C. P. R. YARDS TO BE BIGGER

Dwellings On North Side of Elias Street May Be Torn Down To Make Room.

Enlargement of the Canadian Pacific Railway yards in East London will be made necessary by the enormously increased freight traffic through London on account of arrangements now nearing completion whereby some thirty or more trains a day will be hauled across Southern Ontario for the Pennsylvania Railroad by Canadian Pacific engines. The Pennsylvania road is now completing its connections in Detroit whereby traffic through the State of Michigan will be operated through the Michigan Central Railway tunnel, across Southern Ontario to the New York State border from and to the states of New York and Pennsylvania.

A great deal of the traffic will consist of the hauling of coal from the Pennsylvania mines. Whether the Pennsylvania road will eventually enter Ontario with a passenger traffic is not yet under definite consideration, but is regarded as within the range of possibility. Extra large types of locomotives on the C. P. R. local lines are replacing the smaller engines as rapidly as possible, and C. P. R. plans are all being focussed on the goal of very great developments in the London district.

Surveys.

Surveys have been made of all property south of the C. P. R. tracks in East London as far south as Elias street, and as far east as the McCormick property. Large new reclamation yards are to be established somewhere in the vicinity, and extensive improvements will be made to the present roundhouse. The complete carrying out of the C. P. R. plans tentatively under consideration for the whole area now being surveyed will necessitate tearing down a number of residences on the north side of Elias street.

According to information commonly held by local railroadmen, the Canadian Pacific Railway and associated lines expect phenomenal developments in the traffic that within the next ten years or so will cross the Detroit River. Already, it is said, the building of a great railroad bridge across the river is under discussion, as it is obvious that the present Michigan Central tunnel will eventually prove inadequate to take care of the traffic that will be developed.

DENIES HE CAME FROM ST. THOMAS, DRUNK FINED $10

Bibblers From Outside Points To Receive Short Shrift From Court.

Warning was given Monday to residents from points outside of London by Magistrate A. H. M. Graydon that this was not a city for them to come to for the purpose of getting drunk. A St. Thomas man was in the prisoners' box at the police court at the time, and he was told that if he or any other outsiders came to court charged with a similar offence in future a heavier fine than $10 would be imposed.

This morning the first drunk who came before the court owned a name similar to that of a St. Thomas man, who, during the winter, was a habitual visitor at the local mill of justice. When the spectators heard that he was said to be a resident of St. Thomas, they looked first at him and then at the magistrate.

"What will be the fate of a man who dares to disregard a warning of that kind so soon after the issuing of it?" they asked.

The prisoner seemed to grasp the situation, for immediately he protested that it was a mistake to think that he resided in St. Thomas; in fact, he lived here for a long time, and was proud to be a resident of London.

"How did you become intoxicated?" asked the court.

"Oh, I don't know," drawled the unfortunate.

Saved!

"Ten dollars or ten days," was the magistrate's decision.

Another drunk, who apparently was still under the influence of liquor denied that he had been intoxicated.

His explanation was: "I was not doing anything, when the patrol came down to the Harrison House and picked me right into it."

"He was in the Harrison House at 2:20 o'clock this morning, and would not get out, so the night clerk called me in," stated P. C. Chester Langford. "He was very drunk."

"Well, I wasn't drunk. I know that much," continued the prisoner.

"What were you doing?" asked Magistrate Graydon.

"I was on business."

"People don't carry on business at that time of the morning in this town unless they are restaurant keepers. What was your business."

No reply was forthcoming.

"Ten dollars, or ten days," concluded the court.

TWO KILLED IN CLASH BETWEEN MINERS AND GUARDS IN KENTUCKY

Middleboro, Ky., March 23.—A miner and a deputy sheriff are reported to have been killed, a private detective badly wounded, and three others hurt in a clash between miners and mine guards said to have occurred late Saturday night at the Banner Fork mines on Wallins Creek, in Harlan County, Ky.

For the Little Ones

To Keep Their Digestion Perfect Nothing Is So Safe and Pleasant As Stuart's Dyspepsia Tablets.

