Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Lower; weakness in Liverpool and lack of outside support disguised holders, resulting in free selling thruout the session. The news, altho not bullish, did not indicate any material decline. There is no doubt but what there is a quieter demand for export, but this is only natural after the heavy takings which have been reported of late. The winter belt is still without sufficient moisture, and if rain does not come soon drought will become a market factor. Cash wheat premiums were well maintained to-day, and export bids are almost workable. The market is narrow, and may prove so for a few days, but wheat should be bought on all moderate declines.

Corn—Lower, in sympathy with wheat and decline in cash corn. The market held fairly well to-day. The short interest is growing to large proportions, and altho there is nothing at the moment to disturb shorts looking ahead for the next six months, from a supply and demand standpoint, cash corn should easily command May corn prices. We rather favor the long side of corn on all fair declines from this level.

Oats—Held well, notwithstanding that corn and wheat were lower; around 50c they should be in a trading position.

Marshall, Spader & Co. wired J. G. Beaty, 14 West King-street, the following:

Wheat—The market lost about one cent on rather liberal profit-taking. The situation, however, has undergone no change suggesting permanently lower prices. Drought is a factor which cannot be ignored much longer. We would advise the purchase of wheat on these breaks.

Corn—Was weak thruout the session, the current delivery showing the greatest loss. From a speculative standpoint, the market will be much healthier if the lines of the deferred deliveries, which have been carried down, were thrown overboard.

Oats—Were firm on a fairly active trade. Cash prices, however, declined ½c, with the demand indifferent.

Provisions—A rally in hog prices gave a further small advance to provisions, but only a part of the early improvement was held.

Ennis & Stoppani wired to J. L. Mitchell at the close:

Wheat—The market showed a brief period of strength early, but after that became heavy under selling of a general character, which continued up to the close, and final prices showed a decline of 1½c. We feel that there is bound to be a let-up in receipts later on, and, when it occurs, expect to see a sharp advance, so advise getting long on this break.

Corn—There was profound weakness, prices declining steadily and showing very little rallying power.

Oats—Considering the weakness in other grains, oats held remarkably firm.

Provisions—Declined in sympathy with lower grain markets, after an early show of strength.

J. R. Heintz & Co. wired R. B. Holden:

Wheat—Market slightly lower at opening on weak cables. Nothing new to say. On weak spots buy some wheat and you will certainly have a chance to sell it much higher later on.

Corn—The absolutely perfect weather is a bear feature on corn market. All we have to say is to buy it on the soft spots and wait; it will come out all right.

Oats—There has been quite a trade in May oats this morning at practically unchanged prices.

Provisions—Show but little change; market dull; no new features.

Sharp declines occurred in wheat to-day from the effects of bearish cables and foreign news in general, a poor cash demand, prospects for larger northwest receipts and liquidation. 199 LOADS AT CITY YARDS AND RECORDS ARE BROKEN

Good Cattle Scarce and Higher—Common Grades 15c to 20c Cwt. Lower.

Receipts of live stock at the city market for Wednesday and Thursday, as reported by the railways, were the largest of the season, if not in the history of the market, being 199 car loads, composed of 3346 cattle, 3626 hogs, 2975 sheep and lambs and 108 calves. The quality of fat cattle was no better, but worse. There were 3346 cattle on sale, still dealers could not get enough good to choice to supply their customers.

Prices for the few good cattle were firmer by 10c to 15c per cwt., but common to medium cattle sold at 10c to 15c per cwt. lower.

Exporters.

A few odd lots of heavy butchers' cattle were bought for exporters at prices ranging from $4.50 to $5, and, in one instance, $5.25 per cwt. was paid for five of six choice cattle. Bulls were sold from $3.50 to $4 per cwt.

Butchers.

Choice picked lots of finished butchers' are scarce, and prices for them are higher. Out of 3346 cattle on the market, there would not be more than a couple of loads all told that could be classed as choice picked cattle; in fact, we did not see enough to make up one load, but there might have been more. Prices for picked cattle are firm at $4.75 to $5, and one lot of five or six choice heifers was reported sold at $5.25; good butchers' were reported at $4.30 to $4.60; medium, $3.40 to $3.90; common, $3 to $3.30; cows, $2.50 to $4; canners, $1 to $2 per cwt.

Feeders and Stockers.

H. & W. Murby report a draggy market, caused principally by the poor quality of cattle. All of good quality found ready takers, but common class stuff was hard to cash at a reduction of from 20c to 40c per cwt. in price from last week. The Messrs. Murby handled about 300 cattle this week at following prices: Good quality steers, 950 to 1050 lbs., $3.25 to $3.60; feeders, 800 to 900 lbs., $3 to $3.25; good stockers, $2.50 to $2.80; common stockers, $2.

Milkers and Springers.

Receipts of milkers and springers were large, but the quality was not in keeping with what has been on sale for several markets. Prices ranged from $28 to $65 each, and the average price for good to choice cows would be about $50 each.

Veal Calves.

Good veal calves are scarce. Prices were firm at $3 to $7 per cwt., but there were few at the latter figure.

Sheep and Lambs.

Receipts were the largest of the season, nearly 4000. Prices took a tumble, and drovers had much difficulty in making sales at what the lambs cost in the country. Many drovers complained of having lost money on their shipments. So great was the run of sheep and lambs that every pen was filled and many cattle yards as well. Export ewes sold at $3.25 to $3.60; rams, $2.25 to $2.50; lambs, $4 to $4.50 per cwt.

Hogs.

Receipts of hogs were large, 3626 arriving on the market from all sources. Mr. Harris reported prices unchanged at $6.25 for selects fed and watered and $6 for lights. Drovers report $6.15 and as high as $6.20 being paid in the country at several points, but $6.15 seemed to be the general price f.o.b. cars at country points.
