BY TELEGRAPH.

NEW YORK, December 14—2½ P. M.

WASHINGTON, December 13, P. M.—SENATE.—Business of importance transacted to-day.—There was a very exciting and important debate, which lasted four hours; various motions were submitted, similar to those previously under discussion. One ballot was had, and various candidates were voted for: Cobb received 40 votes; Winthrop, 25—and the remaining votes were scattering votes. Such excitement in the Senate has been seldom witnessed, and such crowds at the doors. A Democratic Caucus was subsequently held, but they did nothing.

NEW YORK, December 11.—Santa Fe dates have been received to the 20th October. The troops of the "Legion" had taken five Apaches prisoners, and he had offered to exchange for Mrs. White and her daughter. Mr. Aubery also offered $1000. Forty-six Californian Emigrants had been massacred near the Copper Mines. Troops from El Paso were sent against the enemy. Three Mexicans were killed near Santa Fe. The Indians were daily committing depredations.

Dates from Chihuahua, to the 15th September, have been received. The Cholera was raging fearfully, and from seventy-five to a hundred deaths were occurring daily.

NEW YORK, Dec. 14—6, P. M.

We have nothing from Washington since noon to-day.

The Steamer *Hermann* (as we learn by telegraph from Halifax this morning) took in 200 tons of coal, and left Halifax last evening for New York. The Mail failed to-day from the Mississippi. The line is in working order from St. Louis to Halifax, but up to this moment no letters have been received of the *Hibernia*.

A fire in a packing pork-house in Second street fell down last evening, by which several men were employed in the establishment were severely injured.—Hope Chapel, 713 Broadway, was on fire last evening, from a furnace which burned the ceiling.

MARKETS.

NEW YORK, Dec. 14—6, P. M.

ASHES.—Market firm, with good demand; sales of 13 barrels at $5.62½ @ $5.68 for Pots, and 50 for Pearls; also 370 barrels Canadian, on private terms.

The Programme will be brought out every Night, with a selection of the choicest Glees as *Chorop*, Dances, Burlesque Lectures, &c. &c.

CONNECTICUT MUTUAL LIFE INSURANCE COMPANY, HARTFORD.

Incorporated by the Legislature of Connecticut in 1846.

Cash Fund and Accumulated Premiums $100,000.

THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY is established on the purely mutual system, with a Tariff of Premiums as low as is justifiable with the perfect safety of the Institution of this Country. Every person taking out a Policy is a member, and entitled to vote at the Annual Meeting. The Dividends are declared *annually* in the January. All persons insuring previous to that day, participate in the profits of *that* year, which are passed to his credit upon the books of the Company; to be paid during the life of the insured, in the order of rotation, from the fund, a *capital of profits of* $200,000. The whole capital of profits having been obtained, Dividends will be authorized to pay the first Dividends at the close of the present fiscal year; and thereafter, each year's Dividends, in regular order, will be redeemed, as the funds of the Company shall not exceed the above two hundred thousand dollars. It is supposed that each person will have paid to pay three annual Premiums before Dividends will be redeemed. This feature is advantageous of this Company, over those which redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the Insurer, as the redemption of Dividends will facilitate the payment of the Annual Premiums, even in the first years have elapsed, or take credit given for Premiums.

Insured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to *fifty dollars*, on Policies running five years or longer, may be paid *one half by Note*; to remain a lien on the Policy, until cancelled by Dividends; or if they become a claim.

The Company was organized in December, 1846, and its prosperity has hitherto been unparalleled. It is now in the third fiscal year of its existence, and numbers (October, 1849) nearly Two thousand members; with a constantly increasing accession. Its losses have been small, and within the numbers which might have been expected, according to the Tables of Mortality on which Life Insurance is predicated. By unprecedented success in business, and a strict economy in the administration of its affairs, larger Dividends have been made to Policy holders than by any other Company in the United States; average more than 60 per cent. annually.

WARRANTED
POTASH KETTLES.

THE Subscribers, Agents of the ST. MAURICE IRON WORKS, will receive large quantities of the above during the Season of sleighing, and have a few on hand at present, assorted, 3½, 5, 7½, and 11 cwt. Owing to the increased demand for this make of the article, arrangements have been made at the Works which will enable them to execute orders to the extent of 50 per week, if required. They beg to remark that the KETTLES latterly and now Manufactured at the above Establishment, are quite superior in quality and much lighter in weight than those formerly made, it having been the practice heretofore to cast from a Cupola Furnace, a considerable portion of Scotch Pig Iron was necessarily used with Coke as fuel; at present they are cast from the Blast Furnace and solely and directly from the St. Maurice Ore, smelted exclusively with Charcoal, thereby producing a durability in the article that cannot be approached in any other Kettles that can be offered in this market. The weights have been made to compare with the lightest imported ones by keeping the edges and upper part thin, retaining the original thickness of bottom, and great care is taken to produce a perfectly sound casting in every Kettle. Notwithstanding the extra quality of the article and the circumstance of their being warranted, the Agents have instructions to sell them at a very small advance upon the price of other makes.

They have also on hand a Large Assortment of POTASH COOLERS of all sizes, including the Flat Bottomed article of the most approved dimensions, with a Full Assortment of all the WARES usually made at the Works.

All ST. MAURICE POTASH KETTLES, COOLERS, SUGAR KETTLES and BOILERS, as well as STOVES, will be known by the letters "F. St. M.," being cast upon them.