An experienced observer in charge of a large office said it was a waste of words to tell most people to eat plain food. They prefer the food that delights the eye. Checking up on the after-effects the usual distresses of gassiness, sour risings, water brash, logginess and so on may be avoided by following the meal with one or two Stuart's Dyspepsia Tablets. These supply the stomach with an alkaline effect, thus promoting normal conditions as in health. This puts the O. K. on so-called rich food. Men and women are but children of a larger growth when it comes to eating the foods that satisfy, even though they may cause indigestion.

Indigestion is not necessarily confined to those who live high. It may follow so simple a process as the flavor of a bay leaf, thyme, garlic, sage or any of the other savory flavorings so universally used in soups, roasts, dressings, etc. As a rule if the stomach balks at such things, it will be disturbed by cheese, milk, coffee, pies and almost anything that most people like so well. Such conditions as these are met quite adequately by following the meal with one or two Stuart's Dyspepsia Tablets. They digest food and at the same time supply the stomach with an alkaline effect that prevents gassiness, heartburn, sour risings, drowsiness after eating and such distresses so familiar to those susceptible to indigestion or dyspepsia. Get a box of these tablets at any drug store in the United States or Canada. Price 50 cents, and then note how comfortable the stomach feels. Your most excellent cook may use garlic without a protest.

L. AND P. S. R. EMPLOYEES ASK HIGHER WAGE SCALE; WILL NOT PUT UP WITH BECK'S EVASIONS

Demand Meeting With Full Commission—Dissatisfied With Sir Adam's Usurpation of That Body's Authority — Men Unanimously Reject His Latest Proposition.

Employees of the London and Port Stanley Railway will serve notice on the commission, demanding a meeting with the full commission on Wednesday for the purpose of negotiating a new wage scale agreement. Up to the present, the men claim, they have been unable to meet the members of the commission, as Sir Adam Beck and J. E. Richards, general manager of the road, have taken upon themselves the responsibility of discussing proposed changes in the wage scale.

At the present time the scale ranges from 40 cents to 48 cents an hour, the garduations being: First year trainmen, 40 cents; second year, 42 cents; first year motormen and conductors, 44 cents; second year, 46 cents; third year, 48 cents.

The men are now asking for flat rates of 60 cents for trainmen and 65 cents for motormen and conductors. An agreement calling for this scale was drawn up and the executive was empowered to submit it to the commission. A meeting was arranged for Saturday night, but Sir Adam Beck and Mr. Richards alone met the members of the executive. These two representatives of the management, after discussing the draft agreement, submitted an alternative scale providing for a one-cent increase for first and second-year trainmen, a two-cent increase for motormen and conductors, first, second and third-year status, respectively, and additional two-cent advance for fourth year motromen and conductors.

Men Turn It Down.

This alternative agreement was submitted to a mass meeting of the employees last night, and by a unanimous vote they decided against its acceptance and in favor of demanding a conference with the full commission on Wednesday.

Members of the executive, discussing the situation with The Advertiser last night, declared that Sir Adam Beck had misrepresented the facts when he declared publicly that the men employed were well satisfied, and also that the advertisements specifying a nine-hour day were misleading.

"It is certainly not true, and the public should know it, that the men are satisfied," said one member of the executive. "More than 90 per cent of them are married and the pay is inadequate.

"Sir Adam Beck talks about a nine-hour day, but the fact is that, while we are guaranteed at least nine hours of work a day, we have to put in ten hours before we draw overtime-scale pay, which is at the rate of pay and a half.

"Our reason for demanding a flat scale instead of a sliding scale is that a man who has qualified to take out a train as a conductor or motorman is just as good a man for that work whether he has been doing the work for one or three years. The same argument applies in the case of a trainman. He is either qualified or he is not."

PROVISIONAL TENDERS FOR 42 HOUSES LET BY HOUSING COMMISSION

But Cost Cannot Be Kept Within Provincial Loan Limit—Futile To Try To Relieve Situation Unless Limit Raised, Say Commissioners.

A tender by Samuel Willis and Harry Hayman to erect 42 houses for the London Housing Commission was provisionally accepted by that body at a special meeting Monday night. The actual prices were not announced, pending approval by the provincial commission. They will likely be given out at the regular meeting Thursday night.

