SUSPENSION OF AN OLD BANK.

New York, Aug. 11.—The Murray Hill Bank, one of the oldest State institutions in this city, closed today pending investigation of its affairs. The deposits amounts to about $1,250,000, and it is believed that they will be paid in full. One reason advanced for the suspension is the fact that the bank had to take considerable amount of real estate for loans.

Feed the Nerves

Upon pure, rich blood and you need not fear nervous prostration. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

The reliability of the alleged figures of the popular vote in the recent Dominion general election, printed in Conservative newspapers, is easily tested. The British Columbia returns, for example, give the Liberal vote 600 short of what it was, an error which applied to the Dominion, would make a difference of over 27,000.

In a letter written to Rev. F. Burgess, Stellarton, N. S., Premier Laurier says: "With regard to the fear of dismissal which is entertained by some of the railway employes, I firmly indorse your statement as you put it. Those who have been good and faithful employes have nothing to dread. I would not say as much of those who have been offensive partisans." That is a fair way to put it. The offensive partisan always assumes the risk of being sent about his business. He courts dismissal in the event of a change of Administration.

The Canadian Grocer says: "It is common talk that the late Government arranged with a wealthy Conservative to allow a senator to resign in his favor on condition that the latter would pay $30,000 of the senator's debts and contribute handsomely to the campaign funds. The retiring senator was to be provided with an easy position in the public service." The story should be ferreted to its source, and if true, the senator should be exposed. There has been too much of this corrupt bartering in the recent history of Canada.

Ottawa Today.

An Unfounded Rumor About Hon Robert Watson.

Hon. Sydney Fisher Gets at His Work Bright and Early.

Ottawa, Aug. 11.—Hon. Robert Watson, a member of the Manitoba Government, is here on a holiday trip. He denies the story set on foot by Conservative correspondents, to the effect that he has been asked to join the new Government. In an interview today he said: 'You may say that my trip east has nothing whatever to do with the portfolio of the Interior. I am not after it, and my business lies in an altogether different direction, being wholly with the Public Works Department. The school question, too, is not in it with me just now. There are no new phases looking up in that connection at present."

MR. TARTE.

Mr. Tarte leaves for Montreal today, and will speak tomorrow at the demonstration at St. Eustache for Mr. Ethier, the new member for Two Mountains.

AT IT EARLY.

If Hon. Mr. Tarte holds the palm for going to his office early, the Minister of Agriculture, Hon. M. Fisher, holds it for going to his farm early. Every morning before breakfast Mr. Fisher rides out to the Experimental Farm on horseback. He takes a great interest in the farm and will try to make it a greater practical benefit to the farmers of Canada. His predecessor in office never visited the farm.

APPOINTMENT.

Mr. S. F. Perry, ex-M.P., has been appointed acting fishing inspector for Prince Edward Island. The inspector resigned to run as a Conservative candidate.

KILLED IN A HARVET FIELD.

Cornwall, Ont., Aug. 11.—While helping Mr. Wm. Tennant with his harvest, Harry Graham, aged 55, who is a carpenter by occupation, fell off a load of grain, striking on his back. It was found that he could not move, the spinal column being fractured near the neck. He died in a short

Sol in Shadow.

Splendid View of the Sun's Eclipse Secured.

The Lords Finally Pass the Irish Land Bill.

Russia's Sovereigns to Visit the Queen at Balmoral.

WILL VISIT THE QUEEN.

London, Aug. 11.—The Czar and Czarina will visit Vienna, Berlin, Copenhagen, Paris, Darmstadt, and Balmoral, where they will be the guests of the Queen.

THE ECLIPSE OF THE SUN.

Bodoe, Norway, Aug. 10.—The weather was clear and fine, and the eclipse of the sun was well observed.

Yokohama, Aug. 10.—The sun's eclipse was clearly visible here and at Tokio. Northward, however, in which direction the astronomers proceded, the sky was cloudy and observations were impossible.

TO PROTECT THE SEALS.

