THE JULY EXAMINATIONS.

List of Successful Candidates Was Handed Out Last Night.

Marks Made Will Not be Furnished by the Education Department — Unsuccessful Candidates May Apply for Their Marks in About a Week to the Principal of the High School or Inspector of the District.

The results of the High School and University examinations for July, 1896, were made known yesterday.

The marks made at the examinations will not be furnished to candidates from the Education Department. Unsuccessful candidates may apply for their marks in about a week to the principal of the High School or to the inspector in the case of other centres. Candidates should observe the information regarding appeals which was given on their application form. In order to avoid unnecessary expense candidates are recommended to obtain the advice of the principal after receiving their marks before making appeal.

For 1897 all candidates, including those who this year have passed the primary examination, must comply with the requirements of the new curriculum, except those referred to in regulation 12 (I.) of circular 4. This regulation will enable any student who had the right to be a candidate in 1896 for a junior leaving or senior leaving certificate to be a candidate for that certificate in 1897, under the same special provisions. It will also enable anyone who was a candidate for a junior leaving certificate this year to be a candidate for a senior leaving certificate in 1897 under the special provisions granted this year. It should be understood that after 1897 all candidates must comply with the new conditions as mentioned in regulation 10 of circular 4.
