suit Circumstances.

Beauharnois, Que., Sept. 11.—(Special.)—Mr. J. G. H. Bergeron, M.P., opened a series of meetings in his county by a splendid gathering to-day at the church door after High Mass. There was great enthusiasm over Mr. Bergeron's speech, which was a masterly review of the present Government's acts. Speaking of American sharpness at tariff making the member for Beauharnois cited the case of a sale of 300 lamps which Piper & Sons, Front-street, Toronto, had made to the Detroit Tramway Co., the latter company feeling justified in paying the 45 per cent. duty, owing to the excellence of the Canadian goods. It appears however, that as soon as the department at Washington got wind of the sale they made the duty absolutely prohibitive and consequently rendered the proposed purchase impossible.

SWALLOWED CARBOLIC ACID.

Act Attributed to a Long and Painful Sickness.

Montreal, Sept. 11.—Mrs. Catharine Woodfine, a woman of about 40 years of age, committed suicide at her home, 143 Youngstreet, Friday night by swallowing a dose of carbolic acid.

The act was unpremeditated by her and is attributed to a long and painful sickness.

The Independent Forester.

The Hunter-Rose Company have just issued as an extra number of The Independent Forester, called very prettily the Dulce Domum Supplement, a most admirable publication, which for artistic get-up, both in design of cover and in the appropriate illustrations, has rarely if ever been equalled on this continent. The covers are beautifully printed in colors, showing on the front a big figure of a most fair woman, representing the I.O.F., seated on a globe and shielding a wounded man, a widow and child, and an orphan with steaming porringer. Over the globe the woman holds entwined large-sized English and United States flags, while beneath her feet are hands clasped, representing the girdle of the world by the I.O.F. On the back also in colors are portraits of the Supreme Chief Ranger, Dr. Oronhyatekha, the Queen and President McKinley, the last two being in the centre of shields representing their flags. The contents of Dulce Domum, with their beautiful illustrations in red, are "The Hour Glass," by Robert Barr; a brief summary of the area and population of the United States, a sketchy history of Toronto, with becoming views, "The Seventh Man," by Q.; the life of Dr. Oronhyatekha, by Lady Meg; Discouraging a Truth Teller, by Will S. Gidley; a description of The Temple Building; Old Hearts Aflame, by P. Y. Black; the marvelous history of the Independent Order of Foresters—From Birth to Manhood; Salomy Jane's Kiss, by Bret Harte, and appropriate selections.

North American Fence Co.

Messrs. Cook and Hood are more than satisfied with the success achieved by their indestructible farm and railway fences at the late Exhibition, and left this morning for London to exhibit at the Western Fair. Messrs. Cood & Hood have received many letters of enquiry in reference to their patent fences, of which the following is a fair sample:

Newmarket, Sept. 7, 1898.

Messrs. Cook & Hood,

Dear Sirs,—After examining your fence at the Toronto Industrial Exhibition yesterday, I am satisfied it is the best fence a farmer or ranchman can build, where he requires all new material, the main features in it being durability and cheapness.

I will require 40 rods of fence this fall and would give you an order for that amount if you came to Newmarket Sept. 21 and 22, the days of the North York exhibition.

Yours respectfully,
John Currey.

Through the Garden of Canada.

The management of the Hamilton, Grimsby and Beamsville Electric Railway has just issued a handsomely illustrated booklet, describing the Niagara peninsula, and telling a good deal of the wonders of the fruit harvest there. It will be sent free to anyone writing for it.

S. E. A. Satisfied.

The strike of the stage employes, as far as the Toronto Opera House is concerned, has been settled, Mr. Small having granted the increase. The men met yesterday afternoon in Temperance Hall and threshed the matter out. Mr. Small, manager of the Toronto, was generously thanked by the members for the kind manner in which he met the demands of the strikers on Saturday afternoon, and the hands of his theatre went to work at the evening performance.

PUBLIC AMUSEMENTS.

First Opera of the Season.

