Miramichi and the North Shore, etc,

A NEW GROCERY is opened in the old Searle stand by Mr. Wm. Mowatt.

SMOKE THE OTELLO, the best ten cent cigar in the market. For sale wholesale and retail at Z. Tingley's, Chatham.

ART:—Miss Kerr announces in this week's ADVANCE the reopening of her studio in Chatham about June 12th.

PISO'S cure for Consumption and Piso's remedy for Catarrh are sold by J. D. B. F. MacKenzie, Druggist, Chatham.

EARLY:—Mr. T. S. Gellibrand sent us a salmon weighing 17½ lbs. to Spring Hill Farm, Fredericton, to-day. It was taken about three miles below Indiantown on Tuesday morning.

INSURED AT ONCE:—Mr. Warren C. Winslow has been authorised by the British America Assurance Company to accept all classes of fire risks, issue policies and make endorsements, without delay or reference to the head office.

SHAWL LOST:—An opera shawl was lost from a waggon, between Chatham and Derby, on Saturday 11 inst., the finder of which will be rewarded on leaving it at the Advance office, or sending word where it may be recovered.

THE BAZAAR of useful household and other goods announced in a previous issue, will be opened at Neslie' Corner, on Saturday. There will be 5, 10, 15 and 25 cent counters, and the novelty will, no doubt, succeed on its merits.

FREE to EVERYBODY:—We have a large number of Dr. B. J. Kendall's treatise on "The Horse and his Diseases," for distribution, *free* to any farmers or horsemen, who desire copies and will call for them at the ADVANCE office.

WAS IT THE FIRST?—Mr. Peter Loggie, writing from Kouchibouguac says:—"First salmon was caught here on 13th inst. Can anyone in Miramichi beat us?" This is the earliest we have heard of, so far, but, perhaps, some of our friends on the bay or river may have an earlier catch to record.

A MYSTERY:—The four-year-old son of Ferryman Cunningham was drowned on Wednesday evening of last week while playing on a raft of logs at Douglastown with another lad three years old. The alarm was not given at once but in a short time search for the body was begun and has continued now for more than a week without success.

ORDERS FOR SUMMER GARMENTS for gentlemen, in suits or otherwise, are being taken by Mr. Cooke, of the firm of Dunlap, Cooke & Co., Amherst, who will remain at the Adams House, Chatham, for a few days. This firm does a very large business on the North Shore and their customers speak highly of their work.

PLAIN AND FANCY WORK:—The ladies of St. Mary's Guild, Chatham, are prepared to receive orders for all kinds of plain and fancy sewing, knitting, etc. and to promptly execute the same. They will supply both materials and work, or make up materials furnished by patrons. Orders will be received by Mrs. Blair, President, or any other of the ladies of the Guild.

STRUCK A BERG:—The Dominion Line Steamer *Vancouver* struck an iceberg when approaching Newfoundland on her last trip. She was going at full speed and, fortunately, the "loom" of the ice was seen in the fog in time for the helm to be ported and the vessel merely grazed the dangerous obstruction. It was a "close call."

SAD NEWS:—The sad news reached here Monday night that Mr. Wm. Duncan, son of Mr. Willam Duncan, Campbellton, was accidentally killed by falling off a moving train, near Thunder Bay, Manitoba. The deceased left here in 1879, and was a conductor on the C. P. R. He was about 21 years of age and an exemplary young man. The family have the sympathy of the entire community in their sad affliction.—*Pioneer.*

ONE FROM RESTIGOUCHE:—Comparisons are, sometimes, odious, but, after all, they are, as a rule, only natural and not thought of intended, by those who make them, to be unusual. The *Pioneer*, which has not yet, perhaps, much experience in the surroundings of the salmon fisheries, says:—

"Fishermen have been at work for the past few days putting out salmon poles and the river now looks like a fine tooth comb."

