Clean Up the Civil Service.

Editor The Evening Telegram.

Dear Sir,—Please find space in your valuable paper for the following:—

Now the elections are over and the People's Party has again been returned to power, we should turn our attention to the affairs of the country in general and ask our representatives to try to bring about better conditions, especially from an economical point of view. The general opinion here is, that for a starter, there should be something done towards reducing our civil service. It is a well known fact that we have too many public officials, many of whom presumptuous upstarts, who, when they get a job in the Government, imagine they own the universe, and instead of being a public servant, constitute themselves their master. It is a case of swelled head and two or three inches extra chest measurement with some of them, and it never was more in evidence than when the election returns were coming in this fall in some parts of this district. Since the present Government was returned to power in 1909 the civil service has been increased out of all proportion to the increase of either trade or population. Take Belleoram, for instance. Previous to 1909 one man, the present Sub-Collector, Mr. F. Curnew, who is a very capable and very popular man did the work of all the bay east. Since then a Tidewaiter has been appointed at Belleoram with a large salary to do the work which was being done by an old fisherman for about thirty dollars yearly. Not only does an old fisherman lose his thirty dollars but a young able-bodied man gets almost twenty times as much, all of which comes out of the very fishermen whom they put out of the job. Conditions are even worse in St. Jacques than Belleoram. There are three men drawng yearly salaries at this place, and I understand two or three more emergency men who I presume are employed when a big shipment arrives, or on the arrival of a large number of vessels from foreign ports. This is the state of affairs all over the country, paying out large salaries to able-bodied loafers instead of increasing the old age pension fund. Another thing I wish to mention is the way coals and produce are sold in this bay. A little while ago a vessel began selling produce in Belleoram with a measure that some of the purchasers claim did not have the right weight by 20 lbs. on a barrel of potatoes and 50 lbs. on turnips. This is a ridiculous thing to happen right under the eyes of an Inspector who is drawing a salary to look after those things and to whom I understand a complaint was made about the same thing. This condition of affairs will not be tolerated much longer, and if that Inspector at Belleoram will not do his duty he must give up the job to someone who will.

Mother! If Child's Tongue Is Coated

If cross, feverish, constipated, bilious, stomach sour, give "California Syrup of Figs."

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, dosen't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment gven in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "Calfornia Fig Syrup Company." Don't be fooled!

Little Girl Meets Painful Accident.

Yesterday afternoon little Evelyn Carter, aged six years, met with a very painful accident at the home of her parents on Quidi Vidi Road. She was playing in the kitchen with her elder sister Edith when suddenly she fell from a chair to the floor. She tried to protect herself with her hands with the result that one of her arms got broken, the bone snapping off near the shoulder. Dr. Macpherson who was summoned, reset the bone and put the injured member in splints.

BUC, France, Nov. 25.

Edmond Parreyo, one of the best known aviators of France, was killed to-day.

OTTAWA, Nov. 25.

Denial was made this morning of the rumor sent from Ottawa, that the Duchess of Connaught was again stricken with illness.

WASHINGTON, Nov. 25.

Premier Borden, of Canada, will be entertained at dinner on Friday, by Secretary Bryan. He is now at Hot Springs, Virginia, and is expected to arrive here on Friday morning.

VANCOUVER, Nov. 25.

The biggest gale for the winter was reported off Cape Flattery last night, when the wind reached a velocity of 52 miles an hour. The British sloop of war, Algerine, Commander Brooner, en route to Mexico, lost her propeller, and was forced to return to Esquimault under sail. Sailing vessels have been held for a week inside the Straits of Juan de Fuca, finding it impossible to beat around the Cape.

LONDON, Nov. 25.

Premier Asquith received a deputation to-day, which proposed measures such as increased pay and certain privileges to attract men to the territorial forces, which are 62,000 short. Viscount Haldane, speaking in London, in the evening, complained that young men were more attracted by football and golf, and latterly by the Tanjo rather than by service in the forces of Defence.

PHILADELPHIA, Nov. 25.

Two men were stabbed to death and three fatally wounded in a fight with stilletos in a darkened room in the foreign section of this city. Scarpeto, a peanut vendor, is alleged to have caused the arrest of another foreigner, following a dispute. The arrested man's friends stormed Scarpeto's room. In the melee a kerosene oil lamp was overturned, and the battle continued in the darkness.

SIMLA, Nov. 25.

The effect in India of the agitation among the Hindoos of South Africa, where they are protesting against the restriction of Asiatic immigration, is serious. The Indian Government cabled twice during the last few days impressing upon Lord Crewe the need of an impartial investigation into the charges of ill-treatment in the mines, urging that the Hindoos be represented in direct negotiations between the Government of India and South Africa. Governor General Gladstone and Viceroy Hardinge have already exchanged cable messages on the subject.

LONDON, Nov. 25.

General Botha, in a speech upon the Indian situation at Natal, last night, made it clear that South African autonomy was to be respected, as much as that of Canada, Australia or New Zealand. Interference by His Majesty's Indian Viceroy in a matter which was obviously a domestic one, would not be tolerated. The South African Government, he claimed, had every right to deal with the present situation in its own way. He uttered a serious warning about the possible mischief that might arise from criticism in the British press, of the treatment of Indian coolies. He said that if any genuine case of cruelty was brought to notice, the Government was ready to make thorough investigation. So far, there was nothing to support the allegations made.
