THIRTEENTH YEAR. MONDAY MORNING, MAY 30 1892 ONE CENT.

THIRTY RACES REVIEWED.

HOW O.J.C. PURSES WERE DIVIDED AMONG THOROUGHBREDS.

The Big Winning Stables—Deane, Flint and Horton Each Have Five Winning Mounts — Summary of Saturday's Races—Flint Won Three of the Seven Events, and Shields Gets a Brace—All the Sporting News.

Toronto's spring racing meeting closed Saturday.

The five days' event was a complete success from a financial standpoint.

Starter Fitzgerald proved a failure. The judging also called for unfavorable comment, but was unquestionably honest. The last race Saturday called for much harsh words. It was a mile event and there were fully 10 lengths between the first and last horses at the start.

A rumor was rife Saturday that the ill-starred Post Odds was entered as Walker in the first race. Brands were noticed on the horse's hips. When the report spread money poured into the books, and the odds were soon forced from 30 to 1 to 4 to 1. The horse was outclassed and wasn't placed. Nothing was done to the owner or jockey.

In the sixth race on the same day Slack was suspected of not trying on Can Can, questioned and exonerated.

The twenty bookmakers did a lively business. They gave good odds and many of the score are said to have left losers. The St. James Club, Collateral Club and Sutton & Co. made 1-2-3 books and are the most out. The Virginia Club had enough of the 1-2-3 business on the first day. As a New York bookie said: "You are too well posted here on the horses for us to make anything." Keachie & Co., the local firm, did the best.

A word should be said for the O.J.C. committee. They worked strenuously for the pleasure of their patrons and succeeded admirably. Mr. Secretary Ogden was the busiest and most courteous man on the track. He is a proper race-meeting general.

On account of the success of the meet a rumor spread Saturday that two extra days would be given this week. And it is just possible that there will be races at Woodbine Saturday next.

Here is the official attendance for the five days:

Tuesday	9,700
Wednesday	3,000
Thursday	2,500
Friday	3,000
Saturday	4,500
Total	21,500

Most of the horses leave to-day. Daly, Lovell, Smyth and Shields go back to Brooklyn; Tompkins will go to Montreal. Of the local men Gates goes to Chicago and Carruthers to Morris Park.

HOW PLUMS WERE DIVIDED.

A Table Showing the Number of Races and Dollars Won by Each Horse.

Upwards of $17,000 were distributed in prizes during the five days of the meet. Messrs. Dawes and Seagram are the biggest winners, while the mysterious Mr. Smyth, with his gallant brace, Fenelon and Fleurette, follows closely. With Queen Mary's last victory Mr. Hendrie should be next. Mr. Shields started late in the week, but crept up among the winning owners. Our own Dr. Smith and Messrs. Gates are also among those who did well at the meet. Subjoined is a tabulated list of the races and purses won by each horse during the five days, also the work done by the different jockeys:

YACHTS BEFORE THE BREEZE.

First Race of the Season—Edna Defeats Ariel on Time Allowance.

The first yacht race of the season came off Saturday. It was a race for the 25-foot class of the R. C. Y. C. The course for this class is a new one, being from a buoy off the town club house to one off the Island club, thence back to town club, thence round the Island, going out at the leeward channel. This course has been arranged to avoid incommoding steamers in the harbor.

The following yachts started: Edna, Kelpie, Ariel and Brenda, crossing the line in the order named at 3 p.m.

At the Island the yachts were still in the same order. When sheets were eased for the run back, Kelpie and Ariel set their spinnakers and gained on Edna, who carried her balloon jib instead of the spinaker. The wind being almost south the course lay out of the western gap, and on this tack Ariel closed slightly on Kelpie, who held Edna. On hauling on the wind for a beat to Gibraltar Point, Kelpie began to drop Ariel and forge ahead of Edna, Brenda being far in the rear. On the second leg Kelpie, who was fast getting a comfortable lead, carried away her bob-stay and had to lay to for about 20 minutes, throwing her virtually out of the race.

Ariel soon passed Edna, the roll seeming to bother the latter, and the bell buoy was passed with Ariel leading, followed by Edna, Brenda and Kelpie, the latter with a man sitting on bowsprit to keep it down. Ariel continued to increase her lead. All the boats but Kelpie carried balloon jibs from bell buoy to finish, Kelpie being afraid to put any more strain on her disabled boom.

