BRIGHTON MOVES TO SUPPORT THE BAKERY INQUIRY

Alderman and Bread Manufacturer Approves Action of Ald. Bridge.

COMMISSION IS LIKELY

City Clerk Will Ask Attorney-General To Grant Authority.

On motion of Ald. B. F. Brighton, a local baker, No. 2 committee of the city council Tuesday night approved the action of Ald. John Bridge, who has declared war on local bakers, and passed a resolution instructing City Clerk S. Baker to write to Attorney-General W. E. Raney asking that he grant permission to the city council to empower a commission to investigate the local bread situation.

Ald. Bridge appeared before the committee and stated that he had written to the attorney-general for permission to the city council to instigate an investigation, but had received no reply. "I would be glad to have the approval of this committee," he declared, "and a resolution from this committee asking that a commission be empowered to investigate the situation."

"I have charged that the price of bread in London is too high. It can be sold here at ten cents a loaf. There is a general practice on the part of local bakers of receiving secret rebates. The prices quoted by them are not the prices quoted by manufacturers for raw products in the larger per cent of cases."

Facts Will Come Out.

"In a fair investigation the facts will come out, and if not as I say, the price of bread will not be justified at a lower figure. I will ask No. 1 committee of the council to take similar action at the meeting Wednesday and will make it unanimous."

"If it is necessary I move to that effect," declared Ald. B. F. Brighton, whose business will be included in the investigation if ordered, and that portion of the agenda, was disposed of with no sign of flurry.

Ald. G. A. Wenige addressed a communication to the committee asking the names and addresses of all members of the city engineer's staff with salaries, by whom they were appointed and when, and the relationship, if any, to the city engineer. He also requested information as to what became of the sand dryer made up according to the engineer's specifications in 1920, its cost, and how much used, and why another sand dryer was purchased in 1921 and its cost. On motion of Ald. Ashton the communication was filed.

A deputation from Knollwood Park appeared at the meeting to protest at the property owners of that district being compelled to pay interest on debentures for a sewer in that district, to be spread over a period of 30 years instead of the usual ten years. Joseph Hill informed the committee that he purchased 100 feet of land for $80 and must pay $800 for the sewer in front of it. He declared it to be "abominable," and stated that he lived in a shack built when he lived in the township.

Willing To Go Back.

"I wish you had stayed there," declared G. B. Drake.

"I am agreeable to retire to the township," replied Mr. Hill.

"Take the sewer with you," advised Ald. Ashton.

Ald. Drake explained that it was only after earnest solicitation on the part of Knollwood Park residents that the sewer was laid, and that those taxpayers who urged its construction were not complaining. As there is no money in sight to pay the interest on the debentures for the property owners, no action was taken. However, the committee decided to appeal the decision of the court of revision, which granted a rebate of $11,000 on the sewer job to Knollwood Park citizens.

The chairman of the committee and Mayor Little were named to consult the city solicitor regarding the recent court decision on the suburban roads question. Tenders for pumps for the London West sewage plant were rejected, owing to the fact that the bids varied too much. Tenders will be called for the complete plant instead upon recommendation of the city engineer.

LONDON LIFE PICNIC AT PORT STANLEY

Members of Staff and Friends At Outing Number One Hundred and Seventy.

Members of the staff of the London Life Insurance Company and their friends, numbering in all about 170, made merry at their annual picnic staged at Port Stanley Tuesday. Upon arrival at the grounds a splendid program of sports was run off, including a baseball game, in which the moonshiners, captanied by Hazel Stone, went down to defeat at the hands of Vera Gee's bootleggers to the tune of a 10 to 6 score. A second baseball game resulted in a victory for Captain Ward's team over Smith's nine, the final count being 10 to 4. During the distribution of prizes Harold Chapman led the sing song.

Following are the winners in the various events on the sports program:

Snowshoe race—Eula Abbott.

