SECRETARY'S OFFICE,
Montreal, 20th January, 1849.

His Excellency the Governor General has been pleased to make the following appointments, viz:—

John Waddell, Esquire, to be the Sheriff of the Western District in place of G. W. Foot, Esquire, resigned.

Henry Glass, Esquire, to be Registrar of the County of Kent, in place of William Jones, Esquire, deceased.

George Southwick, M. D., Rev. Mark Burnham, William Ross, Eltham Paul, John Walthew, James Blackwood, Thomas Hodge, James Coyne, Henry Warren, and John McKay, Esquires, to constitute a Board of Health, in and for the village of St. Thomas, in the District of London.

William Kissock, of Toronto, gentleman, to be a Public Notary, in Upper Canada.

His Excellency the Governor General has been pleased to grant Licences to George Perks, of Newborough, gentleman, to practise Physic, Surgery and Midwifery, in Upper Canada.

Philip Stephen Donnelly, of Sandwich, Gentleman, to practise the art of Surveying Land in Upper Canada.

Antoine Gagnon, gentleman, to be a Surveyor of Land in that part of the Province of Canada heretofore Lower Canada.

THE REPRESENTATION SCHEME is still kept back by the Ministry, although it is the most important measure for the "weal or woe" of Canada which can be devised. We shall see when it is introduced, upon what principle the Ministry will excuse themselves to the country for tampering with the question at all. Although, as individuals, we may not care to object to an increase in the representation, yet we maintain that the demand for it ought to have come from the people, in the first place, and not from an interested Ministry. If the present representation is the cause of any evils to the country, we should think that the community generally could hardly have failed in discovering some of them. Nor have we any right to imagine that they would be at all backward in exposing them, when discovered, or in demanding their removal.

The present movement of the Ministry has arisen from the accidental fact, that they possess, in the Lower House, a temporary majority of supporters, whose personal services they can command, as the feudal lords their vassals. As in ancient times the serf, or *censitaire*, had no will beyond the pleasure of his chief, so, at this day, an equally unscrupulous adherence to party is expected by the Radical leaders. But we cannot believe that Upper Canadians of intelligence, for the sake of an ephemeral exhibition of power, or for the hopes of future bribes will sink the permanent interests of their country in the ditch of French *nationality*.

The Union Act makes a majority of two-thirds necessary to carry any measure, for the increase of the representation; and as the French Canadian Members are jealous of the progress of Upper Canada in population and influence; they are determined to obtain as the price of their present support to Mr. Baldwin, the permanent power of preventing any increase in future, or any modification of the electoral districts, except such as will suit them. They, in fact, desire to be, according to the declaration of the *Journal de Trois Rivieres*, "THE MASTERS OF THOSE FOR WHOSE BENEFIT THE UNION WAS DESIGNED." At present the French Canadian constituencies form over one-fourth of the whole, and a fair proportion it is. But, by the increase of the numbers, as now schemed for by the French Members, they would return sixty-three to the Assembly; —and as the whole number in the House will be one hundred and fifty, it is pretty clear, that no English majority, however large, could ever succeed in carrying any future arrangement. The fate of Upper Canada would be forever at the mercy of the French Canadian population. Are the Upper Canada constituencies prepared to submit to that?

As the representation scheme involves the permanent peace and welfare of the country, it ought to be fully discussed by the people, before any attempt should be made to change it. Nor ought it to be passed into law by the Parliament, in which it is proposed. It ought to be carried only after a general election, so that the country might be able to express its opinion, both on the expediency of an increase, and on the propriety of one which is to make the French Canadians "MASTERS" of the United Province.

If forced on, and by some unfortunate mischance made law, as proposed, we do not hesitate to express our opinion, that it will be succeeded by nothing but trouble, and ultimately by bloodshed.—*Montreal Weekly Gazette.*

A meeting was held in the Royal Exchange, Chatham, on the 17th instant, at which resolutions were passed in favour of renewing the Charter to the Niagara and Detroit Rivers Railroad, as surveyed by Col. Johnson, and a memorial to the government accordingly agreed to. In the *British Colonist* of the 5th instant, we noticed a similar meeting, which was held in Simcoe on the 20th ultimo, for the same purpose.—*Colonist.*

