EIGHTH YEAR — THURSDAY MORNING, JULY 14, 1887. — PRICE ONE CENT

THE CONTEST IN RENFREW.

NOMINATION ON JULY 26, POLLING ON AUGUST 2.

Sir John Macdonald to Visit the Maritime Provinces for the First Time Since Confederation—Sir Alexander Campbell to Come Also.

OTTAWA, July 13.—The writ has been issued for South Renfrew, nomination on July 26, polling Aug. 2. The Conservative convention will be held to-morrow, when it is expected that Mr. Ferguson, the successful candidate at last election, will be chosen as the Conservative candidate. The Grit convention will be held on July 21, when, it is understood, Sir Richard Cartwright will be present to urge the nomination of Hon. Mr. Anglin. It is generally thought, however, that the local Grits will respectfully decline the ex-Speaker and insist upon having a local man.

Advices from Digby are very encouraging. Mr. Robichaud, the Grit candidate, has a great pull on account of being a French Canadian in a constituency where one-third of the votes are of his nationality, but Mr. Jones is said to be making a strong fight with excellent chances of holding the constituency. It is to be noticed that Mr. Robichaud is not running as a Liberal, but as an Independent, and his course in the Local House, to which he was elected as the straight Liberal candidate, has been so independent that it is pretty certain that should he be elected to the Commons he would not be a hide-bound follower of Mr. Laurier, but class as an Independent member.

Sir John will return from Toronto to-morrow morning. He will probably leave for Dalhousie early next week, and after spending a few days there proceed to St. Andrews on a visit of two or three days to Sir Leonard Tilley. This will be Sir John's first visit to the Maritime Provinces since Confederation. In this connection it is somewhat curious that Sir John has never addressed a public meeting in the Maritime Provinces. Perhaps he may find time to give the people there the pleasure of hearing him during his visit to Sir Leonard.

Sir Alexander Campbell, who is here at present, will leave in a day or two for the Maritime Provinces and will also visit Newfoundland, sailing from Halifax for St. Johns on July 29. Although Sir Alexander takes the trip principally to enjoy the sea breeze, it is said that he will take occasion to promote the Imperial Federation movement.

Mr. Scarth, the popular member for Winnipeg, who has been busily engaged since the close of the session attending to important business in the interest of his constituents, has left for home.

It is stated that the Orangemen intend creating a new hall shortly.

It is said to-day that Mr. C. H. McIntosh and the other parties interested in the charter of the Gatineau Valley Railway have fully transferred all their franchise to Mr. H. J. Beemer for $40,000.

The following gratifying cable message has just been received by the Minister of Agriculture from the High Commissioner's office, London: "The Prince of Wales, accompanied by Prince Albert Victor and Prince George, visited the Canadian stand of the Royal Agricultural Show at Newcastle yesterday and took special interest in the sample of Manitoba red Fife wheat and flax, also in the remarkable samples of white wheat from British Columbia, the black phosphates from Ottawa and the exhibits generally."

A. Senecal of Montreal has been appointed superintendent of the new Government printing office.

It is understood that neither the ocean mail contract nor the Cape Breton Railway contract have been settled yet, but it is probable that both will be settled this week.

In the shooting for the Alexandra prize of £1000, seven shots at 500 and 600 yards, Corp. Cooper, Lieut. Cartwright and Pte. W. Gamble were fortunate enough to secure prizes.

It is feared these meetings will give rise to disorder, and the police and military authorities are making extra preparations to maintain peace.

THE G. T. R. MANAGERSHIP.

A Newspaper Report that It Has Been Offered to S. R. Callaway.

The Detroit Free Press is responsible for the story that the object of Mr. S. R. Callaway's visit to England is to confer with Sir Henry Tyler, M.P., President of the Grand Trunk Railway, regarding an offer of the general managership of that road.

The Detroit Free Press says: Sir Henry and Joseph Hickson, General Manager of the Grand Trunk system, have had many differences of opinion, and at the annual meeting of the stockholders following the retirement of Mr. Callaway from the position of general manager of the Chicago and Grand Trunk, the first named stated that the Grand Trunk had lost the most valuable man in its employ, and one of the best railway managers in America. It is now said that Mr. Callaway has been offered the position occupied by Mr. Hickson, and that that is what called him to the British metropolis so suddenly.

THE ORANGE AND THE GREEN.

Orangemen Attacked at Paterson, N.J.—A Riot At Liverpool.

PATTERSON, N.J., July 13.—There was rioting here yesterday and last evening. The local Orangemen paraded and picnicked here today with the Newark and Jersey City lodges. In the forenoon the paraders were attacked with stones on Mill-street, but the police soon stopped the trouble, and arrested James Neary, who was armed with a pistol. This made the Ribbonmen angry, and at night there was a crowd in the streets ready for fight. At the depot when the visitors departed a small row occurred, which resulted in two arrests.

While the local Orangemen were marching from the station to their hall on Main-street a hackman tried to drive through the ranks of the procession. This caused a lively riot, in which many persons were bruised, but none, it is thought, dangerously. A strong force of police soon arrived on the scene and used their clubs freely, dispersing the mob and making twelve arrests. The Orangemen dispersed in groups. There was great excitement on the streets up to a late hour.

