AMERICAN DESPATCHES.

HAVANA, Jan. 21—The mail steamer has arrived from Vera Cruz.

An expedition of 2,000 men was expected to leave Vera Cruz on the 15th, commanded by Alatorre, for Yucatan, when they were to unite with 1000 loyal men and march on the Imperialists. The Mexican government was sparing neither men nor money to subdue the rebellion. Porofirio Diaz remained at Vera Cruz engaged in re-organizing the government of the city and state, and was making efforts to purchase steamers for the Mexican navy. A project was on foot for building 24 frigates, one to be furnished by each state in the Republic. An alliance between Mexico, Peru, Chili and Bolivia was nearly concluded. An attempt at revolution at Morelia had been frustrated. The ministries of the interior and treasury were still vacant. The internal condition of Mexico was still very bad. Stages were stopped everywhere on the public roads, and passengers robbed. At Santa Luiz Potosi the soldiers were robbing the people.

The bandits defeated the troops sent against them at Caermaraca.

A revolution at Capulso was successful.

A distrust of President Juarez was the principal cause of the disloyalty of the Yucatanese.

NEW YORK, Jan. 22—The *Herald's* London special says:—

"The causes which led to the arrest of George F. Train are these:—An Englishman named Gee, a fellow passenger, informed the officers on the tug which boarded the Scotia at Queenstown that Train had said he came to Ireland for the purpose of organizing the Fenians and commencing a fight. Mr. Train was arrested upon this information. Gee denied that he had given such information when he was in court, Mr. Eastman, United States consul at Queenstown, was exceeding active in Mr. Train's behalf. Mr Adams, U. S. Minister here, at once saw Lord Stanley, who, on his representation, ordered Train's release.

The *Herald's* Havana special says:—

"Vague reports are circulating here that 20,000 muskets have been secretly shipped to Yucatan. Orders have been issued to the troops to hold themselves in readiness at two hours notice.

"Santa Anna has scarcely $10,000 at his command, and is vainly endeavoring to borrow.

"Continued failures were taking place, and many families were ruined.

"Kipnapping was on the increase.

"A Senor Alvarez was kidnapped, and had to pay a ransom of twenty-eight thousand dollars.

"The port at Sisal is still blockaded.

"The fighting between the rebels on shore and the national war vessels continued, and no communication with the shore was allowed.

"The Mexican Government had chartered the U. S. mail steamer *Georgia* to convey troops, &c., to Yucatan.

"The vote of St. Croix on the question of annexation to the United States resulted unanimously in favour of it there. Of the 205 votes which were cast, all were in favor of annexation."

PHILADELPHIA, Jan 22.—Mr. Snyder, of the W. U. Telegraph Co., this place, received and copied with a pen 2,529 words from New York last evening within one hour.

MANIFESTO OF IRISH CATHOLIC CLERGY.

The *Times* of the 2nd inst., publishes the text of the recent political declaration of the Roman Catholic Clergy assembled at Limerick. It is a firmly written manifesto, and declares that disaffection in Ireland, is both deep-seated and extensive, and that a blank hopelessness pervades the minds of the population, taking the form either of emigration or of Fenianism. The document rapidly traces the history of Ireland, from its earliest connection with England, to show how ignorance, poverty, and degradation have been intentionally induced by legislation in the past. It also declares that, till the Irish are put on an equality of intelligence with the English and Scotch, not merely in school education, but in skilled workmanship, domestic economy, the employment of capita &c., the misery which recruits the ranks of disaffection must continue. Reference is made to the blighting and still existing effects of the old penal laws, and to the attempts by England, at a later date, to discourage Irish manufactures.

For a long period the real causes of Irish wretchedness were not known. But the national schools have caused the people to taste of the "Tree of Knowledge of good and evil." The normal causes of Ireland's poverty are as active as ever; the people are flying from the country, and disaffection was never so wide-spread as in 1867. The document points to the danger which Britain would incur from an Irish Brigade in case of a foreign war, and asserts that her only hope of peace, order, progress, and, at last, real union, is in tranquillizing Ireland; and the only means of effectually doing so is, by restoring to it its own separate national legislature. It is contended that general legislation by the Parliament of Great Britain will never be equal to the task of raising Ireland, Neither will ordinary political economy, since that country requires the most exceptional legislation, the minutest knowledge, and most persevering local inquiry.

