Leeburn.

T. Robson and family, of Hullett, are the guests of John Hotton.

Miss Jaffray, of Brantford, was the guests of Mrs. John Clutton last week.

Mr. Drumm, Rev. Dr. Ure's assistant, preached in the Presbyterian church here last Sunday.

Our Leeburn budget was unavoidably crowded out last week.

A number of our neighbors took part in the big excursion to Toronto on Tuesday.

The first fall wheat was cut here this season by John Linklater on the morning of the 22d ult. This is twelve days earlier than last year.

Ashfield.

F. Richardson and wife were the guests of W. J. Hayden for the past couple of weeks.

Mr. Ackermann, of Peterborough, is the guest of Robt Harrison, township treasurer.

A Big Crop.—Hugh Girvin threshed his wheat on Tuesday. He found the yield to be 41 bushels to the acre—a big thing this season.

Murdock McKay is now having built for him a neat veneered brick house, on his property, adjoining the Presbyterian church. D. Cummings, of Dunlop, carpenter; W. Murdock, masonry, and J. Breckenridge, jr., of Goderich, lathing and plastering. Wm. Hogan and John Hogan have also had veneered brick houses built, the plastering of which will be done by Mr. Breckenridge.

Dunlop.

Fall wheat harvesting started here on the 27th, ult, five days earlier than last year.

Miss Nellie Dickson, of Brucefield, has been visiting old acquaintances hereabouts.

Miss Alice Buchanan, of Goderich, is spending her vacation at Lornside, the guests of Mrs. McQuarrie.

A. H. Williams cut three acres of fall wheat with a reaper by moonlight instead of daylight one night last week.

The familiar form of A. McQuarrie, formerly assistant postmaster, has reappeared. He looks as if life agreed with him.

Visitors. — Mrs. Barclay and Miss Johnston of London, and Mrs. James McLean and Miss Lawrence, of Goderich, were the guests of Mrs. Allen last week.

A blind musician with violin and little girl, discoursed music with singing through our burgh last week, soliciting small silver from ardent listeners. Also two travelling showmen with bears passed through.

Good Gooseberries—Fourteen quarts of gooseberries were picked off one bush in the garden of A. C. Macdonald this season. Can mine host of the Point Farm, or any of his neighbors equal that record?

Returned.—On Friday last John Haldan and wife left for their home, in the Queen city, after a fortnight's sojourn at Lunderston, the guest of R. Williams. Mr. H. met with many an old pupil of the Goderich high school.

Would the recorder of the item with reference to J. Conolly's binding, let us know was it hand muscle or self binder that did the work? and did Mr. Bear count the number of sheaves when he threw in to the barn? Were they as numerous as the acres.

Gorrie.

A game of baseball was to have been played between the Silver Maples, of Froxeter, and the Union Jacks, of Gorrie, on the grounds of the former, but owing to some of our boys getting their fingers knocked up, the game has been postponed.

A great picnic excursion will take place next Saturday from Gorrie to Toronto and return the same day, under the management of the C. M. Sabbath school. A large crowd is expected to take advantage of the six hours stay in the city, which will not be afforded after this week, a new time table being issued.

Theft.—Mr. Hopkins, baker, of this place had $25 taken from a chest in his house, on Tuesday. It seems he went down street on business for a few minutes leaving a little boy by name of Young to watch the shop till he would return. When Mr. Hopkins returned he found that out of $28 which he left when going out only $3 could be found. He left no person in the house but this boy who was to mind shop till he came back. When questioned about the money, the boy said he knew nothing about it but on being told he would be arrested, if he did not tell all he knew about it he brought forth $7 from under the sidewalk, saying that this was all he had taken. Up to the present no clue of the remainder of the money has been found, but it is supposed some of his companions have the remainder of the money.

One hundred years this fall the town plot of Kingston was surveyed by the Government surveyor. An agitation has been started to have a centennial celebration in the coming fall.

The laziest man is on a Western paper. He spells photograph "4tograph." There have been only three worse than he. One "ted out in Kansas, and dated his letters "Elworth," another spelt Tennessee "TeneeC," and the other wrote Wyandotte "WY&."

A recent advertisement reads as follows: "If the gentleman who keeps the Whitloe store with a red head will return the umbrella of a young lady with whalebone ribs and an iron handle to the slaughtered grocer's shop he will hear of something to his advantage, as the same was a gift of a deceased mother now no more, with the name engraved on it."

