SAYS TOWER CLOCK IS PERFECT.

Commissioner Coatsworth Asks $25 for Widening Apparatus.

The clock loomed up as usual yesterday in the deliberations of the Board of Control. City Commissioner Coatsworth asked for $25 for the installation of a winding apparatus. At present, the work is being done by hand, and it takes six hours a day, three days a week, to keep the clock wound.

The clock has not yet been accepted by the city, and, therefore, Ald. Sheppard remarked that new machinery could not be installed until the city was the owner of the troublesome timepiece.

City Commissioner Coatsworth did not agree with the report of Architect Lennox, that the recent accident to the clock was due to gross carelessness on the part of employes, who had care of the winding. He said the apparatus was not strong enough, and had broken four times. Before the contractors' representatives left the clock, the flexible shafting broke down.

Mr. Coatsworth has much confidence in the clock, which, he said, was perfect, if the winding machinery was looked after.

Mr. Ashall, who looks after the city clocks, spoke in a similar strain. The matter will be further discussed when the board meets this afternoon.

EAST END JOTTINGS.

Roadway of Gerrard-Street Bridge is Being Widened.

The funeral of the late William Cox took place yesterday afternoon from his residence, 161 Langley-street, to Norway Cemetery. Services at the house and grave were conducted by Rev. Newton Hill of the Simpson-avenue Methodist Church. A large number of friends followed the remains to their last resting place.

The Royal Canadians, Broadviews and Riversides will hold their championship games in Sunlight Athletic Park on Saturday, Aug. 17. The members of the different clubs are practising hard, and some hotly contested events are looked for.

As a result of numerous complaints received in regard to the narrowness of the Gerrard-street bridge roadway, it has been decided to cut down the sidewalks on either end by 20 inches, thus affording drivers of vehicles a little more room in passing street cars. The work has been commenced and will be finished in a few days.

Military Escorts to the Duke.

Major Forrester of the Royal Canadian Dragoons has returned from his visit to Ottawa, respecting the military arrangements for the reception and traveling military escort for Their Royal Highnesses the Duke and Duchess of Cornwall and York.

Major Forrester states that the honor of providing the escort, while the royal visitors are in Toronto, will probably be allotted to the Governor-General's Body Guards. The traveling escort is likely to be furnished by the Dragoons.

The Expert System

There isn't a weak point in our defence against error or ignorance in performing any dental operation. Our system gives every patient the benefit of special skill—special study —special practice — and special pride on the part of the operator in the work he performs. If you want the best dental work at reasonable charges—there's an argument in favor of our methods that speaks pointedly—and with sound sense.

HAMILTON NEWS

WANT ISOLATION HOSPITAL

Board of Health Asks Council to Provide Funds for a Suitable Building.

MORE LAND FOR DUNDURN PARK

James Keenan Claims $5000 From Steel Company for Damages for Injuries Received.

Hamilton, Ont., Aug. 7.—(Special.)—At a meeting of the Board of Health this evening, there was a discussion on the advisability of the city being possessed of an isolation hospital for contagious disease cases. There have been repeated talks on the same subject for years past, but, when the recent smallpox epidemic broke out, the city was without proper isolation headquarters. The board decided to appoint a committee to wait on the Finance Committee of the City Council and ask it to furnish the necessary funds. The committee's labor will be in vain, because the city's loose funds have almost reached the vanishing point.

Parks Board Business.

The Board of Parks Management met this afternoon and disposed of some business. John Addison reported to the board that he valued the Kent property, west of Dundurn Park, at $1600. The board decided that, before considering further the proposal to add to Dundurn, options should be secured on the properties still further west, to the canal. The secretary was instructed to get the options.

John T. Counsell appeared on behalf of North End residents, and asked the commissioners to put the North End Park in shape so that baseball could be played on it. The board was opposed to spending much money this year, as it would be wasted, in view of an extensive expenditure next year. The members, however, voted $50 towards levelling the ground, and a committee was appointed to see that there was no waste.

John A. Bruce & Co. offered to supply the board with the needed number of bulbs for $65.55, and the tender was accepted.

