The Weekly Monitor.

WEDNESDAY, MAY 27th, 1891.

To Our Orchardists.

In our recently printed editorials having reference to our Experimental Farms we have called the attention of our farmers to the results of some of the experiments made during the two last years, which we felt would further their interests if the measures recommended should be adopted by them. Since their publication we have received "Balletin No. 10" from the Department of Agriculture which treats of the "apple scab" *(Fusicladium dendriticum)* "the spread and development of which has been so gradual during the past ten or fifteen years, that orchardists do not at the present time fully grasp the magnitude of the annual loss they suffer from this cause." This fungus pest is most favorably propagated in a cool, moist climate, like that of our province, in which, if not soon checked, it will be likely to prevail to an alarming extent.

THE CAUSE OF APPLE SCAB

is caused by a minute parasitic fungus, a low form of plant life, which, by living on the leaf and fruit of the apple, prevents assimilation in the former, and the development of the latter. By its action the tree is made less able to withstand the severe cold of the winter season, and is rendered more liable to injury from early and late frosts, says Prof. 'Scribner, whose words we have been quoting. May we not attribute to its debilitating influence on the vitality of the tree, the disease which results in the severance of the bark from the ball of the tree and which has destroyed so many fine trees in the orchards of the valley. Has a remedy been found for the ravages of this rapidly propagating fungus called apple scab? To this question we confidently give an answer in the affirmative, for repeated experiments made in the United States and Canada show that spraying the trees with a solution of *carbonate of copper* has met with universal and almost complete success. Prof. Tuft, of Michigan Agricultural Experiment Station, has succeeded in raising the percentage of apples free from scab from 12½% to 51%. With such a notable result our orchardists must be much pleased, but when they are told that an addition of Paris green in certain proportions to the mixture of carbonate of copper and water will form an insecticide in addition to the fungicide before named, and will on application kill injurious insects as well as apple scab. This

COMBINED FUNGICIDE AND INSECTICIDE

is the result of experiments at the Central Canadian Experimental Farm last year, and is recommended for use by our apple growers this year. The following is the formula recommended for trial:

Carbonate of Copper . .	1½ oz.
Paris green	1½ oz.
Water	25 gallons.

The Paris green may be omitted after the second spraying, as two sprayings of Paris green are generally considered a sufficient remedy for the codlin moth.

TO MAKE YOUR OWN CARBONATE.

We conclude with copying the method given in this valuable Bulletin for obtaining the chief substance used in the formula above given:

"As the precipitated form of carbonate of copper is not always obtainable from druggists, directions are herewith appended for the easy preparation of this material at a cost much less than the usual wholesale price.

In a vessel capable of holding two or three gallons, dissolve 1½ pounds of copper sulphate (blue vitriol) in 2 quarts of hot water. This will be entirely dissolved in 15 or 20 minutes using the crystalline form. In another vessel dissolve 1½ lbs. of sal soda (washing soda) also in 2 quarts of hot water. When completely dissolved pour the second solution into the first, stirring briskly. When effervescence has ceased fill the vessel with water and stir thoroughly; then allow it to stand 5 or 6 hours, when the sediment will have settled to the bottom. Pour off the clear liquid without disturbing the precipitate, fill with water again and stir as before; then allow it to stand until the sediment has settled again which will take place in a few hours. Pour the clear liquid off carefully as before and the residue is *carbonate of copper*. Using the above quantities of copper sulphate and sal soda there will be 12 ounces of copper carbonate.

HOW AND WHEN TO USE IT.

"When the carbonate is to be used in suspension, instead of adding the ammonia to the sediment, *add water* until the whole quantity is made up to six quarts. Stir this thoroughly until the sediment is completely suspended, that is mixed throughout, and pour the thick liquid into a suitable jar when it will be ready for use. Before using shake the contents thoroughly so that all the sediment may be evenly distributed in the water. Pour out a quart of the thick fluid and mix with 25 gallons of water." The importance of early spraying is strongly urged. The first application should be made before the blossoms open; the second soon after they have fallen; the third and fourth following in periods of about ten days or two weeks apart. Use nozzles which will distribute the liquid in a fine *misty spray*.

This Bulletin on apple scab, grape and gooseberry mildew should be in hands of every fruit-grower, who may have a copy gratis on application to the Department of Agriculture, Ottawa, Canada. We shall be happy to publish the results of all experiments made this season by any of our readers for the benefit of others.

Should Women Vote?

