Variety, &c.

ODE TO ART.

By John Pierpont.

(Sung at a Meeting of the Massachusetts Charitable Mechanic Association, in Boston, U. S.)

Not with a conqueror's song
Thy courts, O God! we throng,
For battles gain'd:
No cannon's sulphurous throat,
No trumpet gives its note,
No banners o'er us float,
With fresh blood stain'd.

Over no captive kings
Our eagle spreads her wings,
Or whets her beak;
Nor, o'er the battle-plain,
Where death-shot fell like rain,
Where lie in gore the slain,
Comes her shrill shriek.

For art which Thou hast given,
The tribute due to heaven
We come to pay;
Art, that, to deck her halls,
On air and vapour calls,
On winds and water-falls,
And all obey.

Art, that, from shore to shore,
Moves without sail or oar,
'Gainst wind and tides;
Or, high o'er earth and seas,
Sits in her car at ease,
And heavenward, on the breeze,
Triumphant rides.

Art, that, from mountain bars
Breaks, that her horseless cars
Self-moved may go;
And, without looking back,
Rolls on her iron track,
Where the wide cataract
Thunders below.

Art, that, on spool or reel,
Winds the smooth silk or reel
Spun by her hand:
Then, with her touch of fire,
Draws from the chord or wire,
Tones that an angel choir
Well might demand.

Art, that to thee, Most High!
Gladly doth sanctify
Her works and powers;
Lord, ere our tongues are still,
Our hands forget their skill,
To Thy most holy will,
Devote we ours.

Something more than Good Wages Wanted.—It may be said that the distressed condition of the laboring classes is owing to temporary causes, and that good times, by which is meant good wages, would remove a large part of the evil. I confess it does not appear to me that a good harvest or two, or ready customers on the other side of the Atlantic, or the home demand that may arise from exhausted stocks, or any other cause of that nature which is simply to end in better wages, would of itself do all, or even any considerable part, of what we should desire. I do not, for a moment, mean to depreciate the good effects that would flow from an increase of employment and better wages. But still I imagine that there are many cases in which, if you were, in ordinary times, to double the amount of wages, a very inadequate proportion of good would follow. You have to teach these poor people how to spend money: you have to give them the opportunities of doing so to advantage; you have to provide a system of education which shall not vary with every fluctuation of tide: and to adopt such methods of working as shall make the least possible disturbance of domestic ties. No sudden influx of money will do all these things. In fact, whatever part of this subject one takes up, one is perpetually brought back to the conviction of the necessity which exists for an earnest and practical application, on the part of the employing class, of thought and labor for the welfare of those whom they employ.—*The Claims of Labour.*

Professor Liebeg's New Manures.—We understand that this eminent chemist has taken out a patent for a variety of artificial manures suited to all the principal crops which are grown in this country. Nothing is yet publicly known of their composition or properties, but the experiments tried with them in private have fully satisfied the learned professor, and the eminent capitalists who are connected with him, of their value in cultivation, and have induced them to apply for a patent to protect the invention. This patent was sealed last week, and we understand that the manures will be brought before the public immediately. Among the capitalists who are associated with Professor Liebeg in bringing forward these important discoveries, is Mr. Muspratt, of this town.—*Liverpool Times.*

The Four Children.—A most interesting ceremony took place in the Free Church, Anstruther, on the forenoon of Sunday last, namely, the baptizing of Mrs. Spence's four children, which our readers will recollect were all born within a few minutes of each other some two months ago. The parties present on this occasion were about 1000. The children are continuing in excellent health, and growing rapidly.—*Fife Herald.*

An Editor.—A Scotch writer, who has had some experience to qualify him for speaking on the subject, says, "if you have not chosen a profession, do not become an editor. Beg—take the pack—keep lodgers—take up a school—set up a mangle—take in washing. For humanity's sake, and especially your own, do anything rather than become a newspaper editor."

☞ For sale at the Lowest Prices.
ALEXANDER YEATS.
Dock-Street, Dec. 24, 1844.

PROSPECTUS

of a Newspaper to be published weekly, at Saint John, N. B., to appear early in May, under the Patronage of the

Provincial Association of New-Brunswick,

—TO BE ENTITLED—

THE COLONIAL ADVOCATE,

OR,

The Farmers', Manufacturers' Mechanics' and Fishermans' Journal.

Price 10s. per annum, half in advance.

On commencing a new Paper it seems proper, as it is certainly customary, to lay before the Public the principles on which it is intended to be conducted.

