WAR EAGLE'S BIG PLANT

To Be Housed Within a Gigantic Steel Structure.

Tenders Now Asked for the Gallows Frame to Cost $35,000—Mine Now Shipping 100 Tons of Ore Per Day—Capacity to Be Doubled in September.

The War Eagle Consolidated Gold Mining Co., of which Messrs. George Gooderham and T. G. Blackstock of Toronto are the prime promoters, is fast completing arrangements which will make their property a very large producer of ore. In an interview sought by The World yesterday, Mr. Blackstock, who has within the past few days returned from Rossland, stated that the War Eagle is now actually shipping 100 tons of ore per day to the C.P.R. smelter at Trail. This output will be continued all summer until about September, when the company will be in a position to, at least, double the ore shipments.

In order to provide proper shelter for the large hoist and compressor plants which are now being installed, and which have already been described in these columns, the company is now asking tenders for the erection of what will probably be the largest steel gallows frame of any mine in the world. This frame will cost upwards of $30,000, and will be a skeleton of a great steel clad building under the roof of which the company proposes to group all its compressor, hoisting and sorting machinery. The structure will be 120 feet high, 300 feet long and some 45 feet wide. It is to be erected at the mouth of the new shaft to be sunk to the rear of the present main tunnel.

The gallows will be sufficiently large to be adapted to a capacity of 1000 tons of ore per day and to sink to the 3700 foot level. As stated above, Mr. Blackstock expects the frame to be completed in September, whereupon the output of the War Eagle will be brought up to 200 tons per day or over.

"THE COMING GOLD FIELD."

What an English Mining Authority Thinks of British Columbia.

The London, England, Mining Jornual thus editorially refers to the gold fields of Canada's western province:

"The principal feature of the mining industry of British Columbia during 1897 was steady progress, as distinguished from anything phenomenal or brilliant, and, therefore, probably less permanent. Every year, we might almost say every month, gives a contribution towards the realisation of our predictions, which it will be remembered were made at a time when very few would believe in the gold wealth of the colony. Opinion in the city is rapidly spreading that British Columbia is the coming gold field, and that it will be the scene of the next boom, when the political atmosphere is brighter, and confidence once more restored. With these opinions we to a great extent sympathise, for we feel confident that the gold fields, when sufficient capital is forthcoming and it is thoroughly exploited, will fully justify all the encomiums which have been passed upon it, and prove it to be a country of inexhaustible payable riches. We are not so confident that it will be the scene of the next boom for that will undoubtedly be shared by South Africa, Westralia and possibly Victoria, though the west coast of Tasmania is likely to take the lead, seeing that copper investment is more attractive at the present moment than gold."

MR. CORBIN'S PLANS.

He Intends Yet to Defeat the Ends of the C. P. R.

Spokane will lose nothing by the Dominion Parliament's refusal to charter the Corbin road, as Mr. Corbin has announced that he will build his road to the Boundary Creek country another way." he said in an interview in yesterday's Spokesman Review, "going in from the south by way of Republic. This is my plan, and I am now prefecting the details of it."

This means that the proposed road, instead of going up the Kettle River Valley, and weaving in and out the United States, will leave the main line at some point south of Marcus, and thus develop more thoroughly the mineral wealth of the Colville reservation. This will draw prospectors, miners and investors out of southern British Columbia and into the United States.

The opening of the south half of the reservation will make the mineral areas on this side of the boundary still more attractive to prospectors and investors. Thus the field of active development will be drawn closer to Spokane. It was probably a stroke of good fortune for this city that the charter was refused.

The mining and business interests of southern Kootenay foresaw all this and worked hard to secure the Corbin road. Unfortunately for them, their interests were sacrificed to the selfish schemes of the Canadian Pacific.

SALE OF LE ROI.

Celebrated Property Again Said to Have Changed Hands.

According to an advice from Rossland the British-American Corporation has bought the Le Roi mine for $3,000,000. The report says that the deal was put through in England by Col. I. N. Peyton. The sum of $500,000 is to be paid down and the balance to be paid in monthly instalments of $500,000. The property has, up to date, paid dividends totalling $825,000. Lieut.-Governor Mackintosh it was who organized the English syndicate spoken of above as the purchaser. The transaction is made on the basis of $6 per share for each of the 500,000 five-dollar shares in the old company. This means that stockholders will receive 20 per cent. more than par value for their holdings.

Cripple Creek News.

