CHICAGO WHEAT UP A CENT

September Delivery Rose to 74c in Yesterday's Sales.

Liverpool and Paris Quotations Were Also Higher—There Was Also Quite a Marked Revival in Corn Values—European Market News.

Wednesday Evening, July 12.

Liverpool wheat futures advanced ½d per cental to-day, while the July option declined ½d.

Paris wheat and flour advanced to-day. Antwerp holding steady.

Chicago wheat futures advanced about a clear cent a bushel all around to-day and closed near the top figures for the day.

Liverpool maize futures inclined higher to-day.

Chicago corn advanced ⅝c to ⅞c per bushel.

September wheat puts at Chicago to-day 73⅜c; calls 74½c.

Exports at New York to-day: Flour 6113 barrels and no sacks; wheat none.

Receipts of wheat at Minneapolis and Duluth to-day 413 cars, as against 44 cars the corresponding day of last year.

Stocks of wheat at Fort William and Port Arthur on July 8 were 1,845,583 bushels, as against 1,775,769 bushels on July 1 and 428,791 bushels a year ago.

The Orange Judd Farmer made condition of winter wheat on July 1, 70.0, or nearly two points lower than on June 1, and 20 points lower than on July 1 last year. The condition in July, 1899, is the lowest, with one exception, ever recorded, making full crop possibility under 275,000,000 bushels. It makes the condition of spring wheat on July 1, 89.7, against 95.9 on same date in 1898. The condition declined 2.2 points during June. Yield between 275,000,000 bushels as a minimum, and 300,000,000 bushels as a maximum.

Wheat has been sold in Chicago for May delivery at 78⅜c to 79c.

The barley and oats crops of the west promise well.

The Minneapolis Journal claims that the Department of Agriculture underestimated last year's spring wheat crop of the North-west by 50,000,000 bushels.

Regular wheat declined in Chicago, from June 1 to June 30, for July delivery, 5⅜c; for September delivery, 3⅜c.

Minneapolis reports considerable wheat taken out of store for Duluth.

The Commercial Bulletin, Duluth, estimates the flax seed crop at 22,000,000 bushels, the largest crop ever raised.

The St. Paul railroad crop report says that the weather has been very favorable. Wheat progressing well in every respect.

The delivery of wheat and flour at the nine primary western markets last week were 196,860 barrels flour, and 3,969,765 bushels of wheat, as compared with 98,657 barrels of flour and 709,220 bushels of wheat in the corresponding week of last year. It is considered that for the next few weeks until the new crop comes in, there will be a very marked decrease in deliveries, as compared with the past few weeks.

Oklahoma is reported to have secured the largest wheat crop in its history, estimated between 25 and 30 million bushels, against 14 million bushels in 1898.

European Market Notes.

The recent dulness in the English wheat markets, especially for spot wheat, was owing to enormous supplies of foreign wheat due to arrive shortly in the United Kingdom. The Corn Trade News, June 27, estimated that the quantity of wheat and flour due to arrive in British ports during the succeeding two weeks was equal to 1,157,000 quarters, as compared with 800,000 quarters' requirements for the fortnight. Fortunately a large part of the arrivals during that time was diverted from ports of call to the Continent. Owing to very unfavorable reports from Southeastern Europe, the market for barley has been considerably improved, Odessa barley selling at 18s to 18s 3d per 400 lbs., and some business done in American, weighing 48-49 lbs. at 17s to 17s 3d. These prices will look strange to Canadians in comparison with 17s for 480 lbs. American maize. In many seasons, American maize sells in England at same price, lb. for lb., with feeding barley. It is all a question of comparative abundance or deficiency of supply of the two kinds of grain.

Oats were steady in Liverpool at 15s to 15s 1½d for white Canadian.

Canadian peas were in small supply and fairly good demand at 28s 9d to 29s, c.i.f., for July shipment. The arrivals for the season up to June 24 were 475,200 quarters.

Hay—Demand fairly good. Long Canadian, ex-quay, sold readily at 60s per ton, and for some fine qualities even more money is said to have been paid.

The arrivals of foreign wheat and flour in the United Kingdom during the last week of June and the first week of July were equal to 9,491,000 bushels. The fortnight's consumption in Great Britain is estimated at 9,000,000 bushels, so that stocks increased by 491,000 bushels, and the further quantity delivered by farmers.

Argentina News.

