SEWERAGE AND IMPURE WATER.

Questions Discussed by the Provincial Board of Health.

The Provincial Board of Health met yesterday. Present, Dr. Covernton (Chairman), Dr. Oldright, Dr. Rae (Oshawa), Dr. Cassidy and Prof. Galbraith.

The cattle market again came up for discussion. The Chairman stated that he understood the land had been granted to the city for park purposes. This resolution by Drs. Oldright and Cassidy was adopted: That the Board having already expressed its opinion regarding the site of the cattle market from a sanitary point of view, it is not desirable to take any further action or discuss the question further until the motion for injunction now before the courts is disposed of.

Prof. Galbraith stated that he had revised the proposed system of sewerage for Stratford, and that suggestions made by him for the enlargement of a portion of the system had been adopted. In reference to the proposed system of sewerage for Owen Sound, he thought that if there were no waterworks in the town there would be some difficulty in properly flushing the sewer, as it would not do to depend altogether on rainstorms to effect this purpose. He was not satisfied as to its emptying into the Sydenham River. The Board authorized him to visit Stratford and Owen Sound to make a further report.

The system of purifying sewage by upward filtration was referred to the Committee on the Disposal of Sewage, with instructions to investigate and report.

Drs. Rae and Bryce reported on the use of impure water. Their report showed that ice formed in impure water retained much of the impurities of the water and was injurious to health. The question of pure ice was referred to the Legislative Committee to be brought under the notice of the Government.

A discussion took place on the relative evils of water and coal gas. The Board agreed to adopt the report on this matter presented at last meeting, striking out the words "as it is likely that water gas, owing to its cheapness and superior illuminating power, will continue to be used in this country." This report expressed the opinion that the automatic cut off gas burner would be of great utility in preventing the fatal results which occasionally occur from the inhalation of any kind of illuminating gas.

A New Race Course.

Editor World: As you take more than ordinary interest in sporting matters I feel sure you will allow me space for the following suggestions anent the new race course:

The Woodbine being out of condition owing to the constant rising of the lake, it is evident that a more elevated site should be chosen for a permanent course.

A few days ago a letter appeared in the Telegram advocating a portion of High Park as a suitable spot. There are many objections to this scheme however, the uneven nature of the ground which is too broken, and the uphill sandy roads through the Park, with little chance of the grades being improved. Again I understand no entrance fee can be charged in a public park, to say nothing of the objection of having a race course in a park intended for private citizens and their families. I would therefore direct the attention of sporting men to a beautiful plateau one-quarter mile further west, overlooking the Park and the Humber Bay, containing about 80 acres of nearly level land and being the north half of lot 39, fronting on Bloor street, extending southward to the line of College street extension which can be had on lease or by purchase. This locality is easily reached by direct line of Bloor street and by the picturesque Windermere avenue, running north from the Lake Shore road and well known to members of the Toronto Hunt Club. The Ontario Bolt Company are now expending $1000 in grading and widening this avenue. The suburban train station will soon be erected at the Bolt Works. The new switch is in course of construction but at present the trains stop at the Works. Moreover before long the College street extension must soon be an accomplished fact. Ample stabling accommodation can be had at the Humber, and I might add that the soil of the above site is not so light as that of the Park—containing more clay, is tougher and more elastic. TALLY HO.

Unfair Criticism of O.S.A. Exhibition.

Editor World: Some one writing in the Telegram of Saturday last undertakes to repudiate, in the name of the Ontario Society of Artists, Mr. Roberts' protest against the unfairness of their criticism of our exhibition. No individual member has a right to do this. For my own part, I think a protest from some one against such an outrage was absolutely necessary. Healthy criticism will tend to strengthen and improve our work; but such an article as the Telegram has published cannot possibly do good to anyone. ANOTHER MEMBER O.S.A.

Toronto, May 31.

Art Criticism.

Editor World: On the 26th inst. you were good enough to publish my protest against the spirit and coarse vulgarity of an article which appeared in the Evening Telegram of the 22d inst.

Two anonymous letters in this evening's edition of the same paper, while evading the question at issue, make allusions personal to myself; to this, of course, I have nothing to say; but if the writers are prepared to justify the article over their own signatures they may rely on my best attention. SAMUEL E. ROBERTS.

Toronto, May 29.

Sir Walter Scott.

—A fact, not generally known, is that Sir Walter Scott was the first President of the Scottish Union and National Insurance Company of Edinburgh, and to show that his memory has not suffered by the Company it is only necessary to point out that the assets of the Company have accumulated to $65,000,000, and at this moment no Company occupies a higher position for prompt and liberal treatment of its patrons. Their representatives in Toronto are Medland & Jones, Equity Chambers, 20 Adelaide east. Telephone No. 1067. y246

Police Court Yesterday.

Richard Dillon, stealing $6 from Andrew Linn, 20 days. The Manchester Hotel gang were remanded till Wednesday. James Walker, for trying to rescue his brother from a constable, fined $20 and costs or 30 days. William C. Perrin pleaded guilty to the larceny of dress goods from T. Eaton & Co. He will be sentenced to-day. Henry A. Bateman, alleged to be an accomplice, was remanded till to-day. Joseph Marriott, for stealing planking at Peter street, sent down for 20 days.

New Grocery.

—A new store has been opened corner Albert and Elizabeth streets with a large and well assorted stock of groceries, provisions, etc., making a specialty of teas, every purchaser of which receives a handsome picnic basket. Mr. H. Matthews, the proprietor, who has been a number of years in the business, intends giving his customers such value as will retain their future patronage.