THE PROFESSOR APPRECIATED: — We are glad to notice that Professor Tremblay is widening the sphere of his usefulness in Campbellton by an increase in the number of his pupils. We are of the opinion that such a man is a valuable acquisition in any community and that steps should be taken to induce him to locate permantly in this town. His pupils are still unanimous in proclaiming him one of the best and most expert teachers of Languages they ever went to. He is a valuable contributor to our paper.—*Pioneer.*

SPECIAL:—All subscribers will please take notice that the terms of the ADVANCE are as advertised in our regular business notice for years viz:—$1.50 a year, *if paid in advance* and $2 a year if not so paid. When subscribers do not choose to pay in advance, but take credit for the paper, they do so with the understanding that they are to pay at the rate of two dollars a year. Any subscriber who does not wish to pay $2 a year for the paper must pay in advance.

RECENT DEATHS:—Mrs. Thomson widow of the late Dr. John Thomson of Chatham, who died at the residence of her daughter, Mrs. Walter Smith, Truro, on the 14th inst., was buried from the residence of her son, Mr. Howard Thomson, Chatham, on Friday last. The funeral was very largely attended. The death of Stephen Whittaker, Esq. brother of Geo. Whittaker, Esq., of Chatham—a well known and highly esteemed resident of Fredericton took place yesterday morning.

BELL RINGERS.—Smith's Bell Ringers and Pantomine Company will play in Masonic Hall this Thursday, and tomorrow (Friday) evening. The Belleville *Intelligencer* says of them: Mr. Smith has shown rare taste and ability both in the selection of a troupe of artists and the arrangement of a moral and highly pleasing programme. The Swiss Bell Ringers gave two beautiful selections on the bells and were deservedly applauded. The most entertaining feature was the Musical Trio. They produce music from almost anything that comes in their way, such as common earthen bowls, a Burmese piano, and other peculiar instruments. The pantomine entitled 'Humpty Dumpty and the Ghost,' was productive of uproarious applause, the incidents and situations being of the most mirth provoking kind.

MESSRS. MORRISON AND MUSGRAVE of Halifax, whose advertisment is in another column, are well known as the leading wholesale general merchants of that city. They are agents for a number of the largest producing concerns in the lines of which they make specialties, and represent the great London Tea-importers, Messrs Warren & Jones in the Maritime Provinces. Mr. Morrison was long and well known on the North Shore in connection with the business of the late J. S. Maclean of Halifax, and as head of the firm of Morrison & Musgrave is pushing his house to the front rank amongst the best in Canada.

THE POST OFFICE:—For the convenience of merchants and others during the summer season the postmaster of Chatham will not close the mails until 9 o'clock p. m., and all letters posted before that hour will be sent on the night trains. The delivery window will close at 8 o'clock, as usual, but the outside door of the office will be left open for persons who wish to post letters. No stamps will be sold after 8 o'clock, sharp, at the Post office, and all matter possible should be posted not later than 7.30 p. m. The postmaster's disposition to convenience the business public in this manner will, no doubt, be fully appreciated.

"Many Men, Many Minds, but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated.

WOOD ST. JOHN COMPANY:—We are sorry that the Wood-St. John Comedy Co., who were to favor us with the "Private Secretary" on last Tuesday evening, were prevented from coming to Chatham through their baggage cart breaking down, on their way to the train at St. John, and having to fulfil engagements at Quebec and Montreal. Although compelled to pass us by at present, they will, on their return from Montreal and Quebec to Moncton, Charlottetown, etc., in about two weeks, give us an opportunity to see them in Chatham. The exact date will be known in three or four days.