The first comic opera of the season will be given at the Grand on Wednesday evening, when the Alice Nielsen Opera Company will present Victor Herbert and Harry B. Smith's latest work, "The Fortune Teller." The opera, which was written specially for Miss Nielsen, is said to be the greatest achievement that Herbert or Smith has yet made, and promises to be the most successful operatic event of the year. Miss Nielsen, the charming prima donna, is favorably known here through her appearance with the Bostonians, with which she played Maid Marian in "Robin Hood," which role she filled with great success. When "The Serenade" was produced, she was given the principal soprano part, in which she gained much renown. Mr. Frank L. Perley, who also has the Bostonians under his charge, decided to place Miss Nielsen this season at the head of an organization of her own, and in so doing put before the public one of the strongest comic opera organizations that have yet been seen in America. That he has succeeded in this is certain, judging from the galaxy of clever people he has placed in the cast, among whom are such well-known artists as Eugene Cowles, Joseph Herbert, Richard Golden, Joseph Cawthorne, Frank Rushworth, Paul Nicholson, jr., Franklyn Wallace, Marcia Van Dresser, Jennie Hawley and Marguerite Sylva. Besides these there is a trained drum corps and trumpeters, and a chorus of sixty voices, together with a ballet and large orchestra, under the direction of Paul Steindorff, in all making up a company of over ninety people. The opera will be most elaborately mounted, the scenes, which are laid in Hungary, being among the finest that have ever been placed upon the stage, while the costumes go to make up a picture seldom equalled on any stage. The engagement is for four nights, with a Saturday matinee, the sale of seats for which opens this morning at the Grand Opera House box office at 10 o'clock.

"Forever Devil's Auction."

Charles H. Yale's "Forever Devil's Auction" has always been noted for its beautiful women, and this year's gathering, the management states, will prove no exception to the general rule, with Phyllis Allen, stately and tall, who is purely of the American style of beauty; Mayme Mayo, piquant and pert, who favors more the German blue eyes and blonde hair of the Marguerite type; Mildred Holden, a very handsome brunette, who might be taken for a French or Cuban beauty, but who hails from New York City. Another distinct type is that of Madge Torrance, a statuesque exponent of the clear complexion and rose-tinted cheeks of old England. As for the corps de ballet—"I cannot remember," said Manager Yale, "when I have been fortunate enough to get a prettier lot of girls. It is certainly cosmopolitan in its make-up, for we have beauties from England, France, Italy, Poland, Austria and one even from Russia." What about the American girl?

"Well, you seldom find American coryphees, Ballet dancers as a class come mostly from Europe. There are no 'ballet schools' in the strict sense of the term in this country. In Europe, however, each large city has its regular school. Milan, Italy, has the largest and best, I believe. The girls are sent there by their parents or guardians at an early age, generally at 5 years old, and they go through a long and ardous schooling. Finally, after a number of years, they are placed in the 'back-line' of the ballet of one of the large theatres, and upon their own ability and hard practice depends their advancement. Rather too slow a process to suit the average American girl, so we have to depend upon Europe for our ballet dancers, who are carefully selected by our European agent: First, as to their dancing ability, and also as to their youth and good looks. The same rule also applies to the 'Premiere,' and, referring again to beauty, we have been very fortunate in this respect with the principal dancers engaged for this season." "The Devil's Auction" opens at the Toronto Opera House to-night.

TOO WEAK TO WORK.

A Collingwood, Ont., painter tells how Milburn's Heart and Nerve Pills strengthened his heart, invigorated his nerves, and restored his health.

Weak heart and weak nerves mean weak body. No one can be strong and vigorous with the heart and nerves disordered or diseased. Milburn's Heart and Nerve Pills not only overcome all danger due to irregularity of the heart beat, but through regulating that organ, strengthening the nerves and enriching the blood they give new vitality and energy to the whole system.

Mr. Geo. Gray, the well-known painter, corner of Napier and Simcoe Sts., Collingwood, Ont., says: "For fifteen years past I have been afflicted with very weak nerves and heart trouble. I never could obtain sufficient sleep and felt as tired when I got up in the morning as when I went to bed. In addition to this I suffered much from palpitation of the heart and shortness of breath. My blood was thin and watery and I soon lost flesh and became debilitated. It was a great task for me to walk any distance or follow my usual occupation.