First then in importance, is Religion. We will zealously advocate all generally acknowledged religious and moral doctrines, and principles, without suffering those controversies which divide the Church into sections, to be discussed in our columns. All opinions not distinctly heritical, or dangerous to the welfare of society, shall at our hands meet perfect toleration and respect.

Perfectly convinced as we ourselves are of the excellence of the mixed system of Government under which we have the happiness to live, and the parental and fostering care over us evinced, at all times, by the Imperial Administration, we will strenuously advocate devoted loyalty to the Crown, attachment to our unrivalled Constitution, and firm adherence to our connexion with the Mother Country; at the same time we profess ourselves favourable to such political principles, and institutions, as tend to foster patriotic feelings in the people, secure thier liberties, and stimulate their energies. We look upon all Government as instituted for the good of the whole community, and therefore to be conducted for the general benefit.

On the subject of Political Economy we are decidedly of opinion, that, if we desire to advance into general prosperity, a reasonable protection to our infant Agriculture, Manufactures, and Mechanical labour, has now become absolutely necessary—a protection not of one or two interests at the expence, and to the detriment of all others, but a general protection *against foreign competition* which, as we believe, will benefit society at large, and therefore all its parts. Conscientiously believing that the public mind has received a wrong bias in this respect, we mean independently, and perseveringly, to advocate the principles of a well weighed Protective system for this Colony.

All that regards our Shipping interest, so valuable to the Colony, and the Empire, will receive our best attention. Our Fisheries also, as they well deserve, will meet with our sympathy and care. A more enlightened management and inspection, in this interest, has, we hold, become imperative, if we have any desire to extend our exportation. A people who would throw off the fetters and degradation of poverty must, in our opinion, cherish, protect, and encourage, its productive population. It is by their exertions alone that all subsist, and by which the wealth of all is advanced. Every information valuable to those classes will be carefully collected. Our Public School system, and the interests of general education, will not be forgotten.

We mean to comment freely on the political conduct, and expressed opinions of all public men: but will abstain from meddling with their private character, or private affairs.

Such portions of European politics, particularly those of Great Britain, as we may think will interest our readers will be inserted, and occasionally commented upon, more especially when in any degree they bear on our own prosperity. For the benefit of distant subscribers, the state of the St. John Market will be regularly noted.

It will be our duty as well as interest in all other things to give satisfaction to a discerning Public and consequently to insert only such matter as will amuse, instruct, and elevate the public mind. We will endeavour ourselves to avoid all hurtful extremes, and pledge ourselves to admit nothing violent, or ungentlemanly into our pages.

We call, with confidence, on all coinciding with us in the views we have here expressed on the subject of *Protection to all our productive classes*, and who may approve of the principles we have thus laid down for our future guidance in other matters, to come forward, and patronise our undertaking. The attempt is new, in this Province at least, and should attract attention, and procure support: and the price of this paper is fixed so low as to be within the means of all, and to ensure its finding its way into every settlement in the Province.

To be Published by Mr. Christopher Smiler, Prince William Street, every Monday afternoon.

FLOUR & MEAL.

Landing ex schooner Splendid, from Philadelphia:

PURIFY THE BLOOD.

MOFFAT'S

VEGETABLE LIFE PILLS

AND

PHŒNIX BITTERS.

The high and envied celebrity which these pre-eminent Medicines have acquired for their invariable efficacy in all the diseases which they profess to cure, has rendered the usual practice of puffing not only unnecessary, but unworthy of them. They are known by their fruits; their good works testify for them, and they thrive not by the faith of the credulous.

IN ALL CASES OF

FEVER & AGUE.

For this scourge of the western country these medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent. Try them be satisfied, and be *cured.*

Fevers and Ague, Bilious & Liver Complaints, Dyspepsia, Rheumatism, Piles, Consumption, Worms, Scrofula.

Asthma.
Acute and Chronic Rheumatism.

WORMS, of all kinds, are effectually expelled by these medicines. Parents will do well to administer them whenever their existence is suspected.—Relief will be certain.

THE LIFE PILLS AND PHŒNIX BITTERS

PURIFY THE BLOOD

And thus remove all disease from the system.

A single trial will place the LIFE PILLS and PHŒNIX BITTERS beyond the reach of competition, in the estimation of every patient.

☞ Prepared and sold, wholesale and retail, by **DR. WILLIAM B. MOFFAT,** 335 Broadway, corner of Anthony street, New York.

