Despite a Considerable Amount of Bearish News

Such as Lower English and Continental Cables, Lower Cash Wheat in the West and an Increase in Receipts—Bradstreet's Available—Notes and Gossip.

Tuesday Evening, Aug. 30.

The bearish influences in the speculative wheat market to-day were the lower English cables, a break of 8c per bushel in Paris, a decline of 1⅜c in cash wheat at Duluth, and increased market deliveries in the Northwest, bringing the primary receipts up to about the level of those of last year. On the Liverpool Board to-day, spot red winter declined ½d per cental, and the September and December options went off ⅛d and ½d per cental, respectively, at the Paris Board cash wheat declined 3f 50c, flour at the same time advancing 2f 50c.

The August report of the Illinois Board of Agriculture says the average yield of wheat was only nine bushels to the acre on an area of 1,911,000 acres, and that that State's total yield is only 18,383,943 bushels. Oats area, 3,747,000 acres, averaging 29 bushels and quality poor. Corn area, 6,902,000 acres, or 2 per cent. less than in 1897, with condition 79. With good weather, there will be a fair crop.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The general tone of the news has been unfavorable to the price of wheat. Some of the bear items are lower English cables and a break of nearly 8c per bushel in cash wheat in Paris, which was offset somewhat by an advance in flour equal to about 6c per bushel. Receipts of wheat in the northwest, and also in the southwest were large, bringing the total primary receipts up to about 1,000,000 bushels, or nearly equal to that of last year. Cash wheat in Duluth closed at a decline of about 1⅜c per bushel for the day. While the contract grades here were strong, the off grades and sample lots were somewhat depressed and lower. Bradstreet's shows the first increase in world's available new crop about 300,000 bushels. Aside from the finishing up of some of yesterday's business there was very little business done to-day. Shipments and clearances were liberal. The indications are that wheat is gaining more friends, and it would not be surprising to see some of the large dealers who trade only on the long side buying some good round lots of December wheat around present prices, believing there will be greater demand for choice grades than the supply seems to warrant now.

Corn—The market was firm, and situation appears to be stronger than ever, and it looks now as though the bulls were taking hold of the market again, and some of the best local traders who carry pretty good lines are beginning to load up. The reports from Kansas and Nebraska continue unfavorable, while Iowa farmers absolutely refuse to sell, notwithstanding the belief that Iowa is the banner state this year for corn.

Provisions—Continue strong, notwithstanding yellow fever reports. The situation has not changed, except that trading is more general. Prices for live hogs at the yards were lower, with receipts at western points rather liberal. Hog products seem to be gaining in favor with the speculative public.

New York Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from New York:

The stock market was feverishly irregular to-day, displaying alternate weakness and strength. There were numerous early improvements, due to the influence of higher London quotations, and steady purchases for European account. Realization subsequently caused declines of 1 per cent. and over, and the trading element worked hard to carry the reaction further. The issuance of B.O. statement of July net earnings marked cessation of the attacks, and there were sharp recoveries of values in the afternoon. The coal stocks were weak. J.C. and Reading first scoring severe losses in spite of rallies from lowest points. Especial strength was indicated by American Tobacco, P.O., Rubber stocks, G.E., the Pacifics, Wabash preferred, and some of the specialties. B.R.T. fell 1¾ per cent. from opening, but subsequently advanced 2¾ per cent. Manhattan rose 1¼ per cent., but broke over 3 per cent. in the late afternoon. Met. Street Railway was concurrently strong. Market closed generally strong. Governments unchanged, except for decline of ⅛ per cent in 3's. Railroad bonds less active, but in main firm.