Hit by a Brick.

On May 4 last, James Keenan was at work at the smelter of the Hamilton Steel and Iron Company, when a brick fell about 40 feet and struck him on the head. He was laid up for a time, and he claims his health has been permanently affected injuriously and his hearing partly destroyed. A writ has been issued against the company, claiming $5000 damages.

Police Points.

The charge of adultery, laid against Miss Lizzie Dow by Mrs. Lillie Rae of Toronto, was tried at the Police Court today, and Miss Dow was committed for trial. She came up at once before Judge Monck, where she elected to be tried by His Honor. The evidence for the Crown was re-heard. Prisoner's counsel contented himself with arguing that the clause in the Criminal Code, under which the charge was laid, did not apply to his client's case. Judge Monck reserved his judgment.

A Toronto Hebrew, Isa Rosenberg, was found guilty of stealing $50 from Jacob Marcus, who befriended the prisoner, and gave him shelter one day last week. Rosenberg was remanded till to-morrow for sentence.

To Abolish Trading Stamps.

The Retail Grocers' Association has appointed a committee to wait on the committee of the City Council which has such matters under its supervision, to ask that a bylaw be passed prohibiting the buying and selling of trading stamps in accordance with recent legislation.

Minor Mention.

Several hundred healthy young fellows left here to-day to help harvest the wheat crop in Manitoba and the Northwest.

Sam Landers is to be an aldermanic candidate next January.

Sergt. Hobson, a six-footer of the Strathconas, arrived in town to-day. He has been away from Hamilton for 12 years.

MARKET GARDENERS' EXCURSION WAS VOTED A COMPLETE SUCCESS

Model Farm at Guelph Visited and Inspected—Hospitality of Officials Duly Appreciated—Brief Word Explaining Objects of This Worthy Organization.

The first annual excursion of the Market Gardeners' Proteective Association took place yesterday to the Model Farm at Guelph. Between two and three hundred of the members and their friends accompanied, in many instances by their wives, sons and daughters, attended. A more orderly and respectable lot of excursionists never left the city of Toronto.

The train pulled out at 8 a.m. sharp, arriving at Guelph at 9.30 a.m. Street cars conveyed the visitors from the station at Guelph to the farm, where they arrived about 10 a.m.

Sight Seeing.

The two hours before noon were spent in visiting the farm buildings and some of the fields viewing the crops as well as the farm stock of different breeds and kinds.

At noon Professor Hutt, who was in charge at the farm, in the absence of Professor Mills, invited the visitors to partake of lunch that had been provided in the spacious gymnasium after which he delivered an address of welcome, and at the same time gave a short outline of the work done in the various institutions at the farm, and invited the visitors to see for themselves. All was duly appreciated by the excursionists, who were loud in their praise of the courtesy shown them by the professor. They then spent the afternoon as invited.

Home All Safe.

At 7.30 they boarded the train for the return journey and arrived in the city at 9 p.m., without any accident or anything occuring to mar their day's outing. All were highly delighted with the success that had attended their first annual excursion. The officers and executive committee are to be congratulated upon the excellent arrangements made.

Some Who Attended.