The Genuine of these medicines are now put up in white wrappers and labels, together with a pamphlet, called "Moffat's Good Samaritan," containing the directions, &c., on which is a drawing of Broadway from Wall street to our Office, by which strangers visiting the city can very easily find us. The wrappers and Samaritans are copyrighted, therefore those who procure them with the white wrappers can be assured that they are genuine. Be careful, and do not buy those with *yellow* wrappers; but if you do, be satisfied that they come direct from us, or don't touch them.

A NATURAL REMEDY

Suited to our Constitutions, and competent to the cure of every curable disease, will be found in

WRIGHT'S INDIAN VEGETABLE PILLS

OF THE

NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil; and are therefore better adapted to our constitutions, than medicines concocted from foreign drugs however well they may be compounded; and as the Indian Vegetable Pills are founded upon the principle that the human body is in truth,

SUBJECT TO BUT ONE DISEASE.

viz: corrupt humors, and that the said medicine cures this disease on

NATURAL PRINCIPLES,

by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters: in like manner, if we wish to restore the body to health, we must cleanse it of impurity.

The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the

GRAND PURIFYING PRINCIPLE,

because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and natural manner, and while they every day

GIVE EASE AND PLEASURE,

disease of every name is radidly driven from the body.

CAUTION.

The citizens of New England are respectfully informed that in consequence of the great popularity which the above named Indian Vegetable Pills have earned by their astonishing goodness, a gang of counterfeiters are now industriously engaged in palming on the unsuspecting, a valueless and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

This is to inform the public that all genuine medicine has on the boxes

WRIGHT'S INDIAN VEGETABLE PILLS

(Indian Purgative.)

Of the North American College of Health

And also round the border of the label, will be found in small type, "*Entered according to Act of Congress in the year 1840, by* Wm. Wright, *in the Clerk's office, of the District Court, of the Eastern district of Pennsylvania.*"

It will further be observed that the printed directions for using the medicines, which accompany each box, are also entered according to Act of Congress and the same form will be found at the bottom of the first page.

The public will also remember, that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, VICE PRESIDENT

Of the North American College of Health,

and that pedlars are never in any case allowed to sell the genuine Medicine. All travelling agents will be provided with a certificate of agency as above described; and those who cannot show one will be known as base impostors.

☞ Persons in this city and vicinity will also be on their guard against purchasing medicine purporting to be the Indian Vegetable or Purgative Pills, of Apothecaries or Druggists, as they are not allowed to sell my medicine, and any composition which they may offer as such must of necessity be counterfeit and injurious; therefore never purchase of them.

☞ Agents for the sale of the above in Nova Scotia:—Halifax, John Whitmon Esq.; Amhurst, Mr. Arthur Masters; Digby, James Crowly; Kentville, Daniel Moore; Bridgetown, Thomas Spurr. New Brunswick:—St. Martins, Mr. Alex. Lockhart; Bend of Petitcodiac, James Beck; Fredericton, C. H. Jouett; Shediac, E. L. Smith; St. Andrews, Thos. Sime; Dorchester, Miss Jane McCardy; St. Stephens, Mr. Daniel Sullivan; Sackville, Richard Wilson; Cocagne, James Catter.

H. G. KINNEAR,

HEALTH FOR ALL!!

PATRONIZED BY THE GREATEST NOBLES IN THE LAND.

HOLLOWAY'S PILLS.

Copy of a Letter from His Grace the Duke of Portland to Mrs. Ann Melish, *(one of his Tenants,) whom His Grace was pleased to send as a patient to the Proprietor of this Extraordinary Medicine.*

Madam,

If Mr. Holloway will undertake to Cure you perfectly, when the Cure is complete; I will undertake to pay him £210s. You may shew him this letter
(Signed) SCOTT PORTLAND.

Welbeck Abbey, May 31, 1842.

Copy of a Letter from the Most Honorable the Marquis of Westminster, K. G.

Lord Westminster has just received Mr. Holloway's Medicine, for which he returns him his best thanks.

Eaton Hall, Cheshire, Feb. 12, 1842.

THIS INESTIMABLE MEDICINE being composed entirely of Medicinal Herbs, does not contain any mercurial, mineral, or deleterious substance Benign to the tender infant, or to the weakest constitution, prompt and sure in eradicating diseases from the most robust frame, it is perfectly harmless in its operations and effects, while it *searches out and removes Complaints of every character,* and at every stage, however long standing or deeply rooted.

OF THE THOU
