Fear of Frost in Canadian West Market's Strengthening Feature

Wheat Trade Considerably Excited Over Weaker Probabilities—Russian Harvest Better Than Expected—Prices Advance.

CHICAGO, Aug. 21.—Altho Minneapolis and Winnipeg wheat markets were exceptionally strong to-day, that cereal locally advanced only 5-8, because the general public was not in evidence. Oats gained 1-4, but corn dropped 3-8. Provisions were dull and steady.

Wet weather in the spring wheat country lay at the bottom of the advance in wheat prices scored at the principal markets, but the local response was disappointing to the bulls. Winnipeg, at its best, was up 2 1-4c to 2 3-4c, and Minneapolis 2 1-4c, while the best this market could do was 1c. When the purely professional demand had been satisfied it was noted that the public was not behind them, altho possibly trading elsewhere. Even southwestern markets were much stronger than here. Continental cables reported advances, but Liverpool declined. Cash wheat was strong on limited offerings, No. 2 hard in store sold at 1c over September, and track cars 1c to 3c over the near future. The decrease of 340,000 bushels in the visible against an increase of 3,780,000 last year, and an official forecast of frost in Alberta and Saskatchewan to-night, contributed the strength of the market. December sold between 94 3-4c and 95 7-8c.

Corn, recently holding its own, while wheat was declining, was the weak market to-day, due to favorable crop reports, altho one influential private bulletin stated that a loss of 11 per cent. has been suffered by the crop since the first of the month. December sold between 61 1-2c and 62 1-8c. Trade was very light.

Continued excellence of the spot demand and the comparative lightness of receipts, together with the wheat strength, gave a strong tone to the oats market. Primary receipts were only 769,000 bushels, against 1,788,000 bushels a year ago. The day's cash sales were estimated at 220,000 bushels. December ranged between 44 5-8c and 45 1-8c, closing near the top.

Higher hogs and the wheat strength held provision prices thruout a quiet session, and the close was a shade to 10c lower Saturday. January pork closed 2 1-2c up at $16.60; January lard 10c higher, at $8.95, and January ribs 5c better, at $8.47 1-2.

Broomhall's Cables.

Broomhall cables as follows:

Liverpool weekly stocks—Wheat 2,072,000, against 2,085,000 last week. Corn 1,590,000, against 1,548,000.

Russia. — Southwest—Our agent at Odessa cables that the weather is wet, but the arrivals of new wheat at the port are larger. Threshing results are showing up good.

Liverpool spot markets.—These markets nominally unchanged owing to strike situation.

World's shipments.—Wheat 19,800,000, against 9,008,000 last week, and 12,880,000 last year. Corn 1,992,000, 5,605,000, 4,952,000.

Quantity of breadstuffs shipped for orders, included in above, 608,000, against 860,000 last week, and 1,725,000 last year.

Total wheat taken by continental countries the past week, 6,261,000, against 5,060,000 last week, and 7,048,000 last year.

Regina Wheat.

REGINA, Aug. 21.—Weather ideal. No rust worthy of mention and not an unpromising wheat field. The province is in promise for a greater yield than ever before. The prospects for wheat, oats and flax surprise me. Never saw its equal.

Brandon Crops.

BRANDON, Aug. 21.—Terrific high winds and raining hard here last night, lodged much heavy grain and loss will be considerable. Weather hot.

Rain in India.

Broomhall's agent at Kurrachee cables that some rain has fallen in the eastern districts of the Punjaub, and the outlook for the crops is more hopeful.

Winnipeg Inspection.

Receipts of wheat yesterday at Winnipeg graded as follows: No. 1 northern, 11; No. 2 northern, 19; No. 3 northern, 17; No. 4 northern, 11; rejected, 2; No. 5, 4; No. 6, 3; winter, 5.