The question of the wisdom of giving women the same privileges of the franchise as men enjoy is fast becoming a matter for positive dealing. Whether we approve of this apparent precipitation of this question among us, or whether our feelings are so much opposed to a consideration of the subject that we do not wish to bother with it, or the exact reverse of these views, the woman suffrage problem is upon us. A legislature now seldom has a session but this matter is not, in some way, brought before it. A few years ago the single women of Nova Scotia, with the necessary property qualification, were given the right to vote at the municipal elections. A few weeks ago a bill was brought by a private member before the Nova Scotia parliament asking for women the right of voting at Provincial elections. About one-third of the members present voted in its favor. This was a large vote considering the fact that the agitation in behalf of the franchise for women is of very recent origin. At the present moment petitions are being circulated throughout the Dominion by the friends of the Women's Christian Temperance Union, asking for women a voice in the affairs of government.

Various views of much importance, *pro* and *con*, are presented in reference to this problem. On the one hand, it is argued that men would lose the exalted feelings which they now entertain for women if we gave them the privilege of coming down to mingle with the degradation of our party politics. On the other hand, it is maintained that if women stand so much above our party politics, it is about time these politics were lifted up, and the participation of a "purer and more exalted" element in them would be a general good, of which the women would share, and in the end gain very much. Very prominent arguments are brought from the Scriptures against the equal rights of women to figure in her behalf in public affairs, such as the advice by St. Paul. To this an answer is given by Washington Gladden, as applying to the whole matter of subordination as suggested in the Scriptures: "The system of slavery is recognized and regulated in the legislation of the Bible, just as polygamy and blood vengeance are recognized and regulated. The laws of Moses do not sanction either of these evils; they only set bounds to them, and secure their administration on certain principles of justice and humanity which will in due time put an end to them. And when these principles begin to root themselves in the convictions of the people, prophets arise announcing the higher law of perfect righteousness. * * * The fact is foretold (woman's subordination), that this should be her condition; the fulfilment of this prediction we have found in history. But it also distinctly declared that the subjection is part of the misery of the fall, and this is the aim of Christianity to remove."

Our 1st of July Celebration.

At the meeting held in Dennison's Hall on Friday evening last considerable enthusiasm was made manifest toward the celebration of the 1st of July, to be held in this town, the success of the one held here two years ago being a sufficient guarantee of the popularity of such a proceeding; and we now ask all those who did not attend to be in attendance at the meeting on Thursday evening, as well as all good citizens who take pride and pleasure in the credit and welfare of their place of residence, to assist and forward so laudable an undertaking. Many of the neighboring towns are also going to celebrate the day, but we do not hesitate to say that if *all* will join and take an interest in this matter, Bridgetown will lose none of its prestige as not only being the pioneer of many public improvements, such as water-works, electric light, etc., but the leader also in making the coming holiday a satisfactory and enjoyable one. The ladies of the Baptist church have given notice of their intention of holding a mammoth tea-meeting in aid of the handsome building now in course of construction; and if the ladies of other denominations will follow their example and thereby provide refreshments for the crowd that will surely patronize us, the gentlemen could be relieved of that care and devote their time to the amusements and sports that are to provide recreation and enjoyment. We will give due notice of what those will be, in the meantime hoping to see a general interest taken in this matter, which will bring to notice the great improvement and progress of our town in the last two years, and of which we are and ought to be most justly proud. Union is strength; so let us *all* unite in a strong effort to keep up the celebrity and enterprize of our go-a-head town by making this demonstration one long to be remembered.

Local and Other Matter.

—Mr. Cyrus Perkins has given up the hotel business in Annapolis, and gone farming in the vicinity of the town.

—WANTED, at John Lockett's, a large quantity Good Washed Wool. 7 4i

—Rev. Wm. Brown, (Methodist), of Windsor, has accepted an invitation to Aylesford Circuit.

—Good Butter wanted. Eggs have advanced this week. John Lockett. 7 2i

—The Methodist Camp-meeting at Berwick will open this year (D. V.) August 5th at 8.30 a.m. and continue one week.

FOR SALE.—A photograph car, built last August. Apply to G. B. Hall, South Farmington, N. S. tf

—Miss Lena Prentiss, of Lawrencetown, lately won a five dollar cash prize in *Our Homes* young folks' prize competition.

—Mens' and boys' working Shoes and Boots from 75c. up to $3.00 at John P. Murdoch's. tf

—It is reported that the late Bishop Binney's estate will be worth about a million dollars.

