Interesting News of Bedding

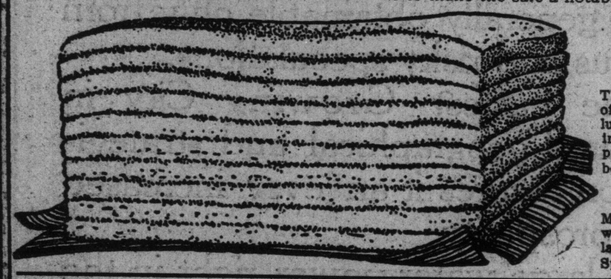
A Sale and an Industrial Exhibit Combined—Here Next Week

The Alaska Bedding Co., Limited, of Montreal, known to the trade as makers of the best quality Bedding, have co-operated with us in conducting a huge Special Selling Week and demonstration of Mattresses, Pillows, etc., of their make.

Commencing Monday, and continuing throughout the week, in our store and windows, will be displayed progressive exhibits of the bedding industry, showing the raw materials and the varying stages of manufacture, up to the finished product, **letting you see what constitutes high quality bedding**—and surely you'd like to know. It will be instructive and immensely interesting to folks who buy for the home.

The sale in connection with the special display will have a double significance to those who participate in it, for the reason that purchasers will buy with added confidence when they see the articles "inside and out."

The manufacturers wishing to derive the utmost good from this special display to the public, have provided immense quantities of the goods involved and have agreed to supply us at liberal discounts to enable us to make the sale a notable one. Hotel managers, boarding-house keepers, etc., should profit by this splendid opportunity.



Some of the Special Offerings in the Sale:

The Adams Furniture Company, Limited, City Hall Square

City Hall Gossip

Waterworks matters were again very much to the front in City Hall happenings last week. Engineer W. H. Rundall was somewhat displeased with the criticism offered by Controller Church with reference to his attending a meeting of the board of control, although he was brought there by his chief, Mr. Rust, as the best source of information procurable as to what was going on at the Island end of the city's crippled waterworks system. As a consequence he wrote a letter, Mr. Rust characterizing the conduct of the controller as ungentlemanly and cowardly. The city engineer sent the letter on to the board with a few pertinent comments of his own, and Controller Church passed it over as a joke when it came up. After getting a night's sleep on it and digesting some newspaper comment regarding it he changed his view and decided that any mere employe of a department who would dare to question the rights of a worthy controller to criticise was impudent and impertinent. To the surprise of other members of the board Controller Spence shared the views as to the letters being ill-advised, and Mr. Rust created still further surprise by tendering his apology to the board for forwarding the letters in question, altho most members of the council are of the opinion that there was no apology due.

Controller Church delivered himself of a motion on the waterworks situation that covered it from the time that Toronto was an infant city to several years hence, enough theories as to the cause of the break in the pipe leading to the intake to keep the board of experts busy for six months had it been sent on to them as he wished. It was referred to the county judge instead and the business of the board of control being cleared of acqueous vapors there was little more of a contentious nature to occupy the attention of the board. One beneficial result of Controller Church's resolution, however, will be that an opportunity will be given the county judge to secure evidence as to conditions around the intake before it has been removed by the work.

The news that the trustees of Massey Hall have been running all season without a permit was anything but pleasing to Ald. Sweeny when it reached his ears at the meeting of the fire and light committee. Therefore he introduced a motion to demand that the police take immediate steps to close the hall and keep it closed until the fire escapes were put into such a condition that the permit would be approved by the city architect. The motion carried and there was great consternation among the patrons of the hall and others interested in the events that are scheduled at that place of amusement for the balance of the season. It was thought that the board of control would give the motion its quietus, but it was not in the report of the fire and light committee presented to that body. Enquiries were made and it was learned that the order was given the secretary of the committee to communicate direct with the police department. This did not meet with the approval of the board so they notified the committee that any action they decided upon must be first ratified by council. As a result Massey Hall is still running and Ald. Sweeny is going to make a few enquiries at the next meeting of the city council. He says that a moving picture show will not be permitted to run without a license, and he does not see why Massey Hall should. He says that it looks to him like "making fish of one and flesh of another."

