MARKET REVIEW AND FORECAST

TORONTO, Dec. 31.—The passing of the Christmas season has again left the markets quiet. This is accentuated this year because of the poor seigning throughout the country. With the arrival of more snow to put the roads in shape for teaming, the grain markets should pick up. At present, however, there is little movement in either the grain or the live stock markets.

Contrary to expectations, oleomargarine has not as yet had much effect on the butter market. While it is being bought to some extent wherever offered for sale, this cannot be taken as a criterion of its popularity. Curiosity will impel many to make a trial of the new substitute for butter. The embargo which was placed on the exportation of oleo from the United States, has not yet been lifted and the oleo now available in Canada is that being manufactured here. As the domestic article is being sold at prices considerably higher than those prevailing on the other side of the line, it has not entered into such competition with butter as it might were the embargo lifted and the lower prices to prevail.

Wheat.

Very little trade is passing in grain. The unsettled state of the roads has made for a small supply of Ontario grains on the market. A few odd cars of Western wheat are changing hands on the basis of $2.37 for No. 1 Northern, delivered Toronto. The market has not yet become active after the holiday season. Quotations:

Manitoba Wheat—In store, Fort William, nominal (including 2 1-2c tax): No. 1 northern, $2.23 1-2; No. 2 northern, $2.20 1-2; No. 3 northern, $2.17 1-2; No. 4 wheat, $2.10 1-2.

Coarse Grains.

The principal market movement at present is the advance in Manitoba oats on the Winnipeg optional market. This has resulted in a corresponding advance in the market quotations in Toronto and Montreal of one cent. There is practically no Ontario oats coming out yet. Corn shipments are also very meagre. Quotations:

Manitoba Oats—No. 2 C. W., 85 3-8c; No. 3 C. W., 81 3-8c; extra No. 1 feed, 81 3-8c; No. 1 feed, 78 3-8c; in store, Fort William.

American Corn—No. 3 yellow, nominal.

Ontario Wheat—New crop, No. 2, $2.22, basis in store, Montreal. Ontario Oats—No. 2 white, 78c to 80c, nominal; No. 3, 78c to 79c. Barley—Malting, new, $1.30 to $1.31, according to freights.

At Montreal—Quotations: Corn—American No. 2 yellow, $2.15 to $2.20. Oats—Extra No. 1 feed, 91 1-2c; do No. 2 local white, 84c to 85c. Barley—Manitoba feed, $1.31. Rolled oats—Bags, 90 lbs., $5.30. Bran, $35. Shorts, $40. Middlings, $48 to $50. Moulie, $56 to $58. Hay, No. 2, per ton, car lots, $14.50 to $15.50.

Hay and Straw.

There have been no changes in the prices quoted for hay and straw. These are: Toronto, No. 1, on track, $15.50 to $16.50; mixed, $13 to $15; straw, car lots, $9 to $9.50; Montreal quotes No. 2 hay at $18.50.

Seeds.

Local red clover seed is coming in slowly and some has been imported from the States to cover orders. Farmers in the West are still holding out for high prices for timothy seed, with the result that there is little movement in that market.

Wholesalers are paying the following prices for seed at country points:—

Alsike, No. 1 fancy, bush.	$12 00 to $12 50
do No. 1, ordinary	11 25 to 11 75
do No. 2, per bushel	10 00 to 11 00
do No. 3, per bushel	8 00 to 9 00
do rejected, per bushel	4 20 to 7 00
Red clover, No. 2, bushel	11 00 to 11 75
do No. 3, per bushel	10 25 to 10 75
do rejected, bushel	6 25 to 6 75
Timothy, No. 1, per cwt.	8 75 to 0 00
do No. 2, per cwt.	7 75 to 0 00
do No. 3, per cwt.	6 75 to 0 00
do rejected, per cwt.	3 25 to 4 75
Flax, bushel	3 15 to 0 00

Potatoes and Beans.

Arrangements are being made in Prince Edward Island for the shipment of potatoes in heated cars to points in Ontario and Quebec. This experiment will be watched with interest. It is being carried on under the supervision of the Food Controller's Branch.

Toronto is quoting Ontario potatoes $2.10 a bag and Delawares, at $2.25; Montreal reports that buyers are well stocked, car lots of Green Mountains are selling at $1.90 to $2 a bag of 90 lbs. ex-track, and in wholesale jobbing lots at $2.10 per bag of 80-lbs. ex-store.

Beans remain steady. Canadian prime selling at $7.50 to $8 a bushel and foreign hand picked, $6.75 to $7.

Eggs and Poultry.

So far there has been no increase in the production of eggs in Eastern Canada. Many of the eggs coming to the market are stale held stock, which cannot be expected to bring high prices. For really new laid specials the demand is keen. The storage situation is gradually clearing up. Consumption is good. Toronto is quoting eggs, cases returnable, f.o.b. country points, 48c to 50c. They are being wholesaled at 43c to 44c for No. 1 storage, select storage, 47c to 48c and new laid, cartons, 60c to 65c. The Christmas poultry market was good. Very little stock will be carried over. This is in contrast to last year when large lots went into the freezers because of the fall in prices. Quotations in Toronto still stand at:

	Live weight.	Dressed.
Chickens, spring	17c to 19c	23c to 25c
Hens, under 4 lbs.	12c to 13c	18c to 00c
Hens, over 4 lbs.	16c to 17c	20c to 22c
Roosters	15c to 00c	18c to 00c
Spucklings	20c to 00c	24c to 26c
Turkeys	25c to 00c	33c to 36c
Geese	18c to 00c	23c to 24c

Dairy Produce.

While oleomargarine has not yet been imported into Canada, supplies of this commodity are being distributed from Canadian factories. This is selling wholesale at 32c a lb. and is retailing up to 38c. Despite the competition of oleo the butter market remains firm. Montreal quoting an advance of one cent a pound. At equnttry points Toronto dealers are paying 42c to 43c for creamery prints, 41c to 42c for creamery solids; 39c to 40c for dairy butter. The wholesale butter market in the city is selling fresh made creamery prints at 47c to 49c with creamery prints at 45c to 46c, and solids 44c to 45c.

LIVE STOCK.

Until after the New Year holidays there will be little business done in the live stock market. The receipts for last week only numbered 2,049 cattle, and these sold at steady prices. The only feature of the week was the advance in the price of hogs from $18.50 in the early part of the week to $18.75, fed and watered, 200 selling at that price on the closing day. The highest price paid for cattle was $12.50 per cwt. Choice cows sold at from $9 to $10, while medium to good brought from $7 to $8.25 per cwt. Sheep and lambs were scarce; the former sold at from $9.50 to $14, and spring lambs sold at from $17.25 to $18.