—A Cough which cannot be removed by the use of Dr. J. Woodbury's Horse Liniment may be considered incurable. Sold by all druggists. tf

—Mr. and Mrs. H. Ernest Troop of Bear River intend moving with Mr. P. M. Johnson, Mrs. Troop's father, to British Columbia.

—John Lockett's immense stock Felt and Straw Hats, Caps, Shirts (large assortment), Ties, Collars and Cuffs, is now complete. tf

—The weather for the past three days is all the farmer and gardener could wish for, and vegetation is now rapidly advancing.

—Mrs. Woodbury, of Kingston, has a fine assortment of Spring and Summer Millinery which she is selling at remarkably low prices. A first-class Milliner in attendance. 4 4i

—Several petitions were presented to the Dominion Parliament during the past week asking for the sawdust regulations. Mr. Mills, M. P. for Annapolis, it is said, presented the first one.

—The early closing movement comes into effect at Annapolis and Granville Ferry on June 1st. All the principal stores will close at six o'clock on Monday, Wednesday and Friday evenings.

—The town authorities intend rigidly enforcing the law in regard to cattle going at large. Owners of cows, therefore, who don't wish to pay $1.00 should keep their animals off the streets.

—The skin of Henry Welch, a patient at the Presbyterian Hospital, Montreal, has turned in six months from white to a color as dark as that of a mulatto. The case attracts great interest among physicians.

—Last Sunday, being the World's W. C. T. U. day, ministers in all parts of the world preached on subjects bearing on the reform for which these good women are working.

—Mr. John E. Woodworth, formerly editor of the *Western Chronicle*, has bought the Berwick interest of the Pictou *News*, and purposes soon publishing the Berwick *News* in its appropriate place. We wish Mr. Woodworth success in his venture.

FINE COLT.—Mr. H. I. Munroe's brood mare "Bell Hartford" dropped a fine male colt on the 18th inst. Being closely related to the celebrated Wilkes strain, the sire being "Ajalon," Mr. Munroe looks upon the youngster as a great prize.

—Hagai, the Indian living near Lawrencetown, is still successfully landing salmon from the pools of the river in that neighborhood. His catch up to the present time amounts to thirteen fish, averaging from eight to twelve pounds each.

—Mrs. Eliza Oakes, of New Albany, has, during the last few years, made several quilts as presents for her daughters, containing from ten to fifteen thousand pieces each. She has now one completed containing seventeen thousand eight hundred pieces.

—W. H. Miller wishes to call attention to his extensive stock of Timothy, Clover, and Garden Seeds, also the largest and cheapest line of Boots and Shoes ever brought to the place. Roller Blinds, Curtain Poles, Ready-Made Clothing, Dress Goods, etc. Millinery a specialty. 1i

—THE A. T.—Schooner *A. T.* (of Annapolis, N. S.) Roblee, which arrived at Bermuda a few weeks since in distress, on a voyage from St. Domingo, for New York, has been abandoned and was sold at auction on the 7th inst. Her hull was purchased by J. C. Watlington for £85.

—Ferd Rouillon's four-button Kid Gloves, very low, at John Lockett's. 2i

A LARGE LAMB.—James H. Parker, of Cleveland, Annapolis County, is the owner of a sheep which gave birth to a lamb that weighed eighteen pounds, and when four weeks old weighed forty pounds.

BEATS THE RECORD.—The new steamship Fuerst Bismark has just crossed from Southampton to New York in 6 days, 14 hours, 15 minutes, the best time ever made between these points.

—Just opened at John Lockett's, one case German fast and stainless Cotton Hose, all sizes. Extra value. 2i

—The New York S. S. Co. have completed arrangements to have their steamer *City of Columbia* add Yarmouth to her Canadian ports of call. This will make nine passenger steamers making regular trips to and from Yarmouth. See advertisement.

—One case ladies' Elastic Serge *Boots* in Commonsense; also Commonsense Kids, at John Lockett's. 1i

—The Duchess of Fife, grand daughter of the Queen gave birth to a daughter on Sunday morning, at the Duke's residence, Sheen House. The Queen wired her congratulations to the Duchess. Both mother and child are doing well.

—J. W. Beckwith wants any quantity of *Good Washed Wool*. 1i

—Professor J. L. Blauvelt has announced a repetition of Uncle Tom's Cabin in the new hall at Round Hill to-night, in aid of St. Paul's church. The ladies of the parish will also hold a tea-meeting, thus affording an opportunity for a pleasant drive and an enjoyable evening.