Cripple Creek, Col., May 3.—Since the war has become an actual fact the leading gold stocks of Cripple Creek have scored a very material advance, as the following list of percentages, made up on to-day's closing prices, will show: Anaconda, 50 per cent.; Elkton Cons., 45 per cent.; Gold Coin, 25 per cent.; Lillie, 12 per cent.; Moon Anchor, 16 per cent; Portland, 25 per cent.; Battle Mountain Cons., 140 per cent.

Numerous strikes of more or less importance are reported every day, and the monthly gold production is showing a very marked increase.

Dundee Mine Expect to Pay a Dividend This Summer.

The engineer of the Dundee mine, near Ymir, reports that the mine is looking better than ever. The ore body on the hanging wall is all shipping ore and varies from three to four feet in width. Between this and the foot-wall, a distance of 21 feet, the ore is concentrating. Work on the concentrator has commenced and machinery for it has been ordered. Twenty-five men are at present employed in the mine, and the force will be increased shortly. From present appearances the indications are that the mine will be on a dividend paying basis this summer.

Wild Horse Gold Mining Co.

What promises to be a strike of importance has been made on the Nebraska Girl, one of this company's properties, which is located near Ymir.

ST. JOHN'S HOSPITAL.

How the Devoted Sisters Yesterday Celebrated the Anniversary of Its Dedication—Its Noble Work.

Between the hours of 4 and 6 o'clock yesterday the Hospital of St. John the Divine, on Major-street, was the scene of a quiet but joyous gathering of associates and friends of the order. The sisters were at home and well-known Toronto maidens presided over dainty tea tables and gracefully served the refreshing beverage.

The magnificent pile that now greets the eyes of the spectator is the outcome of a small home which fourteen years ago was presided over by two Sisters; now there are twenty-two.

There is a branch at Seaton Village, occupying a building designed by the clever Mother Superior, and another at Oshawa, operating free dispensaries, largely patronized every day.

About 300 invitations were sent out, and among those accepting and who were present were: Bishop and Mrs. Sweatman, Mrs. Beecher, Rev. J. Scott Howard, Mrs. and Miss S. G. Wood, Miss Montizambert, Rev. J. Rounthwaite, Rev. Mr. Norrie, Mr. and Mrs. Alfred Plummer, Mrs. J. S. Cartwright, Christopher Robinson, Q. C.; Misses Boulton, Mrs. Lockhart, Miss Green, Superintendent of Bishop Strachan School; Rev. T. C. and Mrs. Macklem.

RAILWAY NOTES.

The officials of the Grand Trunk Railway are busy with the heavy freight traffic. The export trade in cattle also shows a marked increase. The Canadian Pacific Railway have anticipated an increase in freight traffic and are rushing to completion the 250 flat cars now being built at Perth.

The Canadian Pacific Railway will be kept busy arranging for the delivery to Montreal from Owen Sound of 350,000 bushels of corn from the Western States.

Yesterday the first consignment of importance from the Mediterranean ports arrived by the Canadian Pacific Railway.

District Passenger Agent Dickson spent yesterday at Hamilton in connection with the Burlington Beach suburban service.

The Chicago and Northwestern Railway have at present three magnificent trains leaving Chicago every day. They are the Colorado Special, the Northwestern Limited and the Overland Limited.

A deputation of C.P.R. trainmen from the Ontario and Quebec division waited on Superintendent Leonard and asked to have adjusted several differences with the company as to wages and the revision of the rules.

Three Notable Events.

Three important events to the mercantile community will take place next Wednesday. At 10 o'clock on that day the special sale of shirt waists and general drygoods commences at Suckling's warerooms; at 2 o'clock the $17,000 drygoods stock of Macdonald & Co. of Windsor will be sold en bloc. This is one of the best business chances that have turned up for a long time, large portion of the stock having just been bought previous to the assignment, and everything about the stock and fittings is thoroughly up to date. The third event is the sale of the magnificent building on Front-street west known as the McMaster warehouse. This is undoubtedly the finest and most complete warehouse in Toronto, and terms can be arranged to suit the purchaser.

Close of the German Parliament.

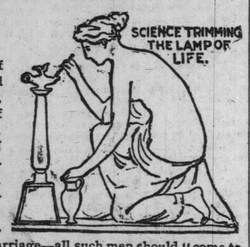
Berlin, May 6.—The ceremony of closing the last session of the present Reichstag took place to-day in the White Hall of the Royal Castle. The Emperor, in the speech from the throne, after referring to the fruitful legislative results of the session, "including the increases of the army and navy, whereby the peaceful security of the empire, and an increased guarantee of the maintenance of European peace have been secured," emphasized the pacific character of the German foreign policy, "while at the same time vigorously protecting German rights."