Amongst those present were: J. D. Evans President, Frank R. Reeves Secretary, W. J. Hill M.L.A. for West York, George Syme Jr., Dan Syme, Jos. Marshall, James Marshall, D. Vent, J. Dollery, E. Beckett, E. Barton, T. Lightfoot, R. Penny, Thomas Graham, E. Waterman, James Burbridge, E. Brown, W. Hendrick, S. C. Miller, Joseph Allen, G. Hutchings, R. Reid, H. Marshall, C. Marshall, A. W. Shuter, W. G. Canter, H. Jordan, R. Felvus, J. Callicott, J. Clark, R. Punnett, G. Hardiow, W. Byers, Joseph Rush Sr., Joseph Rush, C. W. Parkes, W. Hanis, James Elford, W. Holmes, Ed. Stock Jr., J. Tizzard, A. H. Little, James Gibbard, James Gibbard Jr., T. Harrigan, P. Harrigan, J. Westwood, Percy Westwood, G. Shepherd, H. S. Clarkson, J. Clarkson, G. Bater, H. Hurrell, H. B. Plater, H. Plater, W. Tustin, J. Tustin, J. Byers, J. Byers Jr., H. E. Reid, A. Constable, Charles Aymer Jr., H. F. Reeves, Mark Lumley, George Tomlin, W. Davidson, C. McKay, John McKay, W. R. McKay, Alex. McGregor, Arthur Mountain, F. Bater, T. Hoskin, John Hoskin, W. Kidd, R. Larkin, T. Constable, J. Constable, G. Vincent, E. Hayhall, George Griffin, James oMrtimer, Sam Green, B. Somers, W. Gough, F. Harris, G. Nicholson, Neil Caskie, Joseph Finucan, W. Ashby, John Davidson, R. Guthrie, W. Tustin Jr., George Inward, R. Barker, J. Elford, E. H. French, T. Wicks, J. Aggett, A. Bain, Cheeseman, Ross Davidson, D. Baldwin, I. Brickols, J. Lambert.

Word in Explanation.

The Market Gardeners' Association is comparatively in its infancy, having only been existence about two years. It has grown rapidly, and now numbers some five or six hundred members. The Supreme Council, which meets in Toronto, is composed of representatives from subordinate councils, and meets once a month in summer and twice in winter. Several subordinate councils have already been established at various points outside the city. And it is expected that the organization will rapidly extend thru the various provinces of the Dominion.

One of the main object of the Association is to seek to have the duty raised so as to prevent the flooding of the Canadian markets with the cheap refuse vegetables of other countries, especially from the countries to the south of Canada, whose climate is earlier. These countries have been getting the cream of the Canadian markets by stocking them with produce that cannot be sold in their own markets on account of its inferior quality. This is sold on our own markets earlier than our own produce can be raised, and has the effect of destroying the demand that there otherwise would be, when our own Canadian produce is ready.

Gardeners' Claims.

The gardeners claim that increased duties would not raise prices to the general public, as there would be a larger amount produced if the Canadian growers obtained better prices that now prevail in the earlier part of the season. This would enable them to sell at lower prices later on in the season. And the only effect would be the wealthy consumers would have to wait a couple of weeks later for their early supplies.

In their efforts the gardeners have received support and encouragement from many parts of the Dominion. Six hundred gardeners of Montreal and vicinity petitioned the Dominion Parliament last session for an increase of duty.

City Expresses Regret.

The Governor-General will be asked to express the regret of the City of Toronto to His Majesty the King, owing to the death of the Dowager-Empress Frederick. The suggestion was made and concurred in at yesterday's meeting of the Board of Control.

DRAWHEAD BROKE

And Two Sections of M.C.R. Train Came Together With Great Force.

Hagersville, Aug. 7.—About noon to-day, as an eastbound freight train on the M. C. R. was coming down the grade at Hagersville, near J. C. Ingle's stone quarry, a drawhead broke. The front section was slowed up, and the rear section, being freed from the control of the airbrakes, crashed into it. Two cars, one loaded with oats and one with furniture and carriages, were badly broken, and some others were more or less damaged. Two express trains suffered delay. The wrecking train from St. Thomas cleared the way after a couple of hours' delay.

HORSES SAVED, HAY BURNED.

Seven-Hundred-Dollar Blaze on Wilton-Avenue.

Chief Thompson and the men attached to the eastern sections of the brigade did good work last evening in fighting a fire which occurred in a large two-storey frame stables and driving sheds, in the rear of 351-353 Wilton-avenue, and which, at one time, threatened to devour the adjoining buildings.

The fire was discovered about 5 o'clock in the basement of the building, by Frank Stevenson, an employe of J. S. A. Whealy, the owner and occupant, who conducts a bakery and confectionery business at 351 Wilton-avenue. After turning in an alarm, Stevenson, with the assistance of Mr. Whealy, succeeded in getting to a place of safety four horses and two wagons, which were in the building when the fire broke out.

