CHOLERA, SMALLPOX, TYPHOID

MEASURES TO PREVENT SPREAD OF THESE DISEASES.

The Mount Dennis Diphtheria Outbreak Attributed to the Presence of a Hog Breeding Establishment—People Taking More Interest in the Health of Communities—Typhoid in the Lumber Camps At the Sault.

The quarterly meeting of the Provincial Board of Health was opened at Dr. Bryce's office in the Parliament buildings yesterday, with Dr. Cassidy in the chair. The other members present were: Drs. Covernton, Macdonald, Kitchen, Rae, Vaux and Bryce, secretary.

A report from the grand jury at Sault Ste. Marie in regard to typhoid fever in the unorganized districts and lumber camps near that place was also considered.

The Mt. Dennis Diphtheria Outbreak.

The Board of Health at Eglinton wrote regarding the recent outbreak of diphtheria at Mount Dennis. The report showed that a large number of cases of this disease had been discovered in that section and several had proven fatal. It is thought that the disease was, in a large measure, caused by the hog-breeding establishment of Mr. Joseph Yetman, just east of the Weston-road. Mr. Yetman will be compelled to remove his establishment to a safe distance from the settlement and to provide and keep in good order suitable quarters for his hogs.

Realizing They Are Their Brothers' Keepers.

President Cassidy read a short address in which he pointed out that the general public has lately taken much more interest in the state of the health of entire communities than they formerly did, and show themselves much more willing to assist in the prevention of disease by attending to the cleanliness of their houses and premises and better care of their persons. He read a short treatise congratulating the board on the good work done by the health boards throughout the province. Dr. Cassidy gave it as his opinion that it would be wise to prepare for an epidemic of cholera next summer, as, although there are at present no indications of that disease, still, considering its near approach last year, it would be safer to be prepared for it.

Precautions Against Smallpox.

An informal discussion on smallpox and the quarantine system followed, and Dr. Rae moved, seconded by Dr. Kitchen, that on account of the prevalence of smallpox in Europe, and in view of the fact that a number of ships arrived in quarantine during the past season with the disease on board, the board wishes to recommend to the authorities the necessity of inaugurating a system of vaccination in all cases at the ports of departure.

EVENTS AT THE JUNCTION.

The Attempt to Unseat Councillor Boone —Contracts Awarded.

The principal topic of discussion at the Junction this week is the notice of the unwarranted action brought against Councillor Boone to unseat him. Both the councillor's friends, and many of those who did not support him at the late election, are loud in condemnation of the action taken at the last possible moment, and it is said there is a question yet whether the notice has been served in time. Councillor Boone says he will fight the action.

At the Board of Health meeting the contract for the removal of night soil was awarded to Simeon Wynes at a lump sum of $2275 for the whole work for 16 months.

The tender of Michael Milligan for the scavenger work for 16 months commencing March 20, amounting to $485, was accepted.

The anniversary services of the Davenport Methodist Church will be held next Sunday, 18th, Rev. Dr. Blackstock, Toronto, morning and evening; at 3 o'clock, by Rev. Howson; tea meeting on Tuesday evening, 20th inst.

THE FRUIT TRADE.

Meeting of Exporters to Adopt More Adequate Measures.

The apple exporters and buyers have realized for some time past that the present system of conducting trade is faulty in the extreme, and it was for the purpose of putting the business on a better basis that these gentlemen met in room B in the Board of Trade building yesterday: William Everist, Toronto; J. C. Smith, Burlington; H. W. Dawson, Toronto; W. R. Marshall, Stratford; R. C. Sparling, Wingham; L. G. Drew, Oshawa; W. S. Holmes, Lucknow; G. Watts, Tredford; Joseph Shuttleworth, Toronto; P. Murdock, Bowmanville; A. E. Henry, Taunton; F. Cook and D. Conlin, Clinton; W. Millman, Toronto.

An organization was perfected to be called the Canadian Fruit Buyers' and Exporters' Association.

To-morrow the meeting will elect officers and deal with the standards of variety and quality, the proper grading of fruit and handling by growers, and the supplying of barrels by farmers.

Mr. Joab Scales of Toronto writes: "A short time ago I was suffering from Kidney Complaint and Dyspepsia, sour stomach and lame back; in fact I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude."

Suburban Notes.

A concert will be given in Danforth Hall, Todmorden, under the auspices of Chester Lodge No. 188, I.O.G.T., on Friday evening, Feb. 16. A good program has been provided.

The annual concert of Hope Methodist Church, East Toronto, will be held on Monday evening, Feb. 26, when a splendid program will be presented. The Beethoven Quartet of Parkdale, composed of Messrs. G. W. Southcott, T. Easton, J. W. Isaacs and J. Shannon, will assist.

Mr. H. W. Love, druggist, corner of Broadview and Danforth-avenues, has received a postage stamp license, which will be a great convenience to the residents. A branch postoffice is earnestly desired.

It is only necessary to read the testimonials to be convinced that Holloway's Corn Cure is unequalled for the removal of corns, warts, etc. It is a complete extinguisher.

FINANCE AND TRADE.

A much better feeling prevailed in speculative wheat circles yesterday. This was owing to an advance of a cent to a cent and a quarter in Chicago prices and an improved demand on the part of British buyers. It is said that nearly all the houses at New York having foreign connections had orders for some wheat. Several local gentlemen who have not touched wheat for a number of years bought yesterday and the day before.