All the tenders are nearly $1,000 above the limit of $3,600 which the commission is permitted to loan. That nothing can be done unless this limit is increased immediately was the unanimous opinion of the commissioners at last night's meeting. Accordingly Architect H. C. McBride, with one of the members of the commission, will go to Toronto this week. They will lay before the provincial authorities the prices given to the London commission and point out what they consider the futility of trying to help the present situation, while the loan limit remains at $3,600.

Cost additional to actual building had to be considered in drawing up the estimates. It is estimated that these outside expenses will total $580, made up as follows: Building lot, $225; furnace, $120; sewer and water connections, $25; architect's fees, $105; legal fees, $15; fire insurance, $15; fence and sidewalk, $75. These additions would place the average cost of a house somewhere in the neighborhood of $4,000, which would mean an aggregate expediture on building of nearly $175,000.

Commissioner R. Hessel thought that, failing an extension on the loan limit, London should consider an independent housing plan. Money could be borrowed with city debentures, guaranteed by the Government, as collateral. The commission would not then be subject to the provincial restrictions.

Chairman E. R. Dennis thought the matter might be taken up with the Builders' Exchange and the Chamber of Commerce to see if those bodies could suggest solutions of the housing problem.

LIST OF 18TH BATT. SOLDIERS COMPILED

S. A. C. Records Show Names of 1,250 Names On Strength of Famous Battalion.

A list of the ex-members of the 18th Battalion has been compiled by the soldiers' aid commission of this city. The list, which shows the names of 1,250 men, who were on the strength of the battalion at one time or another, will be altered as new men are heard of.

The list is the third of this nature to be made by the commission, as one of the 1st and one of the 33rd were compiled some time ago. This entails a great deal of work, as the recorders had to search some 15,000 files to find if the men had ever served with the battalion or not.

The result shows a large number of original men, a number being from the city. The old 1st Battalion list, which was compiled some three months ago, shows that the battalion had 1,550 men on the strength, who enlisted in this district and who returned here for discharge.

CHANGE IN SYSTEM PREPARING ESTIMATES ADVOCATED BY CLERK

Would Mean That Tax Rate Could Be Struck Earlier, Says City Clerk Baker.

Changes in the system of preparing and passing city estimates advanced by the municipal bureau at Toronto are heartily indorsed by City Clerk S. Baker. These changes would make it possible to prepare estimates the preceding year, with a result that the tax rate would be struck early in the year. The expense of borrowing money to conduct the city's business until taxes come in would be greatly reduced.

The system as outlined by the bureau is to have department heads send departmental estimates of capital and current expenditure for the ensuing year, on September 15 of each year, to a commissioner of finance. The commissioner after compiling these estimates, would transmit them in printed form, as draft estimates, to the controlling body of the city with supporting documents and general recommendations, prepared in conference with department heads about October 15.

The controlling body of the city would revise these estimates into a tentative budget about November 15 after hearing deputations of citizens.

The election of the mayor and council would be held on January 1. The new council would then take up this tentative budget and be able to strike the tax rate about February 15.

Even with the greatest haste this year it was not possible to strike the tax rate until March 15, because the work of compiling estimates could not be done until the new council had been elected.

MRS. W. J. YORKE-HARDY DIES SUDDENLY TODAY

Wife of Newspaperman Succumbs After Illness of Three Years.

Mrs. Sarah Jane Yorke-Hardy, wife of W. J. Yorke-Hardy, died suddenly this morning from heart failure, after three years' illness. Mrs. Yorke-Hardy is survived by her husband, two daughters (Dora and Irene) and one son (Willie), all of this city, and three brothers (William H., Charles H. and Albert Day) all of Leeds, England.

Mrs. Yorke-Hardy was a daughter of the late Job Day of Leeds. She was well known in St. Thomas, where she resided for some time. Mr. Yorke-Hardy is a member of the editorial staff of The London Advertiser. The funeral will be held on Thursday to Mount Pleasant Cemetery.

FINED $20

Coal Dealer's Manager Gives Short Weight To Local Preacher.