Montreal Provisions

MONTREAL, Aug. 21.—There was a fair enquiry from foreign buyers for Manitoba spring wheat, but owing to the sharp advance in prices in Winnipeg all the bids were away out of line at the close. The local market for oats continues strong and prices here scored another advance of ½c under a good demand and small offerings. A fair business was done in spring wheat flour for export account, and the country demand was good at fair prices. Demand for bran and shorts is good. Cheese and butter are fairly active and firm. Eggs steady. Provisions in good demand and firm.

Dressed hogs (abattoir), $10 to $10.50 per 100 lbs.

Beef—Plate, half barrels, 100 lbs., $7.50; barrels, 200 lbs., $14.50; tierces, 200 lbs., $31.50.

Lard—Compound-tierces, 375 lbs., 9c; boxes, 50 lbs. net (parchment lined), 9½c; tubs, 50 lbs. net, grained, two handles, 9½c; pails, wood, 20 lbs. net, 9½c; tin pails, 20 lbs. gross, 8¾c.

Pork—Heavy Canada short cut mess, barrels, 35 to 45 pieces, $33; half-barrels, $11.75; Canada short cut and back pork, 45 to 55 pieces, $22.50; Canada clear pork, barrels, 30 to 35 pieces, $20.50; bean pork, small pieces, but fat, barrels, $16.50.

Oats—Canadian western No. 2, 43¾c to 44c car lots ex-store; extra No. 1 feed, 43½c to 43¾c; No. 3 C.W., 42¾c to 43¼c; No. 2 local white.

Flour—Manitoba spring wheat patents, firsts, $5.40; seconds, $4.90; winter wheat patents, $4.50 to $4.75; strong bakers', $4.70; straight rollers, $4 to $4.70; in bags, $1.85 to $2.

Rolled oats, per barrel, $4.75; bag of 90 lbs., $2.25.

Corn—American No. 3 yellow, 71c to 71½c.

Millfeed—Bran, Ontario, $22 to $23; Manitoba, $22; middlings, Ontario, $25 to $26; shorts, Manitoba, $24; moullie, $25 to $31.

Eggs—Selected, 22c to 24c; fresh, 17½c to 18c; No. 1 stock, 18½c to 20c.

Cheese—Westerns, 12¾c to 13¼c; easterns, 12½c to 12¾c.

Butter—Choicest, 24¼c to 24½c; seconds, 23c to 24c.

OPEN FIGHT IN EARLY MARKET

Wheat Exchange Becomes Excited on News From Harvest Fields —Brokers' Comment.

Erickson Perkins & Co. (J. G. Beaty) had the following:

Wheat—Market opened steady to a shade easier with opening the low of the day. Northwest markets led the advance and threshing returns from North Dakota and Minneapolis continue to show surprisingly small yields and much of the grain is poor. The demand for cash wheat in Minneapolis continues good; stocks are decreasing 145,000 for two days. Fear of frost in Canada to-night was a strengthening feature. The market acts very healthy, but at moment lacks enough outside trade to advance prices sharply. Pressure from cash wheat is not felt, and with prospect for such a moderate crop of spring wheat we do not believe that the movement will be oppressive. We look for a gradual hardening of values and advice purchases on all setbacks.

Corn—After opening steady market eased fractionally with September showing more decline. Traders were bearish and did bulk of selling. Cash demand fair, prices a shade easier with September. We feel very friendly to the market on weak spots.

Oats—Prices ruled fractionally higher notwithstanding the little easier tone in corn. Selling pressure was limited and offerings were readily absorbed. Cash prices ¼c to ½c higher with fair sales for shipments. We look for the market to gradually work higher.

Finley Barrell wires:

Wheat—A very moderate and professional trade experienced in wheat to-day with prices generally higher as result of substantial advance in northwest markets and possibilities of frost to-night in Alberta and Saskatchewan. The gain, however, as compared with other markets was very moderate. This was due to the fact that the buying power here was limited to locals, hence not sufficient to carry the advance after professionals had bought their limit. Sentiment tonight bullish, but action of the market for the present depends on Canadian weather. We think it will require nothing short of a disaster in Canada, however, to force prices permanently higher.