EDUCATION BOARD DISSATISFIED WITH EAST LONDON WORK

Seating At Ealing and Lorne Avenue Schools Very Unsatisfactory.

After spending a greater part of Tuesday afternoon inspecting the seats recently installed in certain rooms of the Ealing and Lorne Avenue Schools, members of No. 2 committee of the board of education reported the deepest dissatisfaction with the work. It was decided therefore to give the local firm which installed the seats until July 7 to rectify the trouble, or else the contract will be cancelled. The decision of the committee was almost unanimous in this respect.

The new floors to be installed in the Victoria School also came in for considerable discussion. Inspector C. B. Edwards protested by letter to the committee against the installation of ground marble and cement floors in the school rooms, on the grounds that they would be injurious to the health of the children, but by a unanimous vote the objections were over-ruled, and it was decided to stay by the original plan.

Mr. Carruthers, architect for the school board, who has conducted several experiments, said that he did not believe that the floors were any colder than hardwood. Several others expressed themselves strongly in favor of the new flooring.

The question of beautifying school grounds was also considered to some length. It was finally decided to ask the Principals' Association to appoint a committee of three to meet the committee at an early date to discuss the matter.

$500 SUED FOR, $50 IS AMOUNT ALLOWED

Fred and Mary Wilmer Plaintiffs In Action Against Street Railway.

Fred and Mary Wilmer sued the London Street Railway Company for $500, claiming serious injury when a street car was alleged to have struck Mrs. Wilmer on October 24, 1920, but she was awarded $50, and he received nothing in the county court Tuesday. The jury was out more than an hour. Mrs Wilmer claimed injury to her back and other parts of the body, and that she suffered severe shock.

DR. C. S. TAMLIN TO BE RETAINED AS DAIRY INSPECTOR

Board of Health Increases His Salary To $2,000 Per Annum.

APPOINTMENT OF NURSE

Miss F. B. McGugan Succeeds Miss Barons, Who Recently Resigned.

Despite the fact that No. 1 committee of the city council has refused to sanction an overdraft on the estimates for the purpose, members of the board of health at a meeting held on Tuesday afternoon, re-engaged Dr. C. S. Tamlin as permanent dairy inspector, increasing his salary $400 per annum, decided to retain the services of Assistant Sanitary Inspector Boss, and ordered Dr. W. S. Downham to have his auto repaired in order that he may continue his rounds as local medical health officer. Dr. Tamlin was granted an increase in salary after recent reconsidering his resignation, and will receive $2,000 per annum.

Health Nurse Appointed.

In addition the board appointed Miss F. B. McGugan of this city to act as health nurse in succession to Miss Barons, recently rseigned. The appointment was made on recommendation of Dr. Downham, who stated that he had experienced great difficulty in making a selection from six applications.

Dr. O. I. Cunningham, chairman of the board, who presided at the meeting, did not take kindly to the action of No. 1 committee of the city council in referring back the recommendations of the board. "We cut our estimate $2,000 this year to help the council," he declared, "and then No. 1 committee slashed our estimates another $2,000. They say we are exceeding our estimates. It is their estimates that we are exceeding, which they cut without consulting us. We must get funds.

"They pay over $2 per citizen for fire protection, and over $2.50 per capita for police to keep robbers away, yet they pay only about 22 cents per person to suppress communicable diseases and prevent our health being stolen."

Must Remove Hides.

It was decided at the meeting to amend city bylaws, so that no carcasses of calves bearing hides shall be stored in refrigerators of city butcher shops. This was done after complaints that these hides rubbed against fresh meat and made contamination with anthrax, tetanus, and tuberculosis a possibility. The proposal to compel grocers of the city to keep meats which they had on display under cover from flies during the summer was discussed, but no action was taken.

Dr. Tamlin reported that he had inspected 30 local butcher shops, and all were in first-class condition, excepting two. One York street proprietor, who had been warned three times that his premises wer insanitary, will likely have his shop closed and be haled into police court, as the inspector was empowered by the board to use his own discretion in the matter. A shop in London East will be ordered cleaned up by the inspector, the neighbors complaining of its aroma, failing which it will be closed.