Mr. Spencer Lidstone, author of the "*Queen of the West*," a poem on Toronto, is now preparing to publish one on Kingston.—*Ib.*

CHANGES IN THE INCORPORATION OF MONTREAL.—A petition is in course of preparation, in Montreal, to be presented to Parliament. Its objects are threefold—firstly, to effect a change in the representation by giving three members each to the north and south ward; secondly, to lower the elective franchise and the qualification of Councillors; and thirdly, to create a new division of the north and south wards, making Dalhousie street the boundary line.—*Ib.*

Several meetings have lately been held in the Townships of Blenheim and Burford, at every one of which the people were unanimous in their opposition to any dismemberment of the Brock District; and a meeting at Blenheim, on the 15th instant, adopted a memorial to the Legislative Assembly, praying that no division of the District may be sanctioned. A similar meeting was held at Woodstock, on the 19th instant, at which several resolutions were passed, condemnatory of any change in the Brock District, and a memorial to that effect was agreed upon, to be forwarded to the representative for the County, to be by him laid before Parliament.—*Ib. Woodstock British American*

THE AMNESTY.—The speech from the Throne having informed the Legislature that it was to be called upon to vote for a general Amnesty, nothing could possibly be imagined as possessing more of reason than a request that all documents necessary for deciding upon the subject, should be put into the possession of Members.

But upon Sir Allan M'Nab moving an address to the Governor General for the correspondence, HE WAS REFUSED.

Whether it was that the correspondence was of a disgraceful nature to the present Administration, and they were, therefore ashamed to produce it; or whether they have made up their minds to smother all information that can be of interest to the country generally, and especially to the loyalists of 1837-'8, it is not for us to say, but there stands the fact. The country will put their own construction upon it.

The Ministry were supported, of course, by a thick and thin majority, in their efforts to gag their opponents in the Assembly and the country. There is nothing these men are so much afraid of, among the loyalists of 1837, as the truth; it is well that the loyalists should know it.—*Montreal Weekly Gazette.*

Mr. Barber, City Superintendant of Schools, has recommended that the surplus School Funds in the Chamberlain's hands may be applied to the payment of the Teachers who have kept open their Schools during the winter, at their own risk. Referred to Education Committee of the Council.—*Globe.*

ST. GEORGE'S SOCIETY.—The adjourned meeting of the Society was held on Tuesday evening, at the Old City Hall, when the following gentlemen were elected Officers for the present year:—

President—F. Widder.
Vice Presidents—Joseph D. Ridout, G. D. Wells, and W. Atkinson.
Chaplains—Rev. H. Scadding, M. A., Rev. W. H. Ripley, M.A., and Rev. J. Beaven, D. D.
Physician—E. Hodder, M. D.
Treasurer—H. Rowsell.
Secretary—Geo. Brooke.
Committee—John Moore, S. Thompson, T. Champion, J. B. Townsend, J. W. Brent, George Bishop, and Wm Wakefield.

HOME DISTRICT COUNCIL—The Home District Council is still in session.

It has passed a resolution appropriating the sum of £5,000 to be applied to the repairs of Roads and Bridges during the present year.

A Memorial to the three branches of the Legislature has been adopted, against the division of the District.

For the passing of the memorial, 27—Nays 9.

Copy of Memorial addressed to the Legislature against the division of the Home District.

The Memorial of the Municipal Council of the Home District, in Council assembled.

RESPECTFULLY SHEWETH—That the Council has had under its consideration the actions and proceedings which have been taken by the inhabitants of the Eastern section of this District, with a view of causing a division of this District, and of forming a new District, and that, after mature consideration, is of opinion that any dismemberment of the Home District at the present time, with a view of forming a new District either at its Eastern or Western extremty, would be unwise and injudicious inasmuch as it would impair the credit, and contract the means now at the disposal of the Council for extending necessary improvements, instead of which a large portion of the revenue would be inevitably diverted from those objects so highly beneficial to the whole as a community, to erect the public buildings, and to pay the salaries of the officers of the proposed new District.

We therefore most respectfully but in the strongest manner protest against any division of the Home District for the present, and earnestly pray that your Honourable body will be pleased not to pass an Act to accomplish such an event.

Home District Council Chamber, January 27th, 1849.