J. P. Bickell & Co. from Logan & Bryan:

Wheat—It was an open fight in wheat the first half hour to-day, a little special support in the September, followed by rather liberal selling of all months in the half an hour later and prices back from ¼c to ½c under Saturday closing quotations. The fight for the control of the market first hour was around 98c for December. The news from the northwest turned the scale and gave buyers the advantage. The advance in wheat here was in the nature of being dragged up by the northwest markets. At high prices for the day, Winnipeg, Minneapolis and Duluth showed gains of 2 to 2¼c. Despatches reported the northwest trade considerably excited over the fear of light frosts for the Canadian northwest. This was the feature which forced the market remarkably strong in the Winnipeg market. If the frosts feared in the far northwest fail to show to-morrow morning there might be a very quick letdown in the markets, which were most sharply advanced to-day.

Visible Supplies.

The Canadian visible supplies of wheat this week, decrease, 1,122,000, last week, decrease 195,000, last year, decrease 1,010,000. Canadian total visible: Wheat 4,081,000 v. 5,203,000 last week, and 2,711,000 last year.

In the United States the comparative visible: Wheat this week was 46,621,000, last week 47,971,000, last year 22,382,000. Corn this week was 4,898,000, last week 5,640,000, last year 2,673,000. Oats this week was 174,196,000, last week 15,498,000, last year 8,025,000.

Good Demand for Cattle at Montreal

Cooler Weather Attracting Buyers and Offerings Show Substantial Increase.

MONTREAL, Aug. 21.—At the Montreal Stock Yards, west end market, the receipts of live stock for the week ending Aug. 19, were 3550 cattle, 2300 sheep and lambs, 2435 hogs and 400 calves. The offerings on the market this morning were 1000 cattle, 1500 sheep and lambs, 825 hogs and 1200 calves. A feature of the trade was the stronger feeling in the market for cattle and prices since this day week show an advance of 20c to 25c per hundred pounds. The gathering of buyers was large, including some from Quebec, and as the weather now is more favorable for keeping stock the demand was good, notwithstanding the fact that some of the large packing concerns bought the bulk of their supplies in the Toronto market at the latter end of last week at much better prices than they could have purchased here to-day. The trade thruout was fairly active and sales of choice steers were made at $6.15 to $6.25; good at $5.75 to $6; fairly good at $5.25 to $5.50; fair, $4.75 to $5; common, $4.25 to $4.50 per 100 pounds.

The market for live hogs was firm, owing to the small supplies that were offered, for which the demand was good, and an active trade was done with sales of selected lots at $7.85 to $8 per 100 lbs., weighed off cars. There was a good demand for small meats, and the market was active with a firm undertone. Sales of lambs were made at 6¾c to 6½c, and sheep at 4½c to 5c per pound. Calves were scarce, and in demand at prices ranging from $3 to $10 each as to size.

EXPERIMENTS WITH AUTUMN SOWN CROPS

Interesting Bulletin Issued by Prof. Zavitz the of Ontario Agricultural College.

Prof. C. A. Zavitz of the Ontario Agricultural College has issued the following bulletin on the results of experiments with autumn sown crops thruout Ontario:

Four hundred and forty farmers thruout Ontario conducted experiments with autumn sown crops during the past year. Reports have been received from thirty-three of the counties of the province. The average results of the carefully conducted co-operative experiments with autumn sown crops are here presented in a very concise form.

WINTER WHEAT.

Five varieties of winter wheat were distributed last autumn to those farmers who wished to test some of the leading varieties on their own farms. The average yields per acre of straw and of grain are as follows: Imperial Amber, 1.5 tons, 26.1 bushels; Crimean Red, 1.4 tons, 24.7 bushels; No. 3 red, 1.3 tons, 22.9 bushels; American Banner, 1.2 tons, 22.8 bushels; Tasmania Red, 1.2 tons, 21.8 bushels.

