ENDORSE BRYAN.

Georgia Democrats Want the Negro Disfranchised.

Macon, Ga., Sept. 4.—The unanimous nomination of Hoke Smith for governor, and the endorsement of William J. Bryan for president in 1908, was the principal business transacted to-day by the Democratic state convention.

The platform contains many radical recommendations, among them being a demand for negro disenfranchisement.

Cheers for Dundonald.

At the reception to the 2nd Life Guards Band by the Army and Navy Veterans, the announcement by Chaplain Nunn that Lord Dundonald (colonel of the guards) was among the honorary members of the order caused a scene of greatest enthusiasm. A splendid musical program was given by Bugle Major Swift, Corp. Cameron, John Winters and members of the visiting band.

Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty, (King Edward Hotel) at the close of the market:

Wheat—Hedging sales here by the Northwest and lack of adequate volume of speculative demand has made a heavy market. The start was strong and higher under the influence of much bullish influence from abroad. The latter was interspersed with bearish features. Fears of heavy movement in the Northwest encouraged bears and caused some of the more timid bulls to liquidate. Do not believe, however, that farmers will seel freely at prevailing low prices. Think purchases should be made on just such recessions as we experienced to-day.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building:

Wheat—The sharp advance at Liverpool came as a surprise this morning and, as usual, without waiting to ascertain the cause of the upturn, local traders made a rush to buy at the opening of our market and had the privilege of paying the highest prices of the day. It soon developed that the advance at Liverpool was occasioned by the poor arrivals from Russia, which started shorts to covering and stimulated a sudden demand for wheat to replace the rejected Russian receipts. Supplementing this was the statement by Broomhall that Liverpool warehouses were filled to their capacity with wheat, and that exporting countries have more wheat available than importing countries require. Following this announcement early buyers became sellers and large cash interests accelerated the downward turn by offering freely. The market closed about the lowest price of the day, with no developments to encourage holders or attract new buying.

Coarse grains opened steady, influenced by wheat, but encountered rather free offerings, which induced a reaction later in the session. There was but little feature to the trading.

Provisions declined rather sharply under pressure of liquidation.

Charles W. Gillett, Chicago, wired J. Ready, Board of Trade Building, Toronto:

Wheat—Opened strong on decidedly higher cables, but from the course of the market afterwards it would appear that the Liverpool market had been rigged from this side in order to secure a firm spot to sell on. The figures to-day were rather bullish, car receipts small, the amount on passage about as expected and the visible supply decreased 1,175,000, nevertheless the market was weak and closed near the bottom. We think on breaks such as we had to-day that wheat should be bought for a turn.

Winnipeg—Decidedly weak. There were heavy deliveries of new wheat, and this, taken with the decline in Chicago, was more than the Winnipeg market could stand. While this wheat may work lower owing to poor export demand and the new wheat coming to market, we are loth to advise short sales at this level.

Corn—Weaker. There is nothing of interest to report on this cereal. We think, however, that May corn may be bought on any weak spots such as to-day.

Oats—Firm early, but weakened in sympathy with other grain and closed weak. We think on any further setback that May oats are a purchase.

Cheese Markets.

Foxboro, Sept. 4.—Foxboro Cheese Factory burned at noon to-day. The fire was discovered by the cheesemaker and before anything could be done the fire had made such headway that the building was soon demolished. There were 120 cheese in the curing-room and these were saved, the somewhat damaged. The cheesemaker and family lived in the south end of the factory, but were fortunate enough to save the contents of the house. The fire is supposed to have originated from a spark. The building and contents are both lightly insured.

MONEY DOMINATING THE SITUATION.

World Office, Tuesday, Sept. 4.