Edison, the inventor, indulges in the following predictions: "As to the changes which will be effected by electricity in the next fifty years in the city of New York, I should say that I believe electricity will propel the cars of the street and elevated railroads, light the city within and without its buildings, furnish power for all purposes, work telephones and burglar alarms, deliver the opera, convey parcels, detect and signal fires, operate fire engines, and possibly displace animal locomotion for vehicles."

THE WORLD OVER.

As Mirrored in the Columns of our Outside Contemporaries.

The Paris *Figaro* says a conflict between England and France is inevitable in the near future.

Hugh Childers, Chancellor of the Exchequer, is going to Egypt on a special mission in connection with Egyptian finance. He is clothed with extensive powers.

Max O'Rell's amusing book about John Bull and His Island, proved such a commercial success that his publishers give him $7,500 for the right to publish his new volume at once in Paris, London and New York.

Ingersoll, Aug. 5.—About five o'clock this morning a serious accident occurred at the G.T.R. station here. While No. 26 freight train was leaving the station it collided with No. 28 special freight from the east, killing Alex Johnston, of London, conductor on No. 26, and damaging the engines and cars. Both trains were going west. An inquest will be held this afternoon.

The Conservative journals, call Mr. Lyon's resignation, "the Algoma fraud." Have these worthies forgotten that the Conservative leaders desired to become party to "a fraud" last winter, by offering to withdraw the petition against his election if he would vote against the Mowat administration on the lumber resolution, Condemnation of so-called "fraud" comes with ill-grace from such a quarter!

Richard A. Proctor holds that if the full power of the arms and legs can be so applied to ingeniously arranged mechanism as to work wings, more or less resembling those of a bird, there is little reason for doubting man's power of sustaining himself in the air, and even travelling with great rapidity through it. Probably, he adds, it will be much easier for him to sustain himself while traveling rapidly onward than while hovering over the same spot.

There is apparently some mistake in the despatch from Sydney, N. S. W., published in the papers last week stating that Champion Hanlan had sailed for New York. Mrs. Hanlan stated Tuesday that a week before the despatch was printed she received a letter from her husband stating that he had three engagements in the shape of matches still on, and it would be late in the year before he would sail for England, not for New York direct. There is either a mistake or the champion has suddenly cancelled all his antipodean engagements.

THE ARCTIC ADVENTURERS

A Public Welcome and Celebration at Portsmouth, N. H.

Portsmouth, N. H., Aug. 5.—Never before in the history of Portsmouth has there been so grand and imposing an event as the celebration of the return of Greely and party. If thousands of people, numerous bands and boundless enthusiasm could make a celebration a success, this was successful. The day was perfect. The buildings were handsomely decorated, and "Welcome to Our Arctic Heroes" imprinted everywhere on flying bunting. Greely landed about 11 o'clock, and was heartily greeted, as were all the men from the relief ships. They were placed in coaches and driven to the Rockingham to review the procession. Upon two large stands in the market square were gathered many prominent persons and a number of ladies. At 11.20 the procession began to move along the packed streets. Thunderous applause greeted the sailors of the relief squadron, and the ovation continued through the entire route.

Commander Schley, Lieut. Emory and Commander Coffin were received with tremendous applause as they passed in an open carriage. As the procession neared the Rockingham house the crush became terrific. Greely and his comrades were seated upon the balcony and when the head of the procession appeared cheer after cheer greeted him. As the crews of the Thetis, Bear and Alert passed, Greely bowed and seemed to look the gratitude to the men who rescued him. Much emotion seemed to prevade the entire throng and many brushed tears from their eyes. The relief crews respectfully raised their caps. Greely was kept busy bowing acknowledgments as the procession passed. After the review was over Greely and his party entered the hotel and remained a short time.

THE COMING CHAMPION.

John Teemer defeats Wallace Ross and beats Hanlan's Record by 1m. 36s.

New York, Aug. 4.—The four mile rowing contest between John Teemer, the young oarsman of McKeesport, Pa., and Wallace Ross, rowed at Oak Point Saturday, was certainly the finest race ever seen in America. On the start Teemer caught water first, and gained thereby about six feet, but was in a few boat lengths deprived of this advantage, when both men lay down to work in dead earnest, determined to lose no time. Ross gradually gained, and at the turn was leading by half a length, but took a long sweeping curve in rounding the buoy and going some distance past it. Teemer struck just three feet past his turning buoy, when he planted his left oar literally upright and whirled his light craft completely around in the most dexterous manner by a few quick pulls with his right. This wonderfully skillful turn gave the Pennsylvanian a lead of three lengths and virtually the race. When Wallace had got his boat pointing towards the home line, he dropped into his strong easy swing and very gradually reduced the distance between himself and his opponent, who was not over exerting himself. Once Teemer put his hand into the water and bathed his brow, but Ross gained noticeably on this and the experiment was not repeated. Two hundred yards from the finish Ross spurted gamely and when the line was crossed his boat just lappod the stern of Teemer's boat, which had covered the distance of four miles in 26.20, the best previous record, that made by Hanlan in his race with Ross at Ogdensburg, July 1883, being 27.56.

