MARKETS

Toronto, Monday, Nov. 9—The Grain Growers' Grain Company seem to gain when all other lose. At their annual meeting held Nov. 4 a net profit of $151,080 was declared on the year's operations, or approximately 30 per cent. A 10 per cent dividend was declared and the balance placed in the reserve fund. During the year the company handled 30,000,000 bushels of grain. The Manitoba Government elevators handled by the company showed a profit for the first time of over $4,000. This and a little other reports of fair profits are more common, the success of this farmers' cooperative company is heartening.

The market news of the week from a farm standpoint shows wheat, oats and corn on a stronger basis, with dairy produce and live stock holding their own.

WHEAT

The foreign wheat situation suggests future that are satisfactory to the shipper. The uncertainties that might have been expected, however, have been held down by the knowledge that million bushels actually early in the season and that their future requirements may not be great. No. 1 Northern is now quoted at $1.09½; No. 2, $1.05½; now stop, 2c less; Ontario wheat, $1.08 to $1.11.

COARSE GRAINS

Oats are in strong demand of anything on the grain market. Corn has firmed. Malting barley is moving slowly, owing, it is believed, to makers arriving over a supply of grain from last year. Quotations: Oats, C.W. No. 2, 43c; No. 3, 40c; corn, 85c; barley, $1.15 to $1.25; rye, 85c to 88c; malting, 66c to 69c; feed, 65c to 67c; buckwheat, 68c to 70c. Montreal quotations are: Oats, C.W. No. 3, 40½c; extra No. 1 feed, 41½c; lower white, 54c to 56c; corn, 84c; barley, malting, 74c to 76c.

MILL FEEDS

Bran is quiet and firm in mild weather, but with cold weather an advance is expected. Bran, $23 to $25; shorts, $26 to $27; middlings, $28 to $29; feed flour, $32 to $32. Montreal quotations: Bran, $23 to $24; shorts, $25 to $26; middlings, $28 to $29; feed flour, $32 to $34.

EGGS AND POULTRY

Eggs are in steady demand at the prices mentioned last week. Wholesalers sell to the trade as follows: New laid in cartons, 36c to 38c; selects, 31c to 33c; fresh gathered, 28c to 30c; storage, 23c to 28c. Montreal quotations are: Fresh, 35c to 40c; selected, 30c to 31c; No. 1 stock, 29c to 30c; No. 2 stock, 25c to 26c.

Poultry quotations: Live spring chickens, 10c to 12c; old fowl, 5c to 10c; ducks, 8c to 10c; geese, 8c to 9c; turkeys, 13c to 15c.

MISCELLANEOUS

No. 1 hay is firm here at $16 to $16.50 and down to $11 for No. 3; baled straw, $7 to $8. At Montreal No. 2 hay is $18 to $19.50. Potatoes here are 45c to 50c a bag for Ontario's, 40c for New Brunswick's and at Montreal 60c.

DAIRY PRODUCE

Were it not for the long season of non-production ahead of us there would be a tendency toward lower quotations on butter. The supply is keeping up surprisingly well and there is little opportunity for profitable outside shipment. Wholesale dealers in Toronto quote creamery prints at 29c to 30c; dairy prints, 25c to 26c and bakers, 20c to 23c. At Montreal wholesale dealers quote choicest creamery 27½c to 28c; seconds, 26½c to 26½c.

The cheese market is steady, although prices paid at country boards have showed a tendency to decline. This recession is due not so much to a weaker market as to the "fodder quality of the cheese." The make is practically completed, and prices are closing at a level that is satisfactory to the producer. Sales of finest Western are reported to have been made in Montreal at 15½c and finest Easterns, 15¼c.

LIVE STOCK

After the low quotations that have been ruling on Toronto live stock markets, the tops in the pens last week seem to indicate a greatly improved demand. Advanced quotations on choice steers, however, are not due so much to a stronger market as to finer quality in receipts. The Buffalo market has been placed under quarantine and choice beasts that were specially fitted for the United States trade have had to come this way. The same condition led to an increase in receipts of all grades of cattle during the latter part of the week. There is a general belief that the market was somewhat stronger, even taking improved quality into consideration.

Quotations: Choice heavy steers, $7.75 to $8.25; handy steers, $7.75 to $8; butcher steers, good, $7.50 to $7.75; com. to med., $5.75 to $7.50; heifers, $6 to $7.75; choice cows, $6.50 to $7; com. to good, $5 to $6.50; butcher bulls, $4 to $7.25; feeders, $6.50 to $6.75; stockers, $4.75 to $6.50; and canners, $3.50 to $4.50.

Choice milch cows continue in good demand at $80 to $100; com. to med., $40 to $60; springers, $50 to $100. It is notable that the best animals are the ones easiest to dispose of. Calves range from $5 to $10.50.

Lambs are a trifle firmer, going at $6 to $6. Other grades are steady. Light ewes,

"MAPLE LEAF" BRAND OIL CAKE MEAL

FINE GROUND OR NUTTED

FEED IT WITH EVERY MEAL

Great Britain could never have attained its eminence in beef and dairy products without Linseed cakes. On the larger farms, one to five thousand dollars a year is expended in these cakes. In the famous Darlington beef and dairy districts, the fattening ration for cattle is from 7 to 14 pounds of Linseed Cakes a day, with a mixed feed of roots, oats, barley and mill feed. Sheep and milk cows both get Oil cake to the extent of about 2 pounds a day.

Prof. Frank T. Shutt, M.A., Chemist of the Dominion Experiment Farm, Ottawa, submitted a table showing proportionate fattening and flesh-producing qualities of the following feeding substances in general use:

Feeding Stuffs	Protein (Flesh Producer)	Fat	Carbo-Hydrates (Fat Prod.)
Linseed Cake (ground)	32.9	7.8	35.4
Buckwheat	10.0	2.2	64.5
Corn	10.3	5.0	70.4
Oats	11.8	5.0	59.7
Wheat	11.9	2.1	71.9
Barley	12.4	1.8	69.8
Shorts	14.9	4.5	56.8
Bran	15.4	4.0	53.9
Middings	15.6	4.0	60.4
Pea Meal	23.0	1.4	55.8
Bean Meal	23.1	2.2	54.2

Protein is the most costly, necessary and valuable element in food. *Write to-day for our free booklet "Facts to Feeders."*

Deafness

From All Causes, Head Noises and Other Ear Troubles Easily and Permanently Relieved!

Thousands who were formerly deaf, now hear distinctly every sound—even whispers do not escape them. Their life of loneliness has ended and all is now joy and sunshine. The impaired or lacking portions of their ear drums have been reinforced by simple little devices, scientifically constructed for that special purpose.

Wilson Common-Sense Ear Drums often called "Little Wireless Phones for the Ears" are restoring perfect hearing in every condition of deafness or defective hearing from causes such as Catarrhal Deafness, Relaxed or Sunken Drums, Thickened Drums, Roaring and Hissing Sounds, Perforated, Wholly or Partially Destroyed Drums, Discharge from Ears, etc. No matter what the cause or how long standing it is, testimonials received show marvelous results. Common-Sense Drums strengthen the nerves of the ears and concentrate the sound waves on one point of the natural drums, thus successfully restoring perfect hearing when medical skill even fails to help. They are made of a soft, sensitized material, comfortable and safe to wear. They are easily adjusted by the wearer and cut of sight when worn.

What has done so much for thousands of others will help you. Don't delay. *Write today for our FREE 168 page Book on Deafness*—giving you full particulars.
