The Markets.

Barley.

The local market is nominally unchanged. Transactions are few and light. Prices are generally steady, however.

The stocks in store at Toronto on Aug. 7th were 46,688 bush. against 32,607 bush. last year.

The visible supply in Canada and the United States is 87,000 bush., against 377,000 bush. in 1893 and 366,000 bush. in 1892.

Western	" 0 67 " 0 68

Hops.

Now that some estimation of the crop prospects can be made, a rather healthier feeling than has prevailed for some time past is apparent. Up to the present it was thought the hop harvest would be unusually large, now, however, it is thought the yield will not be much above the average, but of excellent quality. Prices, in the absence of transactions, remain practically unchanged.

A few bales of really good said the latter part of last week at about 12 to 14c.

The Waterville, N.Y., *Times* reports that the early varieties are nearly in full burr and will soon be picked. The late crop is coming along nicely.
