Others present were William Watson, Moncton, vice-president, and W. C. Crawford, St. John, secretary-treasurer. Reports of the various committees dealing with sanitation, heating, auditing, arbitration, legislation, apprenticeship and education were read at the morning session and the afternoon was devoted to long discussions of the papers. Most of it was technical. FURTHER EFFORT TO BE MADE ON BEHALF OF MARITIME GIRLS' HOME

At the last meeting of the Wallace Presbytery, Rev. V. M. Purdy tendered his resignation of the congregation of Parrsboro to take up work for the Maritime Home for Girls, at Truro. Last year Mr. Purdy visited the province of New Brunswick in the interest of this home and in a short time he expects o visit other parts of the province that have not heretofore been reached. During his stay in St. John, Mr. Purdy preached in several city pulpits and in each case was heard with a great deal of interest regarding the work he represents.

The Maritime Home for Girls has been established since last September, and in that time more than forty girls have been cared for. At the present time there are twenty-two girls under charge, and that is as many as the present capacity for the building will allow. During the summer it is the intention of the board to enlarge the premises so that a larger number may be accommodated. One of the judges of the Nova Scotia court declared there were probably between sixty and seventy girls in that province alone that should be committed to the home.

The staff at present in charge consists of the superintendent, Miss Day, a graduate of a training institute; the matron, Mrs. Lewis and two teachers. As there is a farm of one hundred acres in connection with the home the services of an experienced farmer are required and this branch of the work receives careful attention. The property is almost entirely within the limits of the town of Truro and has light and water privileges which add greatly to its value. The local members of the board include Principal Cumming of the Agricultural College; George Stewart, formerly mayor of the town; Principal Campbell, of the Truro Academy; and several other prominent citizens, who have given unsparingly of their time to make the home a success.

Faith's Supremacy.

(The Nautilus.)

I opened wide the portals of my heart,
Love's coming to forestall;
Then sat me down, a little way apart,
Content withal.

Hope, peeping through, beheld the speeding day,
And ventured through.
In vain I called, her footsteps to allay,
As on she flew.

Then turning back I saw within my heart
Fear crouching low.
"I always come," he said, "when Hope departs.
Law plans it so."

"Nay, if you come, I go," I cried and fled
Until I spied
Faith standing so serene and glad,
My steps to guide.

Gently she turned my feet and led me back
So calmly home.
And lo! there Love and Hope in waiting sat,
And Fear had gone.

—Anna L. Derschell.

Where the Four Leaf Clovers Grow.

I know a place where the sun is like gold,
And the cherry blossoms burst with snow,
And down underneath is the loveliest nook,
Where the four leaf clovers grow.

One leaf is for hope and one is for faith
And one is for love you know,
And God put another one in for luck,
If you search you will find where they grow.

But you must have hope and you must have faith,
You must love and be strong and so
If you work, if you wait, you will find the place,
Where the four leaf clovers grow.

—Ella Higginson.

of the school. The results in some cases were excellent and in most cases very fair.

"This year we were able to secure the services of Sergeant Dooe for four days in each week, and our cadet corps has, in consequence, greatly improved; the band, I believe, winning for itself and the school great distinction. I am glad to be able to report that next year Sergeant Dooe will live in Rothesay and devote all his time to us.

"We inaugurated this term the Boy Scouts in the school; beginning with three patrols, which increased to four. I had always had a high opinion of the Boy Scout movement, but I doubted whether we had room for it here, where our activities were already so numerous. It has, however, thoroughly justified its existence, and I believe it to be one of the best factors in the school life.

"In athletics we had, on the whole, a very successful year. Our football and hockey teams both did well, although neither of them succeeded in coming out at the top of their league. To our track and field team fell the chief honors of the year. They won the annual contest with King's College school, Windsor and, later, the interscholastic championship of New Brunswick at the contest held here on June 5.

"What we call the "Blue and White" series for boys who are not in either the first or second athletic teams, which we formally had for football alone, has now been extended to all the other chief branches of sport. Prof. E. Brydone-Jack, of the University of Manitoba, very kindly presented to us a trophy to be competed for annually in hockey by the Blues and White, while this year's fifth form gave one for track sports and also drew up a set of rules to govern the annual contests. Both these trophies this year fell to the Whites.

"The Alumnae Association of Kingsburst has offered us an annual prize for the junior athletics. The members of the association have also presented to the school a new flag and have told us that further gifts will be forthcoming in the way of books for the library. For these gifts we are truly grateful.

To all the members of the staff and to Miss Beard, the matron, I offer my sincere thanks for their able and loyal assistance. Arthur Purdon resigned his position at Christmas in order to join the 26th Battalion. We were very sorry to lose him but, on the other hand, we thoroughly respected his motive in resigning. His position was filled by H. Y. Haines of Emmanuel College, Cambridge, who came to us from Trinity College School, Port Hope. Rev. A. H. Greenwood came to us at the beginning of May to fill a temporary vacancy.

I wish to thank also the members of the fifth form for all they have done in promoting the various activities of the school and in maintaining a good spirit among the boys. Naturally most of the responsible positions, which are given to the boys fall to their lot, so that both as individuals and as a form, they have a good deal of influence. When this influence is used well, as it has been this year, it is a great help to the well-being of the school.

FIRST AND PARAMOUNT, ABSOLUTE SECURITY TO POLICYHOLDERS

Wives Sometimes Object To Life Assurance But— Widows Never Do

Many a man has failed to insure because of his wife's noble but misguided scruples. She didn't want even to think of her husband being taken from her. The thought of money forcing itself into such a tragedy filled her with horror.

Such a woman overlooks the awful plight of a family left destitute. It's a husband's duty to protect his family from want and suffering after his death. A wife who opposes her husband in performing this duty is unfair to him, to herself and to her little ones.

A few dollars each year invested in an Imperial Income Policy will secure the payment of a regular, monthly income to a man's family after he's gone. We have an interesting booklet which tells all about it, and will send a free copy to any man or woman who asks for it.

NEARLY FIFTY SAIL IN PORT

Pictou Advocate:—It reminds me of old days, said a Pictonian of eighty years, as he looked over the harbor the other evening and saw so many sailing vessels. The square riggers were at the government pier and adjacent wharves, and also in the stream, while around the coal wharves at The Landing and at Abercrombie the schooners clustered thick. There were close to fifty sail in the harbor.
