A NEW BRUNSWICK SCOTTISH IMMIGRANT.

BY GEORGE PETRIE.

Land o' the glens! my native land;
Auld Scotia, dear romantic strand,
Whaur I snce mair wad gladly stand,
And roond me gaze;
On hill and glen and mountain grand,
Wi' rept amaze.

Alas! its thirty years an' twa
Since: thee, dear Scotland last I saw,
Since frae thy shore I sailed awa'
Oot ewre the sea,
While fast the tears adoon did fa'
At leaven thee.

I mind as weels I mind yestreen
The sad farewell—the parting scene,
The swellen sails—the billows green,
Auld ocean's roar.
The last long look wi' strainin een
At Scotia's shores.

But oh! lang years hae gaen sin syne,
And mony a queer mishape been mine,
My native land! I ne'er can tyre
My dreams o' thee;
Tho' far beyond the ocean's boundry line,
My ways m' un be.

Tho' I who left thee young and gay,
Am noo gey auld an' growin' gray;
Yet thee dear land in mony a way
My thaghts employ,
These fill my heart frae day to day
Wi' secret joy.

I aften think some future day
Will see me climb yon sunny brae,
And many the bloomen heather stray,
Or lay me doon
To watch the peewits, in their play,
Come clir.in doon.

But oh! how sad my heart wad be,
My native land! to veesit thee;
For those that were sae dear to me
I'll see nae mair;
Twid grive me lang their place to see,
And them not there.

Yet whiles of some fameeliar scene
O' auld lang syne I fondly dream,
And many a dear departed freen
I seem to see,
Tho' mony a lang mile lies between
Their graves and me.

Auld Scotia! land o' hill and glen,
O' fairest maids and bravest men;
Land of renown—I dinna ken
Ii e'er I'll see
Thy dear romantic shores again;
Sae here's to thee.

Kintore, Victoria County, N. B.

Mill Burned.

SUSSEX, April 25.—When Samuel McAnley, of Lower Millstream, left his grist mill at dinner hour yesterday there was no signs of fire about the premises, but fifteen or twenty minutes afterward the young lad whom he had left in charge during his absence discovered smoke and fire bursting through the floor and at once gave the alarm. Despite the exertions made to save the building the flames rapidly gained headway and soon burned to the ground with the largest part of its contents. Beside the grist mill, machinery and a large quantity of grain, a valuable shingle machine was destroyed. Mr. McAuley's loss is particularly unfortunate as he carried no insurance.

The wife of Squire Edward Price died at his residence, New Line Road, this morning.

Court at Woodstock.

WOODSTOCK, April 25—The circuit court opened today, Mr. Justice Landry presiding. There was only one criminal case, the queen vs. Joseph Pomeroy, charged with rape. The jury disagreed and the prisoner was let go on his own recognizance to appear in October.

Rev. Mr. Rutledge left Woodstock for his new field of labor in Gaysboro, N. S., today. On Monday evening there was a large gathering in the Albert street church, when an address from the citizens was presented to the reverend gentleman. On Friday evening last the members of Ivanhoe lodge, K. of P., presented Mr. Rutledge with an address engrossed on parchment and a gold headed cane

Canadian Sympathy Wanted.

MONTREAL, April 27—The Star's special cable says: Canada is being urgently appealed to to assist disfranchised British subjects to secure citizens' rights in the Transvaal, where affairs are again reaching a grave crisis. The South African League, of which Cecil Rhodes is president, representing the best British interests in South Africa, has despatched a cablegram to the British Empire League of Canada, indicating that the hands of the imperial government would be greatly strengthened if Canada made known at this critical juncture her sympathy with the Uitlanders' petition now before the Queen.

A Big Canadian-American Combine

TORONTO, April 27.—Mr. E. G. Leckie, of Sudbury, Ont., managing director of the Oxford Copper Co. of New Jersey, which refines nickel matte, a product of the Canadian Copper Co., announces a syndicate of American and Canadian capitalists have been formed to erect works for the refinement of nickel ore provided the Dominion government will make certain concessions, the principal of which is free coal. The capital of the proposed company is to be $2,000,000, with power to increase to $5,000,000. It will put up the biggest ore refinery in the world, and will be prepared to treat also copper ores of British Columbia.

A Nova Scotia Stamp Mill.

Some weeks ago it will be remembered that the Arlington Gold Mining Co's mill at Mooseland was destroyed by fire and the development works on these areas came to a stand still. At a recent meeting of the directors held in Truro it was decided to erect a new 30-stamp mill of modern design and equipment and this undertaking, when completed, will be a valuable addition to the district. The men chiefly interested in this company are E. E. Fraser, St. John, president; Dr. Hayes, Parrsboro, vice; J A Lundstrum, Truro, secretary; James Billman, Halifax, treasurer.—[Industrial Advocate.

A Big Press Excursion.

Mr. J. B. Lambkin, district passenger agent of the I C R, arrived in the city from Halifax Tuesday afternoon. His business is in connection with an important press excursion to be run by the I C R to the maritime provinces. It will be probably in the first or second week in June, starting from Ottawa, and the importance of the excursion to the provinces will be seen when it is stated that those to come will be the representatives of the principal papers in the United States from west to east. It will be exclusively a press party, and will be the most representative newspaper excursion ever visiting these parts. Its results should be far reaching in the interests of summer travel to the provinces. Mr. Lambkin has been interviewing the city officials and board of trade of Halifax, and that city will do its share in entertaining the visitors when they are there. The co-operation of St. John is also wished, and Mr. Lambkin will call on the city council, the board of trade and tourist association in connection therewith. There will be from fifty to one hundred of the United States big newspaper representatives on the trip, and when their pens get to work in descriptions of the great attractions for summer tourists to the provinces much good must result.