St. Petersburg, Aug. 11.—Several special conferences between Lobanoff-Rostovsky, the Russian Minister for Foreign Affairs, and the other Ministers, have resulted in a decision to continue the Bering sealing agreements of 1893 and 1894, but to make overtures to the United States, Great Britain and Japan, with the view to establish better protection for the seals.

NEW GOVERNMENT FOR CRETE.

London, Aug. 11.—A dispatch from Athens says that the Cretan revolutionary camp at Campos have declared the reform committee dissolved, and has established a provisional revolutionary Government, at the head of which as President is Gerokostaros Voloudakis, who headed the Cretan embassy to the Berlin Congress. He is 92 years old, but is hale and hearty.

THE CANADIAN ARTILLERYMEN.

London, Aug. 10.—The Canadian artillerymen were entertained at lunch at Woolwich today, as the guests of the Third Kent Artillery Volunteers. Entertainments have been provided for the Canadians throughout the balance of the week. They will be banqueted tonight by the National Artillery Association, at the Holborn Restaurant, upon which occasion 250 persons will be present, including the Earl of Stradbroke, lieutenant-colonel of the First Volunteer Brigade, eastern division, Royal Artillery; Sir Donald Smith; the Marquis of Lorne; Col. Middleton, and Gen. Herbert.

THIS LOOKS BAD FOR BRYAN.

London, Aug. 11.—Every dispatch which reaches here bearing on the present political situation in the United States has the effect of further depreciating American securities. Today the downward movement of the Stock Exchange was most marked. A prominent American banker said to me this afternoon: "Unless I misread all signs, I fear that even before the election we shall see something closely approaching a panic on Wall street. Vigorous action of the sound money Democrats alone can save the situation as far as foreign holders of American securities are concerned." Even gloomier views than this prevail.

RACING IN ENGLAND.

London, Aug. 11.—This was the second day of the Birmingham August meeting, and Mr. Pierre Lorillard succeeded in landing another first, his horse Draco winning the Doddington stakes from a field of seven starters. The Doddington stakes are of 150 sovereigns, for 2-year-olds, the second to receive 10 sovereigns, out of the plate, distance about 5 furlongs, straight course. Mr. Pierre Lorillard's b. g. Draco 1, Mr. Weimar's Dovey 2, Mr. Pedlar's Scotland Yard 3.

One of the events of the first day's races in the Kempton Park second summer meeting was the Feltham middle-weight selling handicap plate of 150 sovereigns, for 3-year-olds and upwards, the winner to be sold at auction for 100 sovereigns, distance seven furlongs. Bohemond ran first, with Lycus second and Demetrius third. Seven horses ran.

THE IRISH LAND BILL.

London, Aug. 11.—There was an atmosphere of compromise in the House of Lords yesterday when the Irish Land Bill came up on its third reading. The Marquis of Lansdowne submitted three amendments, which were somewhat in favor of the landlords, and these were accepted by the House. About a dozen amendments were offered by the landlords, but after brief debates they were withdrawn.

Speaking on the motion that the bill be passed on its third reading, Earl Spencer (Liberal) contended that if the measure was passed as it had been altered, it would be a serious damage to Ireland, and would also damage the strength and independence of the House of Lords.

The bill then passed its third reading.

Lord Salisbury's silence regarding the measure continues to be much commented upon.

SOL IN SHADOW.

London, Aug. 11.—Miss Mary Proctor, daughter of the late Prof. Richard A. Proctor, the well known astronomer, telegraphed from Tronhjem, Norway, that a fine view was had of the total eclipse of the sun from the deck of the steamship Ohio, which was then off the Island of Stot, Norway. The sky was absolutely cloudless, and the atmosphere clear, affording a perfect view of the eclipse in all its phases. The duration of the eclipse was 1 minute and 35 seconds. Miss Proctor, who is well known in astronomical circles, is a passenger on the steamer Ohio, which sailed from New York, June 27, on a cruise to Russia, Norway, and the "Land of the Midnight Sun." The trip will occupy about two months.