Six tons of hay provided food for the flames, which, when the firemen arrived, had not only enveloped the building, but had spread to the kitchen at the rear of Mr. Whealy's home. Nearly two hours elapsed before the firemen were able to return to their respective stations.

The total loss will amount to about $700. The stable was insured in the Queen City and Hand-in-Hand companies for $600, but there was no insurance on the contents. That part of Mr. Whealy's house and contents damaged by the fire were also covered by a policy in the same companies. The cause of the fire is unknown.

The Common Dread of Kidney Disease

Due to the Sudden and Unexpected Deaths Which Result—Constipation a Frequent Cause—The Unusual Efficacy of Dr. Chase's Kidney-Liver Pills.

Kidney diseases may last for years, and at times may seem to disappear entirely, but unless radical treatment is taken death is likely to result at some unexpected moment. The most frequent cause of kidney ailments is constipation and neglect to keep the bowels regular and active. With constipation the excretory functions of the kidneys fail, the convoluted tubes become choked up, and the tissues are gradually wasted away. The liver cells also are compressed and destroyed, and the most complicated ailments arise.

So far as is known, Dr. Chase's Kidney-Liver Pills are the only treatment that gets at the cause of kidney disease by quickening and regulating the action of the intestines, as well as invigorating and restoring the kidneys themselves. There must be some great secret for the phenomenal and continual success of Dr. Chase's Kidney-Liver Pills. Gradually the demand for them has increased, until now there is no similar remedy that has anything like the sale of this great prescription. It seems safe to conclude that much is due to the fact that Dr. Chase's Kidney-Liver Pills have a direct and combined influence on kidneys, liver and bowels.

Mr. Wm. Boyne of 19 McGee-street, Toronto, says: "I was afflicted severely with kidney disease, stone in the bladder, incontinence, deposits in the urine, severe pains in the back and strains over the loins. I was so bad that I had to get up two or three times in the night, and could then only make water with great pain.

"Though long a sufferer, and unable to work, I was confined to my bed for three weeks, and during that time thought I could not possibly endure greater misery. It was then that I began to use Dr. Chase's Kidney-Liver Pills. It is with gratitude that I say that they have freed me of all these symptoms, and made me a well man."

Dr. Chase's Kidney-Liver Pills, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

WORK STOPPED FOR A TIME

On Eastern Stable Site in Deference to Protests of Residents of That Section.

MAYOR AND CONTROLLERS VISIT SITE

Big Deputation Makes Strong Plea Before Board of Control for Removal.

Work on the site of the new eastern stables has been stopped by order of the Mayor and Board of Control until a protest made by a big deputation at a meeting of the board yesterday is disposed of to-day.

Mayor Howland, accompanied by Controllers Sheppard, Lamb and Frame, Ald. Richardson, Stewart and Hodgson and Street Commissioner Jones, visited the site yesterday afternoon, and the Board of Control came to the conclusion that it would be well to discontinue the work until it was thoroly decided that the place was suitable for the new buildings. Controller Lamb dissented and said the board had no legal right to do so.

Pitched Into Aldermen.

The scene at the site when the city fathers were there was exciting and amusing. About 50 residents of the locality, some of them red hot with indignation, pitched into the aldermen, particularly Ald. Hodgson and Controller Lamb, who thought the place was quite suitable.

Ald. Hodgson was accused in very plain terms of having accummulated enough money to despise the workingmen, and Ald. Lamb had to refuse the offers of those who desired to sell him their property cheap.

The examination of the ground showed that a costly foundation will have to be made, as well as the fact that the site is closer to residences than Street Commissioner Jones had calculated. It is within 500 feet of Hamilton-street school, notwithstanding Ald. Lamb's assurance that the distance is over 1000 and Ald. Hodgson's guess of 800, which prompted two ratepayers to offer to bet him $10 it was less than 500. The alderman refrained from betting.

Foundation is Soft.

In order to demonstrate that it was no place on which to erect a heavy building, a drill was very easily sunk six feet into the ground at the foot of an excavation and the water oozed out. Ald. Lamb's assurance of this Mr. Jones volunteered the information that the customs house and the iron block on Front-street were built on no better foundations.