Orchard Street Complaint.

Following a request received from the London Society of Sanitary and Heating Engineers the board decided to purchase a smoke-testing machine for the use of the trade. It will cost about $45, and a nominal fee will be charged for the use of this machine when purchased. A complaint was received from Charles Perkins, regarding the Orchard street ravine, which, he claimed to be filled with garbage and other debris, blocking the drains. City Engineer Brazier reported that no more refuse will be dumped there, and that sewer connections had been made to the ten feet of water in the ravine, with relief in sight as soon as proper drainage can be established.

Inspector Saunders reported that Chinese laundries in London have improved 100 per cent, and that all are clean. He censured landlors of these premises, who refuse to keep building in repair. "They are a disgrace," he declared. He also reported that work is under way for improved lavatory accommodation at Springbank Park, which is necessary.

CRYING OF BABY SAVED THREE LIVES WHEN HOME BURNS

Mr. and Mrs. H. Todd and Infant Driven Out by Flames.

INGERSOLL, June 14.—At 2 o'clock this morning Mr. and Mrs. Henry Todd were driven by flames from their home on Wellington street. They were awakened by the crying of their baby, only to find the house in flames and to barely escape with their lives. The origin of the fire is unknown. The flames started at the rear of the house and spread rapidly. The firemen responded promptly, but the house and contents were practically destroyed. The house was owned by a Mrs. Tanner of Detroit. There was no insurance on the contents.

Co-operation in Government.

Following the weekly luncheon of the Kiwanis Club on Friday, a public meeting will be held in the town hall. The speaker will be Horace L. Brittan of Toronto, director of municipal research, who will discuss "Citizen Co-operation in Good Government."

Defective Chimney.

The firemen had their second run in twelve hours to the home of R. W. Green, where fire started from a defective chimney. The blaze was quickly extinguished, and the damage was slight.

UNION OF SOLDIERS ORGANIZATIONS IS EXPECTED SHORTLY

A. E. Foster Reports On Provincial Convention Held At Brantford.

AMALGAMATION PROJECT

May Follow Example of British Service League of Australia.

That the time has come for the amalgamation of all returned men into one organization was clearly evidenced by the tenor of Tuesday evening's regular meeting of the Great War Veterans' Association. A. E. Foster, secretary of the London command and delegate to the recent provincial conference in Brantford, read the detailed report of the proceedings at the latter gathering, which included the advice that the burning question, the proposed union of all ex-veterans, has been left over until the Dominion convention of the G. W. V. A. in Port Arthur July 4-9.

The possibility was suggested that the Dominion gathering may reject any proposal to link with the othe soldier bodies which, in the opinion of many, would be contrary to the present desire of the majority of the members of the local command.

Organization Project.

Dr. J. Cameron Wilson, president, replied that indications pointed to an amalgamation project of some nature being approved, as it was now apparent to most of the men that the only solution for the problem would be to unite in one great body. The past few months, he pointed out, had witnessed a considerable falling off in membership of all veteran bodies, and it behooved them to take immediate steps toward rehabilition.

Comrade Foster intimated that although nothing officially was recommended at the Brantford convention, the Australian system of soldiers' organization had been discussed, with the great possibility that the same will be suggested for adoption at Port Arthur. The same situation developed in Australia and New Zealand, Comrade Foster said, and, like Canada, two or three organizations of returned men sprung into existence. In the finish they dropped their charters, and all were included in a new charter, under the name of the British Service League of Australia.

Will Co-operate.

In the interim the G. W. V. A. will continue to co-operate with the other chartered bodies until a decision is rendered at the Port Arthur convention.

The secretary's report of the last recent conference included indorsation of the $1 a day compensation resolution; to benefit for all ex-members of the service.