Ariel crossed the winning line at 5-7-20, 5 min. 7 sec. ahead of Edna, who was 5 min. 8 sec. ahead of Brenda, Kelpie finishing 1 min. 27 sec. later.

Edna, however, wins by 3 seconds, Ariel having to allow her 5 min. 10 sec. As Ariel, unfortunately, struck one of the course buoys, she will probably have to relinquish her place.

It was generally conceded that Kelpie was sailing at a winning gait had she not met with her mishap.

Toronto Athletic Club.

At the board meeting on the 16th instant the directors accepted the following contracts for the remainder of the building: Messrs. Oakley & Holmes for the masonry work; Mr. Onderkirk, for the carpenter work; Mr. A. H. Rundle, for the plastering, etc.; Messrs. Bennett and Wright, for the steam-fitting and heating; Messrs. Douglas Bros., copper and galvanized iron; Mr. Hudson, for the sheeting and tiling; also contracts for painting, glazing and wrought iron work, and the work will now be proceeded with with all possible speed, in fact the Board are urging the architect to push the foundation forward, as they consider that the work is not progressing at the rate that their contract calls for. There is every reason to believe that the contractors will, however, have the building ready for use next winter, and the shareholders are to be congratulated upon getting a remarkably fine and complete club house which will be a credit to the city.

The secretary is receiving considerable encouragement by shareholders taking up the stock offered them of the additional $25,000 which the general meeting decided to issue so as to bring the amount up to the $100,000. This is an opportunity to urge all the citizens who have not already subscribed for the stock to do so at once. A post card to the secretary will be quite sufficient to inform him where he may take the stockbook for signature. Out of the 1100 members, if each one applied for an additional share it will more than make up the amount asked for.

ANOTHER BICYCLE RECORD.

Mr. Thomas of the T. B. C. Makes a Phenomenal Century on Saturday.

Walter Thomas of the Toronto Bicycle Club on Saturday lowered the century record from 9 hrs. 20 mins. to 9 hrs. 5 mins.

Starting at 8.50 a.m., he reached Newcastle at 12.35, thus wheeling the 50 miles in 3 hrs. 45 mins.; then, with half an hour for dinner, returned against a strong west wind, and with a stop for lunch and at several pumps finished the 100 miles at 5.55 p.m.

Had Mr. Thomas continued eastward he no doubt would have completed the distance in eight hours, for as good time, if not better, could have been made on the next 50 miles eastward. Mr. Thomas has now won eight century bars and hopes to secure the first 1000-mile bar (10th century), and will also try to lower his present record.

AND NOW THEY BOWL.

VARSITY KICKERS IN CHICAGO.

They Down the Windy City Thistles by 4 Goals to 2.

CHICAGO, May 28.—The Varsity football team to-day won the first game of their trip from the Chicago Thistles. The rain kept from the match all but about 300 hardy Scotchmen.

No word can describe the state of the grounds. It was more like a bog than a football field, and time and time again players were unable to extricate their limbs from the mud. Notwithstanding all these drawbacks the players put up a very fast game, and were not lacking in combination.

Varsity won the toss and Thomson put the ball in motion. The play was fast from the start.

The goals were taken in the following order:

First Half—First by Thomson, scored with a low, swift shot from a centre by Govenlock. The second goal fell to the Thistles. London doing the needful. Senkler secured the second goal for Varsity, receiving the ball from Thomson. McEwan again evened the score by again fooling Porter. Three minutes from half time Buckingham placed Varsity again in the lead, Govenlock and Thomson assisting him.

In the second half Duncan headed through a centre by Govenlock. Thus Varsity left the field winners by 4 to 2.

The Thistles have several very good men. The half-back line is strong, McMillan playing an effective game. McEwan and London shone on the forward line, while Judge in goal saved his team a worse beating.

Varsity played her usual game. The Thistles were completely outplayed by a superior combination. Varsity's strength lay in her combination, while that of the Thistles rested in their greater weights and strong kicking.

Varsity plays in Detroit on Monday. Their match with Galt is on for Tuesday. The Varsity team have been putting up at the Kimball House. The teams were:

Varsity (4)—Goal, Porter; backs, Breckenridge; halves, Blake, Goldie, Cameron, McArthur; forwards, Buckingham, Hooper, Thomson, Senkler, Govenlock.

