MADRAS SCHOOL AFFAIRS.—Agreeably to public notice, a semi-annual examination of the Madras School for Boys was held on Tuesday morning last, before the Right Reverend the Bishop of Fredericton, the Honorable the Chief Justice, His Worship the Mayor, the Reverend the Rector and the Church Wardens, Judge Parker, Alexander Boyle, Esq. M. D., J. W. Boyd, Esq., and a large number of the Clergy and Gentry of the city and its vicinity, which afforded much satisfaction to all present. The examination of the Girl's School was unavoidably postponed, as, in accordance with the Charter of the Governor and Trustees of the Madras School in New Brunswick, it was necessary that upon that day their Annual Court should be held. Accordingly at one o'clock, P. M., His Lordship, accompanied by the Chief Justice, proceeded to the City Hall, where they were received by a number of the other Trustees, and the oath of a member, as required by the Charter, having been duly administered to the Bishop, his Lordship took his seat, in the absence of the Lieutenant Governor, as President of the Court.—*Chronicle.*

Melancholy and Fatal Accident.—On Thursday morning last, at Mr. M'Gregor's Mills, (Straight Shore,) a young man named Alexander Johnston, who was Chief Engineer, was killed by being caught in the Machinery. He was observed by the Firemen but a moment before, stooping to go under a shaft, and hearing a shriek, he ran to see see who was hurt, when he discovered Mr. Johnston lying under the shaft, horribly mangled, having lost both legs and one arm, and the body being completely stripped of clothes. The Machinery was instantly stopped, but all assistance was in vain. Thus perished a young man of unblemished character, highly respected by a numerous circle of friends and relations, and deeply regretted by all who knew him.—*Newbrunswicker.*

NOVELTY.—A very handsome and commodious Iron House arrived in our harbour during the week, and will shortly be erected near Little River, in the vicinity of this City. It is the property of Mrs. Brown, formerly of Glasgow, and has every convenience and comfort attached to it. It is the first building of the kind ever imported into this Province.—*Chronicle.*

DEPUTATIONS FROM THE CHURCH OF SCOTLAND.—On Tuesday last, the Rev. Dr. A. L. Simpson of Kirknewton, the Rev. Dr. John McLeod of Morven, and the Rev. Norman McLeod of Dalkeith, arrived in this city, as passengers in the Royal Mail Steam Ship Acadia.

These three distinguished clergymen have been appointed, at the late meeting of the General Assembly of the Church of Scotland, in compliance with the earnest solicitations of the Colonial Church Courts and congregations, a deputation to the British North American Provinces, and have been authorised and directed to assure the colonists of the lively interest which the parent Church continues to feel for their spiritual welfare; to dispense among them, as often as circumstances will permit, the ordinances of religion; to ascertain the full extent of the present lamentable spiritual destitution in the Presbyterian districts, and devise the best means of supplying the adhering population with the means of grace. They come to these provinces highly recommended not only by their own eminent talents and established reputation, but by the sanction and authority of the Parent Church, and we entertain no doubt that they will meet, in all the districts which they may visit, with a cordial and affectionate reception.

The members of the Deputation will officiate in St. Andrew's and St. Matthew's Churches, at the usual hours on the ensuing Lord's day, and after spending a short time in this city and neighbourhood, they intend to prosecute the objects of their mission and carry on their labours through out the Provinces, visiting in succession the Congregations in the Eastern parts of this Province, in Prince Edward Island, in Miramichi, Fredericton, and St. John, New Brunswick, and then proceeding onwards to Canada.—*Halifax Guardian.*

FATAL ACCIDENTS.—One day last week, Mr. Matthew Little, of the Little Settlement, on the Maryland road, while employed in getting hemlock bark, found it necessary to disengage from the stump a tree which had been broken down by the wind; immediately on cutting away the butt, the tree canted over and fell on Mr. Little's back, and dislocated the spine; he survived the accident only a very few minutes.

On Monday last, while eight men in the employment of Mr. Robert Kerr, were proceeding down the River St. John in a canoe, they were upset in the Meductic Falls, and melancholy to say, four of their number perished. The names of the sufferers are, John Keefe, from Ireland, last from Miramichi; Thomas McGovern, belonging on the Nerepis Road; Alexander Campbell, from Prince E. Island; and Angus Fraser, from Nova Scotia. Our information says that none of the bodies had been found yesterday morning.—*Fred. Head Qrs. July 2.*

OREGON.—The Washington correspondent of the New York Journal of Commerce mentions a rumor that the Oregon negotiation had been brought to a close, by an offer by our Government of the line of the 49th degree of latitude and its acceptance by the British Minister. The writer however had not succeeded in verifying the rumor by tracing it to any positive authority.—*Boston Daily Adv.*

Sir Henry Pottinger on China.—At a dinner of the merchant tailors of London, on Wednesday, Sir H. Pottinger said he had many friends in China, both official and otherwise, from whom he rejoiced to say he had received assurances that everything was going on as well as could possibly be expected in that country. (Cheers.) The trade was flourishing, and the Emperor himself had admitted the free circulation of books on Christianity. (Cheers.) They taught the people virtue, and therefore the Emperor said they should not be prohibited, as heretofore. (Cheers.) This was a very important fact. (Cheers.) He had also lately received a very extraordinary paper—an edict, signed by the Governor of Shanghai, calling on the people to cultivate the mulberry tree, and pointed out the advantages of free trade. (Cheers.)

The Free Church of Scotland.—In the short space of two years, 530 churches have been erected, at an expense of £335,000, of which £285,000 is already paid. There are 70 other churches in progress, which will be completed in the present year; and it is assumed that 140, in addition to these, will ultimately be wanted, raising the whole number of congregations in connexion with the church, to 710.

According to official returns, there are at present 28,000 English residents at Paris; and in other parts of France 73,000. Admitting that each person spends, on an average, 5f. per day, the amount will be 124,228,750f. per annum, or £4,969,150 British money.

Her Majesty's sloop-of-war, Wasp, took a slaver recently, which was sent to Sierra Leone to be condemned. This prize fell in with and took another slaver, and eight men and an officer were put on board. The crew of the slaver rose in the night and murdered them all! The murderous crew are in custody, and will, it is said, be sent to England for trial.

Passengers in the ship *Themis*, which sailed on the 26th ult. for Liverpool—The Hon. Charles Simonds and Son; Lieut. Dryden, R. N.; and Messrs. J. Horsfall and Charles Gardner, of this City.

In the Queen Pomare, for Glasgow—Mr. Saml. Parks.

In the Caledonia, from Halifax for Liverpool, 31 inst.—Mr. William Doherty, Jr. of St. John. From Boston, 6d.

☞ The Mail for England to meet the sailing of the Steamer from Halifax on the 15th instant, will be closed at the Post Office in this City on Saturday next, July 12th, at three o'clock in the afternoon.