Nomination of officers for the London command for the ensuing year took place last night, and the date of the election is set for the next regular monthly meeting. Although strenuously urged to stand again as candidate for president, Dr. Wilson regretted to decline under pressure of professional duties, which prevented him to devote, he said, the time that he would like to the association.

The following are the nominees:

Nominations For Officers.

President—Lieut.-Col. W. G. Coles, Comrade Devlin.

First Vice-President—Major Gordon Ingram, Comrade Pulger, Comrade Johnson.

Second Vice-President — Comrade Harry Wray, Comrade Foster.

Treasurer—F. H. Greenless (acclamation).

Sergeant-at-Arms—Comrade J. A. McGuire (acclamation).

Assistant Sergeant-at-Arms—Comrade William Johnson (acclamation).

Executive (fourteen to be selected)—Comrades Harry Wray, McGuire, Felshaw, Holmes, Wyatt, Aitken, Hayes, Lee, Ball, Menzies, Thomson, Bates, Guthrie, O'Brien, J. Young.

An invitation to send representatives to the Labor Forum was approved after discussion. Comrade Harry Wray was chosen delegate by a handsome majority.

WHITE & SONS BIG OUTING HELD

Twenty-First Annual Picnic of Firm and Employees At Springbank.

The 21st annual picnic was held by George White & Sons at Springbank Tuesday afternoon, when about 600 guests, employees' families and friends turned out. The outing proved to be a huge success, due to the good work of the committee and Arthur White, who seemed to be everywhere, seeing that everyone, especially the kiddies, had a good time.

The Springbank "cop" was called in the early part of the picnic to arrest Jimmy Jones and Jack Vasbinder, who had a very suspicious looking load on a truck, but it proved to be a false alarm, as the load turned out to be peanuts, candy, ice cream and other goodies for the big kiddies, as well as the small ones.

The baseball game, Boiler Shop vs. Machine Shop, was the special feature for the afternoon, invited all sorts of criticising remarks and comments, and Bill Brotherson, who kindly offered his services for umpire, as usual, was always wrong in his decisions.

"Pidge" Heathfield, southpaw, pitched a good game for the machine shop up until the sixth, when he began to get wild, and the catcher nearly needed a stepladder to connect with the sphere after that. Karn, pitching for the boiler shop, was replaced in the sixth by Glady, who apparently was trying to hit the tail of Winnecke's comet, judging by his throws. Pitchers on both sides evidently held grudges against the opposite sides, as they apparently did their best to give the batters the K. O. via the baseball route.

The boiler shop shortstop let so many grounders pass him that it threw the game in favor of the machine shop, at least that is what the losers claim. Bets were heavy. "Dutch" Baker bet $2 of his hard-earned money against A. W. White on the boiler shop. He lost, but he won a dollar bet on the balloon race from the same source, and said he didn't mind the $2, as the game was worth it.

Batteries were: Boiler shop, Karn, Glady and Rockwood; machine shop, Heathfield and Campbell.

McDonald's Pipe Band, under the leadership of "Mac" McLeod of the boiler shop, whiled away the hours by serenading up and down the picnic grounds until lunch was served.

Campbell's Orchestra provided special music for the dance of the employes and friends, which was held in the pavilion, 8:30 to 11:30.

The list of those winning prizes is as follows:

Girls under six—1, Ellen Gorman.

Boys under six—1, Leonard Rockwood.

NOT FLOATING ONTARIO LOAN IN NEW YORK

TORONTO, June 14. — Provincial Treasurer Peter Smith is said to have been discouraged from going on the New York money market with the flotation of the $20,000,000 provincial loan which has been in contemplation, because of conditions on the American market. The demand on the market in the United States is for bonds that will yield 7½ per cent to investors. This is regarded by the Provincial Treasurer as impossible.

If you want a good attendance at your meeting, let Advertiser readers know when it is going to be. The rate is 2 cents per word or 15 cents per line.