Chicago Thistles (2)—Goal, Judge; backs, Weir, Wright; half-backs, Dewar, McMillan, McDonald; forwards, London, Hislop, Douglas, McEwan, Walkes.

Rovers Defeat Hurons.

The Hurons and the Junior Rovers played their scheduled game on the cricket grounds Saturday. Murray set the ball rolling for the Hurons, but it was soon returned. About ten minutes after play had begun a scrimmage occurred near the Huron's goal, from which Wilson succeeded in scoring. For the rest of the first half both teams played very poor football, play being slow.

At the beginning of the second half the Huron's left wing, which was putting up a very good game, took the ball up the field and from a centre from Watson Murray scored for the Hurons. This set the Rovers on their mettle and before time was up had added three more goals, Wilson, Hewish and Hough putting the ball through.

The Y.M.C.A. defaulted to the Rover Intermediates, the Rovers thus taking credit for a victory.

LIEUT.-GOV. KIRKPATRICK.

THE MEMBER FOR FRONTENAC APPOINTED TO THE VACANCY.

At a Meeting of the Council Saturday the Office Was Offered to and Accepted by Hon. George A. Kirkpatrick — The New Governor Will Be Sworn in To-Day.

OTTAWA, May 29.—The question of the Lieutenant-Governorshp of Ontario was settled at yesterday's meeting of the Council by the appointment of the Hon. George A. Kirkpatrick, M.P. for Frontenac, ex-Speaker of the House of Commons, and a member of Her Majesty's Privy Council for Canada.

It is understood that Hon. Mr. Kirkpatrick will be sworn in to-morrow and leave for Toronto at once.

The appointment is regarded here as an excellent one and likely to give satisfaction.

To-day in the House.

OTTAWA, May 29.—It is expected that Mr. Armstrong's motion about the dual language and separate schools in the Northwest will occupy the attention of the House the greater part of to-morrow afternoon and evening, with a few questions by members, motions for papers and private bills sandwiched in.

The motion is pretty certain of defeat, the only question being whether it will receive more than the 32 votes Mr. McCarthy's bill to the same effect got.

Canada at the World's Fair.

OTTAWA, May 29.—Professor Saunders, Canadian Commissioner to the Chicago Columbian Exhibition next year, has returned from a trip to Quebec and the Maritime Provinces, where he saw the Governments of all the provinces, except New Brunswick, the members of which happened to be absent at the time of his visit, and received most satisfactory assurances of the hearty co-operation of the Provincial Governments with the Dominion Government in having Canada creditably represented at the World's Fair. Special care will be taken with regard to the fruits and cereals of the different provinces, and Nova Scotia and Prince Edward Island will each have a fine display of fish and fish products, while Quebec will furnish a lumber trophy and other suitable displays.

Altogether it looks as if Canada might repeat the Centennial Exhibition in 1876.

Tastes Vary.

The wrapper (the outside leaf) does not *altogether* indicate by its color the *strength* of a cigar, as is generally supposed to be the case. On the contrary, cigars with light-colored wrappers may be very *strong* unless proper care is taken by the manufacturer in handling the leaf to have the interior or "bunch" properly represented by the outside leaf, which should be the "mirror of the cigar."

Our brands are properly represented by the sizes and colors. For example: The El Padre brand is made in the following sizes: "Perfectos," "Lansdowne," "Fins," "Bouquets," and "Reina Victoria," all of different qualities, which are represented by the "sizes" mentioned all of which are of different *strength* in each size.

You can obtain a mild, medium or full flavored Perfecto in that particular grade and quality; the same with the other sizes. Smokers who like a full-flavored, fairly large cigar should ask for the Reina Victoria size; for a large mild cigar the Perfecto; medium size Lansdowne or Pin; small size Bouquets. Our aim is to suit all tastes and dispel the illusion that exists with many smokers that an imported cigar is as good at anything like the price at which the El Pade, Madre e Hijo, La Cadena or La Flora are sold. The Doctor on His Favorite Topic.