Ald. MacGuire had his special committee, composed of business men interested in the progress of Toronto, together again on Thursday night, and has got things in a fair way to start an active campaign for a population of 1,000,000 for the city in 1918. That is one of the aims of the Toronto Publicity League, which the energetic chairman of the legislation and reception committee and an equally energetic committee of the board of trade now hope they have on a fair way to success. It will be the fault of neither if it does not attain the success which it so richly deserves.

WILL SING "ST. PAUL"

Mendelssohn's Oratorio to Be Given by Church of Redeemer Choir.

One of the most notable musical events of the week will be the rendering of Mendelssohn's oratorio of St. Paul on Wednesday evening, April 19, by the choir of the Church of the Redeemer, under the direction of T. G. Kilmaster, B.A., organist and choirmaster of the church.

Until last year, when the same choir sang portions of this work, which is by many ranked as the greatest achievement of the composer, it had not been heard in Toronto for so long as to be almost unfamiliar, with the exception of one or two of the choruses to the present generation of music lovers. This year the choir will add to its laurels by giving the major portion of the oratorio.

The solo parts will be taken by H. Rigby, baritone; J. A. Arlidge and R. Harrison, tenors; Miss Olive Belyea, contralto, and Miss J. Kilmaster, mezzo-soprano. The organ will be reinforced by an efficient orchestra of about fifteen pieces, composed of members of the Toronto Symphony Orchestra.

During the offertory the Bach-Gounod "Ave Maria" will be rendered as a trio for 'cello, harp and organ, by Mr. Leo Smith, Miss Ethel Foster and Mr. T. G. Kilmaster.

STUDENTS SEIZE EMBASSY.

VICTORIA, B. C., April 15.—According to advices brought by the steamer Antilochus yesterday, the Chinese legation at Tokio was seized by 300 Chinese students, who drove out Chinese Minister Wang and terrorized his staff. The students held a mass meeting in the legation to protest against China's weak policy against Russia regarding the Mongolian situation.

The honorary governors who will visit the Toronto General Hospital during the week commencing on April 16 are Col. G. A. Sweny and Mr. T. Gibson.

REVIVE OLD SERVICE

Special Ceremonies at Montreal on Good Friday.

MONTREAL, April 15.—For the first time in any Catholic Church in Montreal, on Good Friday, there was held at St. Patrick's, yesterday, a three hours' meditation service on the sufferings of the Saviour, while He hung on the cross.

The service is of ancient Catholic origin, having been witnessed by a pilgrim in the Church of the Holy Sepulchre at Jerusalem in the fourth century, and afterwards introduced in the western church from the description of the returned pilgrim.

Covered With Eczema

Cured by Two Bottles D.D.D.

On March 21st, 1910, Mr. Angus McMillan of Port Hood, N.S., wrote us:

"My little boy, three years old, was covered from head to foot with eczema. I tried over twenty different kinds of salves and washes, but could not see any improvement—in fact, it seemed to be getting worse.

"I was about discouraged and had lost faith in all kinds of so-called eczema cures, when I saw an ad telling about D. D. D. Prescription. I sent for sample bottle, and the third application convinced me that I had at last got a sure cure. Two bottles effected a complete cure."

What D. D. D. did for this little boy, it will do for any skin sufferer. A mild, soothing liquid, made up of Oil of Wintergreen, Thymol, Glycerine and other ingredients, it penetrates to the root of the trouble and washes the disease germs out.

Why not get relief? Simply write to-day to the D. D. D. Laboratories, Dept. "X," 49 Colborne St., Toronto, and they will send you a free trial bottle.

MYSTERY BAFFLES POLICE

Hamilton Force at a Loss to Account for Murder.

HAMILTON, April 15.—The police admitted to-day that the only hope they have of solving the mystery in connection with the death of the 3-months-old infant found in the bay on Thursday, is for some one to come forward with the information. A man's handkerchief was among the clothing found on the body. The authorities are satisfied the child was murdered.
