DONOVAN WILL MOVE SO HE THREATENED

Ida Thinks the Fans in Syracuse Would Rejoice Should the Club "Blow.'

By Ida L. Webster

For the last two weeks, every day has brought forth a different club in the International League which is willing and anxious to transfer its franchise to Hamilton or London, but so far there has been nothing done by any of them—that is, nothing but a lot of talk, which has naturally developed into a lot of free newspaper advertising, showing right off the bat that every baseball magnate in this league, particularly, is publicity mad, and when all else fails they start to rave about closing out, or moving out, and thereby get their names in the press once again. However, if they would stop for a minute and think it over, they would understand that repeated "bulling" is not good advertising, but the paving-stones which go to make the said persons a joke.

The latest person to get the Hamilton craze is Donovan of Syracuse. He apparently would take the step as a means of punishing the citizens of that city for their neglect to patronize his club. At any rate, on Sunday he made the announcement that unless the fans of Syracuse made a noise like attending the games he would certainly take the club out of the town. Probably that is exactly what the citizens of Syracuse are hoping for, and Mr. Donovan is rather taking it upon himself when he makes such dreadfully threatening statements. In fact, there are fans in this world, who would insist on Donovan paying a large indemnity for palming off an aggregation on them such as the Syracuse outfit, and they would be perfectly justified. A manager or an owner must think that the public is badly off, indeed, for amusement, when the would sit, day in and day out, and watch a crowd of birds playing ball who are not capable of playing a good game of casino.

There is no reason on earth why Syracuse would not be an excellent ball town, providing, of course, that the fans were given baseball, but certainly the brand of stuff which is being dished up by that club is quite enough to put the buck on the national pastime for life. Not only is it bad in Syracuse, but it is equally as bad when that club trots around the circuit; that is, it is bad for all the other fans who attend the International League games, and when you consider that there are at least three clubs in the league are at least three clubs in the league which are anything but good, then it is a mystery that anyone ever goes to a game in any of the towns. Any owner who asks 50 and 75 cents a throw from the suffering public to see a game in the present International League should be arrested for highway robbery.

Their Coin Looks Good.

Hamilton or London either would no doubt be as good as Newark, Jersey City or Syracuse, but you can bet your roll on it that they would never be able to charge one-half a bone other than Saturdays or holidays for the games, because the folks up in those towns have more regard for their money, and more power to them. Also there is no reason why the owners of the clubs should ask more than that during the week. They certainly cannot plead war measures, because the war has the effect of lessening their pay rolls, and there are players in the International League who are playing for their car fare, and very naturally their work shows it, but even the very highest salaried man in the league is a joke compared to what his monthly allowance would be if times were normal, so you see when the clubs keep right on charging the usual admittance fee, they are getting away with murder, because they are neither under the expense, nor are they giving you the brand of baseball of the olden days. Of course they all have the same old story that they are getting the best players available. This may be true, but that has nothing whatever to do with the public. All that concerns the fans is what the club can do.

Certainly it is of no personal interest to you, just what a hard and wearisome time the owners of the ball clubs are having in their efforts to get players. That is their hard luck, and if the task is too much for them, then let them get out and give someone else a chance who will not talk so much but show better results. All that concerns the public of any city so far as the ball club goes is getting the value of their tickets, and if the club is poor and the price of admission is low, then there is no kick, but why should any bunch of fans be asked to pay regular baseball rates for the sort of ball that is being served in most of the clubs in this league? For instance why should the fans in this city pay to watch such clubs as Jersey City, Syracuse and, in fact, all the rest, with the exception of the two leaders and the Leafs themselves. Twenty-five cents is plenty for any of them, and when they visit here unless they look alive and get a few real players, that should be all that the owners of the Toronto Club should ask as a general admission.

Up to the Owners.

It does seem rather a stiff thing to ask all the owners in the league to suffer for a few, but it is worse to ask the public to do so, and what is more the public are not responsible for the getting together of the league, nor were they asked in any way just who should be admitted and who left out. The owners and presidents did this in their particular manner, and now it is up to them to go right thru with it, and see to it that the fans are given their money's worth, or that the price of admission is lowered to meet the brand of baseball. It is to be hoped that no one will step forth with the plea that to lessen the admittance fee would be to lessen the standard of the game. At the present time it would not be possible for the present International League baseball to be lessened, and still come under the heading of professional ball.

The Toronto Club has managed to get together as good a gang as there is in the whole league, and that goes for Binghamton also, because altho the Bingos are leading with a great majority, yet at the same time the players are not of any higher calibre than those who are playing on this club, that is, when they are taken on an average. Right now there are a lot of people howling for a new pitcher, and a new outfielder, and a new catcher, notwithstanding the fact that there are already three of the latter attached to the string. It is said that the new pitcher must be able to win games. Does this mean that he is never to have an off day? As for Anderson, not being eligible for the fold, it is ridiculous, as well as the statement that Red Fisher is not fast enough for the bunch. The whole trouble with this club appears to be that there are altogether too many legal advisers, and what is more unfortunate about the whole affair is that these same advisers do not know the first thing in this world about baseball players. They are the sort of people who want the club to win every day, and if a player happens to fall away for a few days they immediately roar about how rotten he is, and yet this club listens to everything that they say, and immediately acts upon it, instead of passing it over as such senseless drivel deserves to be handled. If a new outfielder is to be procured why not get a man who knows the game, because it is a cinch that they will never get a young fellow at this time of the season who is worth his salt, and after all experience often wins as many games as dashing youth. Once more we suggest Schaefer, and as the Newark Club does not have a hundred fans a day in their park surely they would hand over the star to some city that does get a crowd. Do not let it slip your mind that altho Schaefer did not make a record with bits while he was here, yet he managed to get on three out of four times at the bat, and, boy, how he can field. Let's get him right now.