Arthur J. Jenkins, manager of the Anderson Coal Company, 495 York street, was fined $20 and costs in police court this morning for giving short-weight coal. The load, which was weighed by Inspector J. W. McCallum, was supposed to weigh 1,000 pounds. It only weighed 895 pounds. Half of the load was consigned to a Mrs. Anderson of Rectory street and the other to Rev. W. R. McIntosh, 826 King street.

The accused explained that it was one of the employees that had weighed it, but was told that in any case he was responsible.

"One hundred and five pounds is a very serious discrepancy," commented Magistrate A. H. M. Graydon.

"It's pretty hard for the first time," said Jenkins.

"Yes, and it's pretty hard on the people," said the magistrate.

Inspector McCallum asked that the maximum penalty be imposed.

The court did not do so, but declared that this was the last time that he was going to impose a $20 fine, intimating that it would be heavier for the next offender.

WAITING WORD

Public School Inspector Wants More Information Before Discussing Entrance Changes.

Wider powers to high school entrance boards, announced by Hon. R. H. Grant, minister of education, will likely be more fully explained in a circular letter to school inspectors throughout the province.

Public School Inspector C. B. Edwards was unable to say today from the published reports just what changes would be required in London's entrance examination system, and is awaiting further information from the department.

The plan announced by Mr. Grant will leave the boards free to decide whether candidates shall be accepted on the certificates of public school principals or whether they shall be examined as usual.

RECRUITING FOR THE SEVENTH REGIMENT OFF TO GOOD START

Fifty Men Attested For Service With Companies and Fifteen For Band.

Recruiting for the reorganized 7th Fusiliers pened up last night very briskly. About 50 men were taken on for the companies and fifteen for the band. The men who enlisted were permitted to choose their companies. A number took advantage of this privilege in order to serve again under officers who commanded them in France.

The band, under Bandmaster Slater, had a number of the old hands back and held a short practice in the band room.

The recruits kept the medical officer very busy all evening, as each man was given a medical examination as soon as he had his attestation papers filled out. The M. O. reported that the class of men coming back into the militia was of high standard, very few being rejected on account of physical disability.

The regiment will put on a large recruiting campaign immediately after Easter and will start drills on Monday, April 12.

AURORA BOREALIS A SOURCE OF TROUBLE TO TELEGRAPH CO.'S

Beautiful Display Seen by Londoners Monday Night—Telegraph Interrupted.

The telegraph lines throughout the country last night reported trouble through the grounded currents of the Aurora Borealis. The trouble was experienced all day by the commercial companies' day wires. Most of the night wires were having trouble up to midnight, at times having to close the wire for fifteen minutes at a time owing to the erratic action of the keys when they came under the influence of the electrical phenomenon.

A number of people mistook the lights for the reflection of the star shells being sent up at Washington, D. C., by which they are trying to get in touch with Mars. This was caused through the very easterly position of the Borealis, which took the form of a dome with large streamers flowing out in all directions.

The display, which was very pretty during the earlier part of the evening, became more vivid later on, as the light which had been of a greenish tinge, began to change color, taking on hues of blue and red.

This is the first time the Northern Lights have been seen in this part of the country since last fall, when a very vivid display was seen. The displays, which are seen very frequently in the more northern countries, are caused by an electrical condition of the atmosphere.

CONCERT MONDAY

First of Series Under Auspices of the Musical Art Society.

The first concert of the series under the auspices of the Musical Art Society will be given in the First Methodist Church next Monday evening. Monday's concert will present the choir of the society in a program of Russian church music and will introduce to a Canadian audience for the first time the celebrated trio de lutece, composed of George Barrere, the great master flutist of the day; Carlo Salzedo, who stands admittedly as "the one harpist that knows no peer." Prior to his coming no great virtuoso of that instrument had ever been heard in this country; so, like Barrere and his "magic flute," Salzedo's harp has been one of revelation.

Lucien Schmidt brings to the trio that beauty of tone and suavity of technique which have indubitably established him among the really noted 'cellists of the present time. Including solos, which give each artist his own particular opportunity, they offer a luxury of ensemble playing such as is only possible where there is absolute accord among true artists and an unanimity of sympathy towards the compositions to be played.