—And still another advance on Eggs this date by J. W. Beckwith. 1i

—There is an old proverb which says, "A cool May and a windy, makes a full barn," *i e.*, keeps vegetation back until all danger of frost is over, thus sparing the crops from harm. If coolness has anything to do with it, the farmers ought to have a full barn this year.

—One day last week a special official train, in charge of Conductor Herbert, made the run from Annapolis to Kentville in one hour and twenty-six minutes actual running time. As the distance is 60 miles, this makes the average speed forty-two miles an hour.

—It will be noticed among our Lawrencetown items that Capt. George E. Corbitt of Annapolis, will speak on temperance in that town on Thursday evening. Captain Corbitt has been a zealous laborer in the good cause for several months past, and his lecture will doubtless be very largely attended.

—Rumor has it that Olive Branch Division will give a concert in the evening of the 1st of July. Many of its members are in excellent practice, and the choice selection of new songs lately rendered at the social gatherings they have been holding, could be made into a most interesting and pleasing programme.

BIG LOAD.—Mr. Gilbert Sabeans, teamster for Messrs. Mack & Spinney, is driving a yoke of very strong oxen. Just how much they are capable of hauling, he is not prepared to say; but it is a common occurrence for his load to measure 2,500 feet. One day last week he brought from the mills 3,627 feet of green spruce.

—Councillor J. R. Elliott returned from Halifax on Saturday, having in charge two partly demented persons, who have been in the Insane Asylum there for some time. As the unfortunates are harmless, they can be comfortably cared for here at a much less cost than has to be paid for their maintenance in Halifax.

—An exchange says that owing to the stiff rates over the Windsor & Annapolis Railway in Nova Scotia, and the unwillingness of this road to co-operate with the Yarmouth S. S. Co., in reducing rates, arrangements are being made to charter a steamer in Boston for frequent excursions this summer direct to certain points on the Bay of Fundy.

—Mrs. David Dearness and daughter Maggie, of St. John, relatives of Mr. and Mrs. Thos. Dearness, arrived here on Monday. Miss Dearness has had the misfortune of losing her voice lately, and it is hoped that a visit in the valley and an absence from the stronger atmosphere of the Bay of Fundy may be the means of restoring it.

—In the death of Mrs. Miner Tupper, Bridgetown loses one of its aged and most respectable inhabitants, and a large family is left to mourn the loss of an affectionate and loving mother. The deceased was a member of the Methodist church, a true and good christian woman, and her demise will be deeply felt by many relatives and friends.

—The Queen's birthday was celebrated in a very quiet manner in this town on Monday. All the the principal stores were closed, and business of all kinds generally suspended. Quite a display of bunting was thrown to the breeze from various buildings. Many of our citizens paid Annapolis a visit, while the youth hied away to the resorts of the trout, some of whom returned with large catches.

—The Yarmouth S.S. Co.'s summer announcement appears among our new advertisements this week, and the attention of the travelling public is directed thereto. Beginning the first of June this justly popular line will make four trips per week each way between Yarmouth and Boston. They claim to have the fastest steamer of her size in the world, and expect to bring large numbers of Americans to our province this year.

—It is a duty our citizens owe to themselves, their neighbors, and the town at large to have their premises thoroughly renovated before the hot weather comes. Drains, cess-pools and vaults should be overhauled, and rubbish in the cellars and garrets cleaned out, and disinfects applied when the case demands it. Burn all combustible refuse; and end up by giving your fences and outhouses a liberal coat of whitewash.

—Few persons are aware of the fact that next year is one of very significant celebrations. It is the twenty-fifth anniversary of Canadian confederation, the fiftieth anniversary of the establishment of responsible government in the country, the one hundredth anniversary of the convocation of the first parliament of Upper and Lower Canada, the two hundredth and fiftieth anniversary of the founding of Montreal, and the fourth hundred anniversary of the discovery of America by Columbus.

—Pollard and Hall's company of comedians appeared at the Court House on Monday evening to a good house, and gave a satisfactory and pleasing performance. The singing of the Alabama quartette and the original specialties of Mr. Ed. Heffernan were greatly appreciated. The gentlemen comprising the quartette are singers of more than ordinary ability and culture, while the other members of the troupe well fill in their respective roles. They proceed to Kentville this a.m., and will perform in that go-a-head town this evening.

