BRANTFORD LABORITES HAVE TACKLED THE H. C. OF L. PROBLEM

Everything From Coal to Spuds in the Probe.

SUFFRAGETTE TO SPEAK

Workman Is Seriously Injured by Piece of Flying Machinery.

[Special to The Advertiser.]

BRANTFORD, Nov. 30.—The trades and labor council of Brantford is calling for an investigation into the high cost of living. Three members were appointed to represent the council on the civic committee appointed to investigate the question. The labor council through resolution will ask the committee to immediately inquire into and ascertain the cause of the high cost of coal, bread, flour, wheat, canned goods, butter, eggs and packing factory products, and to place the responsibility for same. A representative of the Equal Suffrage League has been invited to address the next meeting of the labor council.

Workman Badly Injured.

Charles Huffman is in a precarious condition in the Brantford General Hospital following an accident at the Brantford Carriage Company, where he was employed. A piece of flying machinery struck him in the stomach. He was rushed to the hospital, and an operation had to be performed.

False Pretenses Charged.

R. S. Caser of this city, former storekeeper on Queen street, has been taken to Hamilton by police officers from that city to answer a charge of false pretenses. It is alleged that he gave a check for money when he did not have sufficient funds in the bank. Robert Hawkins of Hamilton is complainant.

ANOTHER HUN THREAT FOR THE NORWEGIANS

Will Not Tolerate Any Special Treatment of Submarines.

Christiania, Norway, Dec. 1—Via London.—The Dagbladet today publishes an interview with Herr Michaelis, German minister to Norway, outlining Germany's point of view on the submarine controversy with Norway. The minister says in part: "Germany cannot tolerate any special treatment of war and merchant submarines by neutrals. Norway is the sole neutral which by special instructions has conveyed the impression of adopting the view of the entente.

"Germany is permitted by international law to defend herself with all her powers against Norwegian ships carrying contraband, which prolongs the war, and the recent food crises in Great Britain, France and Russia have shown that Germany is on the right path. Germany will not be deprived of the sharp weapon she possesses in the submarine. On the other hand, Germany will always respect Norway's really difficult position, and the most we expect of really independent Norway is that she does not treat German warfare and German economic problems differently than those of the enemy."

GRACE TEIPER WILL APPEAR AT TRIAL

With Accused Brother Is Sole Survivor of Buffalo Murder.

Buffalo, N. Y., Dec. 1.—The announcement that Miss Grace J. Teiper would appear today as a witness in the trial of her brother, John Edward Teiper, alleged murderer of his mother and brother, attracted a large crowd to the court in City Hall.

With the exception of the accused brother, Miss Teiper is the only surviving member of the automobile party murderously attacked on the Orchard Park road on the night of January 30. She was terribly beaten about the head, and for several weeks her life hung in the balance. Her injuries, it is said, blotted out memory of events on the scene of the murder.

Sheriff Edward Stengel, who gave important evidence for the prosecution Wednesday afternoon, was recalled today for cross-examination. Sheriff Stengel testified that Teiper's car, which the prisoner said had been left broken on the highway on the day preceding the murders, was started without difficulty the next morning merely by inserting a magneto brush. He also told of Teiper's denial of ownership of the revolver found near the murder cars, and his later acknowledgment that it was his property.

TORONTO STARTS FUND FOR SOLDIERS' HOME

Parade to Massey Hall Where Heroes Tell of Experiences.

Toronto, Nov. 30.—What was designated "woman's tribute night," the preliminary to a campaign to establish a home for returned soldiers was held tonight in Massey Hall, which was thronged to capacity by wives of the soldiers. Nearly four hundred invalided men were present, and several narrated their experiences. The route of the parade to the hall was lined by men of the Toronto garrison. About $5,000 was collected as a foundation for the fund.

FINANCIAL AND COMMERCIAL

THE LOCAL MARKET

Little was offered on the local market this morning. Oats were scarce, but the price was firm at $2.12 to $2.25 cwt. Wheat was steady at $1.70 a bushel for new, and $1.60 a bushel for old. Hay sold briskly at $12 to $14 a ton.