THE BOUNDARY DECISION.

Only Imperial Legislation Necessary to Make the Award Binding.

The London *Advertiser* contains a letter from Hon. David Mills on the boundary case, from which it is seen that nothing is now needed but Imperial legislation to render the Award binding. The Lord Chancellor remarked that this is necessary, as otherwise the party who did not like the conclusion would say that he was not bound by it. Christopher Robinson said he supposed no one felt any apprehension on that score. The Lord Chancellor retorted that he did not express apprehension, but he supposed no one had any apprehension before, when the Award was assented to.

The Presidental Election.

The presidential campaign in the United States has opened, though the earnestness and zeal of partisanship will not be fully developed until after the State elections of Maine in September, and Ohio and Indiana in October. This year several changes in the appointment of presidential electors, based on the national census of 1880, become operative; and, of the total of 401 votes—the territories having no representation—201, a majority, are required to elect a president and vice-president. The States all vote this year for presidential electors on Tuesday, Nov. 4th, though, as stated, two or three States select their local officers before the general election. In the contest four years ago there were 369 votes in the Electoral College. Gen. Garfield, the Republican candidate, received 214 against 155 cast for Gen. Hancock. What these figures represent is shown in the popular vote, that is, the ballots cast directly by the voting citizens of all the States for their local electors, the totals being very nearly equal. The Democrats threw 4,442,035, and the Republicans 4,449,053 tickets, while Gen. Jas. B. Weaver, the soft money nominee, received less than one-third of a million votes.

The Johnson surveying party, who were reported all drowned, are quite safe.

Epps's Cocoa.—Grateful and Comforting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*—Made simply with boiling water or milk. Sold only in Packets and Tins (½lb. and 1lb.), by Grocers, labelled—James Epps & Co., Homœopathic Chemists, London Eng."

VOTERS LIST—1884.

MUNICIPALITY OF THE TOWNSHIP OF COLBORNE.

Notice is hereby given that I have transmitted or delivered to the persons mentioned in the third and fourth section of the "Vote.s Lists Act," the copies required by said sections to be so transmitted or delivered of the List made pursuant to said Act, of all persons appearing by the last revised assessment roll of the said municipality to be entitled to vote in the said municipality at elections for members of the Legislative Assembly, and at Municipal Elections, and that the said List was first posted up in my office on the sixth day of August, 1884, and remains there for inspection.

Electors are called upon to examine the said List, and if any omissions or any other errors are found therein to take immediate proceedings to have said errors corrected according to law.

JOHN A. McDONAGH,
Clerk of said Municipality.

Carlow P.O.,
Dated this 8th day of August, 1884. 1955-

Write to the Secretary for Prize Lists, Posters, Programmes or any information required.
E. R. ROBINSON, President GEO. McBROOM, Secretary

The *Standard* says negotiations between France and China were definitely broken off on Sunday. A Foo Chow despatch says the city is quieter. China has offered to pay an indemnity of $700,000, which the French Minister has refused. Twelve Chinese gun-boats have been placed in position at Foo Chow. Admiral Courbet is furious, and has done his utmost to provoke war.

MARRIED.

At her brother's residence, in Gorrie, by Rev. Mr. Charleton, Smith Hopkins of Gorrie, to Jemima McLaughlen, daughter of William McLaughlen.

At St. Luke's church, Vancouver, on July the 4th, by Rev. A. S. Nicholson, Angus John McColl, of New Westminster, British Columbia, formerly of Brussels, to Miss Helen, only daughter of the late J. V. Barlow, of Toronto.

DIED.

In Sarnia on July 29th, Andrew, infant son of Andrew Williamson, engineer Str. Ontario.

On July 22nd, near St Joseph, State of Missouri, Mrs. Alexander Parker, youngest daughter of the late Richard Darlington, of the township of Colborne, and sister of Mrs. Robert Proudfoot of this place.

In Goderich, on Friday, August 1st, 1884, Richard Simmons, aged 82 years.

In Goderich, on Saturday, August 2nd, 1884, John Lawrence, eldest son of M. Higgins, Conductor, G. T. R., aged 5 years and 4 months.