MORE "TEMPERANCE":—The *Advocate* says if the "editor of the ADVANCE," for whom it seems to have a most envious regard, "had but a fraction of temperance principle, etc., he would copy Rev. Mr. McKay's letters." We had the letter which Mr. McKay published in the *Advocate* on our copy file, but Mr. McKay himself withdrew it, saying he would not publish it in the ADVANCE. The relationship between Mr. McKay and the editor of the ADVANCE have long been and are of a most friendly character. We did not ask his reasons for not wishing to publish the letter in the ADVANCE, presuming they were good and sufficient to his mind, and it is a pity the *Advocate* would not have the good manners not to interfere in such matters, as it also is that men of Mr. McKay's standing confer unmerited dignity on such a sheet by addressing the public through its columns.

The Red Color of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine.

A VERY SAD INCIDENT of the last voyage of the Dominion Line Steamer *Vancouver*, was the loss of one of the sailors, who seems to have been amongst the most active on board. When nearing the Newfoundland coast he fell overboard and was observed on the surface astern, the great ship being at once stopped and backed, and a boat lowered and manned for the rescue. During the anxious minutes which followed the passengers saw the poor fellow battling for his life with the waves, and it was thought he would be rescued, but just as the boat reached the spot where he was, and as the man in the bow, with boat-hook poised, was ready and hoping to catch him, he sank and was seen no more. The men in the boat waited anxiously at the spot where he went down, but in vain and they rowed sadly to the steamer which steamed away. The poor fellow left a widow and one child, for whom over forty pounds was raised amongst the passengers.

PERSONAL: — Amongst this week's visitors to Chatham are representatives of three generations, viz., T. L. Gellibrand, Esq., of London England, his daughter, Miss Gellibrand, and his grandson, little Guy Gellibrand, who were of the *Vancouver's* passengers from England to Rimouski. Miss Gellibrand goes to Fredericton to-day where she will meet her brother, Master's Guy's father, the little fellow going with her. Mr. and Miss Gellibrand, after visiting Messrs. Sewell & Gellibrand of the Spring Hill farm, will return to Chatham on their way back to England. Mr. Gellibrand will always receive a warm welcome on the Miramichi,—none the less so when accompanied as he is on the present occasion.

His Lordship, Bishop McIntyre paid a visit last week to his old friend and classmate Bishop Rogers of Chatham, arriving here by Wednesday night's train.

John J. Miller, Esq., of the Pokiok Bark Extract Works was in town last week. He has been visiting his Millerton relatives and making a large number of new friends who will be glad to see him again

Mr. John Davidson of the Bank of Montreal here, who has been quite ill of late at his home in Newcastle, is we are glad to learn, improving in health.

Stubborn Children readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms.

N. & W. RAILWAY:—A new arrangement, by which an express train is run each way daily, between Chatham and Fredericton, went into effect on Monday last. A freight train will run every Monday, Wednesday and Friday from Fredericton to Chatham, and from Chatham to Fredericton every Tuesday, Thursday and Saturday.

The express, which now makes the distance between Fredericton and Chatham in five and a half hours, is a great improvement on the former daily train which took about nine hours to go over the road. Passengers from Chatham now reach Fredericton every forenoon at a quarter to eleven, and leave Fredericton for Chatham at three the same afternoon, arriving home at half past eight same evening. Passengers can also leave St. John by either of the morning trains on the N. B. Railway and, after having a few hours to spare in Fredericton can reach Chatham same evening at 8.30. This ought to be a very popular route between Chatham and St. John, as passengers can leave Chatham by the morning train and spend the greater part of the afternoon in St. John returning, if desirable, same night to Chatham.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Kent County Notes.

RICHIBUCTO, May 21.

The work of converting the barque "Annie McNairn" into a barge was completed on Saturday and the metamorphosed craft was towed to Black Point, on the Quebec side of the Restigouche River, by the Str. "Dorcas" on Saturday. The "Dorcas" returned yesterday, completed loading with railway ties, and left this morning for Grand Narrows, C. B. The barge "Annie McNairn" will be used for carrying cedar posts and railway ties to Nova Scotia.