We notice among the names of the officers highly spoken of by Sir Harry Smith, in the Despatch giving an account of the action with the insurgent force of the Boers, that of Lieutenant Dynely, of the Artillery, son of the present distinguished Commander of that branch of the Service in Canada. The conduct of this gallant young man is mentioned in the highest terms of commendation, and we may add, that, from all report, he bids fair to rival the reputation of his father, who is well known as one of the best Artillery officers in the Army, having seen much service, both in the Peninsula and at Waterloo.—*Mon. Courier.*

Orders have been received from England by the Commander of the forces in Canada, to disband the Provincial Cavalry, the expense of which is about £15,000 a year. This will take place inthe spring of 1850.

ANOTHER INQUIRY.—We are informed by a member of the Committee of the Temperance Society that an inquiry is about to be made by that body into the propriety of their President, the Rev. Mr. Roaf's insisting on the use of intoxicating drinks in the Lunatic Asylum, in defiance of the orders of tee Medical Superintendent to exclude them.

accumulation of sand. The expense of keeping it clear would be trifling we are informed. The importance of the subject will certainly command the attention of government.—*Ibid.*

JOHN BIGNALL.—The High Constable, Mr. Ellis, returned from Buffalo, after an unsuccessful attempt to capture the above person, who it will be remembered lately absconded with the School moneys. The authorities in that city offered every facility to the officer in his attempt to capture the runaway, but having left for St. Louis, the doubt and difficulty of overtaking him there, induced Mr. Ellis to return without him.—*Huron Gazette.*

THE NIAGARA RIVER CROSSED ON FOOT.—The severe gales from the West and South which prevailed during the former part of last week, brought down great quantities of ice from the upper lake, and which so completely filled the river, that crossing at this place, was prevented for three days. On Thursday last the ice ran so thick and heavy that Mr. Edward Boulton, the active and well known ferry-man brought the American Mail over on foot, stepping from one piece of the moving mass to the other till he arrived in safety at this side. The idea of crossing a rapid current, nearly three-quarters of a mile across, and so near the lake, in this way is rather a cool one. At any rate so Boulton would have found it, had he made a false step. His experience in crossing, enables him to do with safety, what to a person unused to ice would be attended with danger.—*Niagara Mail.*

A deposit of rock salt has been discovered in our sister Province of New Brunswick, by a Yankee.—Jonathan refuses to disclose the locality, unless the Government will guarantee him a share in the profits for ten years.

A very brilliant electric light was produced at the Telegraph Office, Hamilton, on the 22nd inst,

At the annual meeting of the Kent Agricultural Society, directors were chosen for the current year, and it was agreed by the society to forward a petition to the Government, praying that immediate steps may be taken to drain and settle the Crown Lands on the Raleigh plains.—*Colonist.*

At the annual meeting of the Dalhousie Disirict Agricultural Society, held at Napean, 8th inst., W. Thompson, Esq., was appointed President, and G. W. Baker, Esq., Secretary and Treasurer; and it was Resolved,—That 50 bushels of spring black sea wheat, and 50 bushels of black oats be purchased from Great Britain for the use of the society, to be retailed to members at cost and charges, not more than a bushel of each to any individual.—*Ibid.*

PUBLIC MEETING IN BROCKVILLE.—At a public on the 13th instant, it was Resolved that the resolutions referring to the British Navigation Laws, passed at a meeting held in Montreal on the 27th November last, be adopted by that meeting. This meeting also lamented the deplorable state of the agricultural, commercial, and manufacturing interests of Canada, which they contrasted with the United States, a country that has been raised to its present prosperous condition by a sagacious protecting policy. The meeting regretted to learn that large numbers from Canada were compelled to emigrate to the United States for want of remunerative employment here; and resolved, without any reference to politics, to unite with friends of home interests of every party, and to seek to advance the welfare of the whole country by securing to labour its proper reward, and a petition, founded on the resolutions, was adopted to the Legislature.—*Ibid.*

