Commercial Reports

Sharp Rally in Grain Prices Sentiment Visibly Improves

Improvement on Wall Street and Unfavorable Crop Reports Give Strong Tone to Chicago Market.

CHICAGO, Sept. 28.—Wheat to-day reflected the improved loan invoices. As a result the market closed 1-2c to 1-4c over last night. Corn finished 1-4c off to 3-8c higher, and provisions with a gain of 7 1-2c to 20c.

Removal of the disturbing influence of Wall-street depression allowed a variety of bullish factors to help in lifting the price of wheat. The highest figures of the day were reached after news had been received of a frost scare in the Argentine. Previously rough weather in the Northwest, particularly Saskatchewan, was a source of decided strength. Some sections of the Canadian wheat country were said to have had practically continuous rain or snow for three weeks, making a worse condition than had been generally recognized.

War Scare a Bull Factor.

The Tripoli affair, with its warlike possibilities, had a tendency also to turn the market upward, especially as prominent houses in the Liverpool trade were alleged to have taken the buying side on that account. A good deal of attention on the other hand was given to the fact that the spring crop receipts were running heavy, Minneapolis in particular showing a heavy piling up of arrivals. Nevertheless, the session closed without any important setback, altho the final tone was nervous. Between the opening and the finish December ranged from 97 1-2c to 98 1-2c, and in the end was 1-2c higher at 98 1-8c and 98 1-4c.

Corn Futures Irregular.

In corn, expected large deliveries weighed down the September option. The sparing nature of offerings from the country, however, gave aid to other futures. Floods were reported in Illinois bottom lands. December moved from 63 3-8c to 64c, closing steady 3-8c and 1-2c net higher at 63 7-8c and 64c. Cash grades were in good demand.

Oats speculators who sold out yesterday were in many cases busy to-day reinstating lines. Strength of other grain furnished the reason. High and low levels touched by December proved to be 47 1-2c and 48 1-8c, with the close the same as last night, 47 3-8c.

Shorts evening up their outstanding trades brought about an advance in provisions. When the gong sounded pork had risen 20c and other products 7 1-2c to 12 1-2c and 15c.

Liverpool Wheat Market.

LIVERPOOL, Sept. 28.—The weakness in Winnipeg and Buenos Ayres and the decline in America together with the very favorable weather and crop advices from Argentine and India were offset here by the fact that large firms here supporting and raising values at the opening were ⅛c lower. Following the opening there was an advance on the absence of cargoes arrived off coast and talk of lighter Russian shipments this week. During the morning there was pronounced weakness shown in continental markets, and with a very small enquiry for forward delivery, and this led to renewed profit-taking. Spot markets were generally ½c lower, and the weather in the United Kingdom is favorable for plowing, it having rained.

CHICAGO MARKET IN OVERSOLD CONDITION

Wheat Scores Advance on General Bullish Developments at Home and Abroad.

J. P. Bickell & Co. from Logan & Bryan:

Wheat—Was in shape to make prompt recovery because of the sold-out position of the local trade. One element necessary to such action of course was improvement in the tone of the eastern stock market. There was much better feeling in that quarter this morning, and it started good buying of wheat. Market had ⅝c to ¾c recovery up to midday, helped by strength in northwest markets, and a fairly firm Liverpool cable. Top prices for the session were made near the close on buying started by a cable from Hamburg thru a leading local house, claiming trost in Argentine. Despatches from both sides of the Canadian line are claiming serious damage to wheat since harvest by the wet weather. Buying of wheat by commission houses first hour to-day was of good character and there was general repacing of lines by local traders who sold on yesterday's break.

Finley Barrell wired:

Wheat—Despite the fact that there was nothing in the news which could be construed as cheering to holders, market scored a fair reaction and closed near best figures of the day. Upturn was due to fact that yesterday's selling was overdone. This, together with lack of offerings, strength in northwest markets and improvement in stock market, induced quite a number who liquidated yesterday to reinstate their lines. Foreign markets were all heavy, practically nothing doing in either cash or export circles. While continuing friendly to wheat on depressions, we think it advisable for the present not to ignore profits, as until there is an improvement in cash demand local bulls will be more inclined to accept profits on hard spots than to press their advantage.

Erickson Perkins & Co. (J. G. Beaty) wired:

Wheat—There was a firmer feeling in wheat to-day. Market ruled higher on covering by shorts, and unfavorable crop reports from the Canadian northwest. Weather there was again unsettled with considerable rain. We still believe that this country is on a domestic basis, and while the market may rule within a narrow range for a time, still later on we look for higher prices.

Corn—There was a fairly large trade in corn to-day, and market ruled firm. Weather thruout corn belt was generally very favorable, but there are many complaints coming in regarding corn molding and rotting in the shock. There is no question but what these heavy rains are doing damage, and it simply means a late movement of the new crops with the probability of considerable soft corn. We look for prices to go higher.

Oats—Trade light but market ruled steady. Country offerings light, while cash demand fair. Our own crop, is so short, as well as the crops abroad, that oats may become scarce before the next harvest. The situation is strong, and we believe in higher prices.

The railways reported 94 cars of live stock at the City Yards, comprising 1249 cattle, 2475 hogs, 1462 sheep and lambs, 105 calves and 1 horse.

The bulk of the cattle on sale were eastern quality, which means that they were common to inferior, as a rule. These were hard to dispose of, being slow sale, Tuesday's prices, which we reported 20c to 30c lower than last week.

The good to choice quality cattle were in demand, selling readily at as high prices as at the beginning of the week, as will be seen by the many sales given below. But there were many common light butchers, steers and heifers, 600 to 750 lbs. each, that were reported sold at $3.50 to $4 per cwt.

Butchers.

George Rowntree bought for the Harris Abattoir Co. on Wednesday and Thursday, 460 cattle, as follows: Butchers' steers and heifers, $5.30 to $6.50; heavy cattle, at $6.42 to $6.40; cows, $3 to $5; bulls, at $3.10 to $5.25; canners, at $1.50 to $2.50.

Stockers and Feeders.

There was a fair demand for stockers and feeders; steers, 1000 to 1100 lbs., sold at $4.80 to $5.25; stockers and light feeders, $4 to $4.80 per cwt.

Milkers and Springers.

Prices ranged from $40 to $65, with a very few choice cows at $70 to $75.

Veal Calves.

The market for veal calves was firm at $4 to $8.50 per cwt.
