CONSTANCY.

BY MRS. NORTON.

When in love's bewildering hour,
First I saw thy gentle face,
Smiling in thy golden bower
With such meek blushing grace;
While the sunbeams declining,
Lent thy cheek a softer glow,
With a glorious halo shining
Round thy pure angelic brow—
Then, O then I sighed to be
Master only heart and thee!

Since that time each hour which stealeth
From us happy lives away,
Some new gentle charm revealeth,
And I less than day by day;
Yes, thy voice more sweetly soundeth
To my fond accustomed ear,
And my heart more gladly boundeth
When thy footstep draweth near,
Than when first sighed to be
Master of my life and thee!

Improved Sheathing, Dry Hair, Roofing, and other Felt.

IMPROVED SHEATHING FELT,
For covering Ship's Bottoms, &c.

The advantage this Sheathing Felt possesses over any other materials hitherto offered to the public, are such important improvements, as will recommend themselves, on inspection, to those ship-builders who have been in the habit of using Felt.

"In all the oldest Vessels discovered, the Hair was perfectly fresh, although the timber was in a state of decay. * * * The worm never penetrates through an inner sheathing of Hair. * * The strong and adhesive inner sheathing has proved mainly instrumental in preserving vessels from sinking, when the outer sheathing or caulking have failed or been destroyed." [Teatise of the Institution of Civil Engineers.

IMPROVED DRY HAIR FELT,
For Steam Boilers, &c.

Dry hair felt is justly considered indispensible for the exposed parts of Boilers, Cylinders and Steam Pipes, by those who study economy in fuel, and is now becoming in general use in all large Establishments, and on board steamers.

THE IMPROVED ROOFING FELT
Is peculiarly applicable as a substitute for Slate, Zinc, Tiles, and other materials used for roofing, for its economy, lightness, and durability.

AN IMPROVED IMPERVIOUS FELT,
Which, for the inside of walls, will be found an efficacious remedy for dampness, etc.

☞ Orders will meet with prompt attention if addressed to