In Buctouche work is progressing rapidly on the new hotel being erected on the site of the "Bay View Hotel" which was destroyed by fire a few weeks ago. The new structure will be completed in two months or less, and, it is said, has already been leased by Mr. Thomas Roberts, who is long and favorably known as one of the best caterers in Kent County.

Our community was startled on Saturday afternoon to hear that Mrs. James Graham, who had been ill but a few days, had departed this life. After two of the total M. D's. had exhausted their skill Dr. Isaac W. Doherty of Kingston, was called in and at once reported the case hopeless, and, further, that the unfortunate woman had not been properly treated in time. For Mr. Graham, who was absent at Gaspe and only returned this morning, there is the deepest sympathy. Deceased left four children, the youngest only fourteen months old. The funeral this afternoon was largely attended, nearly all the residents of the town turning out in full force. Rev. Silas James conducted religious services at the house and grave.

Barque Cathinca, Hamionoeberg master, arrived this morning from Bristol in 44 days consigned to Edward Walker. This is the first arrival from sea this season.

The weather for the past few days has been too warm for comfort. On Sunday it was 86° in the shade; and this afternoon it is one better

Mothers!

Castoria is recommended by physicians or children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels quiets pain, cures diarrhœa and wind colic allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend, 35 doses, 35 cents.

Total Abstinence from Respectability.

The *Advocate* takes the ground that total abstinence, *only*, is temperance—that the ADVANCE never favored temperance—that its editor is doing well-paid for work as "the mouthpiece of the, at present, illegal traffic," etc.—and it expects us to discuss the question of the Scott Act with it. We do not propose to mar our columns by dealing with such writings and writers in any other way, than to state publicly—as, we have, personally, to some of our respectable and self-respecting temperance friends—that as the *Advocate* does not choose to discuss this or any other subject with us in a courteous manner, as becomes a respectable paper, we must let its crudities and misrepresentations go for what they are worth, believing that they will do little beyond deepening the prejudices of a few ignorant persons. As there is, probably, a good deal of malice behind one of the *Advocate's* questions—accompanied, as it is, by a characteristic assertion—we will answer it. The *Advocate* says:

"Will the *Advance* tell its readers about the want of success attending the petitions for the repeal of the Scott Act, of which it is the principal promoter, and may we also enquire as to the probable time when the election may be expected to come off?"

The editor of the ADVANCE, although a member of the Municipal Council, and in attendance thereat when the committee made its recommendation that petitions for the repeal of the Scott Act be circulated by a special committee of the Council, had no previous knowledge whatever that such a preposition was to be made. When the committee to look after the circulation of the petitions was being appointed and the editor of the ADVANCE was proposed as one of its members he declined, in open Council, to serve. From that time forward he has not taken any part in the committee's work, save in connection with the printing of the petitions, and since that time has had no communication with any member of the committee or other person, either personally or by letter, on the subject. He does not know when the election may be expected to come off, or whether the committee is attending to its duties or not. We think it a far more honorable business to be circulating these petitions than for any paper to publish and circulate such statements as the *Advocate* does in reference to the ADVANCE and its editor. When such indulgence in falsehood is thought necessary by those who profess to be engaged in a great moral reform, the community will begin to question both their sincerity and respectability.

Eczema, Itchy, Scaly, Skin Torture, The simple application of "SWAYNE'S OINTMENT," without any internal medicine, will cure any case of Tetter, Salt Rheum, Ringworm, Piles, Itch, Sores, Pimples, Eczema, all Scaly, Itchy Skin Eruptions, no matter how obstinate or long standing. It is potent, effective, and costs but a trifle.

Salmon Hatching.