WEEK OF PRAYER

W. C. T. U. Session This Afternoon In Park Avenue Rooms.

The W. C. T. U. annual week of prayer opens session this afternoon in the W. C. T. U. rooms, Park avenue, Professor James Bowman, president of the district temperance organization, speaking on the recent temperance convention held in Toronto.

The big open meeting of the week will be held Friday afternoon in the Talbot Street Baptist Church, when reports from the different departments of W. C. T. U. work will be given, and new members received into the union. Mrs. Gordon Wright will address the meeting on "Canadianization."

AFTER INFLUENZA

The Grip, Fevers and Other Poisoning, Prostrating Diseases.

It is absolutely necessary that the blood be thoroughly cleansed, germs of disease destroyed or driven out, appetite restored and the kidneys and liver restored to perfect regular action. Hood's Sarsaparilla has been before the people for 46 years as a general blood-purifying alterative tonic medicine, and it has given perfect satisfaction. Men and women whose grandmothers gave them Hood's Sarsaparilla are now giving it to their own children and grandchildren with perfect confidence. It is the ideal family medicine, for a wide range of ailments, always ready, always does good at any season of the year. Prepared by educated pharmacists. Nearly 50 years of phenomenal sales tell the story of its remarkable merit. For a mild, effective laxative, take Hood's Pills.

Grill Service Daily, 9 to 5 p.m.—Restaurant.

"His Master's Voice" March Records Now on Sale, Third Floor.

MEET NEXT WEEK

S. A. C. To Discuss Soldier Questions of Importance.

The soldiers' aid commission will meet again next week to decide what can be done for the re-establishment of the returned men. No stone will be left unturned in getting the men back on a pre-war basis.

The commission stated that the Drury Government is going to do all it can to put the returned man back on normal ground, and make the Province of Ontario the leading one in the Dominion for aiding the veterans.

Col. Carmichael, the newly-elected chairman of the commission, is an enthusiastic worker, and has already taken the matter up with the Government.

BUILDING PERMITS

Figures For Month Slowly Climbing—Two Permits Issued Today.

Building figures are now more than $25,565 ahead of the total reached by the end of March last year. Permits issued to date bring the total for the month to $70,200, which added to a total of $73,210 for January and February, makes an aggregate of $143,410.

Figures in March, 1919, totalled only $58,520, giving a total for the year that far of $117,845.

Most of the building operations this year have been on a small scale. Evans Bros. took out a permit today to erect a two-story brick veneer dwelling at 441 Woodman avenue at a cost of $4,500. Miss J. McEwen obtained a permit to remodel a residence at 266 St. James street into apartments at a cost of $2,800.

STRIKERS FAVOR SETTLEMENT.

Paris, March 23.—Canvass of the votes cast in a referendum held by striking miners in the coal district of Northern France shows almost unanimous sentiment in favor of resuming work everywhere throughout the affected district at once.

HORLICK'S

Malted Milk for Invalids

A nourishing and digestible diet. Contains rich milk and malted grain extract. A powder soluble in water.

A real cough remedy

Don't surrender to an obstinate cough. There's a remedy that will help you conquer it—a remedy that speedily relieves all irritation of the respiratory organs and gives bodily strength for permanent cure. Try it—ask your druggist or dealer for—

Robert's Syrup of Cod Liver Oil & Tar

Cuticura Talcum is Fragrant and Very Healthful

Soap, Ointment, Talcum, 25c. each. Sold everywhere. Can. Depot: Lymans, Limited, St. Paul St., Montreal.

For Freckled, Rough or Muddy Complexion

The freckling, discoloring or roughening to which delicate skins are subject after exposure to wind or sun, often appearing in early spring, may readily be gotten rid of. Mercolized wax, spread lightly over the face before retiring and removed in the morning with soap and water, completely peels off the disfigured skin. Get an ounce of the wax at any druggists. There's no more effective way of banishing freckles or other cutaneous defects. Little skin particles come off each day, so the process doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful face.—Advt.