Controller Frame openly expressed his opinion that some other site should be selected and Ald. Stewart and Richardson concurred.

Controller Sheppard appeared to think there was some ground for the complaint made by the residents, and made a minute inspection of the surroundings.

The Mayor kept silent and looked sympathetic. Then the controllers proceeded to the present stables, which are so crowded that some of the horses are boarding in a shed.

Other Sites Suggested.

Half an hour was spent discussing how the new building could be put up on or near the old site, but it was considered impossible, as a switch, which is to be put in by the Grand Trunk Railway for the accommodation of the adjoining factories, cuts off a big corner of the old buildings.

Controller Frame and Ald. Richardson were asked where there was a site that would be suitable and they will have several to suggest at to-day's meeting of the board.

The decision to order Street Commissioner Jones to discontinue work for the present, was made as the party was driving home.

Deputation Waits on Board.

At the meeting of the board in the afternoon about 50 parties interested in the matter were present. Ald. Stewart introduced the deputation, and presented a petition signed by 320 residents of the locality. The Mayor jokingly remarked that he did not think that part of the city was so populous, to which Ald. Stewart replied that there were 3000 people there directly interested. Rather than have the stables erected on the site chosen, it would pay the petitioners to purchase a site elsewhere and give it to the city. He saw no reason why the stables could not be rebuilt where they are now, and cited the objections published in The World on Monday.

No Chance to Protest.

Ald. Richardson showed that the property-owners had had no chance to protest against the site being adopted by the Council on Commissioner Jones' recommendation. The appropriation for the stables was $6000, and he understood it would cost $2000 more than that for a proper foundation to be laid on the site chosen. The people protesting owned their little homes, and the presence of the stables would greatly depreciate the value of their property.

Ald. Russell pointed out that if the stables were erected on the proposed lot the people were liable to wake up some morning and find all the horses drowned. The lot had been flooded several times, once to a depth of nearly 20 feet. He knew something about horses, and he would never choose that site for a stable.

Views of the Residents.

George Moore, speaking for the deputation, said no practical man would build on the site because he could not get drainage. He asked that the board have the same consideration for those protesting, as they would if the deputation came from the neighborhood of the Horticultural Gardens.

Mr. Godbold said the stables would be 25 feet below the surrounding houses, and the smell would just nicely reach the kitchen and bedroom windows. He thought if the crematory was removed, the new stables could be erected where the old ones are now, and give satisfaction all round.

Feeling is Strong.

Mr. B. W. Cherry told the board that if the meeting was taking place in the evening there would be 300 in the deputation instead of 50, as they were all workingmen, and could not get off in the daytime. He had seen water 15 feet deep on the objectionable site.

Ald. Stewart said the water was eight feet deep there two years ago, and he had seen blocks of ice half the size of the committee room in the same place.

Controller Lamb said he had never before heard so many exaggerations in one day. The deputation was influenced merely by sentiment.

The Mayor: Partly sceat. [Laughter.]

Plenty of Room Elsewhere.

Controller Frame said there was lots of room over the Don for the stables without dumping them in people's homes.

Controller Sheppard said the Council had been led by Mr. Jones to believe the site would be acceptable. He could quite see the objection, and if the complaints were well founded they should be remedied.

The board then took up other topics, and adjourned to visit the scene of the dissatisfaction, as recorded.

AN IMPORTANT ARREST.

Berlin, Aug. 7.—A man claiming to be E. C. Bolles of San Francisco, but who registered at the Kaiserhof as Bolles of Boston, was arrested to-day for presenting at a branch of the Dresdener Bank cheques identified as part of the booty obtained by the robbery of the American Express Company's office in Paris during the month of April last. Bolles claims he acquired the cheques legitimately.

Luxuries of Club Life.

Detectives Slemis and Davis yesterday visited the room at the Royal Canadian Yacht Clubhouse, occupied by William Jones, who was arrested on Tuesday night, and took charge of a lot of articles believed to have been stolen. Among the valuables recovered were an open-faced silver watch, a gold-plated watch, several cigar and cigaret cases, and a couple of canes and umbrellas. Two pieces of sterling silver, one engraved, "Eva to M. P." and the other "M. P." were also found.