It will be seen that the Imperial Amber has given good results thruout Ontario, as well as at the Ontario Agricultural College. The Crimean Red, which stands second in the co-operative experiments, has been grown at the college for nine years, and is one of the highest yielders. It possesses wheat of excellent quality, but the straw is somewhat weak. The American Banner is a wheat which resembles very closely the Dawson's Golden Chaff variety in method of growth and in quality of grain.

WINTER RYE.

Two varieties of winter rye were distributed in the autumn of 1910. The results show that the Mammoth White variety came at the head of the list in yield of grain with an average of 24.8 bushels per acre. In experiments thruout Ontario for the last five years, the Mammoth White has surpassed the common rye by an annual average of about four bushels per acre.

FERTILIZERS AND WINTER WHEAT.

In the co-operative experiments with different fertilizers applied in the autumn to winter wheat, the average yields of grain per acre for seven years are as follows: Mixed fertilizer, 23.7 bushels; nitrate of soda, 23.3 bushels; muriate of potash, 21.9 bushels, and superphosphate, 21.4 bushels. On similar land, cow manure, at the rate of twenty tons per acre, gave an average yield of 25.9 bushels per acre, and the land which received neither fertilizers nor manure gave an average of 18.6 bushels per acre. The superphosphate was applied at the rate of 420 pounds and the muriate of potash and the nitrate of soda each 160 pounds per acre. The mixed fertilizer consisted of one-third of the quantity of each of the other three fertilizers here mentioned. The usual cost of the fertilizers, as used in this experiment, is between four and five dollars per acre.

WINTER EMMER AND WINTER BARLEY.

A comparative test of winter emmer and winter barley was made thruout Ontario during the past year. The winter emmer gave a yield of 3440 pounds, and the winter barley of 2040 pounds per acre. Neither of these grains has as yet become extensively grown as a farm crop in Ontario.

As long as the supply lasts, material will be distributed free of charge in the order in which the applications are received from Ontario farmers wishing to experiment and to report the results of any one of the following tests: 1, three varieties of winter wheat; 2, two varieties of winter rye; 3, five fertilizers with winter wheat; 4, autumn and spring applications of nitrate of soda and common salt, with winter wheat; 5, winter emmer and winter barley; 6, hairy vetches and winter rye as fodder crops. The size of each plot is to be one rod wide by two rods long. Material for numbers 3 and 4 will be sent by express and that for the others by mail.

CATTLE MARKET STEADY AT LAST WEEK'S PRICES

Export Steers About Steady—Butchers' Cattle Firm—Lambs Easier—Hogs $8.10.

Receipts of live stock at the Union Yards were 110 cars, 2053 cattle, 489 hogs, 1018 sheep and lambs, 43 calves and 20 horses.

The quality of cattle on sale was generally good.

Trade was steady for exporters, and very strong for butchers' cattle at last week's prices as will be seen by the many sales quoted below by the commission men.

Nearly all of the abattoirs and leading butchers were operating, besides buyers for Montreal, Hamilton and outside points.

Exporters.

Few cattle were bought for export owing to labor troubles in England, about 154 all told.

E. L. Woodward bought 154 export cattle, 1240 lbs. each, at $6.05 average price, or $6 to $6.20 of a range in prices.

Butchers.

Prime cattle of export weights were bought for butchers' purposes at $5.90 to $6.20, which was as high as for exporters. Choice butchers' weights sold at $5.70 to $5.85; loads of medium to good, $5.40 to $5.65; common, $5 to $5.35; cows, $3.50 to $5.25; bulls, $4 to $5.

Milkers and Springers.

A limited supply of milkers and springers sold at $45 to $70 each.

Veal Calves.

Veal calves were in demand at from $3 to $7.25 per cwt.

Sheep and Lambs.

Ewes sold at $3.50 to $4.25 per cwt.; lambs sold at $6.25 to $7.25 per cwt.

Hogs.

The hog market was higher, selects fed and watered selling at $8.10 per cwt.