$200,000 Fire in Cincinnati.

Cincinnati, O., May 6.—Maus Bros. and Wolf Bros., shoe factories at 7th and Sycamore-streets, each seven storeys, were completely gutted by fire this morning. Loss estimated at $200,000.

FREE TRIAL TO ANY RELIABLE MAN

Weak Men Restored, or No Expense for Treatment.



A Course of Remedies—the marvel of medical science—and Apparatus indorsed by physicians will be sent ON TRIAL, WITHOUT ADVANCE PAYMENT. If not all we claim, return them at our expense.

MEN WHO ARE WEAK, BROKEN DOWN, DISCOURAGED. Men who suffer from the effects of disease, overwork, worry, from the follies of youth or the excesses of manhood, from unnatural drains, weakness or lack of development of any organ, failure of vital forces, unfitness for marriage—all such men should "come to the fountain head" for a scientific method of marvelous power to vitalize, develop, restore and sustain. On request we will send description and particulars, with testimonials, in plain sealed envelope. (No C.O.D. imposition or other deception.) Cut out this offer or mention paper. Address

COME, See How They Sparkle

THE TALK OF THE CITY.

THE SAYRETA-KORA CRYSTAL is the hardest, most brilliant and substantial specimen of semi-precious stone yet discovered. These stones have no artificial backing, are set in good substantial mountings, and canpot be detected from genuine diamonds. For the purpose of introducing these marvellous stones we offer them for

MAIL ORDERS.

A beautiful brilliant Sayreta-Kora Crystal, set in a good substantial mounting, will be sent to any address on receipt of $1.00. State whether medium, large or small stone is desired.

$1.00 each.

OUR GUARANTEE.

We warrant each stone to retain its brilliancy and the mountings to give perfect satisfaction. We will give $500 to any charitable institution in Toronto if it can be proven that we ever refused to replace a stone that was returned as unsatisfactory.

The Diamond Palace

61 King Street W. W. POWELL HARVEY & CO. 61 King Street W.

Beware of Imitators.

Do not confound these stones with so-called White Topaz, Cape Town Gems, Parisian Diamonds, Rhinestones, Alaska Diamonds, or, in fact, any imitation diamond, regardless of what the name may be. The

Genuine Sayreta-Kora Crystal

is the only stone that has ever been discovered that cannot be detected from a genuine diamond. All others are simply manufactured from chemicals.

OPEN EVENINGS.

DUNDEE 1000 shares 50c

WILD HORSE 5000 shares 15c

KEYSTONE 5000 shares 20c

Facts for investors to consider why they should buy above stocks. The above stocks are listed on the London Stock Exchange.

Dundee mine has 36,000 tons shipping ore in sight, which will net company $22 per ton, after deducting transportation, freight and smelter charges. The company are at work on their concentrator and tramway, costing nearly $20,000. This stock will soon rise to $1 per share.

WILD HORSE—One of the 7 claims, the "Nebraska Girl," a rich strike has been made. A register office in London, Eng., has been opened for transfer of all share certificates at a cost of $1500 per year.

KEYSTONE—Steady developing is being done, but as it is a tunneling proposition through hard country rock, it will take some months before the engineer expects to strike their best ore.

Ground Floor Proposition.

Pooled Shares in the Lardeau-Goldsmith Mines, Limited.

The property consists of the Ophir and Oregon mineral claims, in the Lardeau mining division. Vein 50 feet wide, traceable for several miles; paystreak 4 to 18 inches; average assays 1008 oz. silver, 18.9 per cent. copper, .28 oz. gold, values $600; 3644 oz. silver, 11.8 per cent. copper, .30 oz. gold, values $230 to the ton. Good facilities for getting out ore and shipping. The promoters offer a limited number of pooled shares at 3c per share for the purpose of developing the properties and placing them on a shipping basis, before selling any of the treasury shares, which should then command par.

Capitalization of company only $200,000, of which one-half is reserved for working capital.

Those who know the celebrated Lardeau district, in which the Gold Cup and other well-known shipping mines are situated, will require little further information than is contained in the above, and will act promptly. Others can obtain further information by letter or wire. As a few applications will exhaust this opportunity, orders, accompanied by cheque, will have precedence.