—H. A. P. Smith, of Digby, in company with Mr. Carmie O'Dell of Annapolis, paid Bridgetown a visit yesterday for the purpose of making enquiries and gathering information about our electric light system, the former gentleman thinking strongly of putting in a plant in the town of Digby. All the necessary information was cheerfully given by Mr. Salis, and if Mr. Smith gets anything like the support and encouragement required to run the light, Digby will be classed among the towns using the electric light in a very few weeks.

—The ringing of the bell in the Baptist Church yesterday morning at half past ten o'clock, signified that J. B. Chute & Son had successfully placed the large structure on its intended site. The moving occupied eight days, though the work would have been consummated somewhat sooner had it not been for the springy and soft nature of the ground on which it had to be turned. It is estimated that the edifice will weigh some 200 tons, and is strongly built of large timbers, which are now in a most perfect state of preservation. The usual Sabbath service of the denomination was held on Sunday last in the Methodist Church. Messrs. Chute & Son have some other structures to look after and place in different locations, among which are two buildings on the premises of Dr. G. Barnaby,—familiarly known as the Dr. deBlois home and office,—recently purchased by that gentleman, and who is now, together with his family, residing there.

CALL AND SEE.

J. E. SANCTON,

RUFFEE'S BLOCK, QUEEN STREET, BRIDGETOWN.

NEW ADVERTISEMENTS.

J. W. BECKWITH.

In my Christmas Card of Thanks to the public of this County I promised to use my best endeavors to meet the wishes of my numerous customers and the public generally by a largely increased importation of all the best lines of goods from English, Canadian and American manufacturers, and after four months of untiring perseverance and attention to the numerous and varied requirements of my patrons, I have the satisfaction of feeling that my efforts have met their approbation to the fullest extent; but, notwithstanding this, my trade has increased so rapidly during this brief period, that I have been obliged to repeat orders in many lines, and which have been continually arriving to supplement those that are being so rapidly disposed of, 53 bales and 104 cases of Dry Goods having been imported since January 1st this year.

Dress Goods.

The Dress Goods and Mantle Cloth Department comprises all the latest Novelties of the season, among which will be found the Stanley Suitings of this spring's manufacture; also, Mourning Goods in great variety.

Union, All-Wool, and Silk Warps, all double width, and in prices from 25 cents and upwards.

Flannelettes.

Fifty pieces of Flannelettes, in great variety of patterns, and extra value.

Sunshades.

In Sunshades I have the largest and best assortment and best values ever imported to this market.

Carpets.

My Carpet Department is replete with the newest styles, as having sold more Carpets this than any previous year, I have been obliged to repeat my orders so as to keep my stock up to the increasing demand. I have 200 ends, from 1 to 2 yards long, which are marked down to half price.

HATS, CAPS, BOOTS & SHOES.

The largest stock and best assortment of Hats and Caps, Boots and Shoes, in all the latest English, American, and Canadian styles.

I beg to invite an inspection of my Hard and Soft Felt Hats at $1.00, the style of which will be found equal to those costing $2.00 to $2.50.

Also, my Men's $1.25, $1.50, and $2.00 Boots, the sales of which is a sufficient guarantee of the satisfaction they are giving.

Clothing.

My latest styles of Ready-made Clothing are pronounced equal in fit to the best custom-made, and my $4.50 and $7.00 Suits are giving universal satisfaction. I have already secured a second importation this season.

Kid Gloves.

Kid Gloves in all prices. In this line, I can recommend with confidence, my dollar glove, which is taken in preference to the well-known Josephine, and which has given entire satisfaction for some time past.

LACE CURTAINS.

For extent of stock and variety of patterns and price my present assortment far exceeds any of my former importations, and are unsurpassed in the market.

Corsets.

YATISI TRADE MARK THIS EASY CORSET

All the leading makes and styles in Corsets, amongst which I would call special attention to the

YATISI and WATCH SPRING,

TOGETHER WITH THE

E. T. Long Waist, Exquisite, Agava and Crompton's Coraline.

Also, the Hygene Waists for Boys or Girls from four to six years, Misses' from seven to twelve years, and twelve to seventeen years and ladies.

Since the opening of my new Millinery establishment, under the efficient management of Miss M. E. Miller, the amount of patronage accorded it has so far exceeded the expectations indulged in at the onset that I cannot but express my sincere thanks for the appreciation of my endeavors to please by all who have paid that department a visit. The satisfaction so frequently expressed at the taste displayed in the trimming department affords us an amount of pleasure and gives promise of a largely increased demand.

J. W. BECKWITH.

The Celebrated Trotting Stallion

ALLRIGHT

will be at

JOHN ROSS' STABLE
