THE SPORTING WORLD.

AQUATICS.

THE STUDENTS' REGATTA.

The committee met at their rooms as usual last evening, when the boat committee gave their report. The Lucilla has been selected as the referee and press boat. The Nellie Cathbert will give subscribers an opportunity of seeing the contest. The Lady Alice will be stationed at the starting point for the use of the members of the committee who are not otherwise engaged. In addition a limited number will be allowed on board on payment of five dollars for the two days. The number of passengers limited to the Nellie Cathbert will be strictly adhered to, and the price of the position has been fixed at two dollars per day. The Picton has been chartered to carry hundred passengers at seventy-five cents a day, whilst the Norseman does duty for four hundred at fifty cents a day. A boat has yet to be provided for the guests. Mr. Keith kindly sacrificed his engagements of the Southern Belle, and was voted the thanks of the committee.

Arrangements have been made for a monster excursion from Brantford on the 7th, under the auspices of the Mechanics' institute of that city. The day has been appointed their civic holiday.

Nagle is said to be the mate of Ross in the doubles. They are well matched.

BASEBALL.

ON THE FLY.

The Detroit nine are now on the home stretch for the tail end of the league list. Their visit has been like a tempest, great in the middle and small at both ends.

The odds in the championship race, with number of games won including yesterday, is as follows: Chicago 44, Buffalo 37, Providence 34, Detroit 33, Boston 32, Cleveland 31, Troy 29, Worcester 25.

At the College street cricket grounds this afternoon, a good game may be expected between the Torontos and Tecumsehs of this city. The clubs will interchange batteries, Emslie and Quinton playing with the Tecumsehs.

LACROSSE.

The Cliftons will try conclusions with the second twelve of the Torontos on the Jarvis street grounds on Saturday next.

OFF FOR MONTREAL.

The Torontos and their friends, about two hundred in number, left by the express last night for Montreal. The team felt in excellent spirits and went determined to win. Owing to the excursion from Boston to Chicago, no sleeping car could be provided; but through the exertions of Mr. Suckling, C.V.R., one for the twelve was to be procured at Newcastle.

GENERAL NOTES.

The annual games of the Montreal amateur athletic association will take place on 1st of October. It is considered certain that Myers will take part.

The following is apropos of Shinkel, the "fainting" stroke of the Cornell crew:

Shinkel, Shinkel, little tar,
How we wondered what you ate.
When you fell and seemed to float
Like a passenger in the boat.

Shinkel, Shinkel, little tar,
Come not back from where you are;
Here awaits you, sculler proud,
A meal put the expense of should.

The race between Albert Pierson, the St. Louis colored bicyclist, and Rollinson of New York, the long distance champion, is to be fifty miles, for $1000. Both men are already professionals.

POLICE PARAGRAPHS.

Yesterday Alfred Hopkins, on prom ing to appear and give evidence in his brother's case, was allowed to go back to the hospital.

John Smith was yesterday remanded until to-day on a charge of stealing two knives—one from John McCauley and the other from Henry Lucas.

The law regarding bathing in public places is being strictly enforced. A young man named Whitcombe was fined $5 and costs yesterday for bathing opposite York street wharf.

It is said that milkmen are imposing on their customers in the city by using false measures. The inspector is after them and other delinquents, and the parties will shortly appear in the police court.

There were three drunken women at the central station last night. One of them, Margaret Hunter by name, fell into the water at the foot of York street, and was rescued with difficulty by a waterman.

Joseph Carroll and E. O. Bickford each keep a number of cows. Carroll milked one of Bickford's cows instead of his own, and on being brought up in the police court yesterday said in extenuation that the two cows were pasturing in the same field and were so much alike he couldn't tell one from the other. The magistrate refused to credit this explanation and found him guilty, remanding him for sentence.

Captain Black did not appear when called upon yesterday morning, having been seen at an early hour declaring his intention of taking a constitutional along the banks of the by-the-gaol-flowing Don. A Mrs. Harris' evidence was taken and the case was adjourned until to-day. Just as the court closed the captain walked in with a green apple stuck on the end of an ash switch, both probably gathered on his wanderings. He was not in a very good temper, and said to a man who was coughing a good deal, "Get outside wid that cough."

The charge against James Smith of pointing a pistol at Mary Williams was dismissed yesterday, the only effect of the prosecution being a recital of some very bad language used by Smith and replied to in a similar strain by the girl. She now threatens to get him punished for the abusive language; and as Smith has a charge against her of beating his child, the magistrate adjourned it until next Thursday, very dryly remarking to the counsel that they might go to work and lay as many informations as possible in the meantime.

Perhaps the saddest commentary on the life led by people who figure in the police court is their callousness with regard to matters which ordinary people regard as the deepest disgrace and degradation. They seem to care for nothing but the magistrate's sentence. A young man appeared the other day as a witness in a case of assault brought by his mother. She was in a tavern and somebody had sent for him to put her out, whereupon, as he said in his evidence, "he told them he hadn't time, and that they must put her out themselves." Yesterday morning a girl in testifying against a man for pointing a pistol at her said he had used the vilest language towards her. Yet all she did was to answer him in the same strain and ask him "to prove it."

Much amusement was caused in the police court yesterday by the evidence of a Mr. Duffy, who was called to show that George Squires assaulted William Norton. He said that when he saw the "schism" he thought there was going to be a row, and when Squires had got through with Norton he his turn would come next, Squires having already called him a "stump." He then went upstairs and saw the rest of it out of the window. It appears that Squires is a good deal troubled by people firing stones at his house, and had gone into Norton's shop with the double purpose of buying a pair of socks and remonstrating with Norton, whom he supposed to be one of the offenders. There he used some threatening language, and it was said lifted his stick at Norton. He was fined $3 and costs or 30 days, and also bound over to keep the peace, and being unable to raise the money had to go to gaol.