Toronto loaning institutions have made the call rate straight 6 per cent. This is usually the limit in this market, as when this is reached brokers regard it as an inference that loans are exhausted for the time being. The stock market to-day gave evidence of more business, but such buying as there was had no influence in advancing prices. There was clearly no inspired speculative buying, as it is recognized that the time is not yet propitious for any continued advance. Matters which usually influence quotations are of no immediate force, as the supply of securities is easily able to hold down quotations at a steady level. C.P.R. was the only strong feature. This issue advanced three points in the London market over the holiday and a despatch from that centre stated that the renewed spurt was against a short interest. In the local curb market more attention was given to Nipissing mines on the rumor that another strike had been made. This stock sold up to 9 1-2 here and 9 5-8 at New York, but closed at 9 1-4. The Wall-street market witnessed another of the vagaries of the New York money rates, call loans touching 30 per cent., but stocks suffered comparatively little from the scarcity of funds.

60 LOADS AT CITY MARKET TRADE FIRM FOR THE BEST

Easy for Lower Grades of Cattle —Sheep and Lambs Lower —Hogs Steady.

Receipts of live stock at the city cattle market since last Friday, as reported by the railways, were 60 car loads, composed of 758 cattle, 370 hogs, 1963 sheep and lambs, with 163 calves.

There were few choice, well finished cattle of any kind, not enough to supply the demand, but too many of inferior quality. Trade was fairly good, owing entirely to the light deliveries.

Prices were 10c to 15c per cwt. firmer for the best cattle, but easy at last week's quotations for the inferior grades.

Exporters.

Trade dull, few offering, 2 loads being sold at $4.75 per cwt.; export bulls sold at $3.50 to $4.25 per cwt.

Butchers.

Choice picked lots were reported at $4.40 to $4.60; loads of fair to good at $4 to $4.30; medium at $3.60 to $3.90; common at $3.25 to $3.50; cows, $2.50 to $3.30 per cwt.

Feeders and Stockers.

Harry Murby reports a limited trade in stockers and feeders. The most of the enquiry is for the good kind, which are scarce. The run to-day was small and more of the good kind would have sold. Following are the quotations: Best feeders, 900 to 1100 lbs., at $3.90 to $4; best feeders, 800 to 900 lbs., at $3.40 to $3.65; best stockers, 600 to 800 lbs., at $3.25 to $3.50; medium stockers, 600 to 900 lbs., at $2.75 to $3.25; common stockers, 600 to 900 lbs., at $2.25 to $2.50.

Milch Cows.

A limited number sold at $30 to $63 each and more good to choice quality cows would have found a ready market, as there were several dealers on the market, amongst whom was Mr. Hooper of Montreal, as well as M. Vincent and some others.

Veal Calves.

The demand for veal calves was good, with prices firm for all of choice quality. Prices ranged from $3 to $7.25 per cwt., three calves being bought by Mr. Dingle for the Hamilton trade at the latter price. Farmers will do well to feed their calves on new milk, as there is an excellent demand for those of prime quality.

Sheep and Lambs.

Sheep and lambs were easier in price. Cables for export sheep came lower. One local dealer received a private cable that gave the best export sheep at 12c as being the top price on the English markets. Export ewes, $4.40 to $4.60; bucks, $3.25 to $3.75. Lambs sold lower, but it must be remembered that the Toronto market is being flooded with an inferior lot of small lambs and bucks that are not wanted at Buffalo. Mr. Dunn reports 90 per cent. of the lambs coming to Toronto as bucks. Prices ranged from $5.50 to $6.15, but there were a few picked lots of ewes and wethers brought a little more.

Hogs.

The run of hogs was light, but prices remained steady, at last Friday's quotations. Mr. Harris was paying $6.40 for selects and $6.15 for lights and fats.

Representative Sales.

THE NEW FRENCH REMEDY.

TRADE THERAPION MARK

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only, removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by the principal Chemists and Merchants throughout the world. Price in England 2/9 & 4/6. In ordering, state which of the three numbers required, and observe above Trade Mark, which is a fac-simile of "Tamarow" as happened on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

My Most Trusted Employes . . . .

said the head of a large manufacturing establishment recently, are those who have savings accounts. Why? Because they are men who have good habits; because they lose very little time; because they desire to provide as well as possible for their families; because it is their aim to work steadily and "lay something by" in case sickness or "dull times" overtake them.
