POWER OF GERMANY BEGINS TO DECLINE SAYS ITALY'S PRESS

Note of Optimism as Third Year of Great War Opens.

[Canadian Press.[

London, Aug. 4.—The Morning Post's Rome correspondent says:

"There is a similarity almost amounting to monotony in the articles of all the Italian newspapers dealing with the second anniversary of the war. All accentuate the outstanding fact that now, because the Allies have completed their preparedness and are especially coordinated in action on a common front, German power is visibly beginning to decline. I am tempted to compare the positions two years ago and now.

Immense Changes.

"There have been immense changes within the monarchy since July, 1914 and the country is enthusiastic. The people thought that Serbia, and probably Russia, would be the only two nations whom the united might and military preparedness of the Central Powers would have to fight. They felt that France did not count and that England certainly never would enter the war, for England would reap the benefit at the end without sacrificing a single man of her army or navy. There was no doubt that Germany would finish the war in a few months.

Germany Miscalculated.

"This was the general opinion impressed on everyone by Germany's systematic methods. Within three months disenchantment followed, and ever since then Italy has borne the burden and curse resulting from over-confidence. Germany's successes in 1915 made it possible for the war party to continue the struggle and obtain money, otherwise the war would have ended.

"The greatest miscalculation was that England would not enter this war. This brought disaster, and will finally settle the issue. The German atrocities in Belgium brought disillusionment. The Hungarians are always chivalrous in war or peace, and never has a nation suffered more from war."

THE LOCAL MARKET

Nearly thirty loads of hay were offered on the local market this morning. The price remained steady at from $8 to $10 a ton, although the demand was not brisk. A few oats were brought in, and fetched a higher price than usual, selling at $1.83 and $1.87.

Raspberries were scarcer and brought 14c and 15c. Thimbleberries were sold at 12½c wholesale, and 14c retail. A few apples were offered at prices ranging from 75c to $1 a bushel.

Vegetable prices remained firm.

A few changes were noted in dairy products. Eggs dropped a little, selling at 30c a dozen retail, and 27c for basket lots. Meats were higher, veal selling at $15 and $16 a cwt. Beef sold for $11 to $13.50. Hides and skins remained firm.

A large market is expected tomorrow, as Monday will be a holiday for the city, and there will be no market then.

GRAIN.

Winnipeg, Aug. 3.—Wheat gained ½c today in October, ¼c in December, and ½c in May. Oats were ¼c up all around. Flax was 1⅞c down for October, and 1c lower for December. Barley gained 4½c.

It was a wildly-excited market, with quick fluctuations. The trade was of enormous size, with profit-taking occupying all classes of traders. Later in the day weakness in the American markets, helped by selling pressure, sent the local wheat prices down with a bump.

The cash demand was fair for both wheat and oats. Premiums were much the same as yesterday. Barley was very strong. October went up 4½c without a trade, while cash barley was 1c to 1½c higher.

Cash grain: Wheat—No. 1 northern, $1.34; No. 2 northern, $1.31¾; No. 3 northern, $1.27¼; No. 4, $1.22½; No. 5, $1.17½; No. 6, 1.08¼; feed, $1.02½.

Oats—No. 2 Canadian western, 45⅝c; No. 3 Canadian western, 44¼c; extra No. 1 feed, 44⅝c; No. 1 feed, 44¼c; No. 2 feed, 43¾c.

Barley—No. 3, 76½c; No. 4, 72½c; rejected, 64c; feed, 64c.

Flax—No. 1 N. W. C., $1.88½; No. 2 Canadian western, $1.85.

Chicago, Aug. 4.—Disturbing fresh reports concerning crop conditions in Saskatchewan had a bullish effect today on the wheat market. A leading expert telegraphed from Regina, Sask., that northward from Estevan, Sask., the fields were all affected with rust, though not so badly as to the east. Higher quotations from Liverpool tended also to strengthen the buying demand and to make offerings scarce.

Opening prices, which ranged from ⅞@2⅛c up, with September at $1 30¾@1 32, and December at $1 35⅝@1 36, were followed by a moderate reaction, but then by a greater advance.

WALL STREET.

New York, Aug. 4—Wall Street, 10:30 a.m.—No definite tendencies were manifested at the opening of today's market, but secondary quotations were mainly in the direction of improvement. Shipping issues led the advance, with further recoveries in motors and accessories. Betterment was also shown by some of the metals and war shares, and fertilizers were again in demand. American Agricultural Chemical featuring that group with a gain of 2 points. Rails were featureless, aside from a fractional rise in New York Central, and 2 points for Soo. United States Steel was steady on moderate offerings.

Noon.—Much of the early firmness was due to the strength of Union Pacific and Reading, both gaining substantial fractions, but recurrent weakness was shown by sugars, which were persistently pressed for sale. Motor issues also yielded, but showed renewed strength later, recovering under further advance in shipping shares. Dealings in general were more narrow than yesterday, the approach of the week-end being indicated in the small attendance of traders on the exchange, and commission houses reported a lack of public interest at out-of-town centres. Bonds were irregular.