Rioting at Liverpool.

LIVERPOOL, July 13.—The Orange ceremonies here yesterday resulted in a riot. The paraders were attacked by crowds of Catholics, who threw stones and other missiles at the men in the ranks. The police forcibly removed the party emblems carried by the Orangemen. About a dozen persons were arrested. Many were treated at the hospitals for cuts and bruises.

ALL ITS WAYS ARE PEACE.

Meeting of the International Arbitration Association in London.

LONDON, July 13.—Sir Wilfred Lawson presided to-day over the meeting of the International Arbitration Association. The secretary's report referred at length to the cooperation of similar associations in Africa, and expressed a hope for the formation of a joint commission to consider the advisability of creating an Anglo-American arbitration tribunal.

David Dudley Field, in moving a resolution of a petition to Parliament in favor of the creation of such a tribunal as that proposed, expressed hearty sympathy with the cause. Americans were, he said, out of conceit with war. They had had enough of it.

TO COMBAT "THE PLAN."

The Irish Peers Form Themselves Into an Association for That Purpose.

LONDON, July 13.—The Irish peers in and out of the House of Lords, headed by the Duke of Abercorn, are forming an association designed to combat the Irish "Plan of Campaign," after the Crimes Act goes into operation, and have already raised £50,000 for the purpose of carrying on their warfare. Precisely how the money is to be applied, or what methods of procedure the association will pursue is not stated, but presumably the intention is to aid in the prosecution of persons arrested for participation in the "Plan," and to give all possible assistance to landlords in the enforcement of their claims against tenants.

POOR OLD SHARP.

The Aged Briber to be Sentenced by Judge Barrett To-day.

NEW YORK, July 13.—The Sharp case was adjourned until to-morrow on account of the illness of Judge Barrett. Sharp was remanded to Ludlow-street Jail. His movements on entering and leaving court were painfully noticed and labored. A great crowd had gathered in and around the Court House to witness the last act in the great boodle trial, and the police had difficulty in clearing a passage for the prisoner.

Parnell and Davitt's Trade Project.

NEW YORK, July 13.—Mr. Peter White, representing the new company to develop the Irish woolen industry recently organized by Messrs. Parnell and Davitt, returned to Dublin per steamer Britannic this morning, taking with him a result of six weeks' work in America—samples enough to the value of $200,000. Mr. White expressed himself as delighted with the reception given his project.

LONDON, July 13.—The Queen to-day attended a garden party at Hatfield House, the residence of Lord Salisbury in Hertfordshire. The Victims of the Mystery.

An Alexander-street "Burglary."

The family of Rev. Hugh Johnston, who lives at No. 29 Alexander-street, have been out of town for some days. They returned at a late hour last night, and the presence of persons in the house led to the supposition on the part of the occupants of the adjoining residence that burglars were at work in the absent clergyman's dwelling. Thereupon the Agnes-street station was telephoned, and Policeman Mortimer hastened to the scene of the supposed burglary. His consternation as well as that of the well meaning neighbors can accordingly be realized when they discovered the identity of the persons in the house. Mr. Johnston himself is en route to British Columbia in company with Mr. Wm. Gooderham.

A Miraculous Escape.

A laborer named Harry Brett had a miraculous escape yesterday afternoon. He was working in a sewer that is being cut from new livery stables at Queen and Parliament streets, when the driver of one of W. H. Muckle's wagons, heavily laden with drainage pipes, passed over the cut, his fore-wheels getting embedded. Brett was about fourteen feet below the surface in the drain. One of the pipes, weighing not less than fifty pounds, fell from the wagon, striking the man on the right hip. The edge of the pipe struck the side of the pit and thus somewhat averted its course, otherwise it would have fallen on the man's head and, in all probability, occasioned instantaneous death.

During the afternoon session the revision of the constitution was discussed clause by clause.

The Grand Secretary's report shows that the Grand Lodge received from subordinate lodges during the past year the sum of $15,604.77 which, with moneys invested to the credit of the Grand Lodge, formed a total of $24,564.71. There was expended during the year for general purposes the sum of $5192.24, and in benevolence the sum of $10,850, leaving to the credit of the Grand Lodge the sum of $8522.47. Of this amount $6,000 is counted in debentures of the various Canadian loan and savings companies at 4½ per cent., the balance being held to the credit of the Grand Lodge in the Bank of Commerce. The report shows that since the foundation of the Grand Lodge charters have been issued to 416 lodges, with four working under dispensations, to whom the board recommended the granting of warrants.

A $25,000 FIRE AT PORT HURON.

The Most Disastrous Fire the Town Has Known in Years.

PORT HURON, Mich., July 13.—Last evening a most destructive fire broke out in the engine room of Cooley & Campbell's planing mill, spreading with frightful rapidity to their large lumber yards and sheds, and to the adjoining several small tenement houses belonging to the Harrington estate, thence to Mulford's furniture factory, also to a building occupied by R. Casjer, builder, then to Forester & Vincent's paint factory, and small adjacent tenement. The fire department fought the flames bravely, often to their peril. The wind changed and was blowing from the city.