MECHANICS' INSTITUTE.—Friday night last, according to previous announcement, being the night upon which Professor Croft, was to deliver his Lecture, on Fire, in the Mechanics' Institute, the room was crowded in every part long before the hour appointed for him to begin, which was anxiously and impatiently looked for by the audience, who heartily welcomed him on his appearance. In the course of his Lecture which was very instructive and entertaining, he showed a good deal of research. He gave different opinions from the ancients as to the original substance or substances of wnich all things were formed.—Aristotle, he said, was of opinion that there were only four things of which every thing was composed. Fire, Earth, Air, and Water, but that it is known at present that there are 60 substances in the composition of the earth not more than twelve of which have been yet discovered, but as chemistry improves new discoveries will be made. He had chosen the present subject because he could bring into the Lecture many things that would be interesting, and which could not be brought into a Lecture on Chemistry. He exhibited Sir Humphry Davies' Safety Lamp, and gave a clear explanation of that great and good invention which he characterized, as (although apparently simple) one of the most wonderful and useful inventions, at least useful and valuable to miners, the lives of thousands of whom it saved, by preventing the explosion of *fire* and *damp air* in mines. The Lecture all through was really interesting and instructive, and at the conclusion he illustrated it by several beautiful chemical experiments, which appeared to give great pleasure to the audience, who left highly delighted, anticipating another Lecture from the learned Professor soon.—*Ib.*

HOME MANUFACTURES.—A short time since, in the prosecution of business and pleasure, combined, we visited the Village of Canning in this District. The situation of the village is beautifully romantic, and its proximity to a branch of the Grand River, affords to the enterprising inhabitants, superior facilities for manufacturing purposes. The Grist Mill, Axe Manufactory, and Woollen Factory formed the objects of our attention, and in the latter we were agreeably surprised to find some of the best specimens of Woollen Cloth and Satinett that we have seen for a long time. We were particularly pleased with a specimen of large Woollen, plaid Shawls, shown us by Mr. Raines, the proprietor of the Factory, and we could not but think when examining these necessary articles of comfort and convenience, that if Free Trade was established in Canada, such Manufactories as that to which we allude would be for ever destroyed, and the farmers would be denied the privilege of exchanging their wool for such articles of clothing as are produced in these unpretending, but useful establishments. Canning at present, has no Post Office, but we believe that steps are being taken to place the village in possession of this necessary accommodation, and we hope they will prove successful.—*Woodstock British American*

The number of vacancies will be Twenty-four—one for each District, two for U. C. College, and two for the University. The U. C. College and District Scholars are entitled to exemption, from all Dues and Fees during three years from the date of their election; the University Scholars enjoy, in addition to the above, the privilege of rooms and commons without charge during the same period. The only qualifications for election are stated in the subjoined extract from the Regulations.—

"1 The Candidates for the District Scholarships to be required to produce certificates of the residence of their parents or guardians in their respective districts during the year previous to the Examination—of their having themselves received instruction within the District whose Scholarship they desire to obtain, during the same period; and of good conduct, signed by the Principal, Head Master, or Tutor, under whose charge they have been. The Candidates for the Upper Canada College Scholarships, to be required to produce certificates of attendance at that institution during the year previous to the Examination, and of good conduct, signed by the Principal. The above certificates to be lodged with the Registrar at least one fortnight before the day of Examination."

"2. No Candidate to be elected Scholar, unless he shall have been placed in the first class in one department (either Classics or Mathematics), and not lower than the fourth class in the other (either Mathematics or Classics.)"

THE MISSES MACNALLY

BEG to announce that the Classes **will be resumed**, after the Christmas Recess, on the 8th of January, 1849.

MISS MACNALLY has had many years' experience as a finishing Teacher, and begs to state, in reference to her qualifications, that she has obtained introductory letters from the Rev. Dr. Singer, Senior Fellow of Trinity College, Dublin; the Rev. Robert James McGhee, Rector of Holywell and Nudingworth, Huntingdonshire; Sir Philip Crampton, Bart., and several eminent persons of learning and distinction, bearing testimony to her capability as an instructress, and to her zealous attention to the advancement of her pupils.

The plan of education which Miss MCN. pursues, is based upon the most approved modern European system, and the Young Ladies entrusted to her care enjoy the advantage of being at all times under her immediate superintendence, or that of her Sisters, who having been accustomed to the tuition of Young Persons, feel happy in devoting their time exclusively to their improvement.

Pupils studying Italian, German, and French, have the advantage of *frequent conversation* in those languages; and to facilitate an attainment now felt to be indispensable, a class for the exclusive purpose of practice in *French speaking* is held on Tuesdays and Fridays. They also have access to a well-assorted library, comprising the most approved modern publications in English, and the continental languages, with which, as also Globes, &c. &c., Miss MCN. has taken care to provide herself.