Rev. Dr. Wild took for his subject in yesterday evening's pulpit oration "Sailing Against Wind and Tide," although his sapient utterances during the evening appeared to bear little analogy to the subject in hand. The spirit of Anglo-Israelism was evidently deeply moved within his tightly-buttoned frock coat, for he unmercifully belabored his desk and hurled defiance at one and all, nations and diplomats, who sought or should seek to controvert the theory of Anglo-Israelism as the essence of biblical interpretation. It was the reason, he asserted, why the Khedive had lately experienced some delay in his investiture in office was because the Sultan in his imperial firman had annexed a portion of Egyptian territory bordering on Sinai, which seizure being disapproved of by the British Commissioner, Sir Evelyn Baring, was not effected. The annexation of this important area of land would have enabled the French, by means of a little diplomatic bribery, to construct a waterway similar to the Suez Canal and so have seriously affected the usefulness of the latter. The remainder of the doctor's remarks were mainly upon the same subject and he bade the Englishmen present not to make a noise, as it was not owing to British diplomacy that such good work had been effected, but merely the finger of God and the necessity of the times working together for good.

A Scheme that Didn't Work.

MONTREAL, May 29.—Samuel Goldbloom, the peddler arrested last night by an officer of the Canadian Secret Service at Winchester, on the charge of obtaining goods under false pretences from Mr. Edward Eaves, wholesale jeweler of this city, has been remanded. It is alleged that the peddler purchased goods to the amount of $2800 on credit, stating that he owed no other firm. With these goods he traveled all over Canada, and when the time for settlement arrived he went to the firm and told them that he had been robbed by Indians at Rat Portage. The case was entrusted to the Canadian Secret Service, who found that the story was not true, and arrested the peddler.

MURDER IN ALGOMA.

A Canadian Pacific Engineer Killed Near Chelmsford by Unknown Parties.

SAULT STE. MARIE, Ont., May 29.—The mutilated remains of J. Norsky, a locomotive engineer on the Canadian Pacific Railway, were found on the track one mile east of Chelmsford yesterday.

Friday was payday and it is thought he was murdered for his money. In this the murderer or murderers were foiled, as Norsky, on receipt of his pay, sent it to his wife, who lives in this town.

COLLIDED IN DETROIT RIVER.

The Owner of a Tug and a Chief Engineer Drowned.

DETROIT, May 29.—About midnight last night the steamer City of Mackinac collided with the tug Washburn in the river opposite this city, resulting in the drowning of John Hurley and Chief Engineer Robinson of the steam barge Majestic, who were on board the tug.

The tug was nearly cut in two, but the engineer beached it on the Canadian shore before it sank, thus saving the lives of the four other men on board.

The Mackinac was but slightly damaged.

NEW TAXES TO BE IMPOSED.

How the Quebec Government Will Make Up For Mercier's Steals.

QUEBEC, May 29.—It is stated that the Government intends to make up the million and a quarter deficit by a tax of a mill on the dollar on real estate. This tax will probably only bring in about $400,000 and the remainder will have to be made up in other ways.

The next step will probably be a tax upon mortgages, stocks, bonds, etc. Each individual will have to make a return of his possessions in that line, and if detected defrauding the revenue he will have to pay a double tax.

A TORONTO 14-YEAR-OLD

Arrested in Brooklyn for Extensive Theft of Diamonds.

NEW YORK, May 29.—John McGregor, 14 years of age, of Toronto, Canada, was arrested on Saturday night in Brooklyn on charges of larceny, amounting to several hundred dollars.

He ran away from home about two months ago, after stealing $50 from his parents, and came to Brooklyn. He engaged board in Sixth-avenue, and three days after, while the family were at dinner, he entered the room of Mrs. Thomas Dean and took her diamond earrings, a diamond breast pin and a gold watch and chain.

Other charges were brought against him by a restaurant keeper.

WHO OPENED THE SAFE?

The Thief Must Have Known the Combination.

Here's something for the detectives to work on.

When Manager Benson of the Singer Sewing Machine Company's branch office, 66 King-street west, opened his safe on Saturday morning he found that $300, with which he was going to pay the employes, had been stolen. The safe had been opened, the money taken, and everything fixed up as before. Beside the money stolen was an envelope containing $200. This was left undisturbed. The front door of the building was locked, but the back door was open. On examining the latter, however, it was found that the staple had been drawn from the inside, which went to show that this door had been used as a means of exit only. An inner door of the safe had also been opened and then re-locked.

From facts gleaned so far it seems clear that the thief thoroughly understood his surroundings and knew the combination of the safe. Before the company moved its head office to Montreal this same safe was used in the old combination and it is now a matter of some wonder as to how it was at that time, so that it is difficult to place the guilty party.

The detectives are working on the case, but so far their efforts to capture the burglar have been fruitless.