Mr. Alex. Mowat, supt. of the Restigouche Hatchery, has just returned home, after a week's absence on duties connected with his office. He has taken from the Restigouche and placed in the Miramichi Hatchery, 50,000 salmon eggs, and to the establishment at Grand Falls, N. B., 150,000. Notwithstanding the delicate work of removing eggs at this season of the year, Mr. Mowat says they were laid down in the Hatcheries in perfect condition The young fish is just on the verge of breaking the outer shell and great care and attention is required to keep the eggs at a uniform temperature during the transit. This can only be done by carrying an additional supply of ice or snow, and keeping the crates charged regularly. Mr. Mowat says the salmon, trout and white fish eggs conveyed to the Rapid de Femme Hatchery, from Ontario, has been a great success. The young white fish are now being planted in the numerous lakes in Victoria, York and Charlotte counties. Why is it a supply of these fish cannot be obtained to stock some of our beautiful lakes in the counties of Restigouche and Bonaventure?

If some of our representative men would make application to the Dept., we have no doubt the request would be readily granted. Mr. Mowat is to use every effort to obtain a large supply the coming season, for the stocking of the Restigouche Hatchery.—*Pioneer.*

A Baseball Man Has a Victory.

Ralph Staples, first baseman for the Greenstockings, and Maude Keen, a dining room girl at the Reynolds House, bought a twentieth ticket in the Louisiana State Lottery in partnership, and at last Tuesday's drawing got $15,000, or $7,500 each.—*South Bend* (Ind.) *Weekly Times*, April 9.

The Modern Newspaper.

REV. MR. PRATT REGARDS IT OF GREATER INFLUENCE THAN THE PULPIT

[Halifax Echo.]

Rev, W. A. Pratt discoursed in the Church of the Redeemer last evening on "The newspaper as a factor in modern society." He said it was undoubtedly a factor for good or ill. Once a week church-going people gathered together to worship according to the dictates of conscience and to receive religous instruction; not one day in seven but six out of seven, came the newspaper to the people as an educator, as an exponent of the justice of the cause it championed and as the Nemesis of the wrong-doing which it rebuked. The newspaper has largely replaced with people of this 19th bentury the reading of books. Should it cease, trade, commerce, science and religion would receive a grievous blow, The newspaper that lives up to it responsibilities should be the relentless foe of wrong-doing in high and low places alike. Rev. Mr. Pratt said he believed there was more hypocrisy in the pulpit than in the editorial sanctum. He had in his hand a copy of the Presbyterian confession of faith, and he read passages on predestination and also passages he construed to refer to infant non salvation. He asked where a Presbyterian minister could be found who had not practically slid over to Armenianism, compared with the strong language of the confession? And where could the minister be found who paeached the doctrine that the vast majority of those dying in infancy could not be saved? The church at Toronto the other day, he said, refused to change these tenets. They all, too, at ordination had solemnly subscribed to them, and yet in the pulpit they either gloss them over or never mention them at all. In view of these and other facts the preacher thought there was more mental dishonesty and double-dealing in the pulpit than in the editoral sanctum. Horace Greeley, though a man ambitious for political honors, deliberately courted and secured defeat by, from a sense of duty, writing an article on a general amnesty at the close of the American civil war. All journalists, however, do not occupy this high ground, Some are slaves to party, others make their columns do the duty of moral sewers. In the editoral columns of some newspapers, there was he might say, "a continual weeping and wailing and gnashing of teeth." Coarse, abusive and arbitrary writing would not succeed in the end or gain public confidence. Too many editors seem to forget that the only oracles of truth are not invariably found in their own office. The preacher condemned the publication of lengthened reports of crime, merely to satisfy a morbid craving of its readers for such details. It was no justification of such proceedure to say that there was nothing printed but what was demanded by a newspaper's constituency. "Do right though the heavens fall." It was the duty of every man to support what was best in journalism, secular or religious, and if such were done the corrupt would soon fail for lack of patronage. The lecturer expressed himself as not being opposed to the Sunday newspaper. Those who were should look to it that reports of their sermons did not appear in Monday morning's papers, which papers, he asserted, entailed more Sunday labor than the regular Sunday paper. The preacher concluded his discourse by reiterating his conviction that, rightly conducted, the newspaper was an invaluable help in every good work, in all the spheres of labor in this 19th century. The subject for next Sunday was announced as—"Amusements: Is it right for people to dance and go to the theatre?"