Separate hours and apartments are allotted to the various branches of study, by which method the rapid progress of the pupil in each department is secured.

SCHOOL.

MISS SCOBIE,
(LATE ASSISTANT TO MADAME DESLANDES,)

RESPECTFULLY intimates to her Friends and the Public, that she has opened a Preparatory School in Adelaide Street, second door west of York Street, where she hopes by continued strict attention to the Morals and general improvement of the Pupils committed to her charge, still to merit and retain the very kind patronage she has so liberally received; and for which she desires to offer her most grateful thanks. Studies will be resumed on the 8th of January.

Terms for Boarders.

Including all the branches of a sound English Education, Writing, Arithmetic, and all kinds of Needlework, and Washing, &c., £30 per annum.

Day Pupils £1 per quarter; Music, French, and Drawing, on the most moderate terms.

Adelaide Street, West, Toronto, 27th December, 1848. 22-3m

MRS. JAMIESON

RESPECTFULLY notifies her return to Toronto, and will resume her instruction in

WRITING,
And in the use of
THE FRENCH ACCORDEON.

In Writing,

Whether in Classes or in Private, the attention would be direct alone, in the Lessons given, to the speedy acquirement of a neat and graceful style of Writing—an accomplishment which all know how to appreciate, and which, by strict attention on the part of the Pupil, under the system pursued by Mrs. J., may be imparted in TWELVE LESSONS; as will be satisfactorily shown by a number of her former Pupils, in the British American Provinces and United States.

The French Accordeon,

An instrument now in general use, is also taught by Mrs. JAMIESON. Simple in construction, and sweet in melody, its use is readily acquired—TWELVE LESSONS being deemed sufficient to impart a competent knowledge of it to those who are lovers of the art.

In the arrangements for Tuition, the convenience of the Pupils will in every case be consulted, both as to time and place; Ladies being waited on at their own residences, or received at that of Mrs. J.

An Evening Class for the instruction of Young Ladies and Gentlemen in Writing Will be open at Mrs. J.'s, from seven to eight, and from eight to nine o'clock every evening.

Mrs. JAMIESON will also attend Ladies at their own residences.

Mrs. JAMIESON respectfully submits that she is prepared to afford the most satisfactory references, and is kindly permitted to mention the names of the Rev. H. J. Grasett, M.A., and the Rev. Hy. Scadding, M.A., and can furnish testimonials from many of her Pupils, who, under her guidance, have attained a proficiency in Writing and Music in a comparatively brief period.

Communications from Parties who may desire to enter on one or both of these Studies, will be addressed to MRS. JAMIESON, at her rooms, 47, King Street, West.

Toronto, Nov. 1848.

FRENCH AND ENGLISH ESTABLISHMENT,
For Young Ladies,
BY MONSIEUR & MADAME DESLANDES,
ROSEDALE HOUSE, YONGE STREET.

MADAME DESLANDES begs to inform her friends and the public, that she purposes **Removing** her School in the beginning of *January* next, from York Street, to Rosedale, a residence which she has selected as offering from its healthy situation, and the beauty and extent of the grounds attached to it, one of the most desirable residences in the Province. Mad. Deslandes being desirous that her Establishment should embrace all the advantages of an EUROPEAN SCHOOL, has engaged, through the medium of Monsieur Deslandes' friends in Paris, a highly educated FRENCH GOVERNESS; whose assistance with that of the Best Masters now employed, will, she hopes, added to her own and Monsieur Deslandes' unremitting exertions, advance in every way the improvement and solid instruction of her Pupils. Monsieur Deslandes is a Protestant, and a Graduate of the French University. Madame Deslandes, an English lady. They have adopted this plan in order to blend the English principles of Education with the French system, so long and so deservedly approved of.

Terms for Boarders,

Including all the various branches in English and French, Music, Drawing, and the use of the Globes.—£60 per annum.

Day Pupils,—£6 per Quarter.

German, Italian, Singing and Dancing, on the usual terms.

No extras, and a deduction will be made for Pupils not wishing to learn Music or Drawing, and also for those under 12 years of age.

Quarterly Payments required.

Each Young Lady must be provided with with Six Towels, a Silver Spoon, and Knife and Fork.
