COARSE GRAINS ARE FIRMER

Liverpool Futures Shew an Advance —Tallow Is Lower—Provisions in West Full and Steady.

Thursday Afternoon, Nov. 16.

The Chicago market was quiet to-day with the growth of wheat, and additions were generally good. More good rains have fallen and more appeared of late, but little evidence of a change in the general aspect of affairs. Continued reports of abundant corn yields. It is low enough to feed hogs profitably. More selling in the west for the week ending to-day than the corresponding week of last year.

LIVE STOCK MARKET.

There was an unusually light run of cattle, about 21 loads, including 1,100 hogs, but there was still a fair market for the cattle market this morning. Good butcher ale scarce. Prices ruled steady. Sheep, weighing up to 90 pounds, were sold at from $3 to $3.50. For some of better quality more could be obtained. Export bulls were steady, export cows steady, but other classes of cattle were only being sold at last prices.

Hogs are quoted at still a little lower than last week, a change has

MONEY OUTLOOK BETTER

Stocks Active and Higher on Wall Street, With Feeling Very Bullish.

STERLING EXCHANGE HIGHER

Bank of England Discount Rates Unchanged Big Advance in War Eagle.

Thursday Afternoon, Nov. 16.

The chief feature of the week was the decision of the Treasury to purchase largely of the United States 4 per cent. bonds, and the rise of one of the strongest railway stocks in Canada coincide with and the feeling with regard to easier money rates is much eased.

\$ \$ \$

There was no change in the call rate for Europe in the last week, but as advised to Europe, consignments have been made with the Teutonic and the Oceanic, and arrangements have been made to ship large amounts. It was mentioned by interesting shippers that fully $[illegible] thereof of stock will be shipped to the other side within a short time.

\$ \$ \$

Wall Street stocks were lower at this morning, the flurry from rush of buyers for both short and long account being caused by Secretary Gage's action in redeeming bonds. Loans supplied urgent demand, and prices may ease off a little before the close. If they do we favor purchases and look for fresh stimulus from good bank statement on Saturday. Sugar sold up to 135⅞, and the gossip is that it will sell at 175 in the near future. Money 6 per cent.

\$ \$ \$

It is the belief in the Street that the Standard Oil, who have largest interest at stake in stocks, forced the change in attitude of Treasury Department about buying bonds in the contemplated action to ask for largely increased bank circulation against the Government bonds their banks own and could secure.

* * *

The directors of the Bank of England at meeting to-day made no change in the discount rate, which is 3 per cent. Bullion in the Bank decreased £50,169 during the week, and the proportion of reserve to liability is now 41.15 per cent., as against 42.23 last week.

McIntyre & Wardwell say: Action of Treasury in deciding to buy $25,000,000 Government bonds now that are due 1904 may have been precipitated by report after close of market yesterday that City Banks would apply for an increase of $12,000,000 new circulation. Government action of course, does not make such action on the part of City Banks, or any other institution, necessary to relieve money market. Recent buying of Government bonds in anticipation of such a movement being forced on the Treasury Department has been good, and there is insight into a sufficient amount of bonds will be offered to the Government. This action, of course, entirely changes the aspect of the money market, and indications are we will have an immediate revival of active bullish sentiment for all the better class of stocks and bonds. London markets are strong and active and higher under influence of United States Treasury action.

In London the markets are strong all around on reported severe loss to Boers through death of General Joubert. Americans buoyant. Continental Bourses firm, Paris steady.

\$ \$ \$

CONSOLS ARE FIRM.

Consols are 1-16 higher to-day, closing at 102 11-16 for money and at 103⅛ for account.

In Paris 3 per cent. rentes are unchanged at 100f 30c.

\$ \$ \$

The Bank of England discount rate is unchanged at 3 per cent., and the open market rates easier at 4⅜ to 4⅞ per cent. Call loans in London 3½ per cent.

QUICK CHANGE IN MILITARY ORDERS.

Leinsters Will Stay at Halifax—Troops in West India Withdrawn.

HALIFAX, Nov. 16.—Important orders were received here this morning by which the Leinster Regiment will remain in Halifax indefinitely. The regiment was under orders to leave Halifax for Ireland on the 25th inst., and were to be replaced by the Worcestershire Regiment now doing garrison duty in the West Indies.

The Worcestershire Regiment has been ordered to England at once, and no troops will be sent to replace them.

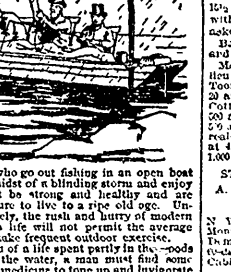
The officers of the Leinsters had made all arrangements for the sale of personal effects. Military authorities here state the proceedings are unusual and significant.

GREENWAY'S FATE.

Will Be Decided on December 7—Winnipeg Candidates.

(G. N. W. Despatch.)

WINNIPEG, Nov. 16.—At a Cabinet meeting at noon to-day the date of the elections was decided. Nominations will close Nov. 30, and polling will take place Dec. 7. Messrs Cameron, McMillan and McIntyre will run for Winnipeg in the Liberal interests.



Men who go out fishing in an open boat in the midst of a blinding storm and enjoy it, must be strong and healthy and are pretty sure to live to a ripe old age. Unfortunately, the rush and hurry of modern business life will not permit the average man to take frequent outdoor exercise.

In lieu of a life spent partly in the woods and on the water, a man must find some kind of medicine to tone up and invigorate him and incite the vital organs of his body to the faithful performance of their normal functions. Dr. Pierce's Golden Medical Discovery is the only thoroughly effective medicine for this purpose. Its principal action is upon the organs that feed the blood, the stomach, the large intestines and the liver. It facilitates the flow of the digestive juices in the stomach and the production of healthy chyle in large quantities in the large intestines. It invigorates the liver and purifies and enriches the blood. When the blood is rich and pure the old, inert tissues throughout the body are torn down and replaced by new and healthy flesh tissues and nerve fibres. If a man's blood is filled with the rich, pure elements of health, he can get along with a scanty amount of exercise. Disease germs can gain no foothold in his system.

"I had catarrh for several years and then the grip and also had a hemorrhage from the lungs," writes Mr. T. F. Brown, of Sarsfield, Wasaga Co., N.C. "I had the best medical attention, but it could bring only partial relief. I had severe hemorrhages. I took twenty-five or thirty bottles of medicines, but continued to have smells of bleeding. I commenced taking Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I used eight bottles and have been able to say that of labor for more than twelve months. I owe my life to Dr.