"In March last I got a box of Milburn's Heart and Nerve Pills and they did me so much good that I bought another box. The great change for the better they have worked on me is wonderful. My nervous system is now as strong as ever, my blood has been enriched and my heart beats strong and natural. I now walk and work as well as ever I did and am only too glad to recommend these pills to all who suffer as I did."

Milburn's Heart and Nerve Pills 50c. a box or 3 boxes for $1.25, at all druggists. T. Milburn & Co., Toronto, Ont.

LAXA-LIVER PILLS cure Sick Headache and Biliousness. Price 25c.

Steps-to-Health

STEP NUMBER ONE

Dr. WARD'S BLOOD & NERVE PILLS MARK

...Take Dr. Ward's Blood and Nerve Pills. They cure Heart, Nerve and Blood Troubles, and fill the system with Vim, Vigor and Vitality.

Vim Vigor Vitality

For the System

My system was entirely rejuvenated by the use of Dr. Ward's Blood and Nerve Pills, and I consider them a marvellous strength and nerve builder for dyspepsia. I was so sick and miserable that I seemed to have no life or energy left in me. I suffered so at times that I thought death would be better for me. I had tried doctors and different kinds of medicines, but all failed to do me any good. I am in every way now a well woman and have been for months. Before using these pills I was so sick that I could not keep anything in my stomach. I was under the opinion that dyspepsia could not be cured, but now I am satisfied it can be cured, for I am able to eat like any healthy woman and feel better in every way. They have built me up also—I now weigh several pounds more than I ever did before. In conclusion, I would advise every woman afflicted with poor digestion to give Dr. Ward's Pills a trial. Mrs. L. E. Watson, Port Colborne, Ont.

For the Nerves

"My daughter has for eight years been a great sufferer with nervousness, anaemia or weak blood and sleeplessness, caused by inflammatory rheumatism. She was so nervous that the least noise startled her, and her blood was so impoverished and thin that her hands were like a dead persons hands. She had no color and was very thin. When having her oft-repeated nervous attacks her heart action was terribly weak, causing difficulty in breathing. She had tried very nearly everything, and nothing did her such immediate good as Dr. Ward's Blood and Nerve Pills. They have helped her wonderfully, making her nerves stronger, enriching her blood, giving her strength, enabling her to get natural sleep, restoring healthy color and building her up. They are a sure and quick strength restoring medicine for physical and nerve weakness. (Signed,) James Benor, Campbellford, Ont.

For the Blood

Gentlemen,—I have for a long time needed something to make blood and build up my system. My blood was watery and thin, lacking strength and vitality, consequently I was weak and nervous. Last January a friend said:—"Why not try Dr. Ward's Blood and Nerve Pills? They will supply the oxygen your blood needs and give you health and strength." I told him I was very skeptical as to any benefit that could be derived from any proprietary medicine and had no faith in them. There the matter rested until four months ago when reading so much about what Dr. Ward's Blood and Nerve Pills have done for so many people with impoverished blood, I concluded to give them a trial. I have taken four boxes and my unbelief so far as Dr. Ward's Blood and Nerve Pills are concerned has been entirely removed. They are a splendid blood builder and strength restorer, and an invaluable medicine for weak, enervated people. This has been my experience, they having given me strength of body and strong healthy blood. Dr. Ward's Blood and Nerve Pills accomplished this great result notwithstanding the fact that I was greatly prejudiced against all proprietary medicine, including Dr. Ward's Blood and Nerve Pills. They, however, stood the test, accomplished the good they are recommended for and I am fair enough to give them credit for the same. (Signed) Peter Lawrence Whyte, 988 Queen Street West, Toronto, Ont.

All good druggists can supply you—if they can't, we will by mail. Price 50c per box; 5 boxes for $2.00.

The Doctor Ward Company, Limited, Dept. W., Toronto, Ont.

Wise People Take Ward's.

Princess.