Owing to a decline of about 3½ per cent. in the premium on gold, and a scarcity of ocean freight, the shipments of wheat during the last two weeks of June fell off considerably. During the month of June, the stocks at Argentine ports increased from 1,020,000 quarters to 1,058,000 quarters, showing that the receipts at these ports had been a little more than the exports. The number of vessels reported in The Corn Trade News' supplement, June 26, as loading or engaged to load at Argentine ports on that date, was 151, compared with 192 in the preceding week. A large portion of the tonnage was taken up for corn.

When the train stopped at the north end of the yard to back down to the station he fell off in some manner, and was instantly killed by the train passing over him. The coroner was on the ground in a few minutes and secured the names of witnesses. An inquest will be held to-night. The sad affair cast a gloom over the celebration. STOCK MARKETS OF A DAY

Some Recoveries in Values Upon Wall Street.

London Also Sent Improved Advices—Canadian Issues Dull With General Electrics Still Buoyant—Notes and Gossip of a Day.

Wednesday Evening, July 12.

Canadian stocks were quiet to-day, with General Electrics still strong.

* * *

Forget & Co.'s cables from London to-day quoted Grand Trunk first pref. at 82, second pref. at 54⅝, and third pref. at 22¾. Hudson Bay £23⅛, Anaconda at 10⅞.

Wall Street.

The stock market showed continued strength to-day, and buying by professional operators was on a large scale. An eager demand developed for Missouri Pacific, and affected nearly all the Gould southwestern in sympathy. Not only the stocks, but all bonds of this group of railroads were affected. Missouri Pacific held the leadership of the market throughout the day, and made a late advance to 48⅝, an extreme rise of 2 points. The motive of this buying was a rumor of plans for merging the various railroad properties in the southwest in which the Goulds are interested. Good buying set in early for the grangers, Pacifics and Atchison pfd., and after mid-day New York Central was suddenly pushed up an extreme 2⅜. Large buying of Pennsylvania at an advance of 1¼ seemed to be associated with the New York Central movement, but an attempt was made to connect the latter with Union Pacific and Northwestern by manipulating the price of those two stocks. All of Northwestern's gain was subsequently lost. The manner in which the buying demand progressed through the railroad list, together with the upward tendency in Sugar, prompted the professionals to attempt a movement in the industrial stocks. Leather pfd., National Steel, Tin Plate, Federal Steel and General Electric were bid up between 1 and 2 points, and New York Air Brake made an upward dash of 19 points. Sugar, Manhattan and Brooklyn Rapid Transit dropped sharply from top figures, and many of the gains in the industrials were practically wiped out. Prices of the railroads sagged considerably from the top, and the closing of the market was decidedly heavy, net gains being only partly retained. Money was easier to-day, and confidence is felt that the supply will become still more abundant at a very early date. Several large loans for the purpose of new industrial floatations are now released, and the banks are gaining money from the Sub-Treasury.

A sharp recovery in British consols and French rentes, late in the day, the fall in the price of gold in London, and the advance in sterling exchange rates in Paris and Berlin to-day indicate a relaxation of the money market pressure in London.

McIntyre & Wardwell say: Sentiment more pronounced in favor of market on belief that next Saturday's bank statement will show a materially good increase in surplus and money will be easier next week. On this idea sentiment favors purchases on weak spots during the balance of the week. Bull speculation on Gould stocks is predicted on belief of big deal under way to merge Texas Pacific and Wabash and St. Louis Southwestern and Missouri Pacific into one system. We look for a traders' market for the balance of the week. Call money will fluctuate between 4½ and 6 per cent. The weekly Government report is considered as favorable on both winter and spring wheat.

Missouri Pacific earnings for the first week of July increased $23,000.

Wabash earnings for the first week of July increased $48,146.

Southern Railway earnings for the first week of July increased $43,727.

Ontario & Western earnings for the first week in July were $75,408, an increase of $5652.

Louisville & Nashville earnings for the first week of July increased $68,370.

The London Markets.

New York, July 12.—The Commercial Advertiser's London financial cable says: The markets here were inactive to-day. They opened dull, but improved later, on a spurt of 11-16 in consols. The recent weakness in them is attributed to sales by discount brokers, who were unwilling to pay the stiff loan rates demanded by the bank. It is rumored that the proposal to extend post-office savings bank investments beyond consols has been abandoned. A more hopeful view of the Transvaal situation also prevailed. Money was harder. There is talk of an advance in the bank rate to-morrow, but I think such action improbable. Americans were buoyant, closing at the best. New York bought freely, and London is encouraged by the crop reports, St. Paul traffic report and the news that grain rates are to be advanced on Aug. 1.

Cotton Markets.

New York, July 12.—Cotton—Spot closed steady; middling uplands, 6 3-16c; midling gulf, 6 7-16c; sales, 216 bales.