The Royal Mail Liners.

The "Royal Mail Liners" will commence the season to-morrow. The Passport will be the first boat to leave Montreal for the west, and she will be followed by the Algerian, Corinthian and Corsican on succeeding days.

—Hello! Gus you look happy, what's up! Well, Fred, I'll tell you: That dude that has so much cash called on Jennie the other night, and her mother got him to help her put up some pictures, and he drove the nails in and broke the plaster off their new walls, and she got mad with him and Jennie told me of it. I telephoned R. J. Licence & Co., cor. Bay and Adelaide, and they sent a man up and put up room mouldings at my expense (and it only cost six dollars), and now I'm solid with the old lady. She thinks I've a great head. 62x

NEW FIRE ALARM SYSTEM.

No More Patch Work—New Fire Ladders Wanted.

The Fire and Gas Committee, assisted by a deputation from the Board of Fire Underwriters, yesterday discussed at length the question of the new fire alarm system. There were present Chairman Maughan, Ald. Shaw, Piper, Pepler, McMillan, Jones, Allen, Carlyle (St. Andrew's), Johnston and John Woods, Chiefs Ashfield and Ardagh and Electrician Gibson. The latter official presented a report on the question embodying his former recommendation. He thought a patched-up system would be satisfactory, but if the Council could see its way clear to buying a new system throughout, he would not oppose Mr. Dwight's recommendation to that effect. After much talk the Committee passed a motion by Ald. Pepler to the effect that the Council be recommended to advertise for tenders for a new system throughout.

Chief Ashfield presented a report on lights required in different parts of the city. Seven Lambeth lights, 9 electric lights and 261 gas lamps were wanted. The report was adopted. One of the Lambeth lights will be placed at the Kingston road railway crossing, and another at the King street west crossing.

The consideration of the estimates for the current year was laid over till a special meeting. The total amount is $69,418 without extras.

Chief Ardagh received ten days' leave of absence to inspect at New York, Buffalo and Rochester the fire ladders in use at those places. It was time, he said, that the cumbrous machines now in use in this city were suppressed. He added that in accordance with a motion passed by the Committee some time ago he had inspected the various public buildings and in addition several private ones. Some of the latter he had found regular fire traps, the only approach to the upper stories of which was by staircases, up which it would be impossible to convey hose. Moreover the buildings were so constructed that when certain lower portions were burned away the whole upper part would be let down. Of course it was not his business to give these buildings away to the fire insurance companies.

Notes About Medical Men.

The medical man will be in town from all parts of the Province this week. The annual meeting of the Ontario Medical Association opens in the Normal School building to-morrow, commencing at 10 o'clock. Instead of the usual annual reports in medicine, surgery and midwifery, the Chairman of each committee, as appointed by President Tye, has been requested to choose some question of interest in connection with his subject, and read a paper on the same, to be followed by a general discussion.

Dr. Henry, of Orangeville, was elected as the representative of the Ontario Medical Council for Saugeen and Brock in place of Dr. Douglas, deceased.

Dr. Davidson, of Charles street, has been appointed Professor of Materia Medica and Therapeutics at Trinity Medical School in the place of Dr. Kennedy, resigned.

Dr. Ralph Leslie, of Toronto, has been decorated with the Order of Leopold by the King of the Belgians, for his services on the Upper Congo.

The next meeting of the Ontario Medical Council will commence in Toronto, Tuesday, June 8. The Canadian Practitioner understands that some objections are being raised to the disproportionately large number of "school men," or collegiate representatives, as compared with the territorial representatives.

Drs. Tye and Holmes of Chatham, Presidents of the Ontario and Canada Medical Associations, respectively, start on a trip to Europe in June.

The following have been elected officers of the Toronto Medical Society for the ensuing year: President, Dr. McPhedran; 1st and 2nd Vice-Presidents, Drs. Nevitt and Maobell; Recording Secretary, Dr. Peters; Corresponding Secretary, Dr. Cochrane; Treasurer, Dr. Spencer; Council, Drs. Atherton, Graham and Reeve.

The large attendance at the summer session conducted in the Toronto General Hospital affords ample proof of the necessity for such a course of instruction, and of its appreciation by the students.

The course of instruction now given is of a very practical character. About three-fourths of the work is clinical, and the didactic lectures are fully illustrated. It is suggested that the Medical Council should discuss at an early day the propriety of making one summer session compulsory.

—"When you called upon Mr Roberts, what did he say?" was the question propounded to a voter before an election committee. Ere the man could open his mouth to reply, the question was objected to. For half an hour counsel argued the matter; then the room was cleared to Rice Lewis & Son, Toronto. HUGH W. M. MURRAY, F. H. BARWICK, A. C. MACDONELL.

TO EXCAVATORS.

Tenders addressed to the Chairman of the Courthouse Committee will be received by registered post up to noon on Saturday, the 26th inst., for the excavations required in connection with the new Courthouse to be erected on Queen street at the head of Bay street. Plans can be seen and other information obtained at the office of the Architect, K. J. Lobb, cor. of King and Yonge streets. Tenders to state price per cubic yard, and must be accompanied by a cash deposit or marked cheque for $50, which will be forfeited to the city in the event of the party whose tender is accepted failing to carry out the work. The lowest or any tender not necessarily accepted. THOS. HUNTER