Cotton Goes Still Higher in Broad and Active Market

Continuance of Unfavorable Crop Weather Has Bullish Effect.

[Reported by Thomson & McKinnon.]

New York, Aug. 3.

Prices advanced 35 to 40 points on strong Liverpool advices. The market over there advanced 45 to 50 American points, further heavy rains east of the Mississippi and dry weather west of the river together with damage reports from that section. Hester of New Orleans, moreover, says world's consumption for season just ended was 14,800,000, whereas, many have been figuring it at 13,500,000 to 14,000,000. Liverpool bought 15,000 October, December, March and May, and Wall Street and the south were again good buyers partly to cover. A consumption of 14,500,000 would be the largest ever reported. Conservative interests favor buying on breaks.

NO MENACE OF FAMINE, SAYS GERMAN STATEMENT

Assert That the Food Situation In the Fatherland Is Satisfactory.

[Canadian Press.]

Berlin, Via London, Aug. 4.—The food situation in Germany is satisfactory, according to an official statement dealing with the economic status of the nation.

The statement compares the harvests of 1914 and 1915, and says: "The splendid organization of the distribution of bread and corn, as well as the system of economical consumption and the storing of supplies enabled us to overcome the unfavorably economic year of 1915-16, without serious derangement of the life of our people. The present economic year promises to be even more satisfactory."

After denying reports of threatened famine or of restrictions which would endanger health, the statement concludes: "Our meat supply is ample. An arrangement made with breeders guarantees a plentiful supply of pork. The fat ration of 90 grammes a week per head, which is now allotted, is regarded as sufficient."

WINDSOR HEALTH BOARD LIFTS THE QUARANTINE

Will Not Keep Breadwinners Housed Where Infantile Paralysis EExiEsts.

[Special to The Advertiser.]

WINDSOR, Aug. 3.—Ice cream peddlers will be warned by the Windsor Board of Health to clean up their wagons and stock or they will be ordered off the streets. The question of permitting vendors of ice cream on the streets was discussed at the meeting of health officials, and Dr. McCullough, chief medical health officer of Ontario, Dr. McCullough advised that the peddlers should not be allowed on the street unless their equipment and wares were sanitary to the satisfaction of the local health department.

These steps are taken as a prevention of the spread of infantile paralysis. The quarantine of breadwinners in homes where the disease is known was rescinded. Dr. Cruickshank was authorized to employ another sanitary inspector to assist W. N. Wheeler.

NEW W. NISSOURI TEACHERS.

THORNDALE, Aug. 3.—Lorne Guest has been engaged as teacher of Ebenezer school on concession 1, West Nissouri. Mr. Guest is a graduate of the Thorndale high school. Miss M. Bryan, Miss H. Vining, and Miss G. Duffin who have been engaged as teachers of schools of West Nissouri, are also graduates of Thorndale high school. The high school will reopen on September 5.

The Builders Bible Class of Wyton met Tuesday evening at the home of Miss Lillie Quait. The evening was spent in music and games.

WINDSOR BUSINESSMEN KICK AT PHONE SERVICE

WINDSOR, Aug. 3.—The Windsor Board of Trade is demanding improvement in the telephone service, and unless satisfaction can be given by the local manager of the Bell Telephone Company, the board threatens to take the matter up with the head officials.

Complaints have been made in writing to the local manager, F. W. Dewar. The Walkerville, Tecumseh and Amherstburg boards of trade will join with the Windsor organization in its demands.

According to Mr. Dewar, scarcity of operators is the reason the service has become unsatisfactory. Members of the Windsor board suggest that higher wages be paid girls, which, it is believed, would solve the problem of getting help.

PICNIC AT TILLSONBURG.

TILLSONBURG, Aug. 3.—The executive committee of the Condensed Milk Company Association met last evening and completed arrangements for the annual picnic, which will take place this year on August 16 on the grounds of the condenser plant. Besides the employees of the condenser and their friends the dairymen delivering milk at the factory are invited to attend with their families.

Which of these men uses the AutoStrop Safety Razor?

Take a look along the line and pick him out.
Judging from appearances they all use the AutoStrop.
It's smooth-shaving comfort brings a smile to every man's face.

In Camp, on Transport, in the Trenches a man is far from the corner store, and he needs a dependable razor, one which sharpens its own blades and doesn't go dead on his hands. The AutoStrop is more than a razor, more than a safety device. It strops, it shaves, and is cleaned without taking anything apart, without even removing the blade. And like a perfectly stropped ordinary razor, the blade improves with use.

WOULD YOU GO TO THE FRONT with a rifle which would play out after firing ten shots, or a pipe which would be no good after filling it a few times? Then what about your razor? Will you be forced to grow a beard because it hurts to shave, or will you take an AutoStrop with you and be perfectly independent of new blades, (because you can strop them) and thus be equipped for the entire campaign.