PRESIDENT TENER VALUES HIS HONOR

Too Highly to Remain a Member of National Commission After Perry Case.

New York, July 9.—The imbroglio between the American and National Leagues regarding the status of Player Scott Perry flamed afresh today, when John K. Tener, president of the National League, notified his club-owners that he would have no further dealings with the National Commission, of which he is a member.

President Tener's letter to the National League club presidents read:

"On the 12th of last month the National Commission, after careful consideration of all evidence, made decision in what is known as the Scott Perry case, and with which you are familiar, resulting in the awarding of that player to the Boston Club of this league.

"As soon as the president of the American League had knowledge of the finding he advised the commission as follows: 'Under no circumstances or conditions will Perry be turned over to the Boston Club.' Shortly thereafter the Philadelphia Club of the American League took the case to the courts of Cleveland and asked for injunction in order restraining the commission from putting its decision into effect, and setting the date of July 20 for a final hearing of the case.

"Under the terms of the national agreement, the ruling in any case brought before it in which it has jurisdiction, is final.

"The case above referred to is probably the first instance where a major league club has violated this agreement in baseball law by appealing the decision of the commission to the civil courts.

"In my opinion, the defiance of our laws by the Philadelphia Club of the American League constitutes such a breach of the agreement and good faith that this league can no longer, with honor, continue its representative on the National Commission. I beg leave, therefore, to advise you that hereafter I will give no attention or consideration to any cases submitted to which the American League is a party. We cannot continue to maintain our honor and self-respect by dealing with those who consider our agreements and baseball law as mere 'scraps of paper.'

"Baseball finds itself, with regard to its business, in an unfortunate position, due to war conditions; nevertheless, it is most important to keep organized in order, so that, when business is adjusted to normal conditions, it may be prepared for its share of prosperity, and that with honor."

Giants Win From Cubs, Vaughn the Guilty Man

At Chicago (National)—Jim Thorpe's home run drive into the left field bleachers gave New York a 7 to 6 victory over Chicago, after ten innings, yesterday. Failure of Deal to cover third in the eighth inning, unnerved Vaughn, who went to pieces. With men on first and second Vaughn took Thorpe's bounder and tossed to Deal, in an attempt to force Wilhoit, but Deal was too far from the base. Vaughn then made a wild pitch which scored two runs, and Zimmerman followed with a hit which gave Thorpe home with the tying run. Outfielder Young, who twisted his ankle slightly in yesterday's game, was unable to play. Score:

										R.	H.
New York	0	0	0	0	0	0	3	3	0	7	13
Chicago	0	0	0	0	5	1	0	0	0	6	9

Batteries—Anderson, Causey and McCarty; Vaughn, Douglas and Killifer.

At Pittsburg—Fillingim, pitching for Boston, was hit hard by Pittsburg yesterday, resulting in victory for the home team, 7 to 2. Cooper, the Pirate moundsman, was steady and he kept the visitors' hits scattered. Score:

									R.	H.	E.
Boston	0	0	0	1	0	0	0	1	2	8	1
Pittsburg	0	2	0	0	1	0	1	0	7	11	2

Batteries—Fillingim and Wilson; Cooper and Schmidt.

At Cincinnati—Cincinnati-Philadelphia game for yesterday played July 7.

At St. Louis—Altho Brooklyn got 12 hits for a total of 20 bases, the visitors could not connect at the right time, while St. Louis hit Cheney opportunely and, aided by five wild pitches, won yesterday's game, 6 to 4, for an even split of the series. Score:

									R.	H.	E.
Brooklyn	1	0	0	0	0	0	0	3	0	4	12
St. Louis	2	2	0	0	1	0	1	0	*	6	12

BAN WAXES SARCASTIC IN SPEAKING OF TENER

Chicago, July 9.—President Ban Johnson of the American League, replying to the statement of John K. Tener, president of the National League, that he would have no further dealings with the National Baseball Commission in any cases in which the American League is a party, said tonight that he feared no break in the relations with the National League, as he understood President Tener would shortly resign.

"The contemplated resignation of President Tener from the presidency of the National League occasioned me no surprise," said President Johnson. "From advices I have received from several sources, the course he has taken is absolutely necessary for the welfare of baseball, in view of the fact that he devoted so little attention to the affairs of the game.

"Morally and technically, Manager Mack of the Philadelphia Club can be justified in the position he has taken in the Perry case. Governor Tener has on one or two occasions been a party to decisions of the commission that seemed unfair and absurd to me, but I never accepted that as an excuse for declining to serve as a member of that body.

"I presume the parent body will find no difficulty in ably filling the position Governor Tener has finally determined to vacate."

In the evening a huge bonfire was burning during the entire service and added materially to the general effect of the surroundings. Mr. Hagerman's talk was a masterpiece on "Our Attitude Towards Athletics," and the boys listened with intense interest for fully an hour to Mr. Hagerman's plea on the relationship of a clean life to a successful career in athletics or any other sphere of life.