"Confusion," Mr. Nat Goodwin's immensely funny farce-comedy, will be presented this afternoon and evening at the Princess Theatre, inaugurating the company's third week in Toronto. "Confusion" is said to be one of the funniest farces ever seen in a Toronto theatre, and furnishes complications which bring continuous shouts of laughter from beginning to end. Every character in the farce is a comedy part and in most capable hands, and consequently there will not be found a single dull moment in the entire performance. Two servants, a pug dog and a baby set the pace, which runs through three acts before things are straightened out, and during all this time laughter reigns supreme. The entire company will be cast to its best advantage, the comedy will be handsomely staged, and a week of genuine amusement is promised. Matinees continue daily, as usual.

At Park Munro.

The Street Railway Company has arranged for a military band concert tonight and every night this week in Munro Park. Each of the city regimental bands will take part. There will also be some fine singing and instrumental solos each evening. If the weather is fine and warm there will be matinees on Wednesday and Saturday at 3.30.

BOSS OF THE PENSION LIST

Henry Clay Evans of the United States Pension Department Talks to The World.

A visitor now in the city is Mr. Henry Clay Evans, Chief of the Pension Department of the United States. He is here on a pleasure trip. He considers Toronto one of the cleanest cities he has ever visited and thinks, from the beautiful residences and the number of factories, that Toronto must be a good place in which to make money.

Mr. Evans' department pays in pensions $145,000,000 a year, and there are some 2000 United States pensioners in Canada. The recent war will not affect his department to any considerable extent, as there were few killed.

When the war started the recruiting stations in Washington were places of great excitement, crowded all day with applicants, who were greatly disappointed when they were not called out.

The Anglo-American sentiment is no myth, he says; there is a warm British feeling in Washington and over all the United States. Mr. Evans will go to Ottawa and make several of the popular Canadian trips during his stay here.

SUNDAY POLICE STATIONS

Aggravated Assault—A Shoplifting Charge—Furniture Stealing—Inquest.

Yesterday P. C. Crowe placed William Welsh, 5 McCaul-street, under arrest. It is alleged that he committed an aggravated assault on Lottie O'Dette.

Maria Jones was arrested at the T. Eaton store on Saturday afternoon by P. C. Roberts on a charge of shoplifting.

John O'Connell, 221 Church-street; Samuel Allen, same address, and John Irwin, 263 Booth-avenue, were prisoners at No. 1 Police Station yesterday. Luther Whitewood, 82 Church-street, accuses the trio of stealing some furniture from him.

At No. 3 Police Station on Saturday night Coroner Orr continued the enquiry into the death of John Gillett, who met his death near the Strachan-avenue crossing, by being struck with a C. P. R. train, on Thursday morning last. After hearing the evidence of several witnesses, the jury returned a verdict of accidental death and that no blame attaches to the employes.

Ada Macdonald, a young woman, was taken into custody last night for being an inmate of Kate Lavin's resort, 70 Richmond-street east. She gave her address as 167 Claremont-street.

Mail Train on Fire.

Boulogne, Sept. 11.—The morning mail train from Calais for Paris, with the English mails, was discovered to be on fire not far from Boulogne, as a result of a heated axle. A number of mail bags were burned and others damaged.

Three times the value of any other seed. Sold everywhere. Read COTTAMS illustrated BIRD BOOK, 96 pages—post free 25c.

PACIFIC CABLE SCHEME.

Chamberlain May Pay a Flying Visit to Ottawa to Talk Over This Matter.

London, Sept. 11.—It is expected here that Mr. Chamberlain, before returning home, will pay at least a flying visit to Ottawa, in order, among other things, to talk over the Pacific cable scheme. There is good reason to believe that the Colonial Minister has persuaded the Chancellor of the Exchequer to agree to provide money for a subsidy for all the British cable routes in the Pacific and that an important announcement on the subject will be made early in the next session of the Commons.

All the colonies have now agreed to share in supplying the subsidy, or to guarantee 3 per cent. upon the capital of the company or companies which may lay the cables.

IMPERIAL TRUSTS CO.
