REV. D. J. GILLIS.

CREATED A ROMAN PRELATE.

FATHER GILLIS' many friends were agreeably surprised, yesterday, to learn of the new honors that had been conferred on him. It is about twenty years since he finished his ecclesiastical studies at the Grand Seminary, Montreal, where he was ordained. Ever since then he has been engaged in the active duties of the ministry.

His first field of labor was St. Andrews, having also for a time pastoral charge of St. Peters and Morell. He distinguished himself at the opening of his ministry by a fervid advocacy of the temperance cause, and has remained ever since a warm and enthusiastic friend of the movement.

About ten years ago he was transferred to the flourishing parish of St. Columba, where his activity has been specially noticeable in the material improvements effected by him. The crowning work of his incumbency being the building of the parochial house, which is one of the most commodious Presbyteries we have. Indeed it justly ranks among the handsomest private residences on the Island.

He has travelled much in such snatches of time as he could spare from the active duties of his ministry. He made the transcontinental trip with His Lordship the Bishop some four years ago. On that trip he made many friends and acquaintances who will read with pleasure the announcement of his newly conferred honors.

Last year he accompanied the Bishop to Rome. It was during his stay in the Eternal City that Bishop McIntyre, who, from his frequent contact with him, had learned to appreciate his many good qualities of mind and heart, decided to ask Mgr. Jacobini for a special mark of favor for him. The Cardinal very graciously took up the matter, and said he would see it brought to a successful issue. That this has been the case, the following, which is a translation of the official document, shows:

Rev. D. J. Gillis,
Priest of the Diocese of Charlottetown:

Rev Sir,—His Holiness Pope Leo XIII has been pleased to name you one of his Private Chamberlains, and the undersigned, Master of the House and Prefect of the Apostolic Palace, hereby conveys to you the intelligence of this special mark of consideration on the part of the Sovereign Pontiff.

+ L. ARCHBISHOP DI PETRA.

Office of the Apostolic Palace in the Vatican, Rome, 20th September, 1889.

Although the official document reached here about the middle of last December, still, to give it a little more solemnity His Lordship judiciously delayed its publication until the priests should assemble at their regular spring conference. Yesterday, at the end of the conference, the assembled clergy were agreeably surprised by having the pleasing intelligence broken to them, and many and warm were the congratulations extended to the new Monsignore.

THE Anchor Line steamer City of Rome, which left New York May 31 and arrived at Queenstown on the morning of Sunday last, had a narrow escape from destruction at Fastnet. She made land in a dense fog at 4 o'clock in the morning and was going slowly, taking soundings when she struck Fastnet Rock, about 3 miles seaward of Crookhaven, bow on. Her forefoot got on the rock and but for the promptitude displayed in reversing the engines a great fatality would have been recorded. The full extent of the damage cannot be ascertained until the vessel is docked at Liverpool.

CARDINAL MANNING, in a letter to Mr. William O'Brien, M. P., says that his reading of the latter's novel has more deeply than ever impressed him with Ireland's inextricable sorrows. The Cardinal continues: "The Irish people, the most profoundly Christian on the face of the earth have been afflicted with every kind of sorrow, barbarous and refined, for centuries. Race and religious hatred is their inheritance. But a day of retribution has nearly come. I hope to see the dawn and I hope you will see the noontide of the day when they are admitted to the possession of their own soil, and the administration, as far as possible, of their own local laws, while still sharing in the legislation which governs and consolidates the empire."

MONTREAL, June 9.—Nominations throughout the Province takes place tomorrow. St. Antoine, Pontiac and Two Mountains will probably return Opposition men unopposed.

COLUMBUS, Ohio, June 9.—At noon the Street Car Company attempted to runs cars but were interrupted by fully 10,000 workmen, who suddenly made their appearance, blocking Long Street and derailing a car. HALIFAX, June 9.—A miniature cyclone struck the city at two o'clock this afternoon and the harbor was lashed into fury. The French warship Bisson dragged her anchors half way across the harbor. A waterspout arose along the British warship Canada, and ascended as high as the masts, but broke and the enormous quanity of water fell back into the harbor without doing any damage. Several small schooners coming up the harbor were blown about like so many toys. One vessel had her sails carried away. In the streets a number of awnings were carried away.

WILL ASIATIC CHOLERA FOLLOW?

Mr. Joe Howard's theory that, one horror of a similar nature follows another to the number of three, has a chance for confirmation this coming summer if certain predictions prove true. First it was La Grippe: "A whim" the French define it. Second came deaths by scores from its after effects, or from the many atmospheric changes of the past few months. Severe cases of pneumonia, bronchitis, intense catarrh and general loss of strength were the results, until death was almost welcomed as a relief to the sufferers. So that this epidemic and its sequence has proven to be the most terribly realistic "whim" that ever infested this country. And now for number three; the theory is said to be advanced that the Cholera is very likely to find fertile soil in the generally debilitated constitutions of our people resulting from the effects of such a winter and spring as has just passed. Whether the theory of three will be confirmed in this case or not, remains to be seen. At any rate it behoves every person still affected by any of the complaints due to these climatic changes and epidemics, such as catarrh or bronchial troubles, to look well to themselves and see that every trace of the trouble is removed this present month; before the heat of summer still more debilitates the system. For years we have found that simple old remedy Johnson's Anodyne Liniment, used as directed, to be the most certain remedy for all forms of lingering summer colds, catarrh or bronchial affections, as well as a preventive and cure for all kinds of summer complaints. It is absolutely certain that a remedy that has survived for eighty years as Johnson's Anodyne Liniment has done, must have more than average merit. We suppose there is not a family in this country but what has this good old fashioned remedy in the house. If there is, we advise them to get it at once or write the manufacturers I. S. Johnson & Co., Boston, Mass., for a pamphlet describing its various uses for the last eighty years. Now is the time. Delays are dangerous, and an ounce of prevention is worth many pounds of cure.

BILIOUSNESS AND ACID STOMACH.—Having used your Burdock Blood Bitters successfully for some time past for my complaint, biliousness and acid stomach, I have never found its equal. Thomas W. Allen, St. Thomas, Ont.

The Lorne Times concludes its obituary notice of the late James Dean in the equivocal manner: "A great Irishman has passed away. God grant that many as great, and who as wisely shall love their country, may follow him."

FOR COLDS OR PAIN.—Yellow Oil is the best remedy I ever used. I had a severe breast 15 months ago, which never left me. I got no relief until I tried Hagyard's Yellow Oil, which gave instant relief. Mrs. Jas. Corbett, St. Mary's, Ont.

A horse has the advantage over man in one thing. He's worth more after he's broke than he was before.

For croup, quinsy or colds use Yellow Oil

C. C. RICHARDS & Co.

Sirs,—I was formerly a resident of Port La Tour and have always used MINARD'S LINIMENT in my household, and know it to be the best remedy for emergencies of ordinary character. Please inform me how I can get some and from whom.

That tired, languid feeling and dull headache is very disagreeable. Take two of Carter's Little Liver Pills before retiring, and you will find relief. They never fail to do good.

The coachman who contemplates eloping with and marrying his employer's daughter should remember that by so doing he will have to change his position from coachman to groom.

They make one feel as though life was worth living. Take one of Carter's Little Liver Pills after eating; it will relieve dyspepsia, aid digestion, give tone and vigor to the system.

A Melbourne manager advertises for "coryphees who must not be over thirty years old."

You hardly realize that it is medicine, when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use.