Potatoes are in fairly good demand, and the price is steady at $1.50 to $1.60 a bushel, and $2.25 to $2.40 a bag. Turnips sell for 50c to 60c a bushel, and parsnips for $1 to $1.10. Cauliflowers bring 10c to 30c each. Spinach sells for 75c a bushel. Carrots bring 90c to $1 a bushel, and dry onions $2.25 to $2.50.

Dairy and poultry prices are steady.

Live hogs are firmer at $10.50 to $10.60 a cwt., and fat sows bring $8.50 to $8.60 a cwt. Small pigs sell for $4 to $5 a pair, but the demand for them is not great. Dressed hogs are unchanged at $13.50 to $14 a cwt.

GRAIN.

Winnipeg, Nov. 30.—Wheat closed 3⅜c lower for November, ¼c higher for December and May. Oats were unchanged; barley was 1⅜c to 2¾c higher; flax gained 1¾c for November, 1¼c for December, and 1½c for May.

There was a very quiet market today, owing to the lack of news and the holiday in the American markets. The volume of trade was small, and the prices kept within narrow ranges. The delivery month showed signs of weakness in the morning. A little spreading took May wheat up nearer to December.

Cash wheat was little changed. Prices are on the December basis, with No. 1 northern at 2c over, and No. 2 at 1c under. Oats were quiet. Barley was in good demand.

Chicago, Dec. 1.—Scantiness of deliveries here on December contracts had a bullish influence today on wheat. The deliveries aggregated only 750,000 bushels, and there was a consequent tightening of prices, especially for the December options. Prospects of a better distribution of railway cars, affording some relief of the traffic congestion between here and the Atlantic seaboard, tended also to lift prices.

The opening, which ranged from the same as Wednesday's finish to 3c higher, with December at $1 71@1 71¼, and May at $1 77½@1 79½, was followed by moderate further gains, and then something of a reaction.

WALL STREET.

New York, Dec. 1.—Wall Street, 10:30 a.m.—Resumption of trading over the holiday was marked by a continuance of breadth and strength, with rails in greater demand. Union Pacific, selling ex-dividend, soon rose almost 2 points, with a point of more for Reading, Rock Island and Missouri Pacific issues. United States Steel led industrials, regaining over half of its regular and extra dividends of 2¼ per cent. Crucible Steel, Republic Iron, Pittsburg Coal, United States Rubber, Pacific Mail, Indiana Power and active metals were higher by material fractions to 2 points.

Noon.—Other strong features of the forenoon, some of which receded 1 to 2 points from top levels on extensive profit-taking, included Utah, Anaconda and Chile Coppers, Central Leather, International Paper, American Writing Paper preferred, Colorado Fuel, Philadelphia Company, Corn Products, fertilizers and Ohio Gas, the latter rising over 8 points to the new record of 113. A further keen inquiry for rails, which embraced all branches of that division, occurred in the second hour, with increased gains in investment shares and additional advances in minor issues. Motors were under persistent pressure, and United Fruit was heavy. Bonds were irregular.

1:30 p.m.—Utilities commanded increased attention in the afternoon, Ohio Gas extending its gain to 11½, with an extreme advance of 9 points for Montana Power, and 2½ for Columbia Gas. Low-priced rails and metals recorded further improvement.

NEW MACHINE GUN CAN BE HANDLED BY CHILD

Light as a Rifle and Fires 1,500 Shots Per Minute.

[Canadian Press.]

New York, Dec. 1.—The New York Sun says this morning:

Satisfactory test was made yesterday afternoon on a machine gun capable of firing 1,500 shots a minute, and so easily handled that a little girl can manipulate it. The test was made for the benefit of the representatives of the British and French Governments, for whom the new death-dealer is intended. The gun is of a new pattern manufactured by the Marlin Arms Manufacturing Company of New Haven, Conn.

Edward Park, vice-president of the concern, explained to inquirers that his plant is capable of turning out such weapons at the rate of 200 a day. The gun is fed from a long tape, to which cartridges are attached, passing through the weapon from side to side while the gun is in action. The cartridge used is of .762 millimetres diameter. The weapon has a range of 3,000 yards, and is said to be particularly well adapted for use on aeroplanes, for its weight is only about that of the average rifle.

During the test today an aviator came within range of the fire, but beat a hasty retreat and escaped being brought down.