Jones was in the Police Court yesterday, and arraigned on three charges of theft. He denied stealing a watch from J. B. O'Brien, a member of the club, on June 29, but pleaded guilty to the theft of $30 from E. Brunt, the steward, on July 5, and a box of cigars and six packages of cigarets on Tuesday. He was remanded till next Tuesday, when he will also be charged with stealing a pair of field glasses, worth $75, from J. D. McMurrich.

Must Be a Heavy Smoker.

Paddy Burke, a character well-known in the East End, went on a begging tour along Queen-street yesterday, but his journey was cut short by Policeman Saunderson, who locked him up on the charge of vagrancy.

After he had been placed in the cells, Albert Leslie, a tobacconist, at 725 East Queen-street, reported that Burke was a caller at his store during the afternoon. He asked for something to eat, and while the storekeeper was engaged in preparing him a lunch, it is alleged he stole four plugs of tobacco and hurried off. Burke is also alleged to have stolen a book worth $1.50 from the store of Albert Simpson on East Queen-street, second-hand dealer.

SYSTEM OF BRANCH BANKS

Continued From Page 1.

fifty branches, we see the deposits of the saving communities applied directly to the country's new enterprises in a manner nearly perfect. The Bank of Montreal borrows money from depositors at Halifax and many points in the Maritime Provinces, where the savings largely exceed the new enterprises, and it lends money in Vancouver or in the Northwest, where the new enterprises far exceed the people's savings. My own bank, in the same manner, gathers deposits in the quiet, uneventerprising parts of Ontario, and lends the money in the enterprising localities, the whole result being that forty or fifty business centres, in no case having an exact equilibrium of deposits and loans, are able to balance the excess or deficiency of capital, economizing every dollar, the depositor obtaining a fair rate of interest, and the borrower obtaining money at a lower rate than borrowers in any of the colonies of Great Britain, and a lower rate than in the United States, except in the very great cities of the East. So perfectly is this distribution of capital made that, as between the highest-class borrower in Montreal or Toronto, and the ordinary merchant in the Northwest, the difference in interest paid is not more than 1 to 2 per cent.

Declares It is All Rot.

Mr. McGill, general manager of the Ontario Bank, characterized the statements of Mr. Griffith as all rot. He maintained that the Canadian branch-banking system was not a hardship on small towns. Every day they took money on deposit where there was an overplus, and carried it out to loan in towns where it was needed. Besides, the small banks could charge borrowers a big rate; whereas the branch system enabled the people in small towns all over the country to get money on equal rates.

Declined to Say.

Mr. Duncan Coulson, general manager of the Bank of Toronto, did not care to express an opinion.

STARVING IN THE MIDST OF PLENTY.

Providence Helped Him to Granose and Granose Helped Him to Good Health.

How many hundreds of cases there are in Canada like that of Mr. Morton Vandusen of 701 Colborne-street, London, Ont. Food, food, everywhere, and not a bite that he could eat! Starving in the midst of plenty —not the kind of starvation that kills and is done with, but the long-drawn-out kind that continues on month in and month out, accompanied with insufferable pain and leaving the victim every month more debilitated and less fit to fight the battles of life. Do you wonder then that Mr. Vandusen is thankful for relief and that he is loud in sounding the praises of his great deliverer, Granose? This ideal food —the kind you get hungry for—was brought to the attention of Mr. Vandusen. He tried it, and as it was easily digested and assimilated, there was an immediate and continued improvement, but let him tell it in his own words:

I have for years been troubled with my stomach. All my food did not seem to digest and assimilate, consequently I was practically starving in the midst of plenty, but a kind Providence threw me into the association of those who use the B. C. Sanitarium Health Foods, and I learnt from them that Granose and Granola are predigested food products of great nutritive value and all ready for immediate assimilation. I have been using this Food for some time, with very satisfactory results, and I believe Granose and Granola to be the ideal food, for all ages and under all conditions. Good authority has informed me that thousands are cured at the Sanitarium where these foods are used.

MORTON VANDUSEN,