***

The exports of wheat from Ontario to Britain during January show a large increase over the corresponding month of last year. There was also a considerable increase in the shipments of cheese, bacon, fish and wood. On the other hand, the imports into Canada from Britain show a falling off of 10 per cent.

***

The apple exporters of Ontario met yesterday and organized an association. The fixing of standards was the chief subject of discussion. There is a Government standard now, but it is too high, and the exporters claim that a workable schedule can only be arranged by men who understand the conditions of the business and the requirements of the foreign markets.

***

The gratuity trustees of the Board of Trade, who had advertised money to lend, have received a number of applications, and yesterday these applications were considered.

***

The Railway Committee of the Board of Trade will meet on Friday morning, and the Legislative Committee in the afternoon.

Arrested at Brampton.

Joseph Swain was before Magistrate Wingfield yesterday afternoon charged with breaking into the house of Mr. Alexander, East Toronto Village, on the night of Jan. 30 and stealing therefrom a quantity of clothing. He was arrested yesterday morning in Brampton by Constable Burns. The Squire remanded the case for a week.

Tips From Wall-Street.

A strong pool is reported in Sugar.

The Grangers continue weak and there was some selling of New England, which had a depressing effect on the stock.

Chicago Gas was sold on the belief that the Watson ordinance will pass to-night.

Ryan & Co.'s gossip: It is reported that Sugar will remain on free list. Flower & Wormser bought Chicago Gas. Foreign houses have orders to buy wheat. The loan crowd indicates increased short interest in stocks. Traders think that Distillers will be taken in hand shortly. The committee appointed to reorganize New England talk of $15 assessment. Boston houses offer next dividend on B.Q. for 1¼ per cent. New York houses bidding 1½ per cent for next dividend on St. Paul. Earnings of C.C.C. for first week of February decreased $18,611.

Schwartz, Dupee & Co. wired Dixon: Uniformly firm cables helped to-day towards a reaction in wheat; prices moved up a little over a cent. Liverpool cables were reported up on cold weather. Small Baltic shipments, 2,300,000 bushels; fair clearances, 450,000 bushels, and lighter Northwestern receipts were helps here. The advancing tendency was checked by the Bradstreet's statement, which, while it showed a decrease on this side of 407,000 bushels, showed an increase in the world's visible of 3,400,000 bushels. The seaboard led in the trading, doing the buying early and the bulk of selling on the advance. New York reported no export business done on the advance. St. Louis reported a little business done there. Corn was steady, helped by firm cables, by good local buying and by the prospect of lighter receipts. To-day's cars were 561; the estimate for Thursday 320. May opened at 36⅞c, sold between 36⅝c and 37¼c and closed at 37¼c. Bradstreet's made an increase in the available supply of 1,200,000 bushels, cash. Oats were decidedly strong at an advance of ¼c to ½c. This, in sympathy with wheat and corn, made a firm market of it. Receipts were only 116 cars; the estimate for Thursday only 90. Bradstreet's reported a decrease in the available supply of 260,000 bushels. Provisions opened weak, but rallied on buying by several packers and considerable buying of pork by the outside trade. Sympathy, with stronger grain markets, helped the up turn, but part of the advance was lost towards the close under realizing sales by local traders. There was no new feature, except that the bear contingent was disposed to cover.

F. J. Lewis & Co. received the following despatch from Kennett, Hopkins & Co.:

CHICAGO, Feb. 14.—Wheat—The rally to-day was but a natural reaction after a week of almost continuous decline. It has cleared the speculative atmosphere and puts the market in a more favorable condition. Bradstreet's report, showing an increase in the world's visible of 3,407,000 bushels, is much more bearish than expected and will be likely to have a disheartening effect on holders. A weaker market to-morrow may result, but on any substantial decline purchases for quick returns ought to be profitable. Some late reports from the country indicate larger holdings by farmers than had been thought possible. Seaboard advices are regarded with some suspicion, as the chief long interest is now held in the east, and bullish news from that quarter is to be expected.

Corn and oats stronger and well supported. The cash demand for corn is very good, but if the liberal receipts keep up it will be difficult to maintain any material advance.

Provisions stronger, notwithstanding the lower hog market.

Business Embarrassments.

At a meeting of the creditors yesterday of J. E. Bryant & Co., publishers and printers, Bay-street, it was decided that the firm should assign, and the estate was put in the hands of Mr. E. R. C. Clarkson. The company obtained a charter in Feb., 1889, with a capital stock of $50,000 in 1000 shares at $50 each, and consisted of Messrs. Embree, Bryant, Brown, H. B. Brough and C. Fraser. They published professional periodicals, subscription works and printed a number of weekly and monthly journals. Last March they negotiated with Brough & Caswell for the purchase of the latter's printing plant, which was valued at about $20,000. On Oct. 4, 1893, they gave a chattel mortgage to Buntin, Reid & Co. for $8000. The business will be carried on under the direction of the assignee until further action is taken by the creditors. No statement as yet has been made as to the liabilities.

R. S. Scott, miller, Highgate, has assigned to H. Hollingshead.

The first and final dividend of the estate of S. W. Chivrell will be paid by Assignee Boustead soon after June 9, when last note matures.

Cotton Markets.

At Liverpool cotton is quiet at 4¼d for American middlings.

At New York the market for futures was irregular; March closed at 7.68, April at 7.75, May at 7.81, June at 7.89, July at 7.92 and August at 7.96.