A land-tenure will accomplish something; removing the Protestant ascendancy, by placing the Protestant Established Church on the same position before the State as the Catholic Church, will effect much; real equality in education will likewise do its share; but to ensure safety from foreign danger, perfect development of home resources, and to obtain the heart of the country, will require a concession of nationality, or, in other words, a repeal of the union.

Salt at Southampton.

Southampton, Jan. 20.

The water in a well dug in this village to feed a steam boiler in Sinclair's wheat warehouse, shows it to be strongly impregnated with salt, being the only well in the village sunk through clay, thus affording proof of salt being procurable at no great depth. Efforts are being made to organize a company.

Washington, Jan. 24—The *Herald's* special says the House Committee on appropriations will reduce the estimates originally made for naval service some $20,000,000. This be an immense retrenchments, and will cut down the work largely in every navy yard in the country. The army estimates will not be retrenched so much, owing to the vast expense of keeping troops in the Southern States.

The Perth Courier says one day last week the Rev. W. Miller, pastor of the Rideau Ferry and Lombard's Corners congregations, of Presbyterians, was surprised and no doubt delighted, at observing a string of fourteen sleighs stop at his door, each bearing a full cord of good dry hardwood, which the donors' proceeded to unload as his winter's supply.

The medical men of Quebec are taking means to secure payment for their services. They have resolved that a book be kept on the table of the medical society, in which shall be entered the names of all those persons who employ medical men, and refuse or neglect to pay them. A similar plan, with respect to delinquent subscribers, might to some purpose be adopted by newspaper publishers.

☞A tradesman, of Konigsberg has just sent a case of aromatic cheese to the second Prussian Chamber, with a petition that the House will subject his cheese to an examination, and then declare its opinion whether his cheese is not able to compete with all other cheeses in the world.—The absurdity of the thing is, that the forms of the House require that a member should be appointed to report on this as on every other petition. There is probably not a newspaper in Germany in which those cheeses will not be mentioned, and the advertisement will thus be a gratuitous one.

☞ If you want to qualify yourself for teaching, attend the Goderich Commercial Academy.

☞ Twenty dollars, in advance, will pay for a years tuition in the Goderich Commercial Academy.

☞ Lectures on Mercantile Law will be delivered during the present term at the Commercial Academy.

MOTHERS, READ THIS!—HOLLOWAY'S WORM LOZENGES are a certain and safe remedy for Worms in Children and Adults.—As it is a well-known and melancholy fact that one great cause of death among children is from Worms alone, it cannot be too deeply impressed upon the minds of parents, the necessity of closely watching their children. By so doing, and understanding the symptoms and true cause of the disease, thousands of children might be saved from early graves. SYMPTOMS OF WORMS:—The following are a few of the very numerous symptoms and diseases which are caused by Worms: Derranged appetite, emaciated extremities, offensive breath, frequent coughing at the nose, grinding of the teeth during sleep, hardness of the belly, with frequent slimy stools, and sometimes convulsive fits; pain in the head and stomach, unquiet sleep, bowlings, hiccoughs, nodesation, low spirits, frightful dreams, and a gradual wasting away of flesh.

They are palatable and self-administered to the child—drive out the worms thoroughly without pain and completely cleanse the stomach—thereby doing away with the necessity of administering Castor Oil or other unpleasant cathartics—as in the use of other Worm Medicines.

☞ Each box contains the fac-simile signature of NORTHRUP & LYMAN, Newcastle Ontario, who are the sole proprietors.

Perry Davis' Pain Killer.

We clip the following from the *Providence General Advertiser*:

"At this season of the year when cholera, cholera morbus, dystentery, and other kindred complaints are sure to prevail, everybody should be liberally supplied with Perry Davis' Vegetable Pain Killer. Persons leaving home, whether it be for a days excursion or a trip to Europe, should be in a position to place their hands on it in a moment's warning. Many diseases in incident to the summer months, which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain Killer. On more than one occasion have we been relieved of intense suffering by the timely use of the above named preparation."

To Salt Speculators!

LAND FOR SALE.

THE undersigned offers for sale about four acres of land in Goderich, which is admirably adapted for salt works, being on the bank of the River Maitland and adjoining the G. T. R. track. By a short switch, Salt could be sent Eastward by rail or to the wharf for shipment. The property is close to the well now sinking and about 700 yards from the famous Goderich Salt Works. This is one of the most desirable plots now in the market, and intending operators should examine it without delay.