At Vadao, Norway, the most impressive effect during the totality of the eclipse was the enormously sudden darkening of the landscape, which became a deep inky blue color. There was a lemon colored band of sky all round the horizon. Brief glimpses of the sun were had through rifts in the clouds, when it was half eclipsed, a few minutes before the period of totality, and again when the shadow was passing off, when the sun appeared, shaped like a crescent. Numerous photographs were taken, but they are of little value.

THE SUN'S ECLIPSE.

An Impressive Scene, but No New Scientific Data Gathered.

London, Aug. 11.—The Times has a dispatch from Vadsoe, on Varanger Fjord, near which point observations were taken by Mr. Downing, superintendent of the British Nautical Almanac, and a number of other English astronomers, including Sir Robert Ball, of Cambridge. This correspondent describes the impressive scene of the moon's shadow sweeping over the earth at the moment of the totality of the eclipse.

"The view from Mr. Commons' observatory," he says, "extends for 30 miles up Varanger Fjord to the mountains opposite. The deep purple shadow plunged the mountains in temporary obscurity. As it advanced across the fjord, the shadow enveloped the training squadron, the details of the rigging disappearing from view, and the ships' lights gleamed forth brilliantly. Still shadow pressed on with majestic speed, a mile in every two seconds. It moved as swiftly as a cannon ball, until it reached the observers at Vadsoe, announcing the totality of the eclipse.

"Complete darkness lasted for 100 seconds. The unwonted spectacle hushed everyone to silence. A few startled birds hurried past the camp.

"Although all the vistors felt that the magnificnent phenomena were worthy of remembrance, scientifically the results of all the labors were hardly anything. The light around was not greater than that of a full moon, but in the distance the mountain tops were shining brilliantly. The manner in which the darkness lifted was almost startling in its suddenness, but the sun was still hidden in clouds."

Yokohama, Aug. 11.—Word has been received that the British, American and Japanese expeditions for the purpose of observing the eclipse at Akkshi, on the Island of Yeso, the most northerly island of the Japanese group, proved a failure owing to the dense fog prevailing at that place, and that no observations were taken.

AILSA CRAIG.

Advertiser Agent, C. Walker.

Ailsa Craig, Aug. 10.—On Saturday evening an open air concert was held on Mr. Spackman's grounds, Grand Bend. The concert consisted of readings, songs and recitations. The first item on the programme was an address of welcome by the chairman; then a song by the Exeter Main Street choir, entitled "Welcome to All"; recitation by Miss Spackman; reading by Miss Holmes, of Caledonia; solo by Miss Ira Hodgins, of Clandeboye; Mr. Flock, of London, gave a song of his own composition entitled "Plums"; Miss Hutchinson, of Chicago, recitation; Miss Maude Robinson, of Parkhill, song; Miss Munroe, of London, solo; Mr. W. J. Robinson, song. Mr. Wilson, of Boston, appeared in costume, and sang a comic song, for which he was heartily encored. He responded with another, and the evening's enjoyment came to a close by the audience singing "God Save the Queen."

Miss Kate Nichol, of Dorchester, and Master Willie Wardell, of London, are camping at the Grand Bend this week with Mr. D. M. Douglas. Neil R. Gray, Georgie Reid, Miss Mary McBride and Miss Agnes Livingston, of Ailsa Craig.

Rev. J. Elliott, of St. Andrew's Church, Nairn, returned last week from an extended visit to Scotland. Mr. Elliott experienced very rough weather on his homeward passage.

Mr. and Mrs. D. Gray returned home last evening after spending a week of enjoyment at Grand Bend.

A PLAGUE OF MOSQUITOS.

Victoria, B. C., Aug. 11.—Mosquitos swarming have become so bad in Chilliwhack Valley, one of the most fertile farming districts in this Province, as to have developed into a veritable plague. Upwards of twenty families have been driven from their homes in Sardis settlement on the Frazer River, and haying has been entirely suspended through the valley, as the farmers find it impossible to work among the dense clouds of insects.

LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice, I procured the medicine and less than half a bottle cured me; I certainly believed it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."