The losses may be easily figured at $25,000, and only $800 of insurance. One of the firemen was overcome by falling and was sent to his home. The fire was the largest Port Huron has suffered from for years.

A Puddler Badly Burned.

HAMILTON, July 13.—Thomas Flynn, a rolling mill employe, met with a very serious and painful accident last night. He was working at one of the rolls when a bar of red-hot iron, coming from the roll next him, turned in its course and pressed against his leg. He was wedged in between the rolls and the red-hot bar and had his leg terribly burned. He was driven home and made as comfortable as medical aid could make him.

A Tax Grievance in St. Andrew's Ward.

For the past few days there has been considerable excitement and annoyance among residents of St. Andrew's Ward, who are taxed on income, over the conduct of Tax Collector Boddy in issuing summonses against fully 200 ratepayers who had not been notified in the usual way that they were indebted to the city, and who "kicked" most decidedly against paying a cent more under the circumstances.

In several instances the first notification that the parties received was the arrival of a bailiff who took up the goods in the house. Mr. Dodds, on hearing of the affair, interested himself and obtained from City Treasurer Harman an order to have the bailiffs vacate. Mr. Harman promises that no costs shall be exacted from those ratepayers who have not been properly served with the necessary papers.

A BYWAY OF PARKDALE.

Town Engineer Stokes Before the Bar of the House—New Officers Appointed.

An adjourned meeting of the Parkdale Council was held last evening. Mayor Lynd presided.

Mr. Lennox asked the chairman of the Finance Committee when the auditor made his last report, and when he might be expected to make his next. The chairman of the committee replied that the last audit took place in April. The Finance Committee had the matter under consideration, and had called upon the auditor either to resign or fulfil his duties. They were not now in a position to state what the result of their action would be. He hoped the report would be in before next meeting.

Mr. Gowanlock asked the chairman of the Board of Works whether the Town Engineer had done anything with reference to Leopold-street. Mr. Lennox, chairman of the Board of Works, replied that nothing had been done in the matter. The engineer took Mr. Fitzgibbon's figures, as appeared in the minute book, and went by the stakes laid down by him. Mr. Gowanlock thought the engineer was not giving satisfaction. Mr. Lennox thought it possible that the stakes might have been put down wrong and left there. It was a question whether Mr. Stokes was responsible for the mistake. Mr. Atkinson asked if the chairman of the Board of Works could not get the work done and charge Mr. Stokes with the cost. They had been trifling with the engineer too long, and it was time they should dispense with his services and appoint a successor who would do the work properly. He felt inclined to put a notice of motion on the books to appoint another engineer. Mr. Lennox understood that Mr. Stokes had acknowledged his mistake, and was prepared to have the trees removed at his own cost. Mayor Lynd said that Mr. Stokes had written to the Council denying his responsibility in the matter. Mr. Atkinson held that Mr. Stokes was responsible for the fairly laying out of the street. They should call upon Mr. Stokes to rectify the mistake at his own cost, and should he ignore his responsibility, take the necessary proceedings against him. He handed in a notice of motion embodying his views on the subject.

Mr. Atkinson asked if Councillor Rankin had a right to sit in the Council after having removed outside the statutory limits. He understood that Councillor Rankin now resided in Oakville. The law was explicit on the point—that no man living two miles outside the boundary was entitled to a seat on the Council. Mr. Rankin confessed that he had removed his household effects, but not interfere with his property qualification in Parkdale. Mr. Atkinson contended that Mr. Rankin should have asked the permission of the Council in the matter if he did not wish to insult the Council. [Laughter.]

A couple of members asked if Mr. Atkinson was not himself disqualified on this point, but received a negative answer.

A number of by-laws were introduced, and created considerable discussion on trivial points.

Town Inspector Kenzinger had his salary increased from $675 to $700 per annum. Two assistant inspectors were appointed, and an additional policeman added to the list. THE TURNER ESTATE MUDDLE.

An Angry Meeting of Creditors—A Message to Mr. Clarkson.

A meeting of the creditors interested in the Turner estate was held yesterday afternoon in the office of Mr. J. H. Boyle, at No. 24 Victoria-street. The following were present: Mr. Reid, James Bain, J. Macgregor, J. R. Bailey, T. Tinning, John Burns, J. H. Boyle and others. The meeting was called for the purpose of taking action to recover the surplus accruing from the sale of Mr. Turner's ferry steamers, after deducting the payment of $9700 on a mortgage given by Mr. Turner to Mr. George Gooderham.

The statement prepared by the assignee, Mr. E. R. C. Clarkson, was gone over, and showed that the liabilities amounted to $9000 and the assets to $330.

The creditors claim that many of the items are not correct and if examined carefully would be disallowed. The action of Mr. Clarkson in paying over $1300 to the trustee, Mr. T. G. Blackstock, created an animated and angry discussion. The inspectors, Messr
