Decrease since last year 3 by Emigration
Decrease by Emigration 12
Increase by Emigration 9 } 3 Decrease
Births 11
Deaths 11

Remarks. These Indians have increased in number since last year in spite of a decrease of 3 by Emigration. There is a very trifling increase in Cattle and Produce. They have here a Mill & Saw Mill and the timber material has been provided, but it is often taken away by white people in 6 years, 58. From 1857 to 1862 there was a gradual increase each year but there is this year a decrease. The quantity of land occupied or cultivated by them is not so great for 1856. There is a large addition to the Pigs. There is also a fair increase in quantity of agricultural implements. There is a Mission School and a good & well finished Church. The Log School house has gone to decay & a new one is building. These Indians like those of Snake Island are good hunters and spend much time on their Excursions. They are however turning their attention to the Agriculture the last few years or two.