Don't

let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boschee's German Syr up. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 7·ents. Ask any druggist.

Christian Unity.

The Archbishop of Canterbury has written a letter to the English Presbyterian synod, in which he said he was requested by the bishops lately in conference to send a copy of the encyclical letter issued by the conference. The letter was to the effect that the authorities of the various branches of the Anglican communion hold themselves in readiness to enter into fraternal conference with the representatives of the other Christian communions of the English speaking races, in order to consider what step could be taken either toward corporate reunion or toward such relations as might preface the way for fuller organic unity hereafter. To this Principal Dykes of the synod sent a reply, in which he said he would bring the matter to the notice of the church which he represented. The synod approved of this course, and deferred any further action in the matter in the mean time.

Little Women

are as a rule, possessed of happy dispositions; but when these sweet dispositions become soured and irritable, in consequence of the long train of distressing features peculiar to female complaints, they are then not companionable to say the least. It is the duty, not only of little women, but of all women so afflicted, to bring about the subjection, and immediate removal, of these painful maladies, this is easily accomplished by the use of Dr. Pierce's Favourite Prescription, the great specific for "female weakness." It is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries and kindred ailments. All druggists.

A Great Gold Find.

Some years ago when the annual meeting of the American Institute of mining engineers was held in Halifax, the most eminent members visited the gold mines at Montague. In the New Albion mine which about that time had been organized in London, they saw what they declared to be the finest specimens of gold they had ever seen either in America or Australasia. The New Albion is a pocket mine and just about that time the miners "had struck it exceedingly rich." For a while the mine paid 5 per cent, per month. These rich "pockets" were succeeded by a lean streak. While the shareholders accepted the 5 per cent. dividend with commendable promptness, they declined to respond to extra calls upon their stock. Consequently the mine was sold at sheriff's sale and bought in by Charles Annand, and since then very little work has been done in it.

Six months ago Sandy McGuire and some others made arrangements with Mr. Annand to work the mine on "tribute." They did fairly well, paid all expenses and are said to have netted $500 each for their six months work. The arrangement for working the mine on tribute has about expired; but yesterday the boys struck a pocket of extraordinary and unprecedented richness, which gladdened their hearts and surprised and delighted everyone who had the good fortune to see the result of their luck. They turned out a nest egg said to be worth $3,000 or $4,000. The box of specimens brought to the city last night made the mouths of old miners water. The quartz bristled with junks of the glittering metal. Some of the pieces of stone was fairly riveted together with gold. One piece of quartz seemed, from its weight, to be a solid mass of gold, and Mr. Mc Guire said he would not take $500 for it. It is to be hoped that these specimens will be exhibited in some window on a prominent thoroughfare, so that the public may get an idea of the vast mineral wealth that lies buried within seven miles of the Halifax post office, and which can be obtained by intelligent, honest and persistent work.

If such "a strike" had been made in the wilds of Mexico or the American Indian territory, 1,000 miles from the confines of civilization, we should have had columns of despatches about it, and thousands of people would probably have been reported as making a gaand rush for the place, spending their last cent to get there.

But this "find" was made right under the nose of Halifax, and is but an illustration of Nova Scotia's vast gold mining possibilities.

Use Hall's Vegetable Sicilian Hair Renewer and your thin gray locks will thicken up and be restored to their youthful color, vigor, and beauty.

"WORKING" BUTTER.—The Dairy World says: The term "work" in the manufacture of butter ought to be considered obsolete. It is now tolerable only in the sense of pressing the butter into a solid mass. Butter is no longer "worked" by intelligent butter makers to get the butter milk out of it, for it is washed out while the butter is in a granular condition; and it is no longer "worked" to incorporate the salt with it, for the salt is readily stirred in while the butter is in the granular condition.

MARRIED.

