CRUMB'S IMPROVED WARRINER STANCHION

"My barn that was BURNED was fitted with Crumb's Warriner Stanchions. If it had not been for the ease with which these fasteners were opened I should have lost my cows," writes Mr. Everett Gains, Bernardstown, Mass. Booklet Free.

Howick Station on G. T. Ry Que.

MARKET REVIEW AND FORECAST

Toronto, Monday, July 24.—Trade in all lines is fairly good, considering that at this season it is usually a very quiet time, when many merchants and citizens are taking their holidays. General rains during the past week have relieved the crop situation in the country and have worked an immense amount of good. All crops not yet at the ripening stage will be materially benefitted; corn and root crops have received great benefit.

Hogs and cattle are on the up grade; cattle prices have ascended as the market went down.

The farmers of Ontario, though handicapped by a general shortage of labor, are making splendid progress in harvesting their crops. Western farmers are much concerned about securing labor to harvest their bumper crop, which is fast maturing and will be on several days earlier than usual. Transportation companies are completing arrangements to take into the western country the labor that will be so urgently needed.

Call money rules at 5½ to 6 per cent.

WHEAT

The wheat market is slightly stronger than a week ago. Chicago markets report a belief in some quarters that there would be a decided falling off in receipts from the new crop; the general wheat buyers to be more active, and the markets a week ago closed strong at 1 1-2c to 1 5-8c advance, reports of frost in the Canadian northwest and the imminent danger of more frosts tended to strengthen the market. It developed later that the reports of frost were not well founded, and little, if any, damage had been done.

As the season advances the optimistic estimate of a 230,000,000 bushel wheat crop in the Canadian northwest is becoming more and more probable. Ontario fall wheat, though a little short of being plump in some localities, is reported to be a very good crop, and averaging high yield. No. 1 Northern is quoted at $1.00½; No. 2 Northern, 97½c; No. 3 Northern, 94½c. Ontario wheat is quoted at 90c to 92c outside; new wheat, 75c to 78c.

COARSE GRAINS.

Quotations for coarse grains are as follows: Oats, Canada western, No. 2, 41 1-4c; No. 3, 40c, at lake ports; Ontario, No. 2, white, 39c outside and 42c on track, Toronto; corn, 69c; peas, 79c to 80c; rye, 70c to 72c outside; barley, 65c to 67c, outside for malting, and 55c to 57c for feed; buckwheat, 55c to 52c, outside.

MILL FEEDS

Manitoba bran in bags is quoted at $21; shorts, $23; Ontario bran, $22 in bags.

HAY AND STRAW

The offerings of hay on the Toronto market are confined mainly to the new crop, some of which are being valued at $18 to $20 a ton, as against $20, $22 for old hay. Quotations are: Timothy, $18 to $20 for No. 1 quality and $16 to $18 for inferior timothy. Straw, bundled, $14 to $15; loose, $6 to $8. Quotations on track Toronto are as follows: No. 1 timothy, $13 to $14; mixed, $9 to $10; straw, $5.50 to $6. At Montreal the better grades of old hay are still scarce and at good prices, the offerings selling at $13 to $14 a ton. A few small lots of new hay have arrived at Montreal, the best grades of which are worth about $11.

HIDES

Quotations for hides remain unchanged. No. 1 inspected steers and cows, 12½c; No. 2, 11½c; calf skins, 15c. The prices for country stock is being paid by city dealers are: Hides cured, 12½c to 13c; sheep skins, $1.75 to $1.50; horse hides, $3.00; calf skins, 15c to 18c a lb.

FRUITS AND VEGETABLES

Recent rains have freshened up the quality of the stock arriving on the market. Berries are much better in quality than quoted a week ago. Unexpectedly liberal quantities of cherries that arrived on the local market a week ago caused the price to fall back to $1.15 and $1.35 a basket. Red currants and some other domestic fruits advanced in price. Currants brought $1.65. Other wholesale quotations for fruit are: Raspberries, 11c to 13c; gooseberries, $1.25 per large basket; thimble berries, 16c to 18c; apples, 40c to 60c a basket; plums (Willard) 11 qt., 75c to $1; cauliflowers are $1.50 a doz.; head lettuce, 30c a doz.; cabbage, $2.50 a doz.; new carrots, cucumbers (kiel), $1; wax beans, bkt., 50c to 60c; can tomatoes, 11 qt. bkt., $1.50 to $1.75; new potatoes, $5.50 to $5.75 a bbl.

EGGS AND POULTRY

Strictly new laid eggs in case lots are quoted at 18c to 19c a doz.; on the Farmers' Market new laid realized 25c to 26c. Poultry is quoted as follows: Chickens, 16c to 18c a lb.; fowl, 14c to 15c; dressed chickens bring from 18c to 20c on the Farmers' Market, and spring chickens, 25c to 30c a lb.

In Montreal packers have ceased putting eggs away, so that all arrivals are placed on the market for immediate consumption. The demand is none too good, and supplies are beginning to accumulate. Sales are being made at about 17½c to 18c a doz. in a selling way, but only for which the demand is limited, bring 23c.

