

1970 SIC's for the Energy Sector

Major Group 2 - Mineral Fuels

061 **Coal Mines** - Establishments primarily engaged in mining coal, whether surface or underground. This activity includes establishments which lease or operate surface preparation plants as a fuel supplier operated by a coal mining enterprise or on a contract basis.

104 **Crude Petroleum and Natural Gas Industries** - Establishments primarily engaged in the production of petroleum

and natural gas from wells or from the processing of oil shale, tar sands, lignite, and other sources of hydrocarbons. This activity includes establishments which produce the products of these establishments and products of these establishments. Products of these establishments include: crude petroleum, natural gas, liquefied petroleum gases, such as propane, propylene, butane, and mixtures. In addition, establishments which produce a product which is subsequently processed in a manufacturing plant, such as a refinery, are included with the establishments of this industry. (See also SIC 13 - Chemical and Allied Products, SIC 20 - Miscellaneous Petroleum and Coal Products Industries, and SIC 28 - Primary Metal Industries, in describing manufacturing of a product which is subsequently processed in a manufacturing plant. See SIC 28 - Gas Distribution.)

Major Group 13 - Petroleum and Coal Products Industries

305 **Petroleum Refineries** - Establishments primarily engaged in refining crude petroleum and in producing petroleum, fuel oils, lubricating oils, illuminating oils, and other petroleum products. The industry also includes establishments primarily engaged in blending lubricating oils or greases which they have purchased.

309 **Miscellaneous Petroleum and Coal Products Industries** - Establishments primarily engaged in producing petroleum and coal products and other products, such as briquettes, fuel emulsions, and fuel gas, from petroleum products and coal. This industry also includes establishments which operate separate establishments and act as a subsidiary activity in iron and steel or chemical plants.

411 **Pipeline Transport** - Establishments primarily engaged in transporting petroleum, natural gas, and coal products. This industry is not to be confused with the petroleum products and coal products industries, which are primarily engaged in producing petroleum, natural gas, and coal products and in operating pipelines, terminals, and commodity warehouses.

Major Group 4 - Electric Power, Gas, and Water Utilities

491 **Electric Power** - Establishments primarily engaged in the generation, transmission, and distribution of electric energy, whether by wire or by other means. This industry includes establishments primarily engaged in the generation, transmission, and distribution of electric energy, whether by wire or by other means. An establishment primarily engaged in generating electric energy, whether by wire or by other means, is included in this industry if it is also engaged in the transmission and distribution of electric energy. (See also SIC 492 - Construction of Electric, Gas, and Water Utilities, and SIC 493 - Construction of Electric, Gas, and Water Utilities, in describing the construction of electric power.)

492 **Gas Distribution** - Establishments primarily engaged in the distribution of natural gas, liquefied petroleum gas, and other gases. This industry includes establishments primarily engaged in the distribution of natural gas, liquefied petroleum gas, and other gases. This industry also includes establishments primarily engaged in the distribution of natural gas, liquefied petroleum gas, and other gases. (See also SIC 491 - Electric Power, and SIC 493 - Construction of Electric, Gas, and Water Utilities, in describing the construction of gas distribution.)