At the residence of Capt. Tait, Chatham on the 21st inst., by the Rev R S Crisp, Mr Henry W Phillips, of Point Escuminac, to Barbara, daughter of Mr Allen Lewis of Hardwick N B.

At the Manse Chatham, on the 16th Inst, by Rev N McKay, Mr Thomas Traer, of Napan, to Miss Maggie Dickson, eldest daughter of Mr James Dickson Jr, of the same place.

DIED.

On the 10th inst, of inflammation of the lungs, Richard Nesmith aged 62.

Fell asleep in Jesus, in perfect peace on the 14th inst, Mary Ann relict of the late John Thomson Esq M D at Truro, N S aged 75 years

At Richibucto on the 18th inst, Sarah Ann, aged 35 years, wife of James Graham, and daughter of Allan Haines, leaving a husband, four children and a large circle of relatives and friends to mourn their loss.

Chatham, May 7th 1889.

McALPINE'S

Province of New Brunswick Directory

D. McALPINE & SON are now preparing to publish a Complete Directory of this Province, which will include all persons (Males) from the age of 20 years old and upward, and all Females in Mercantile Business; also an Historical Sketch of the Province up to 1888, with other general information. It will be well bound and printed on good paper. The publishers have been requested several times, by leading business men and others, to publish the above work and promised their support. They therefore feel confident that the work is needed, and that business men of all classes will consider that it is necessary to Advertise in it to make it a success, otherwise the publishers will not be able to publish it. We are now behind nearly all the other Provinces in the Dominion, and of the States in America, is not having a Directory of the Province since 1870-71. There will not likely be a similar work published for the next ten years, therefore the special inducement to those who do advertise in it now. Any persons who wish their Advertisements inserted, by applying early will obtain better positions. Except the covers and pages opposite covers, the prices will be general, viz: $20.00 per page, $13 00 per half; $10 00 per third; $8.00 per fourth—with Directory included

As I have now on hand a larger and better assortment of goods than ever before, comprising

Japanned, Stamped AND Plain Tinware

would invite those about to purchase, to call and inspect before buying elsewhere, as I am now selling below former prices for cash.

The Peerless Creamer,

ROCHESTER LAMP,

The Success OIL STOVE

—Also a nice selection of—

Parlor and Cooking Stove

with PATENT TELESCOPIC OVEN

the lining of which can be taken out for cleaning thereby doing away with the removing of pipe or ven as is the trouble with other stoves.

A. C. McLean.

CHATHAM BOOT & SHOE STORE!

I wish to inform the Public that I am showing a very complete line of Boots and Shoes, Slippers, etc; Women's, Misses and Children's Boots and Shoes, in French and Dongola Kid Pebble, Oil Pebble and Oil Goat, French and American Oil Goat, and all the leading American Kid, and Fancy Patent Leather.

I have Men's, Boys' and Youth's,

Boots and Shoes in Domestic and French Calf, Shell Cordovers, Dongola and French Kid, made on the latest and most approved American Lasts including the Wankenphast, Broad, Medium and Narrow Soles.

WOMEN AND CHILDREN'S BOOTS

with Spring and Common Sense Heel, recommended by the Medical Fraternity as the most comfortable boots worn.

I BUY FOR PROMPT CASH, thus making my cash discount

I sell for cash only, and therefore I don't have to add to my profits to cover bad debts which all Merchants are obliged to do who give credit.

I intend giving all who trade with me the advantage of this and am prepared to sell Boots and Shoes at the LOWEST POSSIBLE PRICES, for which GOOD RELIABLE GOODS can be sold.

I cordially invite inspection, and it will be to the interest of all intending purshasers to examine my Stock and see my prices before buying elsewhere.

I have a large shipment coming, made expressly for my trade, which I will guarantee as something very fine.

My Goods are all Fresh and no old shopworm stock to palm off on the Public.

Call and examine and see that I mean just what I advertise.