DAIRY PRODUCE

Butter is on the advance, and new cheese is also quoted higher than a week ago. The price of cheese has stiffened on account of recent advances in Britain. There has been a noticeable falling off in the make of butter owing to a lessened milk flow. Creamery prints realized 22c to 24c; solids, 20c to 21c; dairy prints, 18c to 19c; inferior butter (bakers'), 15c to 16c. On the local Farmers' Market dairy butter commands 18c to 25c.

HONEY

Members of the price setting committee of the Ontario Beekeepers' Association have met together and after considering reports to hand have suggested the prices that should be asked for honey this season. Their report in full is published elsewhere in Farm and Dairy. Wholesalers are selling strained clover honey at 10c a lb., in 60-lb. tins; No. 1 comb honey is quoted at $3 to $3.25 a doz.

HORSE MARKET.

So little trade is moving in horse lines that it is hard to give actual quotations. Prices are practically nominal as follows: Good heavy draughters, $250 to $360; medium weight, $190 to $240. Good agricultural horses, $230 to $260; drivers, fair quality ones, $100 to $150. Express horses are quoted $170 to $240; drivers, $150 to $230; roadsters, $160 to $265.

LIVE STOCK

Some important price changes are to be noted in connection with the live stock market. Hog prices have shot upward, caused by a shortage which induced lively competition among the local packers and much of the trading was done at $7.35 to $7.40, country points, and $7.65 to $7.75 fed and watered at the market. Choice steers proved quite attractive last week, and a load of upper quality brought $6.25 on Thursday, as against $6.05, the highest price realized either on Monday or Tuesday. Other cattle brought as high as $6.20, while choice handy weight bullocks sold at $6 to $6.10. The cattle offering on Thursday were largely composed of secondary grades—good butchers' cattle—and these sold at from $5.75 to $5.90; medium butchers' steers and heifers made from $5.35 to $5.65. The top price for the bulk of fine butchers' cows was $5 a cwt. The lowest price for medium cows was $4.25. A few bulls were on the market Thursday and sold at $3.25 to $5; veal calves were firm at $5 to $8.50.

Feeding steers averaged about $5.50, while choice stock made $4.50 to $5, and light stockers $4 to $4.25. Some improvement in the demand of stockers and steers was ascribed to recent rains being beneficial to the pastures.

Milch cows were slow of sale, and there was little demand for them in spite of the milk famine. The offering was large and moved slowly at $40 to $70 for choice individuals, and $25 to $50 for commonto medium. Springers sold at $35 to $53, some $5 to $60.

Lambs were steadier and on Thursday brought round 50c to $1 a 100 lbs. higher than quoted a week ago, and on Monday they brought $7 to $8.50. Ewes, $3.50 to $5; bucks and culls, $2.75 to $3.75.

The local hog situation in Chicago last Thursday was done mostly on the fed-and-watered basis at $7.65 to $7.75 a cwt.; $7.35 to $7.45 was the quotation at country points. In Montreal select lots brought $7 to $7.25, weighed off cars.

MONTREAL HOG MARKET.

Montreal, Monday, July 24.—We have had a decidedly weaker market here this week for live hogs, owing to the heavy receipts, and the large offerings were with difficulty disposed of, the owners being obliged to accept a reduction of fully one-half cent a pound from the prices ruling last week, selected lots selling as low as $7.00 per 100 lbs. weighed off cars. The market for dressed hogs was also lower in sympathy with the decline in live hogs, and quotations were marked down from $10.50 to $10.25 on fresh killed abbatoir stock. There was a fair trade passing at these prices.

EXPORT BUTTER AND CHEESE.

Montreal, Monday, July 24.—This week's market for cheese opened with prices inclined to ease off from last week's high level, and the country markets held at the

Telephone.

GLENSPRINGS OFFERS
Six fine pure bred bull calves from two to 10 weeks old. Every one from an officially tested dam. Color markings to suit every taste. Those that wish Hengerveld blood secure one of Count Gerben's sons. Those that wish Carmen Silva and Alta Posch blood secure one from Inka Silva Beets Posch. Prices moderate.
E. B. MALLORY, FRANKFORD, ONT.

FAIRVIEW FARMS HERD
—HAS FOR SALE—
Sons of Pontiac Korndyke, sire of the (world's record) cow Pontiac Clothilde De Kol 2nd, 37.20 lbs. butter in 7 days. Also the sire of seven daughters whose 7 day records average 31.13 lbs. each, unequalled by the daughters of any other sire of the breed living or dead. He is the sire of the youngest bull of the breed to sire a 30 lb. daughter.
We also offer sons of Rag Apple Korndyke, whose dam Pontiac Rag Apple is a full sister to Pontiac Clothilde De Kol 2nd, 37.20 (world's record) giving the young sire's dam and her full sister 7 day records that average for the two 30 lbs. each.
We have in service, and can offer you sons of Sir Johanna Colantha Gladie, son of the highest record daughter of Hengerveld De Kol, 114 A.R.O. daughters from over 30 lbs. each. This young sire is a son of Colantha Johanna Lad, whose dam Colantha 4th's Johanna, has a 7 day record of 35.22 lbs., making his dam and sire's dam average 33.61 lbs. each, which is higher than that of any other sire of the breed. Let me send you breeding and quote price on anything you want in first-class Holsteins; young sires our Specialty.