MONEY AND TRADE.

MISREPRESENTATION.

The excellent character of the ÆTNA LIFE INSURANCE COMPANY has recently been set forth in the columns of two Toronto daily papers, in respect to its Strength, Soundness, Profitableness, and Economy of Management. This has been done both satisfactorily, by full publication of its accounts and also comparatively, by placing its figures alongside of those of other companies, English, Canadian and American. And this has been done also in an open, manly fashion, over the names of the Managers of the Company in Canada, all of whom have had long experience in the business, and are responsible for the correctness of their statements.

The person or anonymous writer, who evidently does not wish to be held responsible for his slanderous composite statement in which, he proves, in his own fashion, that by the ÆTNA's volumes of Income and Insurance is less now than in 1872; 2nd, that its death rate rises higher than the average of other companies in the States; 3rd, that it pilfers in cash $156,441 more money in proportion to its death and endowment claims than it receives in cash for premiums; 4th, that its losses and surrenders are abnormally heavy; and 5th, and lastly, as if bound to destroy by a masterpiece of absurdity, any value sensible people might have attached to a more moderate statement, that, being the actual cost of collecting what little income he leaves us, up to more than 26 per cent!

Points 1, 2 and 3 have been answered, fully, in a previous advertisement, entitled "Solid Progress," showing that all statements were in Greenbacks in 1872, but in Gold in 1879, and that while Income and Policy Liability have increased on the other hand the Assets have increased from $18,037,540 Greenbacks in 1872 until they are now $20,303,440 in Gold! And as to deaths, it is shown that the ÆTNA was an old company and had many old members, while many of the other companies were new, but the ÆTNA having received the necessary funds from those old members was now well prepared to meet all losses as they came.

To Point 4 we say: It is right. Having over Twenty-six Millions of dollars on hand, yielding $1,056,516 46 in Interest during 1879, it was not necessary to collect as much in Premiums as was paid out in Death and Endowment claims. We shall probably continue this, because our rates call for only $32 20 at the age of thirty, or $29 35 for annual during 5 years for each $1000 of Life Insurance. The balance we get from compound interest and other sources, and expect to return a good part of the premiums received in annual cash dividends to the party before he dies.

To No. 5 we say: It is a downright falsehood! The fact is exactly the contrary. Lapsed and surrendered policies have of late years enriched our order far more than our losses have impoverished us. Over the ÆTNA's whole business in 1880, they were less than Five per cent. of the whole insurance in force. Page 111, of Prof. Cherriman's Report shows what they were in Canada, during 1880, upon Canadian business:

In Canadian companies, 10.05 per cent. In American companies, 9.07 per cent.
In British " 8.46 " " In the ÆTNA alone, 4.32 " "

And yet the ÆTNA's whole U.S. and foreign business was only 4.32.

Light losses indicate good management and well pleased and satisfied policy-holders. Is it not too much to expect Twenty-six Millions to be taken care of and invested and re-invested safely and profitably, without any expense whatever. It cost the ÆTNA loan and savings society in Canada close upon 11 per cent. to re-invest and care for its millions last year. And again it is a little unreasonable to expect that $1,375,527 13 could be paid out to about 1000 widows and orphans and $779,586 97 more for Endowments, "never paid to the wrong party" and getting a proper legal discharge from each, and no expense whatever be incurred in the whole performance! But this is the basis on which the hidden writer proceeds to figure out his "more than 24 per cent." for collecting a few cash premiums. What per cent. would he be at if all the premiums were completed, as many of the ÆTNA's were years ago, by 5, 10, 15 or 20 payments?

The standard method of measuring a life company's economy is by showing the ratio of its Working Expenses to its Entire Income. This method has been followed for many years in the "Policyholders' Index," for all American companies, and has been applied by Prof. Cherriman to all Canadian companies in his Blue Book for three years past. It is a little unfair both to old companies whose premiums have been largely completed, and to young companies whose premiums are mostly new, but no better test has yet been discovered. By this test it is found that the Expenses of the ÆTNA, per $100 received, compare with other companies very favorably, as follows:

Average of all Canadian companies,	for 3 years past,	per annum,	$27 30
" " 45 American	do	do	20 63
" " the ÆTNA LIFE,	do	do	9 00

See Canadian Government Reports (foot of page xxii, for 1881) and Goodsell's "Policyholders' Index;" compiled from all American Reports.

Light expenses secure good returns to policyholders in the form of dividends and other valuable advantages such as expensively-conducted companies cannot afford.

For an Ache, Cut or Sore on man or beast Kennedy's Lightning Remedy will not cure. In injection with each bottle are following: Is are Sick Headache in 5 minutes; Toothache in 1 minute Earache in 5 minutes; Neuralgia in 5 minutes Rheumatism in from 1 to 10 days. FIRE LIGHTNING REMEDY will cure any pain or ache that is conceivable in from 1 to 5 minutes. When you use a bottle of KENNEDY'S LIGHTNING REMEDY in your house you will always have the doctor at hand to cure 99 out of 100 of the ills the Human Family are subject to. Sold by Druggists and Merchants all over the world. ☞ When you want an article that will cure everything, ask for KENNEDY'S LIGHTNING REMEDY. If you doubt it, read this: DELTA, Ont., July 7th, 1879. Mr. James Kennedy, Toronto. Sir: I have been confined to my bed for a month with neuralgia in my head and face. I had two doctors attending me, but they could not cure me. After they gave me up as a hopeless case, I was induced by my wife to try your lightning remedy, and the first rub relieved the pain, and now I am as well as I ever was, but my bottle is all done. Please send me half a dozen more by express, C.O.D. Respectfully yours, DANIEL FREEMAN.
