Minard's Liniment is the best.

An edict has gone forth from Ottawa that the "u" must be used in such words as "labor," because that is the English way of spelling. There are not enough cranks at Ottawa to make us put a "u" in such words, for it is as useless as a third wheel to a cart, and the order in reference to it is the work of somebody whose presence in a lunatic asylum would not make the inmates think a stranger had arrived.

On Saturday evening John Ball got on one of his periodical drunks and flourished a relvolver to accentuate his declarsion that he was "not goin' to bide in 'dis man's town no more." County Constable Geo. Brown gathered him in and he spent Sunday in the lock-up. On Monday he was brought before Justice Cawley on a charge of disorderly conduct and was fined $3 and costs.

The Almonte Gazette of the 27th ult. contains the following announcement:—On Wednesday there was a flutter in social circles in town, caused by the marriage of Miss Nettie Howe to Mr. David Moffat, a popular millwright of Ottawa. The ceremony took place at the residence of Mr. H. Howe, father of the bride, the knot being firmly tied by Rev. Mr. Tennant. Miss Lucy Howe, of Athens, was bridesmaid, and Mr. J. C. Gilchrist, of Fitzroy, acted as groomsman. The bride received many choice wedding gifts.

The High schools closed last week for the long vacation and many of the pupils have returned to their homes to await examination day. But many others, and these we think wisely, are remaining in Athens and devoting the week to a comprehensive review of their studies. A change of scene necessarily diverts the mind from studious channels, while here old associations prompt the student to close application to preparatory work, and the result is that in the evenings our streets are deserted so far as the enlivening influence of the presence of students is concerned.

Now that the torrid heat of summer is upon us, rank odors arise from many back yards, the cleansing of which has been neglected. The public health by-law is a stringent one, and we understand will be vigorously enforced by the Board of Health, so that those who have so far neglected to remove their refuse will do well to take this hint and do so before the inspector calls around with a summons. Foul, decaying vegetable or animal matter breeds fevers and pestilence, the end of which is death. Lose no time in removing the primary cause by making a liberal use of disinfectants, thereby saving doctors' and undertakers' bills.

CANADA'S GREAT FAIR.—The Receipt of a copy of the Prize List for this year's Toronto Industrial Exhibition, which is to be held from the 8th to the 20th of September next, reminds us that the fair season is fast approaching. The Prize List shows the addition of many new classes and a large increase in the amount offered as premiums. Toronto offers many attractions to visitors during the season, but the greatest of all is its annual Exhibition which this year promises to be greater and better than ever. A copy of the Prize List can be obtained by any of our readers, who may desire one, by dropping a post card to MR. H. J. HILL, the Secretary, at Toronto.

James Johnson, a painter from Brockville, who has been employed here for some weeks past, was arrested on Thursday last for being drunk and disorderly. He resisted arrest but Chief Phillips overruled his objections in a very forcible manner and he was lodged in the cooler. On Friday morning he was brought before Justices Cawley and Loverin and was fined $1 and costs, amounting in all to $5.50, with the understanding that prisoner was to leave town at once and not return. On Saturday morning he obtained the money required to procure his freedom and the chief escorted him to the train and gave him a send-off in the form of a ticket for Brockville. The prompt and effective action of the village authorities in punishing such lawlessness as this man was guilty of is to be commended, and should prove a deterrent to others who may feel inclined to create a disturbance here.

The lawn social held at the residence of Mr. Saunders on Friday evening was a highly successful affair. The night was beautifully fine—just the kind of night to tempt villagers to take a stroll, and many from Athens and the country assembled on the spacious lawn. Lamps and Chinese lanterns, aided by the moon's pale light, shed a soft radiance among the shrubbery, making a scene lulling the senses and suggestive of peace and quiet enjoyment. During the evening refreshments consisting of [illegible] ice cream were served. An [illegible] gram was presented by [illegible] Mrs. W. M. Stevens, [illegible] Messrs. Kennedy, [illegible] he choir of the [illegible] discharged [illegible] uring the [illegible] and were [illegible] lderly

A sad drowning accident occurred on the river at Brockville on Sunday last. Wm. Casselman, John Major and two young girls, Miss McMahon, of Brockville, and Miss Graham, of Caintown, were returning home from a pleasure trip up the river when through carelessness the boat was capsized and Casselman and Miss McMahon were drowned. The other two had a very narrow escape, a rescue party arriving just in time to save them from the fate of their companions. The river at this point was found to be in depth 105 feet. Casselman's body was recovered after a lengthy search. The moral of this sad affair is too obvious to require pointing.

Delta Methodist Church.

The anniversary services of the Methodist Church in Delta have been in the past invariably successful and have always been largely attended. The services for 1890 will be held on Sunday and Monday next. On Sunday sermons will be preached at 10.30 a. m. and 7 p. m. by Rev. W. H. Emsley, of Brockville and at 2.30 p. m. by Rev. G. S. Reynolds, of Seeley's Bay. A liberal collection is requested at each service. On Monday evening a tea will be served in the basement from 6 to 8. Addresses will be delivered by several rev. gentlemen and good music will be furnished by the choir. Admission to tea, 25c.

Minard's Liniment for Rheumatism.

Christ Church Pic-nic.

The members of Christ Church, Athens, are to be congratulated upon the success of their annual pic-nic in aid of the church fund, which occurred on Wednesday last. The tables were spread in the spacious basement of the church, which had been lately fitted with flooring and other improvements, making it one of the most commodious dining rooms in connection with any of the village churches. Three times the tables were filled to overflowing with rich and tempting viands and by the way they disappeared their flavor must have been appreciated by the guests present. At 2 p. m. the crowd repaired to Taplin's grove, where a platform and seats had been prepared. The chair was taken by the Rev. Rural Dean Grout, of Lyn, who has the happy faculty of being thoroughly at home in that position. He called upon His Honor Judge McDonald, and Revs. Bousfield, of Newboro; Moore, of Lyndhurst; Young, of Lansdowne; R. N. Jones, Pakenham; and the rector of the Athens parish, Rev. Wm. Wright, who all made short and pointed addresses and succeeded in interesting the large audience present. After the speeches, a large number partook of tea in the basement of the church and about sundown the proceedings of the day were brought to a close with the pleasing announcement that the receipts from all sources amounted to over $200.

The High School.

As will be seen by adv't in another column, the council of Rear Yonge and Escott are moving to withdraw from the support of the Athens high school. This movement, if successful, would place that municipality in the same relation to the school as other adjacent municipalities bear, which, while not contributing one dime to the support of the school, irrespective of their proportion of the county grant, have their children educated here free of charge. It is not often that a body of men are found willing to pay for what they can obtain for nothing, and so the action of this council is not to be wondered at, even though it may be difficult to harmonize their action with the generally recognized value of having education as free in the high as in the public school. They may find that they are legislating for the benefit of the few to the injury of the many. The arguments used successfully in the advocacy of free public schools can be extended with almost equal force to the high schools, and if the action of this council, and of others similarly situated, have the effect of calling forth a provincial enactment, good will in the end result. It has always seemed to us an injustice that the municipalities constituting a high school district should pay for the education of children from outlying sections, and a provincial law defining high school districts would, we believe, prove popular. The practice of charging for tuition, pursued by many high schools, is not in harmony with our free public school system, and should be resorted to only as a measure of protection.
